

Eight Solutions to Exhibit Cumul8:Jetstream High Speed Data Transfer Platform at JB&A Pre-NAB Technology Event

Vancouver, BC, April 5, 2018 – Eight Solutions Inc. (TSXV:ES) (“Eight Solutions” or the “Company”), a technology company on a mission to make data easy, today announced that the Cumul8:Jetstream high speed data transfer platform will be introduced to the JB&A value added reseller network at the their Pre-NAB Technology Event taking place April 7-8, 2018 at SLS Las Vegas.

The NAB Show is one of the largest events for Media & Entertainment professionals to learn about the latest and most innovative technology solutions for their industry. JB&A's Pre-NAB Technology Event is an important part of the itinerary with over 1,200 attendees representing both resellers and end users expected to participate.

“We’re excited to tell the Jetstream story and provide hands-on demos of our high speed data transfer platform at the JB&A event,” says Michael Devine, EVP, Sales & Marketing at Eight Solutions. “With a simplified business model that does not cap bandwidth, transfer volume, or the number of users, along with its seamless integration capabilities and user-centric design, Jetstream provides JB&A resellers with a competitive advantage as well as a compelling solution for their customers.”

Eight Solutions recently signed a Master Distribution Agreement with JB&A, a leading provider of complete Video and Content Management technology solutions. JB&A has an extensive network of over 400 value added resellers who will help accelerate Jetstream software sales and recurring revenue in the Media & Entertainment industry.

Jetstream can be seen at the JB&A Pre-NAB Technology Event in Las Vegas starting April 7, 2018.

About Eight Solutions

Eight Solutions is a technology company on a mission to make data easy. With a focus on data analytics and data distribution, Eight Solutions brings together highly visual and user-centric solutions designed and developed by a team of entertainment and gaming industry veterans with a combined 60+ years of experience working on the world’s most successful films and video games. The Eight Solutions product portfolio includes Cumul8, an Industrial Internet of Things (IIoT) data analytics platform providing real-time and predictive insights that help businesses imagine and realize speed to value with their data; and Jetstream, a secure high speed file transfer application enabling users to focus on their own work product rather than how it is delivered.
