QUESTIONS AND ANSWERS FOR PLATA LATINA SHAREHOLDERS

The information contained below is of a summary nature and is qualified in its entirety by the more detailed information contained elsewhere or incorporated by reference in this Circular, including the appendices hereto, the form of proxy and the Consolidation Letter of Transmittal, all of which are important and should be reviewed carefully. Capitalized terms used in these questions and answers but not otherwise defined have the meanings given to them in the “*Glossary of Terms*” of this Circular.

Why is the Plata Latina Meeting being held?

The Plata Latina Meeting is being held because Plata Latina and World Copper have entered into the Arrangement Agreement whereby Plata Latina has agreed to acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for the Cash Consideration and the Share Consideration by way of the Arrangement.

In connection with the Arrangement, Plata Latina entered into binding subscription agreements with Concurrent Financing Investors pursuant to a non-brokered private placement by Plata Latina of up to 200,000,000 Plata Latina Units, with each Plata Latina Unit consisting of one Plata Latina Share and one-half of one Plata Latina Warrant at a price of \$0.10 per Plata Latina Unit. The proceeds of this Concurrent Financing are being allocated to, among other things, finance the Cash Consideration and to fund exploration and development of the Zonia Property. Completion of the Concurrent Financing is a condition to the consummation of the Arrangement under the terms of the Arrangement Agreement. In addition, the holders of Specified World Copper Options will receive Plata Latina Replacement Options in exchange for such Specified World Copper Options, which is an integral part of the Arrangement. Accordingly, if the Plata Latina Transaction Resolutions are not approved by Plata Latina Shareholders at the Plata Latina Meeting, the Arrangement cannot be completed in accordance with its terms.

In connection with the Arrangement, Plata Latina is also seeking the approval of Plata Latina Shareholders to (a) change Plata Latina’s corporate name to “Edge Copper Corporation” or such other name the Plata Latina Board, may in its sole discretion determine (subject to regulatory approval), and (b) consolidate all of the issued and outstanding Plata Latina Shares on the basis of three pre-Consolidation Plata Latina Shares for one post-Consolidation Plata Latina Share.

What are Plata Latina Shareholders being asked to approve?

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the (a) Plata Latina Financing Resolution, (b) Plata Latina Option Issuance Resolution, (c) Plata Latina Name Change Resolution, and (d) Plata Latina Share Consolidation Resolution.

In order to become effective, (a) the Plata Latina Financing Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions*; (b) the Plata Latina Option Issuance Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by the rules and policies of the TSXV; (c) the Plata Latina Name Change Resolution must be approved, with or without variation, by two-thirds of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof; and (d) the Plata Latina Share Consolidation Resolution must be approved, with or without variation, by two-thirds of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof.

The Concurrent Financing is a condition to the completion of the Arrangement and the Plata Latina Option Issuance is an integral part of the Arrangement. Accordingly, if the Plata Latina Transaction Resolutions are not approved by Plata Latina Shareholders at the Plata Latina Meeting, the Arrangement cannot be completed in accordance with its terms.

The Plata Latina Name Change Resolution and the Plata Latina Share Consolidation Resolution are not conditions to the completion of the Arrangement and the Plata Latina Name Change and Consolidation will only be effected if, in addition to the prior approval of the TSXV, Plata Latina and World Copper proceed with the closing of the Arrangement.

When and where is the Plata Latina Meeting being held?

Plata Latina is convening and conducting the Plata Latina Meeting in person at 700 – 401 West Georgia Street, Vancouver, British Columbia, Canada V6B 5A1 at 9:30 a.m. (Vancouver time) on October 16, 2025. See “*The Plata Latina Meeting*” for more information.

Who is entitled to vote at the Plata Latina Meeting?

Only Plata Latina Shareholders of record at 5:00 p.m. (Vancouver time) on August 26, 2025 will be entitled to receive notice of and vote at the Plata Latina Meeting or any adjournment or postponement thereof.

Non-registered (beneficial) Plata Latina Shareholders that hold their Plata Latina Shares through an Intermediary that have not been duly appointed as proxyholder in accordance with the instructions set out in the Circular will not be able to attend in person and vote at the Plata Latina Meeting.

As of the date of this Circular, management of Plata Latina is not aware of any such amendments, variations or other matters which are to be presented for action at the Plata Latina Meeting.

See “*The Plata Latina Meeting – Voting of Proxies and Exercise of Discretion*” for more information.

Does the Plata Latina Board support the Transaction?

After careful consideration and the receipt of financial and legal advice, and having considered the terms of the Arrangement and the Concurrent Financing and such other matters as it considered necessary and relevant, the Plata Latina Board unanimously determined that the entering into of the Arrangement Agreement is in the best interests of Plata Latina and (with conflicted directors abstaining) unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina Transaction Resolutions.

See “*The Transaction – Recommendation of the Plata Latina Board – Reasons for the Recommendation of the Plata Latina Board*” for more information.

What are the benefits of the Transaction to Plata Latina Shareholders?

In making its recommendation to Plata Latina Shareholders, the Plata Latina Board undertook a thorough review of, and considered the terms of, the Arrangement and the Concurrent Financing with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the Plata Latina Board:

- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina’s experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management’s experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential.
- **A significant private land package presents a strong exploration opportunity for future value creation.** There are over 900 hectares of private land at the Zonia Property, which hosts a current resource that underpins 10 years of initial production. Limited historical exploration work has been completed which provides strong potential for resource expansion and larger-scale production. An additional sizable BLM land package nearby provides significant potential for a Phase 2 expansion in the future.
- **The Zonia Property is located in a Tier 1 jurisdiction.** Copper is a critical mineral for the United States and the Zonia Property is strategically located in Arizona, the largest producer of copper in the United States, ranked 7th globally on mining investment attractiveness, according to the Fraser Institute’s 2023 Annual Survey of Mining Companies. The pre-stripped, past-producing Zonia Property benefits from existing infrastructure and a streamlined permitting process, which only requires state permits for Phase 1.
- **The straightforward and low-risk Zonia Property will become a primary asset for Plata Latina.** The Zonia Property’s oxide porphyry deposit is attractive and straightforward with conventional open pit mining at a brownfield site via SX-EW, which is expected to reduce processing, minimizing complexity and emissions.
- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.

- **The Transaction is the result of comprehensive arm's length negotiations.** The terms of the Arrangement Agreement and Concurrent Financing are the result of a comprehensive arm's length negotiation process undertaken by Plata Latina with the assistance of its financial and legal advisors.
- **Other factors.** The Plata Latina Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of Plata Latina and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the Plata Latina Board considered the risks relating to the Arrangement, including those matters described under the heading "*Risk Factors*". The Plata Latina Board believes that the overall anticipated benefits of the Transaction to Plata Latina outweigh these risks.

The foregoing summary of the information and factors considered by the Plata Latina Board is not intended to be exhaustive but includes the material information and factors considered by the Plata Latina Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in connection with the Plata Latina Board's evaluation of the Arrangement, the Plata Latina Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

See "*The Transaction – Recommendation of the Plata Latina Board – Reasons for the Recommendation of the Plata Latina Board*" for more information.

What other approvals are required for the Transaction to be completed?

In addition to the approval of the Plata Latina Transaction Resolutions, the World Copper Arrangement Resolution must be approved, with or without variation, by the affirmative vote of at least (a) two-thirds of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting; (b) a simple majority of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting, excluding the votes cast by persons required to be excluded by MI 61-101; and (c) a simple majority of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting, excluding the votes cast by persons required to be excluded by and the corporate finance policies of the TSXV.

