

CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEARS ENDED SEPTEMBER 30, 2024 AND 2023
(Expressed in Canadian dollars)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Edison Lithium Corp.

Opinion

We have audited the accompanying consolidated financial statements of Edison Lithium Corp. (the "Company"), which comprise the consolidated statement of financial position as of September 30, 2024, and the consolidated statements of operations and comprehensive loss, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as of September 30, 2024, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which describe the events and conditions that indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matter

The key audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments.

knowing you.

Key Audit Matter (continued)

The communication of the key audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the key audit matter below providing a separate opinion on the key audit matter or on the accounts or disclosures to which it relates.

Impairment assessment of exploration and evaluation assets

Key Audit Matter Description

The carrying value of the Company's exploration and evaluation assets amounted to \$6.2 million as at September 30, 2024 (\$5.9 million as at September 30, 2023). At each reporting period-end, management applies judgment in assessing whether there are any indicators of impairment relating to its exploration and evaluation assets. If there are indicators of impairment, the recoverable amount of the related exploration and evaluation asset is estimated in order to determine the extent of any impairment.

Indicators of impairment may include: (i) the period during which the Company has the right to explore in the specific area has expired during the year or will expire in the near future and is not expected to be renewed, (ii) substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned, (iii) exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Company has decided to discontinue such activities in the specific area; and (iv) sufficient data exists to indicate that the carrying amount of the resource property is unlikely to be recovered in full from successful development or by sale.

We considered this a key audit matter due to (i) the significance of the exploration and evaluation assets balance, and (ii) the management judgment in assessing the indicators of impairment related to its exploration and evaluation assets, which have resulted in a high degree of subjectivity in performing procedures related to the judgment applied by management.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures included, amongst others, the following:

- Performed a walkthrough to understand the Company's process related to assessment of impairment and evaluating the design of related controls.
- Tested assumptions and facts in management's impairment indicators assessment for reasonableness, including the completeness of factors that could be considered as indicators of impairment.

Other Matter – Comparative information

The financial statements for the year ended September 30, 2023 were audited by another auditor who expressed an unmodified opinion on those financial statements on January 11, 2024.

Other Information

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion.
- Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements.

We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Akil Pervez.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Operations

Edison Lithium Corp. (the “Company”) was incorporated on November 8, 2009, under the *Business Corporations Act* (British Columbia). The Company’s primary business activity is mineral property exploration and development. The Company’s head office and registered office is located at 214 – 257 12th Street East, North Vancouver, BC, V7L 2J8, Canada and it maintains a Toronto office at 120 Carlton St., #219, Toronto, Ontario, M5A 4K2, Canada.

The Company’s common shares are listed for trading under the trading symbol “EDDY” on the TSX Venture Exchange and under the trading symbol “VV00” on the Frankfurt Stock Exchange. On July 29, 2021, the Company changed its name from Edison Cobalt Corp. to Edison Battery Metals Corp. On November 24, 2021, the Company changed its name to Edison Lithium Corp.

Spin-Out of Cobalt Assets

The Company continues to advance the proposed spinout of its cobalt assets in northeastern Ontario referred to as Kittson Cobalt Property (the “Spin-Out”) into a newly incorporated subsidiary Edison Cobalt Corp. (“SpinCo”).

The Spin-Out is being carried out by way of statutory plan of arrangement pursuant to the *Business Corporations Act* (British Columbia). Common shares of SpinCo (“SpinCo Shares”) will be distributed to shareholders of the Company on the basis of one SpinCo Share for every eight common shares held in the Company. If the Spin-Out is completed, the shareholders will own shares in both companies.

The proposed Spin-Out was approved by the Company’s shareholders at its Shareholders’ Meeting which took place on February 26, 2024, and is now subject to approvals from the British Columbia Supreme Court and from the TSX Venture Exchange (the “Exchange”). The Company intends to list the SpinCo shares on the Exchange and upon completion of the Spin-Out.

Timing of the Spin-Out and Private Placement will be based on prevailing market conditions but has now been initiated by way of filings towards completion of the Plan of Arrangement. The listing of Edison Cobalt’s shares on the Exchange has received preliminary approval by the Exchange, however, management and the Board are continuously evaluating the optimal timing and practicability of the proposed spin-out in light of the continuing difficult market conditions. The shareholders are cautioned that there can be no assurance that the Spin-Out will be completed on the terms described herein.

