MANAGEMENT DISCUSSION & ANALYSIS

For the three months
ended September 30, 2016

Notice to Reader

The following Management's Discussion and Analysis ("MD&A") of CT Developers Ltd. ("CT" or the "Company") should be read in conjunction with the financial statements of the Company for the period from July 1, 2016 to September 30, 2016, and is based on information available to November 25, 2016. Amounts herein are expressed in Canadian dollars except where indicated otherwise and the financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). Additional information regarding the Company is available on SEDAR at www.sedar.com.

FORWARD-LOOKING INFORMATION

Except for the historical statements contained herein, this Management's Discussion and Analysis presents certain "forward-looking statements", within the meaning of Canadian securities legislation, that involve inherent risks and uncertainties. In general, these forward-looking statements can be identified by the use of prospective terminology such as "plans", "expects" or "does not expect", "is expected", "proposed" "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements. Although the management and officers of the Company believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, and have attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.

COMPANY OVERVIEW

CT Developers ("CT" or the "Company") was incorporated under the Canada Business Corporations Act (Canada) on April 1, 2011 and is classified as a Capital Pool Company ("CPC") as defined in the TSX Venture Exchange (the "TSX-V" or the "Exchange") Policy 2.4. The principal business of the Company is to identify and evaluate opportunities for the acquisition of an interest in assets or a business, and, once identified, to negotiate an acquisition or participation within 24 months of listing on the Exchange. The Company's principal business and operations to date have been limited to raising equity through the issuance of common shares and to identifying its Qualifying Transaction.

The Company initially raised \$150,000 through the issuance of common shares in early 2011 to fund its operations, which at this time principally consists of identifying and completing a Qualifying Transaction. On November 17, 2011 the Company raised additional funds by closing its initial public offering ("IPO"). As part of the IPO the Company issued 3,000,000 common shares at \$0.20 per share for gross proceeds of \$600,000 (the "Offering") bringing the total funds raised to date at \$750,000. The Company paid to the agent a commission of \$60,000 and issued 250,000 share purchase warrants exercisable for \$0.20 per share for 24 months from the date of listing. The Company also paid all costs and expenses related to the offering. In conjunction with the Offering, the common shares of the Company were listed for trading on the TSX-V with the trading symbol "DEV.P". Concurrent with the completion of the IPO, stock options were granted to

directors and officers of the Company to purchase up to 255,000 common shares at \$0.20 per share. The options are exercisable for five years from the date the Company was listed on the Exchange.

On March 29, 2012 the Company granted 195,000 stock options to directors and officers of the Company to purchase at \$0.25 per share. The options granted were issued in accordance with the terms of the Company's 10-per-cent rolling stock option plan.

On June 8, 2012 the Company announced the closing of a non-brokered private placement and issued 577,500 common shares at a price of \$0.20 cents per share for aggregate gross proceeds of \$115,500. Finders' fees of \$3,700 were paid in cash and 6,500 finder warrants exercisable for 12 months at \$0.20 per warrant have been issued to qualified parties.

On May 18, 2012, the Company announced that it had agreed to acquire the shares of Viscount Mining Ltd. ("Viscount"). The shares of the Company were halted from trading pending completion of the transaction. The Agreement with Viscount and its shareholders lapsed and was renewed several times. After a period of careful consideration, the Board of Directors of CT determined that the transaction with Viscount would not be renewed.

On January 4, 2013 the Company announced the termination of the Agreement with Viscount. The shares of the Company were subsequently reinstated for trading upon approval by the TSX-V.

On September 9, 2013, the Company signed a letter of intent with Bee Vectoring Technology Inc. ("BVT"). The Company's shares were halted by the exchange pending completion of the transaction.

On October 9, 2013, the Company executed a definitive share exchange agreement with BVT and its Shareholders.

On November 26, 2013 trading of the Company's common shares on the TSX-V were suspended for failure to complete a Qualifying Transaction within the prescribed time.

On January 8, 2014 the Company announced it had loaned BVT \$100,000 and intended on advancing BVT a further \$150,000 to be secured by a general security agreement over the assets and undertaking of BVT.

On March 10, 2015 the Company announced by way of news release the termination of the proposed transaction with BVT.

On June 30, 2015 the Company recovered the advances aggregating \$250,000 made to BVT.

On June 27, 2014 the Company returned 500,000 shares to treasury and the number of issued and outstanding shares was reduced to 4,827,500 common shares from 5,327,500 common shares. According to the policies of the Exchange, the Company was required to complete its Qualifying Transaction by February 25, 2014. This did not occur and, as a result, Exchange policy required the Company to transfer its listing to the NEX board of the Exchange and cancel one-half of the escrow shares which were originally issued to the founders of the Company at a discount from the IPO price.

On August 15, 2014, the Company's common share listing was transferred to the NEX board of the TSX-V. Upon transition, the Company's trading symbol was changed from DEV.P to DEV.H. The Company's shares remained suspended from trading pending completion of a qualifying transaction or reinstatement by the Exchange.

MANAGEMENT DISCUSSION & ANALYSIS

For the three months
ended September 30, 2016

On June 10, 2016 the Company's shares were reinstated for trading on the NEX board of the TSX Venture Exchange under the trading symbol "DEV.H"; the Company continues to search for a qualifying transaction.

The Company has not had operations since its incorporation on April 1, 2011 and has no source of revenue. Its expenditures to date are largely related to the costs of maintaining a public company in good standing and costs incurred to identify and evaluate potential acquisitions or businesses with a view to completing its Qualifying Transaction (as defined in the policies of the Exchange).