In addition, the Arrangement must be approved by the Court. The Court will be asked to make an order approving the Arrangement and to determine that the Arrangement is fair and reasonable to the World Copper Shareholders. World Copper will apply to the Court for this order if the World Copper Shareholders approve the World Copper Arrangement Resolution at the World Copper Meeting and the Plata Latina Shareholders approve the Plata Latina Transaction Resolutions at the Plata Latina Meeting.

What will happen to Plata Latina if the Transaction is completed?

If the Concurrent Financing and the Arrangement are completed, Plata Latina will acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt, and Zonia Holdings will become a wholly-owned subsidiary of Plata Latina. Subject to the prior approval of the TSXV, Plata Latina will also effect the Plata Latina Name Change and Consolidation.

What will happen to my Plata Latina Shares if the Transaction is completed?

Following the Consolidation, registered Plata Latina Shareholders will need to surrender their existing share certificates before they will be able to sell or transfer their Plata Latina Shares. Until surrendered to the Depositary, each share certificate or other evidence representing pre-Consolidation Plata Latina Shares will be deemed for all purposes to represent the number of post-Consolidation Plata Latina Shares to which the registered Plata Latina Shareholder is entitled as a result of the Consolidation. If the Consolidation is implemented, Intermediaries will be instructed to effect the Consolidation for non-registered (beneficial) Plata Latina Shareholders who beneficially own Plata Latina Shares indirectly through an Intermediary. However, such Intermediaries may have different procedures than registered Plata Latina Shareholders for processing the Consolidation. If you hold your Plata Latina Shares through an Intermediary and if you have any questions in this regard, you are encouraged to contact your Intermediary. See “*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Plata Latina Share Consolidation*”.

What will happen if the Plata Latina Transaction Resolutions are not approved or the Arrangement is not completed for any reason?

If the Plata Latina Transaction Resolutions are not approved or the Arrangement is not completed for any reason, the Arrangement Agreement may be terminated by one or both of the Parties. In certain circumstances, including if the Plata Latina Board authorizes Plata Latina to enter into a definitive agreement with respect to a Plata Latina Superior Proposal, Plata Latina may be required to pay to World Copper a termination amount of \$1,000,000. If the Arrangement Agreement is terminated by World Copper as a result of Plata Latina’s breach of its representations or warranties or failure to perform its covenants under the Arrangement Agreement, Plata Latina may be required to pay \$250,000 to World Copper as a reimbursement for the costs and expenses incurred by World Copper in connection with the Arrangement Agreement.

In certain other circumstances, including if the World Copper Board authorizes World Copper to enter into a definitive agreement with respect to a World Copper Superior Proposal, World Copper may be required to pay to Plata Latina a termination amount of \$1,000,000. If the Arrangement Agreement is terminated by Plata Latina as a result of World Copper’s breach of its representations or warranties or failure to perform its covenants under the Arrangement Agreement, World Copper may be required to pay \$250,000 to Plata Latina as a reimbursement for the costs and expenses incurred by Plata Latina in connection with the Arrangement Agreement.

See “*Summary of Material Agreements – The Arrangement Agreement – Termination*” for more information.

Should I send in my Consolidation Letter of Transmittal and certificates representing my Plata Latina Shares now?

All registered Plata Latina Shareholders should complete, sign and return the Consolidation Letter of Transmittal with accompanying certificate(s) representing their existing Plata Latina Shares to the Depositary as soon as possible. All deposits of Plata Latina Shares made under a Consolidation Letter of Transmittal are irrevocable; however, in the event the Consolidation is not consummated, the Depositary will promptly return any certificate(s) representing Plata Latina Shares that have been deposited.

The Consolidation Letter of Transmittal is only for use by registered Plata Latina Shareholders and is not to be used by non-registered (beneficial) Plata Latina Shareholders. Non-registered (beneficial) Plata Latina Shareholders should contact their Intermediary for instructions and assistance regarding this process.

See “*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Plata Latina Share Consolidation*”.

When will I receive the post-Consolidation Plata Latina Shares issuable pursuant to the Consolidation in exchange for my Plata Latina Shares?

You will receive post-Consolidation Plata Latina Shares in exchange for your Plata Latina Shares as soon as practicable after the Effective Date (assuming the Consolidation is approved) and your duly executed Consolidation Letter of Transmittal, certificate(s) representing existing Plata Latina Shares and other required documents are received by the Depositary. If you hold your Plata Latina Shares through an Intermediary, then you are not required to take any action and the new post-Consolidated Plata Latina Shares will be delivered to your Intermediary through the procedures in place for such purposes between CDS & Co. or similar entities and such Intermediaries. If you hold your Plata Latina Shares through an Intermediary, you should contact your Intermediary if you have questions regarding this process.

It is anticipated that the Arrangement, the Concurrent Financing, the Plata Latina Name Change and the Consolidation, will be completed in October 2025, assuming the World Copper Arrangement Resolution and the Plata Latina Resolutions are approved by the World Copper Shareholders and Plata Latina Shareholders, respectively, all Court and other approvals and clearances have been obtained and all conditions to completion of the Arrangement have been satisfied or waived.

See “*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Plata Latina Share Consolidation*”.

Does the World Copper Board support the Arrangement?

After careful consideration and the receipt of financial and legal advice and the unanimous recommendation of the World Copper Special Committee, and having considered the terms of the Arrangement and such other matters as it considered necessary and relevant, including the factors set out under the heading “*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*”, the World Copper Board unanimously determined (with conflicted directors abstaining) that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper Shareholders and unanimously recommends that World Copper Shareholders vote **FOR** the World Copper Arrangement Resolution.

See “*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*” for more information.

What are the benefits of the Arrangement to World Copper Shareholders?

In making its recommendation to World Copper Shareholders, the World Copper Board undertook a thorough review of, and considered the terms of, the Arrangement with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the World Copper Board:

- **Premium valuation of the Zonia Property with robust cash position to fund development and future growth.** The aggregate Cash Consideration and Share Consideration are valued at approximately \$22,000,000, which implies a value of approximately \$0.085 per World Copper Share, representing a premium of approximately 40% to the five-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025 (the last trading day prior to the execution of the Arrangement Agreement) and a premium of approximately 71% to the 20-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025. Additionally, it is a condition precedent to the completion of the Arrangement that Plata Latina complete the Concurrent Financing for gross proceeds of \$17,000,000, resulting in a well-capitalized vehicle to advance the Zonia Property.
- **The Arrangement is the result of a strategic review process and arm’s length negotiations.** Since November 20, 2024, World Copper has publicly conducted a strategic review process exploring potential transaction involving the Zonia Property. The World Copper Board has determined that the Arrangement, the terms of which are the result of an arm’s length negotiation process undertaken by World Copper, is fair and reasonable to the World Copper Shareholders and in the best interests of World Copper.
- **World Copper Fairness Opinion.** Evans & Evans has provided an opinion to the World Copper Special Committee with respect to the Arrangement to the effect that, subject to the assumptions, limitations and qualifications stated in the written opinion of Evans & Evans, (a) the consideration to be received by World Copper pursuant to the Arrangement is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. Evans & Evans delivered the World Copper Fairness Opinion on a fixed fee basis that is not dependent on the completion of the Arrangement or the conclusions of the World Copper Fairness Opinion.
- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina’s experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management’s experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential. Through their Plata Latina Consideration Shares, World Copper Shareholders will have the opportunity to participate in the potential re-rating as the Plata Latina management team executes its strategic vision for the Zonia Property.

- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.
- **Capital markets flexibility for World Copper Shareholders through a retained interest in World Copper.** World Copper Shareholders will have the opportunity to retain their interest in World Copper which, following the Arrangement, will be a vehicle with a clean balance sheet and cash and Plata Latina Shares. This structure allows World Copper to access further financing to acquire mineral properties, advance exploration and development of acquired mineral properties or serve as a viable “reverse takeover” candidate.
- **Cash Consideration addresses World Copper’s liquidity requirements.** Under the Arrangement Agreement, \$10,000,000 of the Cash Consideration has been allocated to satisfying in full the claims of all World Copper Group Creditors as of the Effective Date.
- **Other factors.** The World Copper Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of World Copper and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the World Copper Board considered the risks relating to the Arrangement, including those matters described under the heading “*Risk Factors*”. The World Copper Board believes that the overall anticipated benefits of the Arrangement to World Copper outweigh these risks.

The foregoing summary of the information and factors considered by the World Copper Board is not intended to be exhaustive but includes the material information and factors considered by the World Copper Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in connection with the World Copper Board’s evaluation of the Arrangement, the World Copper Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

What other approvals are required for the Transaction to be completed?

In addition to the approval of the World Copper Arrangement Resolution, each of the Plata Latina Transaction Resolutions must be approved, with or without variation. In order to become effective, the Plata Latina Financing Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by *Multilateral Instrument 61-101 – Protection of Minority Security Holders in Special Transactions*; and the Plata Latina Option Issuance Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by the rules and policies of the TSXV.

The Concurrent Financing is a condition to the completion of the Arrangement and the Plata Latina Option Issuance is an integral part of the Arrangement. Accordingly, if the Plata Latina Transaction Resolutions are not approved by Plata Latina Shareholders at the Plata Latina Meeting, the Arrangement cannot be completed in accordance with its terms.

The approval of the Plata Latina Name Change Resolution and the Plata Latina Share Consolidation Resolution are not conditions to the completion of the Arrangement and the Plata Latina Name Change and Consolidation will only be effected if, in addition to the prior approval of the TSXV, Plata Latina and World Copper proceed with the closing of the Arrangement.

In addition, the Arrangement must be approved by the Court. The Court will be asked to make an order approving the Arrangement and to determine that the Arrangement is fair and reasonable to the World Copper Shareholders. World Copper will apply to the Court for this order if the World Copper Shareholders approve the World Copper Arrangement Resolution at the World Copper Meeting and the Plata Latina Shareholders approve the Plata Latina Transaction Resolutions at the Plata Latina Meeting.

The Arrangement is also subject to the approval of the TSXV and certain other customary closing conditions described in this Circular. See “*The Transaction – Approvals Required for the Transaction*” for more information.

Have the World Copper Board received a fairness opinion regarding the consideration to be received by World Copper Shareholders?

Evans & Evans has provided an opinion to the World Copper Special Committee with respect to the Arrangement to the effect that, subject to the assumptions, limitations and qualifications stated in the written opinion of Evans & Evans, (a) the consideration to be received by World Copper pursuant to the Arrangement is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. Evans & Evans delivered the World Copper Fairness Opinion on a fixed fee basis that is not dependent on the completion of the Arrangement or the conclusions of the World Copper Fairness Opinion.

When will the Arrangement become effective?

The Arrangement will become effective at 12:01 a.m. (Vancouver time) on the Effective Date, which is expected to occur in October 2025, subject to the satisfaction or waiver of all the conditions precedent to the Arrangement, including the Final Order having been granted by the Court and receipt of all Regulatory Approvals.

The Transaction

Plata Latina and World Copper have entered into a definitive Arrangement Agreement pursuant to which they propose to carry out a series of transactions resulting in, among other things, the acquisition of World Copper’s 100%-owned Zonia Property in Arizona by Plata Latina. This series of transactions consists of the Arrangement, the Concurrent Financing, the Plata Latina Name Change and the Consolidation, each of which is described below and which are collectively referred to in this Circular as the Transaction.

See “*The Transaction*” for more information.

The Arrangement

Under the Arrangement Agreement, Plata Latina agreed to acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for aggregate consideration of \$10,500,000 in cash and such number of Plata Latina Shares as results in World Copper and World Copper Shareholders collectively owning approximately 31.3% of the issued and outstanding Plata Latina Shares, on a non-diluted basis, immediately following the closing of Concurrent Financing and the Effective Time. Zonia (USA), the holder of all of the mining rights comprising the Zonia Property, is a direct wholly-owned subsidiary of Zonia Holdings.

Under the Arrangement, World Copper Shareholders (other than Dissenting Shareholders) will receive, in exchange for each World Copper Share, one New World Copper Share and such number of Plata Latina Consideration Shares as is equal to the Exchange Ratio. As a result of the Arrangement, World Copper Shareholders will retain their respective percentage interests in World Copper in the form of New World Copper Shares and will receive an interest in Plata Latina based on the Exchange Ratio in the form of Plata Latina Consideration Shares. The final Exchange Ratio will only be determined on the Effective Date depending on, among other things, the number of Plata Latina Shares and World Copper Shares issued and outstanding as of the Effective Time, respectively. For illustrative purposes, based on the number of issued and outstanding Plata Latina Shares and World Copper Shares as of August 26, 2025 on a non-diluted basis (being 79,034,671 Plata

Latina Shares and 260,931,067 World Copper Shares, respectively), the Exchange Ratio would be equal to 0.3773 (on a pre-Consolidation basis).

Under the Arrangement, the holders of Specified World Copper Options will receive, in exchange for each Specified World Copper Option, one Plata Latina Replacement Option, that will entitle the holder thereof to receive, on payment of the exercise price thereof, such fraction of a Plata Latina Share as is equal to the Exchange Ratio. Under the Arrangement, holders of World Copper Warrants will receive, in exchange for each World Copper Warrant, one Plata Latina Replacement Warrant, that will entitle the holder thereof to receive, on payment of the exercise price thereof, such fraction of a Plata Latina Share as is equal to the Exchange Ratio. Under the Arrangement, the holders of World Copper Special Warrant will receive, in exchange for the World Copper Special Warrant, one New World Copper Share and such fraction of a Plata Latina Share as is equal to the Exchange Ratio in respect of each World Copper Share such holder would have been entitled to receive on exercise thereof as of the Effective Time as determined in accordance with the formula set forth in the World Copper Special Warrant Certificate.

Immediately following the Effective Time, World Copper is expected to remain a reporting issuer with assets of at least \$500,000 in cash and at least 5,000,000 Plata Latina Shares with no material known liabilities for which provision has not been made under the Arrangement Agreement and the Plan of Arrangement.

See “*The Transaction – The Arrangement*” for more information.

Bridge Loan

In connection with the Arrangement, Plata Latina and World Copper have entered into a definitive Bridge Loan Agreement pursuant to which Plata Latina has agreed to provide bridge financing to World Copper in an aggregate principal amount of up to \$600,000. The Bridge Loan Agreement contemplates advances made in two tranches. An initial advance of an aggregate principal amount of \$400,000 was made in connection with the execution of the Arrangement Agreement, and a subsequent advance of up to \$200,000 may be made at the election of World Copper within two Business Days following the satisfaction of certain conditions, including the mailing of this Circular and the prior approval of the TSXV. Advances under the Bridge Loan Agreement are intended primarily to maintain the Zonia Property, including payment of annual maintenance claim fees, as well as general working capital and corporate purposes.