Sale of subsidiary Resource Ventures S.A.

On December 18, 2023, the Company entered a letter of intent (the “LOI”) with Meteor Energy, LLC (“Meteor”), an energy corporation based in Dallas, Texas, for the sale of 100% of the Company’s interest in its Argentina subsidiary, Resource Ventures S.A. (“ReVe”), in consideration of a purchase price USD\$5,000,000. Prior to the sale, the Company will have first rolled out and retained the Pipanaco claims and one of the LEXI claims to be retained in a new subsidiary. Pursuant to the LOI, the parties agreed to use commercially reasonable efforts to enter into a definitive agreement within 60 days to give effect to this transaction on terms and conditions acceptable to both parties. On February 23, 2024, the Company granted an extension to Meteor to March 31, 2024 for the completion of its due diligence and delivery of a Purchase and Sale Agreement (the “PSA”). On June 7, 2024, the negotiations with Meteor were terminated.

On September 4, 2024, the Company entered a non-binding letter of purchase (the “LOP”) with Mava Gasoil LLC (“Mava”) pursuant to which Mava would acquire 100% of the Company’s interest in its Argentina subsidiary, Resource Ventures S.A. (“ReVe”), in consideration of a purchase price of USD\$3,500,000. Prior to the sale, the Company will have first rolled out and retained the Pipanaco claims in a new subsidiary.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

The Company received a deposit of \$100,000 on December 27, 2024, and is currently engaged in pre-closing matters in order to complete the transaction.

Going Concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will have sufficient capital to fund the cost of its operations and realize the carrying value of assets and discharge liabilities in the normal course of operations. A different base of measurements may be appropriate if the Company is not expected to continue operations for the foreseeable future. As at September 30, 2024, the Company has not advanced its exploration properties to commercial production or identified mineral reserves. The ability of the Company to continue as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and/or generate funds from raising sufficient equity financing, issuing debt or securing related party advances to complete the acquisition and development of mineral property interests. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management anticipates that the Company will need to seek additional equity financing to continue with planned exploration programs and general operations for following years but is satisfied as to the adequacy of the Company's financial resources for the next 12 months.

These consolidated financial statements do not give effect to any adjustment that may be required should the Company be unable to continue as a going concern. These adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements were authorized for issuance by the Board of Directors of the Company on January 28, 2024.

Statement of compliance with International Reporting Standards

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

Basis of measurement

The consolidated financial statements of the Company have been prepared on an accrual basis except for cash flow information. In addition, these consolidated financial statements are based on historical costs, modified where applicable.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of Edison Lithium Corp. and its wholly owned subsidiaries. A subsidiary is an entity which the Company controls by having the power to govern the financial and operating policies. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. A subsidiary is fully consolidated from the date on which control is obtained by the Company and are deconsolidated from the date that control ceases.

The legal subsidiaries of the Company as of September 30, 2024, are as follows:

EDISON LITHIUM CORP.

Notes to the Consolidated Financial Statements For the years ended September 30, 2024 and 2023 (Expressed in Canadian dollars)

Name of Subsidiary	Place of Incorporation	Ownership Interest
10451754 Canada Inc.	Canada	100%
Edison Cobalt Corp.	Canada	100%
Resource Ventures S.A.	Argentina	100%
Edison Saskatchewan Resources Corp.	Canada	100%

All intercompany transactions, balances, income and expenses are eliminated upon consolidation. 10451754 Canada Inc. has no assets, liabilities or operations. Edison Cobalt Corp was incorporated on April 28, 2023, for future use in connection with the Spin-Out. Edison Saskatchewan Resources Corp. was incorporated on October 10, 2023, for future use in connection with the recently acquired alkali properties.

Functional and presentation currency

The consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the Company and its subsidiaries.