Full details are available in the Company's Filing Statement, which may be viewed at www.SEDAR.com.

CRITICAL ACCOUNTING ESTIMATES

The preparation of condensed interim financial statements in conformity with International Financial Reporting Standards requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Although these estimates are based on management's best knowledge of current events and actions the company may undertake in the future, actual results may differ from the estimates. The statement of financial position is comprised predominately of cash obtained through the issuance of common shares of the Company. At this time there are no estimates in the financial statements that are considered critical.

FUTURE ACCOUNTING CHANGES

The following new standards, amendments to standards and interpretations have been issued but are not effective during the period ended September 30, 2016:

- | | | |
|---|---------|---|
| ▪ | IFRS 9 | New financial instruments standard that replaces IAS 39 for classification and measurement of financial assets ⁽ⁱⁱ⁾ |
| ▪ | IFRS 10 | New standard to establish principles for the presentation and preparation of consolidated financial statements when an entity controls multiple entities ⁽ⁱ⁾ |
| ▪ | IFRS 11 | New standard to account for the rights and obligations in accordance with a joint agreement ⁽ⁱ⁾ |
| ▪ | IFRS 12 | New standard for the disclosure of interests in other entities not within the scope of IFRS 9/IAS 39 ⁽ⁱ⁾ |
| ▪ | IFRS 13 | New standard on the measurement and disclosure of fair value |

(i) Effective for annual periods beginning on or after January 1, 2013

(ii) Effective for annual periods beginning on or after January 1, 2015

The Company anticipates that the application of these standards, amendments and interpretations will not have a material impact on the results and financial position of the Company.

FINANCIAL INSTRUMENTS AND RISK FACTORS

Financial instruments consist of cash, amounts receivable and amounts payable and accrued liabilities:

- a) **Fair value**
The carrying value of cash, amounts receivable and amounts payable and accrued liabilities approximate their fair value due to the short-term nature of these instruments.
- b) **Credit risk**
Credit risk is the risk of an unexpected loss if a counterparty to a financial instrument fails to meet its contractual obligations. The credit risk associated with cash is believed to be minimal as cash is on deposit with a Canadian chartered bank.

MANAGEMENT DISCUSSION & ANALYSIS

For the three months
ended September 30, 2016

SHARE CAPITAL

- a) The Company is authorized to issue an unlimited number of Common Shares without par value. On November 17, 2011 the Company completed its initial public offering and issued 3,000,000 common shares for cash of \$600,000. The Company issued 250,000 share purchase warrants exercisable for \$0.20 per share for 24 months from the date of listing of the Common Shares to the agent. The Company also issued 255,000 stock options to the Directors of the Company exercisable at \$0.20 per share with a five-year term. On March 29, 2012 the Company issued 195,000 stock options to Directors of the Company exercisable at \$0.25 per share with a five-year term. On June 8, 2012 the Company completed a private placement raising gross proceeds of \$115,500 and issuing 577,500 common shares at a price of \$0.20 per share. The Company also issued 6,500 finders warrants exercisable for a 1-year period at \$0.20. In November 2014, the Company issued 250,000 common shares at a price of \$0.20 per share pursuant to the exercise of agent's options granted in connection with the Company's IPO. As noted under "COMPANY OVERVIEW", the Company cancelled 500,000 escrowed common shares on June 27, 2014.
- b) As at September 30, 2016 the Company had 4,827,500 issued and outstanding common shares, including 1,000,000 founder's escrow shares.

RISK FACTORS

No Proposed Business

The Company was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Company has not entered into an Agreement in Principle as defined in the CPC Policy. Until Completion of the Qualifying Transaction, the Company is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions.

No Market or History of Operations

The Company does not have a history of operations, and there is no assurance that it will produce revenue, operate profitably or provide a return on investment in the future.

Directors' and Officers' Involvement in Other Projects

The directors and officers of the Company will only devote a small portion of their time to the business and affairs of the Company and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time.

Reliance on Management

The Company is relying solely on the past business success of its directors and officers to identify a Qualifying Transaction of merit. The success of the Company is dependent upon the efforts and abilities of its management team. The loss of any member of the management team could have a material adverse effect upon the business and prospects of the Company. In such event, the Company will seek satisfactory replacements but there can be no guarantee that appropriate personnel may be found.

MANAGEMENT DISCUSSION & ANALYSIS

**For the three months
ended September 30, 2016**

Requirement for Additional Financing

The Company has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Company will be able to identify a suitable Qualifying Transaction. Further, even if a proposed Qualifying Transaction is identified, there can be no assurance that the Company will be able to complete the transaction. The Qualifying Transaction may be financed in whole, or in part, by the issuance of additional securities by the Company and this may result in further dilution to investors, which dilution may be significant and which may also result in a change of control of the Company. Subject to prior Exchange approval, the Company may be permitted to loan or advance up to an aggregate of \$225,000 of its proceeds as a refundable deposit to a target business under certain conditions noted in the CPC Policy and there can be no assurance that the Company will be able to recover that loan.

Potential Dilution

The issue of common shares of the Company upon the exercise of the options and warrants will dilute the ownership interest of the Company's current shareholders. The Company may also issue additional option and warrants or additional common shares from time to time in the future. If it does so, the ownership interest of the Company's then current shareholders could also be diluted.
