About Renewi

Renewi is a pure-play recycling company with a focus on extracting value from waste and used materials rather than disposal through incineration or landfill. The company also plays a key role in limiting resource scarcity through the creation of secondary materials, and by so doing addresses both social and regulatory trends and contributes to creating a cleaner, greener world.

Renewi's vision is to be the leading waste-to-product company in the world's most advanced circular economies. By opting to recycle, the company avoids emissions of more than 3 million tonnes of CO2 and as a result plays a part in contributing to a sustainable society, transitioning to a circular economy and driving the progress needed to halt climate change.

Renewi, which draws on innovation and the latest technology to turn waste into useful materials - paper, metals, plastics, glass, wood, building materials, compost and energy - employs over 6,500 people who work on 162 operating sites in 6 countries across Europe and the UK. Renewi is recognised as a market leader in Benelux and a regional European leader in recycling.