Significant accounting judgements

The preparation of these consolidated financial statements in accordance with IFRS requires the Company to make judgements, apart from those involving estimates, in applying accounting policies. The most significant judgments applicable to the Company's consolidated financial statements include:

- the classification of expenditures as exploration and evaluation expenditures or operating expenses;
- the classification of discontinued operations;
- the assessment of the Company's ability to continue as a going concern; and
- whether there are indicators of impairment of the Company's exploration and evaluation assets.

Significant accounting estimates and assumptions

The preparation of the consolidated financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted prospectively in the period in which the estimates are revised. Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include any impairment charges against the Company's exploration and evaluation assets, the fair value of share-based compensation and financial instruments and the recoverability measurement of deferred tax assets.

Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise of cash at financial institutions, and short-term deposits with an original maturity of three months or less, which are readily convertible into a known amount of cash. The Company's cash and cash equivalents are invested with major financial institutions in business accounts and are available on demand by the Company for its programs.

Short-term Investments

The Company may invest surplus cash into Guaranteed Investment Certificates or similar near cash instruments to maximize its interest earnings.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

Exploration and evaluation assets

Pre-exploration costs

Exploration costs incurred before the Company has obtained the legal rights to explore an area are recognized in profit or loss as investigation costs.

Exploration and evaluation expenditures

Once the legal right to exploring a property has been acquired, exploration and evaluation expenditures including the costs of acquiring licenses, costs associated with exploration and evaluation activities, and the fair value (at acquisition date) of exploration and evaluation assets acquired in a business combination are capitalized by property.

Government tax credits received are recorded as a reduction to the cumulative costs incurred and capitalized on the related property.

Impairment of exploration and evaluation assets

The carrying amount of the Company's exploration and evaluation assets is reviewed at each reporting date to determine whether any following indications of impairment are present:

- The period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- Substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Company has decided to discontinue such activities in the specific area; or
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. An impairment loss is recognized whenever the carrying amount of the asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in profit or loss. The recoverable amount of exploration and evaluation assets is the greater of an asset's fair value less cost to sell and value in use.

An impairment loss is only reversed if there is an indication that the impairment loss may no longer exist and there has been a charge in the estimates used to determine the recoverable amount, however, not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property, plant and equipment.

Recoverability of the carrying amount of any exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, sale of the respective areas of interest.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

Loss per share

The Company presents basic and diluted loss per share data for its common shares. Basic loss per share is calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share is computed similarly to basic loss per share except that the weighted average shares outstanding are increased to include additional shares for the assumed exercise of stock options and warrants, if dilutive.

For both periods presented, outstanding stock options and warrants have anti-dilutive effect on loss per share. Accordingly, diluted loss per share equals basic loss per share.

Share capital

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's common shares, share warrants, and flow-through shares are classified as equity instruments. When the Company issues units as part of a private placement, consisting of both common shares and common share purchase warrants, the fair value of the shares is determined using the market price, and the residual value is assigned to the warrants. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the share proceeds.

Financial instruments

The following table shows the classification under IFRS 9 – *Financial*

Instruments: Financial asset/liability	Classification
Cash and cash equivalents	FVTPL
Short-term investments	FVTPL
Amount receivable	Amortized cost
Accounts payables and accrued liabilities	Amortized cost
Due to related parties	Amortized cost

Financial assets

The Company determines the classification of its financial assets at initial recognition. Measurement and classification of financial assets is dependent on the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset. Financial assets are derecognized when they mature or are sold, and substantially all the risks and rewards of ownership have been transferred.

Financial assets at FVTPL

Financial assets carried at Fair Value Through Profit and Loss ("FVTPL") are initially recorded at fair value, and transaction costs are expensed in the statements of loss and comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial asset held at FVTPL are included in profit and loss in the period in which they arise. Derivatives are also categorized as FVTPL unless they are designated specifically as hedges.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

Financial assets at FVTOCI

Investments in equity instruments at Fair Value Through Other Comprehensive Income ("FVTOCI") are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive income. Gains or losses on financial assets classified as FVTOCI remain within accumulated other comprehensive income following the derecognition of the investment.

Financial assets at amortized cost

Financial assets at amortized cost are initially recognized at fair value and subsequently carried at amortized cost less any impairment. They are classified as current assets or non-current assets based on their maturity date. Gains and losses on derecognition of financial assets classified as at amortized cost are recognized in profit or loss.