See “*The Transaction – The Arrangement – Bridge Loan*” for more information.

The Concurrent Financing

In connection with the Arrangement, Plata Latina has entered into binding Subscription Agreements to effect the Concurrent Financing at a price of \$0.10 per Plata Latina Unit for gross aggregate proceeds of \$17,000,000. Each Plata Latina Unit consists of one Plata Latina Share and one-half of one Plata Latina Warrant. Each whole Plata Latina Warrant will entitle the holder thereof to acquire one Plata Latina Share at an exercise price of \$0.20 for a period of 18 months following closing of the Concurrent Financing.

Plata Latina proposes to issue an aggregate of 170,000,000 Plata Latina Shares pursuant to the Concurrent Financing. If the Arrangement and the Concurrent Financing are consummated, immediately thereafter, the 170,000,000 Plata Latina Shares issued pursuant to the Concurrent Financing are expected to represent approximately 46.9% of the issued and outstanding Plata Latina Shares (based on the number of issued and outstanding Plata Latina Shares as of August 26, 2025 on a non-diluted basis, being 79,034,671 Plata Latina Shares, and assuming 113,461,211 Plata Latina Shares are issued pursuant to the Arrangement).

The TSXV has conditionally accepted the Concurrent Financing. Closing of the Concurrent Financing is subject to final acceptance by the TSXV.

See “*The Transaction – The Concurrent Financing*” for more information.

The Plata Latina Name Change

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Name Change Resolution approving a change in Plata Latina's corporate name from "Plata Latina Minerals Corporation" to "Edge Copper Corporation", or such other name as the Plata Latina Board may in its sole discretion determine (subject to Regulatory Approval). The full text of the Plata Latina Name Change Resolution is set out in Appendix A to this Circular.

See "*The Transaction – The Plata Latina Name Change*".

The Plata Latina Share Consolidation

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Share Consolidation Resolution approving a consolidation of all of the issued and outstanding Plata Latina Shares on the basis of up to three pre-Consolidation Plata Latina Shares for one post-Consolidation Plata Latina Share. If the Consolidation occurs, Plata Latina expects that a new CUSIP/ISIN number for the post-Consolidation Plata Latina Shares will be obtained. The full text of the Plata Latina Share Consolidation Resolution is set out in Appendix A to this Circular.

See "*The Transaction – The Plata Latina Share Consolidation*" for more information.

Purpose of the Meetings

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, (a) the Plata Latina Financing Resolution approving the Concurrent Financing, (b) the Plata Latina Option Issuance Resolution approving the Plata Latina Option Issuance; (c) the Plata Latina Name Change Resolution; and (d) the Plata Latina Share Consolidation Resolution.

In order to become effective, the Plata Latina Financing Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by Multilateral Instrument 61-101 – *Protection of Minority Security Holders in Special Transactions*; and the Plata Latina Option Issuance Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by the rules and policies of the TSXV.

Closing of the Arrangement is conditional on, among other conditions set forth in the Arrangement Agreement, the consummation of the Concurrent Financing, and the Plata Latina Option Issuance is an integral part of the Arrangement. **Accordingly, if the Plata Latina Transaction Resolutions authorizing the Concurrent Financing and the Plata Latina Option Issuance are not approved by Plata Latina Shareholders in the manner required by the TSXV and applicable Laws, the Arrangement cannot proceed in accordance with its terms.**

In order to become effective, each of the Plata Latina Name Change Resolution and the Plata Latina Share Consolidation Resolution must be approved, with or without variation, by at least two-thirds of the votes cast by Plata Latina Shareholders present in person or represented by proxy at the Plata Latina Meeting. If Plata Latina Shareholders approve the Plata Latina Name Change Resolution and the Plata Latina Share Consolidation Resolution at the Plata Latina Meeting, and the Arrangement and the Concurrent Financing are consummated, Plata Latina intends, subject to the prior approval of the TSXV, to effect the Plata Latina Name Change and Consolidation immediately following the consummation of the Arrangement and the Concurrent Financing. Neither the Arrangement, the Plata Latina Option Issuance nor the Concurrent Financing is conditional on approval of the Plata Latina Name Change Resolution nor the Plata Latina Share Consolidation Resolution. If the Arrangement, the Plata Latina Option Issuance and the Concurrent Financing are not consummated, Plata Latina does not intend to proceed with the Plata Latina Name Change nor the Consolidation.

At the World Copper Meeting, World Copper Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the World Copper Arrangement Resolution, which will require the affirmative

vote of at least (a) two-thirds of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof; (b) a simple majority of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101; and (c) simple majority of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting, excluding the votes cast by persons required to be excluded by the corporate finance policies of the TSXV.

Recommendation of the Plata Latina Board

After careful consideration and the receipt of financial and legal advice, and having considered the terms of the Arrangement and the Concurrent Financing and such other matters as it considered necessary and relevant, including the factors set out under “*The Transaction – Recommendation of the Plata Latina Board – Reasons for the Recommendation of the Plata Latina Board*”, the Plata Latina Board unanimously determined that the entering into of the Arrangement Agreement is in the best interests of Plata Latina and (with conflicted directors abstaining) unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina Transaction Resolutions.

Reasons for the Recommendation of the Plata Latina Board

In making its recommendation to Plata Latina Shareholders, the Plata Latina Board undertook a thorough review of, and considered the terms of, the Arrangement and the Concurrent Financing with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the Plata Latina Board:

- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina’s experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management’s experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential.
- **A significant private land package presents a strong exploration opportunity for future value creation.** There are over 900 hectares of private land at the Zonia Property, which hosts a current resource that underpins 10 years of initial production. Limited historical exploration work has been completed which provides strong potential for resource expansion and larger-scale production. An additional sizable BLM land package nearby provides significant potential for a Phase 2 expansion in the future.
- **The Zonia Property is located in a Tier 1 jurisdiction.** Copper is a critical mineral for the United States and the Zonia Property is strategically located in Arizona, the largest producer of copper in the United States, ranked 7th globally on mining investment attractiveness, according to the Fraser Institute’s 2023 Annual Survey of Mining Companies. The pre-stripped, past-producing Zonia Property benefits from existing infrastructure and a streamlined permitting process, which only requires state permits for Phase 1.
- **The straightforward and low-risk Zonia Property will become a primary asset for Plata Latina.** The Zonia Property’s oxide porphyry deposit is attractive and straightforward with conventional open pit mining at a brownfield site via SX-EW, which is expected to reduce processing, minimizing complexity and emissions.
- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper

Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.

- **The Transaction is the result of comprehensive arm's length negotiations.** The terms of the Arrangement Agreement and Concurrent Financing are the result of a comprehensive arm's length negotiation process undertaken by Plata Latina with the assistance of its financial and legal advisors.
- **Other factors.** The Plata Latina Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of Plata Latina and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the Plata Latina Board considered the risks relating to the Arrangement, including those matters described under the heading "Risk Factors". The Plata Latina Board believes that the overall anticipated benefits of the Transaction to Plata Latina outweigh these risks.

