***About GreenPower Motor Company Inc.***

GreenPower designs, builds and distributes a full suite of high-floor and low-floor vehicles, including transit buses, school buses, shuttles, a cargo van and a double decker. GreenPower employs a clean-sheet design to manufacture all-electric buses that are purpose built to be battery powered with zero emissions. GreenPower integrates global suppliers for key components, such as Siemens or TM4 for the drive motors, Knorr for the brakes, ZF for the axles and Parker for the dash and control systems. This OEM platform allows GreenPower to meet the specifications of various operators while providing standard parts for ease of maintenance and accessibility for warranty requirements.