Financial liabilities

Financial liabilities are recognized initially at fair value, net of transaction costs incurred on the transaction date at which the Company becomes a party to the contractual provisions of the instruments. Financial liabilities are subsequently measured at amortized cost. Any difference between the amounts originally received, net of transaction costs, and the redemption value is recognized in profit and loss over the period to maturity using the effective interest method. The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired.

Impairment of financial assets

The Company is required to recognize expected credit losses when financial instruments are initially recognized and to update the amount of expected credit losses recognized at each reporting date to reflect changes in the credit risk of the financial instruments.

The Company recognizes loss allowances for expected credit losses on financial assets measured at amortized cost. Loss allowances for amount receivable are measured at an amount equal to lifetime expected credit losses if the amount is not considered fully recoverable. A financial asset carried at amortized cost is considered credit-impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate.

Losses are recognized in the statements of loss and comprehensive loss and reflected in an allowance account against amount receivable. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through the statements of loss and comprehensive loss.

Income taxes

Current income taxes

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date, in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognized directly in other comprehensive income or equity is

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

recognized in other comprehensive income or equity and not in profit or loss. Management periodically evaluates the positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. However, current tax expense of \$199,616 has been recognized in profit and loss account relating to the gain on sale of lexi 30 property at the rate of 35% applicable to capital gains.

Deferred income taxes

Deferred income tax is provided using the asset and liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at the end of each reporting period and recognized only to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. The Company presently has no such expectation of probability and, therefore, no deferred tax asset is recognized.

Deferred income tax assets and liabilities would be measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) enacted or substantively enacted at the end of each reporting period.

Deferred income tax assets and deferred income tax liabilities would be offset, if a legally enforceable right existed to set off current tax liabilities and assets and they related to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intended to settle current tax liabilities and assets on a net basis or their tax assets and liabilities would be realized simultaneously.

Flow-through shares

The Company may from time to time issue flow-through common shares to finance its exploration program. Pursuant to the terms of the flow-through share agreements, these shares transfer the tax deductibility of qualifying resource expenditures to investors. On the issuance of flow-through shares, any premium received in excess of the market price of the Company's common shares is initially recorded as a liability ("flow-through share premium liability"). Provided that the Company has renounced the related expenditures, or that there is a reasonable expectation that it will do so, the flow-through share liability is reduced on a *pro-rata* basis as the expenditures are incurred. If such expenditures are capitalized, a deferred tax liability is recognized. To the extent that the Company has suitable unrecognized deductible temporary differences, an offsetting recovery of deferred income taxes would be recorded.

Proceeds received from the issuance of flow-through shares are restricted and are to be used only for Canadian resources property exploration expenditures. The Company may also be subject to a Part XII.6 tax on flow-through proceeds renounced under the Look-back Rule, in accordance with Government of Canada flow-through regulations. When applicable, this tax is accrued as a financial expense until paid.

Share-based payments

Share-based payments to employees are measured at the fair value of the stock options issued and recognized over the vesting period. Share-based payments to non-employees are measured at the fair value of goods and services received by the Company or the fair value of the stock options granted, if the fair value of the goods and services cannot be reliably estimated. The fair value of the stock options is determined using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the stock options are granted. At each reporting date, the amount recognized as an expense is adjusted to reflect the actual number of stock options that are expected to vest.

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

Restoration and environmental obligations

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations associated with the retirement of long-term assets, when those obligations result from the acquisition, construction, development or normal operation of the assets. The net present value of future restoration cost estimates associated with the obligations is capitalized to the related mining assets along with the corresponding increase in the restoration provision in the period incurred. The restoration asset would be depreciated on the same basis as the related mining assets.

The Company's estimates of restoration costs would change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. The estimates are reviewed annually for any changes.

Changes in the net present value, excluding changes in the estimates of reclamation costs, are charged to profit or loss in the period in which they occurred.

The Company has not presently recognized any restoration or environmental obligations as none is presently required.

Discontinued Operations

In accordance with IFRS 5, the Company evaluates if there are discontinued operations, whether either a separate major line of business or geographical area of operations. If this occurs, the Company will present separately on the face of the statements of financial position the assets and liabilities included within the disposal group classified as held for sale, as well as present separately on the statements of profit and loss the income and/or expenses from discontinued operations net of tax.

