

FORM 51-102F3
Material Change Report

Item 1 Name and Address of Company

International Lithium Corp. (the “Company”)
620 – 650 West Georgia St.
Vancouver, B.C.
V6B 4N9 Tel: (604) 687-7551

Item 2 Date of Material Change

June 25, 2013

Item 3 News Release

News release dated June 25, 2013 disseminated in Vancouver, British Columbia.

Item 4 Summary of Material Change

The company is pleased to announce results from the nine (9) hole diamond drilling program, totalling 594 metres, on two prospects at the Blackstairs Lithium Project, Ireland. The drill program confirmed historical drill results at the Aclare prospect 85 kilometres southwest of Dublin and successfully intersected lithium bearing spodumene pegmatites in a previously untested area, below a spodumene bearing boulder field at the Moylisha prospect. The Company has conducted preliminary testing on only two of the six main prospects located along the 35 kilometre lithium pegmatite belt. All of the 19 known spodumene occurrences that make up the belt are within the Company’s prospecting licences.

Item 5 Full Description of Material Change

Please see news release dated June 25, 2013.

Item 6 Reliance on subsection 7.1(2) or (3) of National Instrument 51 102

This Report is not being filed on a confidential basis in reliance on subsection 7.1(2) or (3) of National Instrument 51-102.

Item 7 Omitted Information

No information has been omitted on the basis that it is confidential information.

Item 8 Executive Officer

Inquiries in respect of the material change referred to herein may be made to:

Jerry Bella, CFO
International Lithium Corp.
Telephone: (604) 687-7551

DATED this 25th day of June, 2013.