The foregoing summary of the information and factors considered by the Plata Latina Board is not intended to be exhaustive but includes the material information and factors considered by the Plata Latina Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in connection with the Plata Latina's Board's evaluation of the Arrangement, the Plata Latina Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

In making its determinations and recommendations, the Plata Latina Board also observed that a number of procedural safeguards were in place and are present to permit the Plata Latina Board to represent the interests of Plata Latina, the Plata Latina Shareholders and Plata Latina's other stakeholders. These procedural safeguards include, among others:

- **Robust diligence process.** Plata Latina's management and its legal, tax and accounting, technical and other advisors conducted an extensive due diligence review and investigation of the business, operations, financial condition, properties, liabilities and future prospects of World Copper, including site visits to the Zonia Property.
- **Ability to respond to superior proposals.** Notwithstanding the limitations contained in the Arrangement Agreement on Plata Latina's ability to solicit interest from third parties, the Arrangement Agreement allows Plata Latina to engage in discussions or negotiations regarding any unsolicited Plata Latina Acquisition Proposal received prior to the Plata Latina Meeting that constitutes or that may reasonably be expected to lead to a Plata Latina Superior Proposal.
- **The Termination Payment is reasonable.** The amount of the Plata Latina Termination Amount, being \$1,000,000 payable under certain circumstances described under "*Summary of Material Agreements – The Arrangement Agreement – Termination – Plata Latina Termination Amount*", is reasonable.
- **The Transaction requires the approval of Plata Latina Shareholders.** In order to become effective, the Plata Latina Transaction Resolutions must each be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101 and the rules and policies of the TSXV, as applicable.

See "*The Transaction – Recommendation of the Plata Latina Board*" for more information.

Recommendation of the World Copper Special Committee

After careful consideration and the receipt of financial advice, including receipt of the World Copper Fairness Opinion, and having considered the terms of the Arrangement and such other matters as it considered necessary and relevant, including the factors set out below under "*The Transaction – World Copper Fairness Opinion*" the World Copper Special Committee unanimously determined that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper and unanimously recommended to the World

Copper Board that the World Copper Board approve the Arrangement Agreement and the Arrangement and recommend that World Copper Shareholders vote **FOR** the World Copper Arrangement Resolution.

Recommendation of the World Copper Board

After careful consideration and the receipt of financial and legal advice and the unanimous recommendation of the World Copper Special Committee, and having considered the terms of the Arrangement and such other matters as it considered necessary and relevant, including the factors set out set out below under “*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*”, the World Copper Board unanimously determined (with conflicted directors abstaining) that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper and unanimously recommends that World Copper Shareholders vote **FOR** the World Copper Arrangement Resolution.

Reasons for the Recommendation of the World Copper Board

In making its recommendation to World Copper Shareholders, the World Copper Board undertook a thorough review of, and considered the terms of, the Arrangement with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the World Copper Board:

- **Premium valuation of the Zonia Property with robust cash position to fund development and future growth.** The aggregate Cash Consideration and Share Consideration are valued at approximately \$22,000,000, which implies a value of approximately \$0.085 per World Copper Share, representing a premium of approximately 40% to the five-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025 (the last trading day prior to the execution of the Arrangement Agreement) and a premium of approximately 71% to the 20-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025. Additionally, it is a condition precedent to the completion of the Arrangement that Plata Latina complete the Concurrent Financing for gross proceeds of \$17,000,000, resulting in a well-capitalized vehicle to advance the Zonia Property.
- **The Arrangement is the result of a strategic review process and arm’s length negotiations.** Since November 20, 2024, World Copper has publicly conducted a strategic review process exploring potential transaction involving the Zonia Property. The World Copper Board has determined that the Arrangement, the terms of which are the result of an arm’s length negotiation process undertaken by World Copper, is fair and reasonable to the World Copper Shareholders and in the best interests of World Copper.
- **World Copper Fairness Opinion.** Evans & Evans has provided an opinion to the World Copper Special Committee with respect to the Arrangement to the effect that, subject to the assumptions, limitations and qualifications stated in the written opinion of Evans & Evans, (a) the consideration to be received by World Copper pursuant to the Arrangement is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. Evans & Evans delivered the World Copper Fairness Opinion on a fixed fee basis that is not dependent on the completion of the Arrangement or the conclusions of the World Copper Fairness Opinion.
- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina’s experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management’s experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential. Through their Plata Latina Consideration Shares, World Copper Shareholders will have the opportunity to participate in the potential re-rating as the Plata Latina management team executes its strategic vision for the Zonia Property.

- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.
- **Capital markets flexibility for World Copper Shareholders through a retained interest in World Copper.** World Copper Shareholders will have the opportunity to retain their interest in World Copper which, following the Arrangement, will be a vehicle with a clean balance sheet and cash and Plata Latina Shares. This structure allows World Copper to access further financing to acquire mineral properties, advance exploration and development of acquired mineral properties or serve as a viable “reverse takeover” candidate.
- **Cash Consideration addresses World Copper’s liquidity requirements.** Under the Arrangement Agreement, \$10,000,000 of the Cash Consideration has been allocated to satisfying in full the claims of all World Copper Group Creditors as of the Effective Date.
- **Other factors.** The World Copper Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of World Copper and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the World Copper Board considered the risks relating to the Arrangement, including those matters described under the heading “*Risk Factors*”. The World Copper Board believes that the overall anticipated benefits of the Arrangement to World Copper outweigh these risks.

The foregoing summary of the information and factors considered by the World Copper Board is not intended to be exhaustive but includes the material information and factors considered by the World Copper Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in connection with the World Copper Board’s evaluation of the Arrangement, the World Copper Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

In making its determinations and recommendations, the World Copper Board also observed that a number of procedural safeguards were in place and are present to permit the World Copper Board to represent the interests of World Copper, the World Copper Shareholders and World Copper Group Creditors. These procedural safeguards include, among others:

- **Ability to respond to superior proposals.** Notwithstanding the limitations contained in the Arrangement Agreement on World Copper’s ability to solicit interest from third parties, the Arrangement Agreement allows World Copper to engage in discussions or negotiations regarding any unsolicited World Copper Acquisition Proposal received prior to the World Copper Meeting that constitutes or that may reasonably be expected to lead to a World Copper Superior Proposal.
- **The Termination Payment is reasonable.** The amount of the World Copper Termination Amount, being \$1,000,000 payable under certain circumstances described under “*Summary of Material Agreements – The Arrangement Agreement – Termination – Termination Payments*”, is reasonable.
- **The Arrangement requires the approval of World Copper Shareholders.** In order to become effective, the World Copper Arrangement Resolution must be approved, with or without variation, by (a) two-thirds of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof, and (b) a simple majority of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101.

- **Reciprocal terms of the Arrangement Agreement.** Key terms of the Arrangement Agreement, including non-solicitation covenants, termination fee amounts and triggers, and expense reimbursement amounts and triggers, are reciprocal between World Copper and Plata Latina.
- **Court approval.** The Arrangement must be approved by the Court, which will consider, among other things, the substantive and procedural fairness and the rights and interests of every person affected.
- **Dissent Rights.** Dissent Rights are available to registered World Copper Shareholders with respect to the Arrangement. See “*The Transaction – Dissent Rights for World Copper Shareholders*”.

See “*The Transaction – Recommendation of the World Copper Board*” for more information.

World Copper Fairness Opinion

In deciding to approve the Arrangement Agreement and the terms of the Arrangement, the World Copper Board considered, among other things, the World Copper Fairness Opinion prepared for the Special Committee. Evans & Evans delivered the World Copper Fairness Opinion, which concludes that, as of July 16, 2025, based upon and subject to the assumptions, limitations and qualifications set out therein, (a) the Consideration is fair, from a financial point of view, to World Copper; and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders.