Recent accounting pronouncement

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for future accounting periods. They are either not applicable or are not expected to have a significant impact on the consolidated financial statements.

3. CASH AND CASH EQUIVALENTS

As at September 30, 2024, cash and cash equivalents consist of cash of \$181,315 (2023 - \$79,340) held at financial institutions, Guaranteed Investment Certificate's ("GIC's") of \$415,000 (2023 - \$900,000), and a Dual Currency Instrument ("DCI") held with the Royal Bank of Canada of \$403,416 (2023 - Nil). The purpose of the DCI is to earn a greater short term return on USD balances by combining a short term GIC with the writing of an option to provide the counterparty a call on those USD. The DCI was not classified as a derivative instrument as the Company did not designate the instrument as a cash flow hedge.. The DCI was successfully concluded on November 25, 2024 with the conversion of the USD into CAD at the contracted rate.

4. SHORT-TERM INVESTMENT

Short-term investment was drawn down to Nil in the current year (2023 - \$496,014) and consisted of non-redeemable GIC's with maturities in excess of 90 days.

5. EXPLORATION AND EVALUATION ASSETS

Kittson Property, Northeastern Ontario

The Company holds 100% interest in the Lake Kittson Cobalt Property ("Kittson Property"), located in the Kittson and Coleman Townships of Larder Lake Mining Division in Northeastern Ontario. The Kittson Property currently consists of 160 unpatented mining claims, and a single patented claim. This property is the subject of the proposed spin-out (Note 1).

During the year ended September 30, 2024, the Company spent \$2,013 in exploration costs associated with the Kittson Property (September 30, 2023 - \$18,579).

Lexi Property, Argentina

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

The Company acquired 100% interest in the Lexi Property through the acquisition of ReVe completed on July 2, 2021. The Lexi Property is located in the Province of Catamarca, Argentina and is comprised of 26 mining claims.

On January 10, 2023, the Company accepted an offer for the sale of one of its claims in the Lexi Property. On February 10, 2023, the Company received a non-refundable deposit of \$66,939 (US\$50,000) related to this sale, which was recorded as a reduction of acquisition costs associated with the project. The agreement expired on November 30, 2023.

In August, 2023, the Company accepted an offer to sell an additional mineral claim associated with the Lexi properties for US\$425,000 cash consideration. On August 15, 2023, the Company received a non-refundable deposit of \$67,300 (US\$50,000) related to this sale, which was recorded as a reduction of acquisition costs associated with the project. The remaining US\$375,000 which was expected to be paid within 12 months contingent on pre closing conditions, including satisfactory due diligence by the purchaser, was received on July 31, 2024. As a result, a gain on the sale of the property, net of tax, was recognized in the amount of \$317,791.

During the year ended September 30, 2024, the Company spent \$102,601 in acquisition costs associated with the Lexi Property (September 30, 2023 - \$75,122).

The Lexi Property has now been classified as an Asset held for sale pursuant to the non binding LOP signed on September 4, 2024 (refer to Note 12).

Pinac Property, Argentina

The Company acquired 100% interest in the Pinac Property through the acquisition of ReVe completed on July 2, 2021. The Pinac Property is located in the Province of Catamarca, Argentina and is comprised of 11 mining claims. During the year ended September 30, 2023, the Company recognized an impairment charge of \$123,380.

The PINAC property is expected to be transferred into a new Argentinian subsidiary to be wholly owned by the Company prior to the Closing of the ReVe sale, as discussed above. It is expected these assets will be sold.

Alkali Dispositions, Saskatchewan

In July, 2023, the Company entered into an asset purchase agreement with Globex Mining Enterprises Inc. to acquire alkali dispositions in the province of Saskatchewan for a cash payment of CAD\$35,000 which has been paid, and the issuance of 156,250 shares, which has been completed.

In April, 2024, the Company entered into another asset purchase agreement with Globex Mining Enterprises Inc. to acquire additional alkali dispositions in the province of Saskatchewan for a cash payment of \$200,000 which has been paid, and the issuance of 416,667 common shares at a price of \$0.12, totaling \$250,000.

