Subject to applicable laws, the Agents may, in connection with the Offering, effect transactions intended to stabilize or maintain the market price of the Common Shares at levels other than those which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. See "Plan of Distribution".

The Agents hereby conditionally offer the Offered Shares for sale on a commercially reasonable effort basis, without underwriter liability, subject to prior sale, if, as and when issued by the Corporation and accepted by the Agents in accordance with the conditions contained in the Agency Agreement referred to under "Plan of Distribution", subject to the approval of certain legal matters on behalf of the Corporation by Cassels Brock & Blackwell LLP, and on behalf of the Agents by Heenan Blaikie LLP.

See "Plan of Distribution".

FINANCIAL INFORMATION

The financial statements of the Corporation and PyroGenesis Canada Inc. (the "**Predecessor**"), a predecessor of the Corporation, incorporated by reference in this short form prospectus have been prepared in accordance with Canadian generally accepted accounting principles, in respect of the Annual Financial Statements (as defined herein), and international financial reporting standards, in respect of the Interim Financial Statements (as defined herein), and are reported in Canadian dollars. All currency amounts in this short form prospectus are expressed in Canadian dollars, unless otherwise indicated.

ELIGIBILITY FOR INVESTMENT

In the opinion of Cassels Brock & Blackwell LLP, counsel to the Corporation, and Heenan Blaikie LLP, counsel to the Agents, provided the Offered Shares are listed on a "designated stock exchange" (which currently includes the TSXV), as defined in the *Income Tax Act* (Canada) (the "**Tax Act**"), such securities, if issued on the date hereof, would be qualified investments under the Tax Act and the regulations thereunder (the "**Regulations**") for trusts governed by registered retirement savings plans ("**RRSPs**"), registered retirement income funds ("**RRIFs**"), deferred profit sharing plans, registered education savings plans, registered disability savings plans and

tax-free savings accounts (“TFSA”), all as defined in the Tax Act. The Offered Shares will also be a qualified investment for such plans provided the Corporation is a “public corporation” (other than a mortgage investment corporation) as defined in the Tax Act.

The Offered Shares will not be a “prohibited investment” for a trust governed by a TFSA, provided the holder of the TFSA deals at arm’s length with the Corporation for purposes of the Tax Act and does not have a “significant interest” (within the meaning of the Tax Act) in the Corporation or in any person or partnership with which the Corporation does not deal at arm’s length for purposes of the Tax Act. Notwithstanding the foregoing, if the Offered Shares are a “prohibited investment” for the purposes of a TFSA, or if an “advantage” (as defined in the Tax Act for purposes of the TFSA rules) in relation to a TFSA is extended to the holder or a person who does not deal at arm’s length with the holder, the holder of such TFSA generally will be subject to penalty taxes as set out in the Tax Act and other tax consequences may result. Based on certain proposals to amend the Tax Act, the above described rules will also generally apply to an annuitant of an RRSP or RRIF in respect of the Offered Shares held in an RRSP or RRIF. Holders of a TFSA and annuitants of RRSPs and RRIFs should consult their own tax advisors to ensure that the Offered Shares would not be a prohibited investment in their particular circumstances.

QUEBEC STOCK SAVINGS PLAN II

The Corporation has requested an advance income tax ruling from the Agence du Revenu du Québec (the “Agency”) confirming that the Corporation qualifies as a qualified issuing corporation and that the Offered Shares (and the Additional Offered Shares issued from treasury) qualify as qualifying shares, upon issuance, for inclusion in a Quebec Stock Savings Plan II (“QSSP II”) in accordance with the *Taxation Act* (Québec) and the regulations adopted thereunder that are in effect as of the date hereof (collectively, the “Québec Act”), subject to certain conditions set out therein. The Corporation has certified that the factual representations described in the QSSP II ruling request are complete and accurate.

