TeraMach Achieves Cisco Gold Partner Certification in Canada

Ottawa, Ontario — April 1, 2019 —TeraMach Technologies Inc. (“TeraMach”), a Pivot Technology Solutions, Inc. (“Pivot”) Company, is pleased to announce that it has achieved Cisco Gold Partner certification for Canada.

“The entire TeraMach team is thrilled to be recognized as a Cisco Gold Partner in Canada,” said Hunter Li, TeraMach President and CEO. “This certification highlights our commitment to implementing and supporting Cisco solutions for our customers as well as our high level of knowledge and expertise. I am very proud of our relationship with Cisco, their continued recognition of our investments, and the growth we drive together in the marketplace. TeraMach continues to deliver customer successes at an unprecedented pace due to our dedicated next-gen solutions and services.”

Cisco Gold Certified Partners provide broad expertise across enterprise networks, collaboration, data center, and IP next-generation networks. Gold Partners also demonstrate a measurably high level of customer satisfaction. Additionally, TeraMach offers a comprehensive, world-class contact center solution suite featuring technology from Cisco and its ecosystem partners. TeraMach delivers these solutions with full lifecycle services — including assessment, design, engineering, implementation and support.

North American Gold Certified

"Today's announcement means that Pivot is now Cisco Gold certified across North America," said Scott Ward, Executive Vice President Alliances for Pivot Technology Solutions. "This development reflects our strong partnership with Cisco wherever our clients do business with us in the U.S. and Canada."

About TeraMach Technologies Inc.