During the year ended September 30, 2024, the Company spent \$263,028 in acquisition costs and exploration costs with the Alkali Dispositions (September 30, 2023 - \$63,125).

6. SHARE CAPITAL

Authorized: Unlimited common shares without par value

Issued and Outstanding – Common shares:

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

At September 30, 2024, the Company has 18,970,583 common shares issued and outstanding (2023 – 14,553,916 common shares).

On August 1, 2023, the Company underwent an eight-for-one share consolidation of its issued and outstanding common shares. The share consolidation was approved by the Board of Directors on July 4, 2023. Prior to the share consolidation, the number of issued and outstanding common shares was 115,181,311. Following the consolidation, the number of issued and outstanding common shares reduced to 14,397,666. This consolidation has been retrospectively applied to all periods presented in these financial statements. The impact of the share consolidation has been reflected in the loss per share calculations. All share and per share data for all periods presented have been adjusted to reflect the consolidation.

During the year ended September 30, 2023, the Company issued 156,250 common shares with a fair value of \$28,125 for the acquisition of the Alkali Disposition property, refer to Note 5 for details.

During the year ended September 30, 2024, the Company:

On Oct 12, 2023, the Company closed a private placement offering of 4,000,000 units at a price of \$0.12 per unit (the “Unit”). Each Unit consists of one common share of the Company and one share purchase warrant (the “Warrant”), whereby each Warrant is exercisable into one common share of the Company at an exercise price of \$0.20 per Warrant for a period of twenty-four months from the date of issuance.

Agent’s cash commission was \$9,600 and agent warrants 80,000 each exercisable into a common share in the capital of the Company at a price of \$0.20 for a period of twenty-four months from the date of issuance. Finder fee of \$32,736 and 272,800 finder warrants each exercisable into a common share in the capital of the Company at a price of \$0.20 for a period of twenty-four months from the date of issuance were also issued.

On May 1, 2024, the Company issued 416,667 common shares at a price of \$0.12 per share for a total fair value of \$50,000 for the acquisition of the Alkali Disposition property. Refer to Note 5 for details.

Stock options

Under the Company’s stock option plan, in order to align the interests of Directors, Officers and other grantees with the interests of the Company and its shareholders, the Company may grant options to employees, consultants and directors up to 10% of the issued and outstanding share capital at the date of grant. The exercise price of the options granted will be no less than the allowable discounted market price of the Company’s shares and the maximum term of the options will be ten years, but usually will be limited to no more than 5 years.

For the year ended September 30, 2024:

On October 31, 2023, the Company granted 50,000 stock options to a consultant of the Company. Each option entitles the holder to purchase one common share for a price of \$0.225 per share and expires on October 31, 2028.

In connection with this grant, the Company determined the fair value of the share-based compensation to be \$10,000 using the Black Scholes Option Pricing Model with the following assumptions: share price - \$0.20; exercise price - \$0.225; expected life – 5 years; expected volatility – 162.2%; risk free interest rate – 4.23%, and dividend – nil.

On February 26, 2024, 915,000 stock options vested as per the stock options issuance of September 7, 2023 (refer below).

For the year ended September 30, 2023:

EDISON LITHIUM CORP.

Notes to the Consolidated Financial Statements For the years ended September 30, 2024 and 2023 (Expressed in Canadian dollars)

In August, 2023, the Company cancelled 975,000 stock options unexercised.

On September 7, 2023, the Company granted 1,200,000 stock options to directors, officers, and consultants of the Company. Each option entitles the holders to purchase one common share for a price of \$0.20 per share and expires on September 7, 2028. 285,000 stock options vested immediately upon grant and 915,000 stock options vested on February 26, 2024, upon approval at the Company's annual general meeting ("AGM").

In connection with this grant, the Company determined the fair value of the stock options to be \$72,585 using the Black Scholes option pricing model with the following assumptions: share price - \$0.18; exercise price - \$0.20; expected life – 5 years; expected volatility – 166%; risk free interest rate – 3.99%, and dividend - nil.