The inclusion in a QSSP II of the Offered Shares (or the Additional Offered Shares issued from treasury) will entitle an individual (other than a trust) who is resident in Québec on December 31, 2011 to deduct, in the computation of his or her taxable income for Québec tax purposes for his or her 2011 taxation year, 100% of the acquisition cost (established without taking into account borrowing costs, brokerage costs, custody charges or other similar costs) of the Offered Shares (or the Additional Offered Shares issued from treasury) and included in a QSSP II no later than January 31, 2012, subject to certain conditions contained in the Québec Act. **In this regard, the individual must conclude an arrangement with a dealer within the meaning of the Québec Act and indicate his or her intention to include such Offered Shares (or the Additional Offered Shares issued from treasury) in a QSSP II of which he or she is the beneficiary.**

For the 2011 taxation year, an individual may not claim a deduction in respect of a QSSP II that exceeds 10% of his or her total income for the year (within the meaning of the Québec Act). The amount of such deduction will be included in computing the individual’s adjusted taxable income for Québec minimum tax purposes.

An individual who includes an Offered Share (or an Additional Offered Share issued from treasury) in a QSSP II and who withdraws it from such plan, for example by selling it, prior to the end of the second taxation year following the year of its acquisition, may be required to include an amount of up to 100% of his or her acquisition cost of that Offered Share or the Additional Offered Share issued from treasury (established without taking into account the value of borrowing costs, brokerage costs, custody charges or other similar costs) in computing his or her income for Québec income tax purposes for the taxation year during which such withdrawal is made. Generally, the amount to be included in income will be reduced by the adjusted cost (determined in accordance with the Québec Act) of qualifying shares, qualifying securities and valid shares acquired by the individual and included in a QSSP II by the earlier of: (i) the last day of the second month following the month of such withdrawal; and (ii) December 31 of the year of such withdrawal.

The Broker Shares and the Additional Offered Shares not issued from treasury, if any, cannot be included in a QSSP II.

This text is a summary only and is not intended to be, nor should it be construed as, legal or tax

advice to any investor. This summary is based on the current provisions of the Québec Act, all specific proposals to amend the Québec Act announced publicly by the ministère des Finances (Québec) prior to the date hereof and the understanding of the Corporation's legal counsel of current administrative practices of the Agency.

Prospective purchasers should consult their own tax advisors with respect to any matter pertaining to the QSSP II, including the maximum deduction permitted.

THE CORPORATION

The Corporation is an environmental solutions company that designs, develops and manufactures plasma waste-to-energy systems and plasma torch products. The Corporation’s proprietary plasma technologies utilize the intense energy of plasma to gasify and vitrify virtually any type of waste without producing hazardous by-products. The Corporation’s patented gasification and vitrification technology is different from incineration because it produces a clean synthetic gas from waste, which can be used for power generation. The Corporation’s technology can also turn waste into a glassy rock that can be utilized as construction material. The Corporation has marquee defense industry and civilian customers that are using its technology in marine and land-based applications.

The Corporation has three distinct product offerings. The Corporation’s marine based Plasma Arc Waste Disposal System treats combustible waste on board ships while its land based Plasma Resource Recovery System is designed to treat a range of industrial, hazardous, clinical and municipal waste streams on land. The Corporation’s plasma torch systems are sold world-wide to other plasma companies who do not have the know-how to build this type of equipment and also to those using high temperature metallurgical and advanced material applications. See “Business of the Company” in the Annual Information Form.

CONSOLIDATED CAPITALIZATION

Other than the issuance of Common Shares and securities convertible into Common Shares in connection with the Amalgamation, there have not been any material changes in the share and loan capital of the Corporation since June 30, 2011, the date of the Interim Financial Statements. See “Prior Sales”.

After giving effect to the Offering, an additional ● Common Shares (a maximum of ● Common Shares if the Agents’ Option is exercised in full) and ● Broker Warrants (a maximum of ● Broker Warrants if the Agents’ Option is exercised in full) will be issued.

USE OF PROCEEDS

The net proceeds to the Corporation from the Offering will be approximately \$●, or approximately \$● if the Agents' Option is exercised in full, after deducting the Agents' Fee and \$● representing the estimated expenses of the Offering. The net proceeds from the Offering are expected to be used by the Corporation for general corporate and working capital purposes, including, but not limited to, maintaining its business operations and furthering its business objectives of strategically hiring personnel to position the Corporation for expected growth in business, and implementing advanced information management systems.

The Corporation currently intends to spend the funds available as stated in this short form prospectus. However, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary.

