NEWS RELEASE

BLUE RIVER RESOURCES LTD. ANNOUNCES LOAN AGREEMENT AND PRIVATE PLACEMENT

June 12, 2015 - VANCOUVER, Canada – Blue River Resources Ltd. (the "Company") **(BXR: TSX.V)** is pleased to announce that it has entered into an agreement with Discovery Consultants, an arm's length lender, (the "Lender"), whereby the Lender has lent to the Company the sum of $30,000 for a two-year term. The loan will bear interest at a rate of 10% per annum payable on the unpaid principal amount at the time of repayment of the principal.

The Company may prepay the entire principal sum and any interest accrued thereon, or any portion thereof, at any time without penalty or restriction. In conjunction with the loan, the Company is granting to the Lender a bonus of 600,000 non-transferable warrants upon advance of the loan, whereby each warrant shall entitle the Lender with the right to purchase one common share in the capital of the Company at a price of $0.05 per share for a period of two years from the date of issuance.

The bonus warrants and any shares that may be issued upon exercise of the warrants will be subject to a four-month hold period from the date of issuance. The loan and the issuance of the bonus warrants are subject to TSX Venture Exchange acceptance for filing.

PRIVATE PLACEMENT

The Company announces that it will sell, on a private placement basis, up to 7,000,000 units (a "**Unit**") at a price of $0.05 per Unit, for gross aggregate proceeds of $350,000.

Each Unit will be comprised of one common share (a "**Share**") of the Company and one share purchase warrant (a "**Warrant**") of the Company; and each full Warrant will entitle the holder to purchase an additional Share (a "**Warrant Share**") of the Company for a period of five (5) years following the date of issuance of the Warrants at a price of $0.06 per Warrant Share.

It is anticipated that 1,860,000 Units will be purchased by Griffin Jones, President and director of the Company, under the private placement.

The Company reserves the right to pay finder's fees to its agents with respect to the private placement in accordance with and subject to TSXV policies.

The Shares and Warrants issued pursuant to the Private Placement and any Warrant Shares issued on exercise of the Warrants are subject to 4-month resale restrictions.

The proceeds raised from the loan and private placement will be used for the Mazama Copper Project and for general corporate purposes.

MAZAMA COPPER DEPOSIT

In 1975, Quintana Minerals Corp. calculated an historical resource of 149 million tons grading 0.36% copper and 0.01% molybdenum on the Mazama deposit, or approximately 1 billion pounds of copper. Although historic adits that were explored for gold mineralization exist on the property, no assaying for gold was conducted.

Blue River has completed geological mapping and sampling, a Lidar survey, topographic mapping and located historic drill holes, in advance of the 2015 drill program.

The Mazama Copper Deposit is located in Okanogan County, WA, approximately 25 km south of the Canadian / US border in North Central Washington, 143 km northeast of Seattle. It is situated on the southern extension of the Quesnel Trough copper belt, one of the most prolific copper producing areas in North America.

A qualified person has not done sufficient work to classify the historical estimate as current mineral resources. Blue River is not treating the historical estimate as current mineral resources.

ON BEHALF OF THE BOARD
BLUE RIVER RESOURCES LTD.