Neither Evans & Evans nor any of its affiliates is an insider, associate or affiliate (as such terms are defined in the *Securities Act* (British Columbia)) of World Copper or Plata Latina or any of their respective associates or affiliates. Evans & Evans was paid a fixed fee upon delivery of the World Copper Fairness Opinion to the World Copper Board, which was not contingent upon completion of the Arrangement.

Evans & Evans has consented to the inclusion in this Circular of the World Copper Fairness Opinion, together with the summary thereof herein, and other information relating to the World Copper Fairness Opinion. The World Copper Fairness Opinion was provided to the World Copper Special Committee for their exclusive use only in considering the Arrangement and may not be relied upon by any other person or for any other purpose or published or disclosed to any other person, relied upon by any other person or used for any other purpose without Evans & Evans's written consent.

This summary of the World Copper Fairness Opinion is qualified in its entirety by reference to the full text of the World Copper Fairness Opinion, which is attached to this Circular as Appendix F and which sets forth the assumptions made, matters considered and limitations on the review undertaken in connection with the opinion.

See “*The Transaction – The Arrangement – Overview of the Arrangement*” for more information.

Court Approval

The Arrangement requires approval by the Court under Division 5 of Part 9 of the BCBCA. Prior to mailing this Circular, World Copper filed a Petition with the Court for approval of the Arrangement and obtained the Interim Order giving directions for the convening of the World Copper Meeting, including with respect to the Dissent Rights and other procedural matters. The Court hearing of the application for the Final Order approving the Arrangement is expected to take place on or about October 23, 2025 at 9:45 a.m. (Vancouver time), or as soon thereafter as the Final Order Hearing can be heard or at such other date and time as World Copper and Plata Latina may determine or the Court may direct, at 800 Smithe Street, Vancouver, British Columbia, subject to receipt of the World Copper Shareholder Approval and the Plata Latina Shareholder Approval. Copies of the Interim Order and the Notice of Petition are attached as Appendix C and Appendix D, respectively, to this Circular.

At the Final Order Hearing, the Court will consider, among other things, the fairness and reasonableness of the terms and conditions of the Arrangement and the rights and interests of every person affected. The Court may approve the Arrangement in any manner the Court may direct, subject to compliance with such terms and conditions, if any, as the Court deems fit. There can be no assurance that the Court will approve the Arrangement. At the Final Order Hearing, the Court will be informed that World Copper and Plata Latina intend to rely on the Section 3(a)(10) Exemption for the issuance and exchange of the New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options and Plata Latina Replacement Warrants to be issued and exchanged pursuant to the Arrangement, subject to and conditioned upon the Court's determination that the Arrangement is substantively and procedurally fair and reasonable to World Copper Securityholders, as applicable, to whom such Distribution Securities will be issued.

Pursuant to the Interim Order, any holder of World Copper Shares, Specified World Copper Options, World Copper Warrants, World Copper Special Warrants, certain specified World Copper Group Creditors and any other interested person will have the right to appear and make submissions at the Final Order Hearing subject to such party filing with the Court and serving upon World Copper and upon counsel to World Copper, a Response to Petition and any supporting materials, including such party's address for service, in the manner required by the rules of the Court and the Interim Order, as more particularly described in the Notice of Petition attached as Appendix D to this Circular.

In accordance with the Interim Order, the Response to Petition and supporting materials must be delivered to World Copper's counsel, Lawson Lundell LLP, at Suite 1600 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, Canada V6C 3L2, (Attention: Marko Vesely, K.C.), and Lotz & Company, at 320 Granville Street, Suite 880, Vancouver, British Columbia, Canada V6C 1S9 (Attention: Jonathan Lotz), as soon as reasonably practicable, and, in any event, not later than 4:00 p.m. (Vancouver time) on October 20, 2025. If the Final Order Hearing is postponed, adjourned or rescheduled, then, subject to further direction of the Court, only those persons having previously served and filed a Response to Petition in compliance with the rules of the Court and the Interim Order will be given notice of the new date of the Final Order Hearing.

Each of the disposition of all of the issued and outstanding Zonia Shares by World Copper and the acquisition of all of the issued and outstanding Zonia Shares by Plata Latina pursuant to the Arrangement has been conditionally accepted by the TSXV, subject only to customary conditions. The Parties are not permitted to close the Arrangement until they have received written confirmation from the TSXV that the TSXV has no objection to closing.

A transaction fee of 4.0% of the transaction value is also payable in cash by World Copper to Origin upon completion of the Transaction, which fee is subject to TSXV review and acceptance.

In addition, the issuance of Plata Latina Replacement Options to the holders of Specified World Copper Options constitutes "security-based compensation" for purposes of TSXV Policy 4.4 – *Security-Based Compensation*. Accordingly, such issuance is subject to disinterested shareholder approval in accordance with section 6.1 of TSXV Policy 4.4 – *Security-Based Compensation*. At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Option Issuance Resolution, which provides for the approval of the issuance of Plata Latina Replacement Options to the holders of Specified World Copper Options pursuant to the Arrangement.

The Concurrent Financing

The Concurrent Financing is subject to the approval of the TSXV in accordance with TSXV Policy 4.1 – *Private Placements*. The Concurrent Financing has been conditionally accepted by the TSXV, subject only to customary

Procedure for Exchange of Securities under the Transaction

The Arrangement

Enclosed with this Circular is the Letter of Transmittal which, when properly completed and duly executed and returned to the Depositary together with the share certificate(s) representing World Copper Shares and such other documents as the Depositary may require, will enable each registered World Copper Shareholder to obtain the New World Copper Shares and the Plata Latina Consideration Shares to which such World Copper Shareholder is ultimately entitled under the Arrangement.

The Letter of Transmittal sets out the details to be followed by each registered World Copper Shareholder for delivering the share certificate(s) held by such registered World Copper Shareholder to the Depositary. In order to receive certificates or DRS Advices representing the New World Copper Shares and Plata Latina Consideration Shares which the registered World Copper Shareholder is entitled to receive on completion of the Arrangement, registered World Copper Shareholders must deposit with the Depositary (at the address specified on the last page of the Letter of Transmittal) the applicable validly completed and duly signed Letter of Transmittal together with the share certificate(s) representing the registered World Copper Shareholder's World Copper Shares and such other documents and instruments as World Copper, Plata Latina or the Depositary may reasonably require.

No fractional Plata Latina Consideration Shares are issuable pursuant to the Plan of Arrangement. Where the aggregate number of Plata Latina Consideration Shares to be issued to a World Copper Shareholder as consideration under the Arrangement would result in a fraction of a Plata Latina Consideration Share being issuable, the number of Plata Latina Consideration Shares to be received by such World Copper Shareholder will be rounded down to the nearest whole Plata Latina Consideration Share (without any payment or compensation in lieu of such fractional Plata Latina Consideration Share).

In the event any certificate which immediately prior to the Effective Time represented one or more outstanding World Copper Shares or World Copper Special Warrants that were exchanged pursuant to the Plan of Arrangement has been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such certificate to be lost, stolen or destroyed, the Depositary will issue in exchange for such lost, stolen or destroyed certificate, the applicable New World Copper Shares and Plata Latina Consideration Shares, in accordance with such holder's Letter of Transmittal. When authorizing such New World Copper Shares and Plata Latina Consideration Shares in exchange for any lost, stolen or destroyed certificate, the Person to whom such World Copper Shares and Plata Latina Consideration Shares are to be delivered shall as a condition precedent to the delivery thereof, give a bond satisfactory to Plata Latina, World Copper and the Depositary (acting reasonably) in such sum as Plata Latina and World Copper may direct (acting reasonably), or otherwise indemnify Plata Latina and World Copper in a manner satisfactory to Plata Latina and World Copper, acting reasonably, against any claim that may be made against Plata Latina, World Copper and the Depositary with respect to the certificate alleged to have been lost, stolen or destroyed.