PLAN OF DISTRIBUTION

Pursuant to the Agency Agreement, the Corporation has appointed the Agents to offer for sale to the public on a commercially reasonable efforts basis, without underwriter liability, and the Corporation has agreed to issue and sell, subject to compliance with all necessary legal requirements and pursuant to the terms and conditions of the Agency Agreement, on the Closing Date, up to ● Offered Shares at the Offering Price, payable in cash to the Corporation against delivery of the Offered Shares. In consideration for the services rendered by the Agents in connection with the Offering, the Agents will be paid the Agents' Fee in the amount of up to \$●, representing 7.0% of the gross proceeds of the Offering. As additional consideration, the Agents will be granted ● Broker Warrants exercisable at the Offering Price, entitling the Agents to subscribe for an aggregate number of Broker Shares equal to 7.0% of the number of Offered Shares issued pursuant to the Offering. The Broker Warrants shall be exercisable for Broker Shares for a period of 12 months following the Closing Date. This short form prospectus qualifies the distribution of the Broker Warrants to the Agents. The Offering Price was determined by negotiation between the Corporation and the Agents.

The Corporation has granted the Agents the Agents' Option, exercisable in whole or in part, at any time and from time to time, in the sole discretion of the Agents, up to 48 hours prior to the Closing Date, to purchase up to an additional 15% of the Offered Shares sold pursuant to the Offering, being ● Additional Offered Shares, at the Offering Price. The grant of the Agents' Option and the distribution of the Additional Offered Shares issuable upon exercise of the Agents' Option, if any, are qualified under this short form prospectus. If the Agents' Option is exercised in full, the total Price to the Public, the Agents' Fee and the Net Proceeds to the Corporation (before payment of the expenses of the Offering) will be \$●, \$● and \$●, respectively.

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. Other than Offered Shares sold in the United States or to U.S. persons, which will be represented by definitive certificates, it is expected that the Corporation will arrange for an instant deposit of the Offered Shares to or for the account of the Agents with CDS or its nominee on the Closing Date, against payment of the aggregate purchase price for the Offered Shares. A purchaser of Offered Shares (other than a purchaser of Offered Shares in the United States or who is a U.S. person) will receive only a customer confirmation from the registered dealer through which the Offered Shares are purchased.

The obligations of the Agents under the Agency Agreement may be terminated at their discretion on the basis of their assessment of the state of the financial markets and may also be terminated upon the occurrence of certain stated events. The Agents are not obligated, directly or indirectly, to advance their own funds to purchase any of the Offered Shares. The Corporation has agreed to indemnify the Agents and their respective directors, officers and employees against certain liabilities pursuant to the Agency Agreement, including liabilities under Canadian securities legislation.

The Corporation has agreed in favour of the Agents not to, directly or indirectly, issue, sell, offer, grant an option or right in respect of, or otherwise dispose of, or agree to or announce any intention to, issue, sell, offer, grant an option or right in respect of, or otherwise dispose of, any additional Common Shares or any securities convertible or exchangeable into Common Shares, other than pursuant to (i) the Offering; (ii) the grant or exercise of stock

options and other similar issuances pursuant to any stock option plan or similar share compensation arrangements in place prior to November 4, 2011; or (iii) the issue of Common Shares upon the exercise of convertible securities, warrants or options outstanding prior to November 4, 2011, until 90 days following the Closing Date, without the prior written consent of the Agents, such consent not to be unreasonably withheld; provided that the obligations of the Corporation shall terminate in the event the Offering is not completed.

The Corporation has also agreed to use commercially reasonable efforts to have each of its directors and officers agree, in a lock-up agreement to be executed concurrently with the closing of the Offering, that for a period of 90 days following the Closing Date, such directors and officers will not, directly or indirectly, offer, sell, or otherwise dispose of any Common Shares held by them without the prior written consent of the Agents, such consent not to be unreasonably withheld, subject to certain exceptions, including in respect of sales to affiliates of such director or officer, or as a result of the death of any such director or officer. The definitive terms of such lock-up agreement shall be negotiated between the parties in good faith.

The Offered Shares to be issued pursuant to the Offering have not been registered under the U.S. Securities Act, or any state securities laws, and may not be offered, sold or delivered within the United States unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from registration is available. The Agents have agreed that, except as permitted by the Agency Agreement, they will not offer or sell the Offered Shares, as part of the distribution at any time, within the United States and that all offers and sales of the Offered Shares will otherwise be made outside of the United States in accordance with Rule 903 of Regulation S under the U.S. Securities Act. Terms used in this and the next paragraph have the meanings given to them in Regulation S under the U.S. Securities Act.