The continuity of the Company's stock options is as follows:

	Options	Weighted average exercise price
Balance, September 30, 2022	1,200,000	1.36
Expired	(162,500)	1.60
Cancelled	(462,500)	1.44
Cancelled	(462,500)	1.20
Cancelled	(50,000)	1.40
Granted	1,200,000	0.20
Balance, September 30, 2023	1,262,500	0.26
Granted	50,000	0.225
Balance, September 30, 2024	1,312,500	0.25

A summary of stock options outstanding and exercisable as at September 30, 2024, is as follows:

Options outstanding and exercisable	Exercise price	Expiry date
37,500	1.20	Mar 9, 2026
25,000	1.44	Nov 10, 2026
1,200,000	0.20	Sep 7, 2028
50,000	0.225	Oct 31, 2028
1,312,500	0.25	

As at September 30, 2024, the average remaining contracted life of the outstanding stock options was 3.84 years.

Share purchase warrants

A summary of changes in share purchase warrants outstanding is as follows:

EDISON LITHIUM CORP.

Notes to the Consolidated Financial Statements For the years ended September 30, 2024 and 2023 (Expressed in Canadian dollars)

	Warrants outstanding	Weighted average exercise price	Weighted average number of years to expiry
Balance, September 30, 2022	4,241,850	1.33	1.96
Warrants expired	(193,848)	1.44	-
Balance, September 30, 2023	4,048,002	1.33	1.55
Warrants issued	4,352,800	0.20	1.82
Balance, September 30, 2024	8,400,802	0.21	1.07

A summary of share purchase warrants outstanding as at September 30, 2024, is as follows:

Outstanding	Exercise Price	Expiry Date
1,118,750 ¹	0.20	Feb 26, 2025
93,750	0.96	Feb 26, 2025
2,707,375 ¹	0.20	May 7, 2025
28,127	1.44	May 7, 2025
100,000 ¹	0.20	May 28, 2025
4,352,800	0.20	Oct 26, 2025
8,400,802	0.21	

¹ The exercise price of 3,926,125 warrants was re-priced to \$0.20 from effective exercise prices ranging from \$0.96 to \$1.44 following the 8 for 1 common share consolidation that was completed on August 1, 2023. All other terms remain unchanged.

As at September 30, 2024, the average remaining contractual life of the outstanding share-purchase warrants was 0.82 years.

Reserves

Share-based payment reserve

The share-based payment reserve records items recognized as share-based compensation and other share-based payments until such time that the stock options or warrants are exercised or expire, at which time the corresponding amount is transferred to share capital.

7. RELATED PARTY TRANSACTIONS

Key management personnel include those people who have authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of members of the Company's Board of Directors and corporate officers. The remuneration of directors and key management personnel and reimbursable expenses, made during the years ended September 30, 2024 and 2023 is set out below:

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

For the year ended Sep 30,

	2024	2023
Management and directors' fees	312,000	329,184
Exploration Fees	9,274	6,590
Corporate Secretarial Fees	35,675	20,287
Share based compensation	154,792	-
Legal Fees	75,467	39,388
	587,208	395,448

As at September 30, 2024, the Company has \$8,885 outstanding payable balance (September 30, 2023 – \$30,259) due to officers of the Company in relation to the above remuneration.

On September 7, 2023, the Company granted 915,000 stock options to directors and officers of the Company which vested on February 26, 2024. Each option entitles the holders to purchase one common share for a price of \$0.20 per share and expires on September 7, 2028. The stock options vesting terms are subject to approval at the Company's AGM. The Company recognized a stock-based compensation expense of \$154,792 relating to the grant of stock options to its officers and directors.

8. FINANCIAL RISK MANAGEMENT

Financial Risk Management:

The Company may be exposed, in varying degrees, to a variety of financial instrument related risks. The Company's Board of Directors monitors and approves its risk management practices.

The Company's most significant areas of financial risk and risk management are as follows:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is attributable to cash, short-term investments, and amounts receivable. To limit its exposure to credit risk, the Company holds its cash and short-term investments with high-credit quality financial institutions in Canada. Amounts receivable primarily consist of sales tax and interest receivable. The Company believes that the credit risk inherent in amounts receivable is low.