After the Effective Time, certificates formerly representing World Copper Warrants will be deemed to represent Plata Latina Replacement Warrants, and certificates representing Specified World Copper Options will be deemed to represent Plata Latina Replacement Options, in accordance with the terms of the Plan of Arrangement.

If the Arrangement is not completed, the Letter of Transmittal will be of no effect and the Depositary will return all deposited share certificate(s) to the registered World Copper Shareholder as soon as possible. The Letter of Transmittal is also available on World Copper's issuer profile on SEDAR+ at www.sedarplus.ca.

Non-registered (beneficial) World Copper Shareholders whose World Copper Shares are registered in the name of an Intermediary must contact their nominee to deposit their World Copper Shares.

See "*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Arrangement*" for more information.

The Plata Latina Share Consolidation

At the time of sending this Circular to each Plata Latina Shareholder, Plata Latina is also sending the Consolidation Letter of Transmittal to each registered Plata Latina Shareholder. The Consolidation Letter of Transmittal is only for use by registered Plata Latina Shareholders and is not to be used by non-registered (beneficial) Plata Latina Shareholders. Non-registered (beneficial) Plata Latina Shareholders should contact their Intermediary for instructions and assistance regarding this process. The Consolidation Letter of Transmittal contains instructions on how to surrender share certificate(s) representing pre-Consolidation Plata Latina Shares to the Depositary. Registered Plata Latina Shareholders can request additional copies of the Consolidation Letter of Transmittal by contacting the Depositary. The Consolidation Letter of Transmittal is also available under Plata Latina's issuer profile on SEDAR+ at www.sedarplus.ca.

In no event shall any Plata Latina Shareholder be entitled to a fractional post-Consolidation Plata Latina Share. Where the aggregate number of post-Consolidation Plata Latina Shares to be issued to a registered Plata Latina Shareholder under the Consolidation would result in a fraction of a post-Consolidation Plata Latina Share being issuable, the number of post-Consolidation Plata Latina Share to be received by such registered Plata Latina Shareholder shall be rounded down to the nearest whole post-Consolidation Plata Latina Share and any fractional post-Consolidation Plata Latina Shares arising from the Consolidation of the Plata Latina Shares will be deemed to have been tendered by its registered owner to Plata Latina for cancellation for no consideration.

Until surrendered to the Depositary, each share certificate or other evidence representing pre-Consolidation Plata Latina Shares will be deemed for all purposes to represent the number of post-Consolidation Plata Latina Shares to which the registered Plata Latina Shareholder is entitled as a result of the Consolidation.

If a share certificate representing Plata Latina Shares has been lost or destroyed, the Consolidation Letter of Transmittal should be completed as fully as possible and forwarded by the registered Plata Latina Shareholder to the Depositary together with correspondence stating that the original share certificate representing the Plata Latina Shares has been lost. The Depositary will respond with replacement instructions (which may include bonding requirements).

See “*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Plata Latina Share Consolidation*” for more information.

Dissent Rights for World Copper Shareholders

The description of Dissent Rights of registered World Copper Shareholders in this Circular is not a comprehensive statement of the procedures to be followed by a registered World Copper Shareholder wishing to exercise Dissent Rights and is qualified in its entirety by reference to the full text of the Plan of Arrangement, a copy of which is attached to this Circular as Appendix E, the full text of the Interim Order, which is attached to this Circular as Appendix C, and the provisions of Part 8, Division 2 of the BCBCA, which is attached to this Circular as Appendix K.

Registered World Copper Shareholders who intend to exercise Dissent Rights should carefully consider and comply with the provisions of Part 8, Division 2 of the BCBCA, as modified or supplemented by the Interim Order, the Plan of Arrangement and any other order of the Court. The statutory provisions covering the right to exercise Dissent Rights are technical and complex. Failure to strictly comply with the requirements set forth in Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court) may result in the loss of Dissent Rights. It is recommended that you seek independent legal advice if you wish to exercise Dissent Rights.

The Court hearing the Petition for the Final Order has the discretion to alter the Dissent Rights described herein based on the evidence presented at such hearing. Pursuant to the Interim Order, each registered World Copper Shareholder as at the close of business on the World Copper Record Date may exercise Dissent Rights with respect to the World Copper Arrangement Resolution, provided that such registered World Copper Shareholder:

- (a) is the registered holder of the World Copper Shares in respect of which such Dissent Rights are sought to be exercised as of the World Copper Record Date;
- (b) is a registered World Copper Shareholder as of the deadline for providing the Notice of Dissent as contemplated below;
- (c) has strictly complied with the procedures for exercising Dissent Rights set forth in Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court); and
- (d) has not withdrawn such election to exercise Dissent Rights prior to the Effective Time.

A registered World Copper Shareholder wishing to exercise Dissent Rights must exercise such rights with respect to all World Copper Shares in which such World Copper Shareholder owns a beneficial interest and must provide a Notice of Dissent to World Copper, which Notice of Dissent must be received by World Copper no later than 5:00 p.m. on October 14, 2025 (or on the Business Day that is two Business immediately preceding any adjournment or postponement of the World Copper Meeting) and must otherwise comply with the requirements set forth in Part 8, Division 2 of the BCBCA.

Non-registered (beneficial) World Copper Shareholders should be aware that only registered World Copper Shareholders as at the close of business on the World Copper Record Date are entitled to exercise Dissent Rights. Accordingly, a non-registered (beneficial) World Copper Shareholder who wishes to exercise Dissent Rights must either (a) make arrangements for such beneficially owned World Copper Shares to be registered in the name of the World Copper Shareholder prior to the time the Notice of Dissent is required to be received by World Copper; or (b) make arrangements for the registered World Copper Shareholder of such beneficially owned World Copper Shares to exercise Dissent Rights on behalf of such non-registered (beneficial) holder.

Pursuant to the Interim Order and the Plan of Arrangement, each Dissenting Shareholder who validly exercises Dissent Rights in respect of the World Copper Arrangement Resolution in strict compliance with Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court) and:

- is ultimately determined to be entitled to be to be paid the fair value of the World Copper Shares held by such Dissenting Shareholder for which Dissent Rights have been validly exercised, such Dissenting Shareholder: (a) shall be deemed not to have participated in the Arrangement; (b) shall be entitled to be paid the fair value of such World Copper Shares by World Copper (less applicable withholdings required by section 5.4 of the Plan of Arrangement), which fair value, notwithstanding anything to the contrary contained in the BCBCA, shall be determined as of the close of business on the day immediately preceding the date on which the World Copper Arrangement Resolution was adopted; and (c) shall not be entitled to any other payment or consideration, including any payment that would be payable under the Arrangement had such Dissenting Shareholder not exercised Dissent Rights in respect of such Dissent Notice Shares; or
- is ultimately determined not to be entitled, for any reason, to be paid fair value for such World Copper Shares held by such Dissenting Shareholder, such Dissenting Shareholder shall be deemed to have participated in the Arrangement, as of the Effective Time, on the same basis as a non-dissenting registered World Copper Shareholder, and shall be entitled to receive only the New World Copper Shares and Plata Latina Consideration Shares pursuant to Section 3.1(e)(i) of the Plan of Arrangement that such Dissenting Shareholder would have received pursuant to the Arrangement if such Dissenting Shareholder had not exercised its Dissent Rights.