This short form prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any of the Offered Shares in the United States. In addition, until 40 days after the commencement of the Offering, an offer or sale of the Offered Shares within the United States by any dealer, whether or not participating in the Offering, may violate the registration requirements of the U.S. Securities Act if such other offer or sale is made otherwise than in accordance with an available exemption from the registration requirements under the U.S. Securities Act. The Offered Shares will be restricted securities within the meaning of Rule 144(a)(3) under the U.S. Securities Act and any certificates representing such securities will bear a legend to the effect that the securities represented thereby are not registered under the U.S. Securities Act or any applicable state securities laws and may only be offered, sold, pledged or otherwise transferred pursuant to certain exemptions from the registration requirements of the U.S. Securities Act and any applicable state securities laws.

Pursuant to rules and policy statements of certain Canadian securities regulators, the Agents may not, at any time during the period ending on the date the selling process for the Offered Shares ends and all stabilization arrangements relating to the Offered Shares are terminated, bid for or purchase Common Shares. The foregoing restrictions are subject to certain exceptions including: (i) a bid for or purchase of Common Shares if the bid or purchase is made through the facilities of the TSXV in accordance with the Universal Market Integrity Rules of the Investment Industry Regulatory Organization of Canada; (ii) a bid or purchase on behalf of a client, other than certain prescribed clients, provided that the client's order was not solicited by the Agents or if the client's order was solicited, the solicitation occurred before the commencement of a prescribed restricted period; and (iii) a bid or purchase to cover a short position entered into prior to the commencement of a prescribed restricted period. In connection with this Offering, the Agents may over-allot or effect transactions that stabilize or maintain the market price of the Common Shares at levels other than those which otherwise might prevail on the open market, including: stabilizing transactions; short sales; purchases to cover positions created by short sales; imposition of penalty bids; and syndicate covering transactions.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of the Common Shares while this Offering is in progress. These transactions may also include making short sales of the Common Shares, which involve the sale by the Agents of a greater number of Common Shares than the maximum number of Offered Shares to be issued in this Offering. Short sales may be "covered short sales", which are short positions in an amount not greater than the Agents' Option, or may be "naked short sales", which are short positions in excess of that amount.

As a result of these activities, the price of the Offered Shares offered hereby may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the Agents at any time. The Agents may carry out these transactions on the TSXV, in the over-the-counter market or otherwise.

The Corporation has applied to list the Offered Shares and Broker Shares distributed under this short form prospectus on the TSXV. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSXV.

DESCRIPTION OF SECURITIES BEING DISTRIBUTED

The Corporation is authorized to issue an unlimited number of Common Shares without par value. As of November 4, 2011, there were 59,114,094 Common Shares issued and outstanding. An investment in securities of the Corporation is highly speculative and involves significant risks. Any prospective investor should carefully consider the risk factors and all of the other information contained below and elsewhere in this short form prospectus (including, without limitation, the documents incorporated by reference, and specifically under the section entitled "Risk Factors" in the Annual Information Form) before purchasing any of the securities distributed under this short form prospectus. The risks described herein and in the documents incorporated by reference in this short form prospectus are not the only risks facing the Corporation. Additional risks and uncertainties not currently known to the Corporation, or that the Corporation currently deems immaterial, may also materially and adversely affect its business.

Discretion in the Use of Proceeds

Management will have discretion concerning the use of proceeds of the Offering as well as the timing of their expenditures. As a result, investors will be relying on the judgment of management as to the application of the proceeds of the Offering. Management may use the net proceeds of the Offering in ways that an investor may not consider desirable. The results and effectiveness of the application of the proceeds are uncertain. If the proceeds are not applied effectively, the Corporation's results of operations may suffer.

Future Sales or Issuances of Securities

The Corporation may sell additional Common Shares or other securities in subsequent offerings. The Corporation may also issue additional securities to finance future activities. The Corporation cannot predict the size of future issuances of securities or the effect, if any, that future issuances and sales of securities will have on the market price of the Common Shares. Sales or issuances of substantial numbers of Common Shares, or the perception that such sales could occur, may adversely affect prevailing market prices of the Common Shares. With any

additional sale or issuance of Common Shares, investors will suffer dilution to their voting power and the Corporation may experience dilution in its earnings per share.