Interest Rate Risk

The Company has no current exposure to interest rate risk. The fair value of cash is not affected by changes in short-term interest rates.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company's financial liabilities are all due on demand. The Company attempts to manage liquidity risk by maintaining sufficient cash balances to satisfy current and planned expenditures. The Company may from time to time have to issue additional shares to ensure there is sufficient capital to meet long-term objectives.

Foreign currency exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of change in foreign exchange rates. As at September 30, 2024, the Company has a surplus of financial assets over financial liabilities denominated in Argentinian Peso, consisting of cash, accounts payable and accrued liabilities, in the sum of \$17,074 (September 30, 2023 – \$13,358).

EDISON LITHIUM CORP.
Notes to the Consolidated Financial Statements
For the years ended September 30, 2024 and 2023
(Expressed in Canadian dollars)

Financial Instruments

Financial instruments recorded at fair value on the consolidated statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly; and

Level 3 - Inputs for assets and liabilities that are not based on observable market data.

The fair value of cash, amounts receivable, which are primarily comprised of sales tax and accrued interest receivables, short-term investments, accounts payable and accrued liabilities, and due to related parties approximate fair value due to the short-term nature of the financial instruments.

9. CAPITAL MANAGEMENT

In the management of capital, the Company includes consideration of the components of shareholders' equity as well as cash, term deposits and other working capital with a view to the Company's current and future needs. The Company currently manages its capital structure and adjusts it, based on cash resources expected to be available to support its operations including the exploration and development of its mineral property interests. Management has not established a quantitative capital structure but does review on a regular basis the stage of development of the Company and its needs. The Company's present preparedness to entertain attractive offers on its Argentine properties is consistent with this policy and the Company's shift of primary interest to its Canadian Alkali Dispositions.

There were no changes in the Company's approach to capital management during the period.

The Company is not subject to any externally imposed capital requirements except the rules of the TSX Venture Exchange with which it is presently in compliance.

10. INCOME TAXES

A reconciliation of the expected income tax recovery to the actual income tax recovery is as follows:

	2024	2023
Net loss for the year	\$ (1,401,573)	\$(913,302)
Statutory tax rate	27%	27%
Expected income tax recovery	(378,425)	(246,592)
Adjusted by:		
Non-deductible items and other	(164,675)	(3,454)
Temporary differences not recognized	543,100	250,137
Impact of flow through shares	-	-
Income tax recovery	\$ -	-

The Company has the following tax effected deductible temporary differences for which no deferred tax asset has been recognized:

	2024	2023
Non-capital loss carry-forwards	\$ 2,071,962	\$ 1,738,000
Exploration and evaluation assets	1,164,009	624,000

EDISON LITHIUM CORP.

As at September 30, 2024, the Company has approximately \$7,565,000 (2023 - \$6,329,000) of non-capital losses in Canada that may be used to offset future taxable income expiring between 2031 and 2044.

Tax attributes are subject to review and potential adjustment by tax authorities.

11. SEGMENTED INFORMATION

The Company has one operating segment, the exploration of mineral properties, and two geographical segments with all current exploration activities being conducted in Canada and Argentina:

	September 30, 2024			September 30, 2023		
	Canada	Argentina	Total	Canada	Argentina	Total
E&E Assets	\$6,248,760	-	\$6,248,761	\$5,983,720	-	\$5,983,720

12. DISCONTINUED OPERATIONS

On September 4, 2024, the Company entered into a non-binding Letter of Purchase ("LOP") with Mava Gasoil LLC ("Mava") pursuant to which Mava would acquire 100% of the share capital and shares of ReVe from the Company.

The terms of the agreement include:

- Mava will acquire the ReVe Shares with all the Lexi Property individualized mining concessions for an aggregate purchase price of USD\$3,500,000 (the "Purchase Price")
- Excluded from this offer are the individualized mining concessions of the Pinac Property and the Lexi XXX mining property which has already been sold
- Within five (5) banking days of the effective signature by the Company and Mava of the LOP, Mava will pay a deposit of USD\$100,000 (the "1st Payment"). The Company has received this payment on December 27, 2024
- Within forty-five (45) banking days following the effective signature by the Company and Mava of the LOP, Mava will pay the remaining amount of the Purchase Price (the "Closing Payment")
