Eight Solutions Continues Cumul8 Growth in the Entertainment Sector

VANCOUVER BC, October 21, 2015 — Eight Solutions Inc. (TSXV:ES) ("Eight Solutions" or the "Company") is pleased to announce it has signed a service, license and support agreement with an entertainment client.

"Our core design group has spent years in the entertainment industry, so reaching deeper into this sector is a natural fit for us," says Rory Armes, CEO of Eight Solutions. "Our experience in 3D conversion helped us understand the low-level needs of digital asset movement, along with the need to simplify the chaos of data, helping anyone at anytime see what's going on with their film."

The entertainment industry has been one of Eight Solutions' pillars for growth. The Company anticipates that its Cumul8 product line will expand quickly throughout the entertainment sector. The core Cumul8 technology has already moved more than 1000 terabytes and over 143 million files of digital data. As well as the entertainment industry, Eight Solutions now has Cumul8 customers in aviation, manufacturing, forestry, and hospitality, with more to come.

Moving forward the Company's focus is to place Cumul8 in the hands of strategic customers, who are leaders in their respective industries. With these strategic customers, Eight Solutions hopes to prove the Cumul8 model of success—saving companies time and resources—and leverage this success to penetrate the broader markets.

About Eight Solutions

Eight Solutions is a technology company led by a team of gaming industry veterans. Eight Solution's flagship product is Cumul8, a data analytics and visualization solution. Cumul8 works with any type of data source to help people and companies understand, collaborate, and make better decisions with data. Eight Solution's portfolio also includes an award-winning 3D technology licensed to the film industry; and Reelhouse, a unique video-on-demand platform that allows filmmakers to distribute their content directly to users.
