NEWS RELEASE

G6 Materials Appoints Kevin Cornish as President and Interim Chief Executive Officer

Ronkonkoma, New York, USA - TheNewswire – October 26, 2023 - G6 Materials Corp. ("G6" or the "Company") (TSXV: GGG, OTCQB: GPHBF), a high-tech company with expertise in advanced materials and developing innovative composites for a wide range of industrial uses, announces that the independent members of its Board of Directors (the "**Board**") have appointed Mr. Kevin Cornish, MBA, CPA, CPHR as President and interim Chief Executive Officer ("**CEO**") of the Company, effective immediately. Mr. Cornish' appointment is in addition to his current role as the Company's Chief Financial Officer ("**CFO**").

The appointment follows the departure of Daniel Stolyarov as President, Chief Technology Officer and Co-Chief Executive Officer of the Company. The Company's other Co-CEO, Elena Polyakova, has agreed to become its Chief Operating Officer, effective immediately. Ms. Polyakova's new role includes the hand-off of all operations-related duties from Mr. Cornish, as well as the most appropriate scientific, technological, corporate and other areas of responsibility previously assigned to Dr. Stolyarov.

Management Commentary

"The independent member of the Board of G6 would like to thank Daniel for his contributions during his time with the Company and wish him well in his future endeavours. We also appreciate Kevin and Elena for increasing their areas of responsibility to facilitate the transition. The Board will monitor Kevin's performance as President, interim CEO & CFO over the near term and will be prepared to conduct a search for a full-time CEO if and as appropriate," said Gary Dyal, Chairman of the Company.

About G6 Materials Corp.

G6 Materials Corp. is a high-tech company with expertise in advanced materials that creates value developing innovative composites for a wide range of industrial uses. Graphene

Laboratories Inc., a wholly owned subsidiary of G6, sells a range of graphene-based products and other materials, including but not limited to conductive epoxies, high-performance composites, and R&D materials, with numerous customers from among the Fortune 500 list of companies, as well as NASA and leading universities. Graphene Laboratories Inc. has entered the global air filtration market with Breathe⁺, a line of medical-grade HEPA air filtration products enhanced with advanced performance graphene material.

G6 has identified new graphene-based applications to accelerate growth into the future. Accordingly, the Company has a valuable IP portfolio currently comprising seven granted patents. The Company's management team and employees have a deep understanding of graphene technology based on decades of aggregate academic and commercial experience. Graphene Laboratories Inc. has established its premium research laboratory and scalable production facility equipped with advanced analytical and material processing equipment.

The Company's e-commerce websites are listed below:

- Breathe⁺: Medical-grade HEPA air filtration enhanced with advanced performance graphene material, for more information, visit www.breatheplus.tech
- Conductive Epoxies: Adhesive materials distributed under the G6-EpoxyTM trade name and can be purchased at www.g6-epoxy.com
- R&D Materials: Graphene Laboratories Inc. currently offers over 100 graphene and related products available at www.graphene-supermarket.com

Forward-Looking Information

This news release contains forward-looking statements within the meaning of the applicable securities legislation that is based on expectations, estimates and projections as at the date of this news release. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. "Forward-looking information" in this news release includes but is not limited to information about the graphene-enhanced air purifier (including efficacy, potential commercialization and patent pending thereof); information about the potential for the Company's long-term growth; the business goals and objectives of the Company, and other forward-looking information concerning the intentions, plans and future actions of the parties to the transactions described herein and the terms thereon.

G6 Materials

The forward-looking information in this news release reflects the current expectations, assumptions and/or beliefs of the Company based on information currently available to the Company. Although the Company believes that the assumptions inherent in the forward-looking information are reasonable, forward-looking information is not a guarantee of future performance and accordingly undue reliance should not be put on such information due to the inherent uncertainty therein.

Risk factors that could cause actual results to differ materially include, but are not limited to, the actual results in commercial applications of the Company's graphene-enhanced air purifier may differ significantly from its test results; health and environmental factors affecting the adoption of the Company's graphene-based technologies or other products; the Company may fail to obtain appropriate government approvals or accreditation related to the business' operations and technological processes; the market conditions and demand for its product as well as the market prices of such products being developed by the Company may change over time; reliance on key personnel; the potential for conflicts of interest among certain officers, directors or promoters with certain other projects; competition; dilution; and the volatility of our common share price and volume.

The Company undertakes no obligation to revise or update any forward-looking information other than as required by law.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
