Graph Blockchain Announces Contract With Multinational Electronics Company

TORONTO, June 06, 2018 -- Datametrex AI Limited (the "**Company**" or "**Datametrex**") (TSXV:DM) (FSE:D4G) is pleased to announce that its JV company, Graph Blockchain Limited ("**GBC**" or "**Graph**"), secured a prototype contract with the world's largest manufacturer of mobile phones and smart phones, valued at approximately $300,000 CAD, to build a private enterprise blockchain solution for the electronics division of this South Korean conglomerate.

"This is one of our most exciting accomplishments to date, and a true testament to our organization as a leading-edge blockchain company," says Peter Kim, President and COO of Graph.

"This contract is a key development in the growth of Graph Blockchain and will further strengthen its position to be a leader in blockchain solutions. Securing contracts with multi-billion dollar conglomerates that are global leaders in their space is an incredible feat for a company that is less than a year old," says Jeffrey Stevens, President and COO of Datametrex.

About the Client

This multinational electronics company is headquartered in Suwon, South Korea, with assembly plants and sales networks in 80 countries. It is the world's largest information technology company, consumer electronics maker and chipmaker by revenue, with a market capitalization of over $340 billion USD.

About Graph Blockchain Limited

Graph Blockchain is a joint venture formed between Datametrex and Bitnine. The JV mandate is to bring the value of Graph Database technology to the blockchain environment where there is a great need to enhance performance and present the verified and authenticated data in unique ways.
