Item 4 Summary of Material Change

The Company announced the appointment of Dr. Paul Elgin Walker to its Board of Directors.

Item 5 Full Description of Material Change

5.1 Full Description of Material Change

The Company is pleased to announce the appointment of Dr. Paul Elgin Walker to its Board of Directors. Dr. Walker is a professional economist who was educated in South Africa and the United Kingdom, where he received his doctorate in economics at the University of Nottingham in 1998.

With over 20 years of diverse experience in the analysis of metals markets, he ran the world’s leading precious metals consultancy, GFMS, for over 12 years until its sale to Thomson Reuters in 2011, at which time he became Global Head of Precious Metals for the multinational mass media and information firm. The consultancy’s core publication is the prestigious annual Gold Survey which began in 1967. More recently, Dr. Walker was instrumental in developing LME Precious, a joint venture between the London Metal Exchange (LME), the World Gold Council and a number of banks including Goldman Sachs, Société Générale and Morgan Stanley. This new precious metals trading platform evolved from what Dr. Walker describes as a “radical rethink of how to make the market work in the 21st century in light of regulatory and cost pressures.”

Dr. Walker has made regular appearances on major global TV networks including CNN, BBC, CNBC and Bloomberg in addition to being a featured speaker at key international conferences.
