AURANIA REPORTS THAT FIELD WORK IS UNDERWAY AT ITS LOST CITIES PROJECT IN ECUADOR

Toronto, Ontario, June 24, 2020 – Aurania Resources Ltd. (TSXV: ARU) (OTCQB: AUIAF) (Frankfurt: 20Q) ("Aurania" or the "Company") is pleased to report that field teams are operational at its Lost Cities – Cutucu Project ("Project") in southeastern Ecuador after the partial lifting of COVID-related restrictions.

Dr. Keith Barron, Chairman and CEO of Aurania commented, "I would like to thank our staff for implementing a comprehensive back-to-work protocol, and for the close cooperation that there's been with the communities in the Project area, the office of the Governor of Morona Santiago Province, and the Ministry of Health. Our aim is to get our full complement back into the field as soon as possible while protecting the health of the communities with which we work and our staff."

"Reopening of the field is not yet 100%. The decision to re-open lies with the mayors of the various Cantons overlapping our concessions, and at this moment only 50% of our normal field personnel are permitted - in the open Cantons - legally to work. In addition, social distancing practices must be in force. Ecuador still remains in the grip of the COVID-19 pandemic, and the situation is somewhat volatile."

Aurania's exploration teams re-entered the field in mid-June to commence mapping and soil sampling on a number of priority targets for gold-silver, copper-gold and copper. The Company has also requested quotes from several geophysical service companies for a heliborne Mobile MT survey as a means of identifying sulphides related to porphyries and epithermal gold-silver systems, as well as resistive zones that may represent silica-enriched areas linked with epithermals.

About Aurania
Aurania is a mineral exploration company engaged in the identification, evaluation, acquisition and exploration of mineral property interests, with a focus on precious metals and copper in South America. Its flagship asset, The Lost Cities – Cutucu Project, is located in the Jurassic Metallogenic Belt in the eastern foothills of the Andes mountain range of southeastern Ecuador.

Forward-Looking Statements

This news release may contain forward-looking information that involves substantial known and unknown risks and uncertainties, most of which are beyond the control of Aurania. Forward-looking statements include estimates and statements that describe Aurania's future plans, objectives or goals, including words to the effect that Aurania or its management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to Aurania, Aurania provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, Aurania's objectives, goals or future plans, statements, exploration results, potential mineralization, the corporation's portfolio, treasury, management team and enhanced capital markets profile, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, regulatory, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in Aurania's public documents filed on SEDAR. Although Aurania believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. Aurania disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