In no circumstances shall Plata Latina, World Copper or any other Person be required to recognize any Dissenting Shareholder as holders of any World Copper Shares for which Dissent Rights have been validly exercised after the Effective Time, and the names of such Dissenting Shareholders shall be deleted from the central securities register as holders of such World Copper Shares.

See “*The Transaction – Dissent Rights for World Copper Shareholders*” for more information.

Risk Factors

Plata Latina Shareholders that vote in favour of the Plata Latina Transaction Resolutions are making an investment decision with respect to the business of the Zonia Property, and World Copper Shareholders that vote in favour of the World Copper Arrangement Resolution are making an investment decision with respect to Plata Latina Shares. There are certain risks which should be carefully considered by Plata Latina Shareholders and World Copper Shareholders, as applicable, in connection with such decisions, including risks associated with the completion of the Arrangement. Some of these risks include that the Arrangement Agreement may be terminated in certain circumstances, in which case the market price for World Copper Shares or Plata Latina Shares may be adversely affected. In addition, the completion of the Arrangement is subject to a number of conditions precedent, some of which are outside the control of Plata Latina and World Copper. See “*Risk Factors*” and “*Summary of Material Agreements – The Arrangement Agreement – Conditions*”.

Canadian Securities Law Matters

The distribution of the Distribution Securities to World Copper Shareholders in exchange for their World Copper Shares, Specified World Copper Options, World Copper Warrants and World Copper Special Warrants, as applicable, pursuant to the Arrangement will constitute a distribution of securities which is exempt from the prospectus requirements of applicable Canadian Securities Laws. Other than the Trust Shares to be retained by World Copper, the Plata Latina Consideration Shares received by World Copper Shareholders pursuant to the Arrangement will not be legended and may be resold through registered dealers in each of the provinces of Canada, provided that (a) the trade is not a “control distribution” as defined in NI 45-102; (b) no unusual effort is made to prepare the market or to create a demand for Plata Latina Consideration Shares; (c) no extraordinary commission or consideration is paid to a person or company in respect of such sale; and (d) if the selling securityholder is an insider or officer of Plata Latina, the selling securityholder has no reasonable grounds to believe that the Plata Latina is in default of applicable Canadian Securities Laws.

See “*Certain Canadian and U.S. Securities Law Matters*” for more information.

United States Securities Law Matters

The Distribution Securities issuable to World Copper Securityholders in exchange for their World Copper Shares, Specified World Copper Options, World Copper Warrants and/or World Copper Special Warrants, as applicable, under the Arrangement have not been and will not be registered under the U.S. Securities Act or the Securities Laws of any state of the United States, and such securities will be issued in reliance upon the Section 3(a)(10) Exemption and pursuant to similar exemptions from applicable Securities Laws of any applicable state of the United States. The Section 3(a)(10) Exemption exempts securities issued in specified exchange transactions from the registration requirement under the U.S. Securities Act where, among other things, the fairness of the terms and conditions of the issuance and exchange of such securities have been approved by a court or governmental authority expressly authorized by Law to grant such approval, after a hearing upon the fairness of the terms and conditions of the exchange at which all Persons to whom the securities are proposed to be issued have the right to appear and receive adequate and timely notice thereof. The Court is authorized to conduct a hearing at which the fairness of the terms and conditions of the Arrangement will be considered. Accordingly, subject to the additional requirements of the Section 3(a)(10) Exemption, should the Court make the Final Order approving the Arrangement, the New World Copper Shares, the Plata Latina Consideration Shares, the Plata Latina Replacement Options and the Plata Latina Replacement Warrants issued pursuant to the Arrangement are expected to be exempt from registration under the U.S. Securities Act. See “*Notice to Securityholders in the*

United States". The Court granted the Interim Order on September 12, 2025 and, subject to the approval of the Arrangement by World Copper Shareholders and the approval of the Plata Latina Transaction Resolutions by Plata Latina Shareholders, the Final Order Hearing in respect of the Arrangement is scheduled to be held, as described in this Circular, on October 23, 2025 by the Court. See "*The Transaction – Approvals Required for the Transaction – Court Approval*".

The New World Copper Shares, the Plata Latina Consideration Shares, the Plata Latina Replacement Options and the Plata Latina Replacement Warrants to be received by World Copper Securityholders, as applicable, upon completion of the Arrangement may be resold without restriction in the United States, except in respect of resales by persons who are "affiliates" (within the meaning of Rule 144) of the issuer at the time of such resale or who have been affiliates of the issuer within 90 days before the Effective Time of the Arrangement. See "*The Transaction – Certain Canadian and U.S. Securities Law Matters – Resales of Distribution Securities after the completion of the Arrangement*".

The Section 3(a)(10) Exemption does not exempt the issuance of securities issued upon the exercise of previously issued securities or securities issued pursuant to the Section 3(a)(10) Exemption. Therefore, the Plata Latina Shares issuable upon the exercise of the Plata Latina Replacement Options or Plata Latina Replacement Warrants, as applicable, following the Effective Date may not be issued in reliance upon the Section 3(a)(10) Exemption and such Plata Latina Replacement Options or Plata Latina Replacement Warrants may be exercised only pursuant to an available exemption or exclusion from the registration requirements of the U.S. Securities Act and applicable U.S. state securities Laws. Prior to the issuance of Plata Latina Shares pursuant to any such exercise, Plata Latina may require the delivery of an opinion of counsel or other evidence reasonably satisfactory to Plata Latina to the effect that the issuance of such securities does not require registration under the U.S. Securities Act or applicable U.S. state securities Laws. Any Plata Latina Shares issued upon exercise of the Plata Latina Replacement Options or Plata Latina Replacement Warrants pursuant to an exemption from the registration requirements of the U.S. Securities Act will be "restricted securities" as defined in Rule 144 and will be subject to restrictions on resales imposed by the U.S. Securities Act. See "*The Transaction – Certain Canadian and U.S. Securities Law Matters – Resales of Distribution Securities after the completion of the Arrangement*".

See "*The Transaction – Certain Canadian and U.S. Securities Law Matters*" for more information.

MI 61-101 Requirements

The Arrangement constitutes a "business combination" for purposes of MI 61-101. Pursuant to MI 61-101, if a transaction is a business combination, a formal valuation and minority approval of the Arrangement may be required.

The Arrangement does not constitute a business combination for which a formal valuation would be required under MI 61-101. In addition, where an issuer is listed or quoted on the TSXV and no other stock exchange outside of Canada and the United States, MI 61-101 provides an exemption to the general requirement to obtain a formal valuation for a transaction that is a business combination. No formal valuations of World Copper have been made in the last 24 months, to the knowledge of World Copper, the World Copper Board or World Copper management.

MI 61-101 requires that World Copper obtained minority approval for the Arrangement. Accordingly, the World Copper Arrangement Resolution requires the approval of a simple majority of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof, excluding votes cast in respect of World Copper Shares by "related parties" who receive a "collateral benefit" as a consequence of the Arrangement (as such terms are defined in MI 61-101). Excluded World Copper Shareholders may still vote on the World Copper Arrangement Resolution for the purpose of obtaining the approval of two-thirds of the votes cast as required by the BCBCA.

The Concurrent Financing constitutes a "related party transaction" for purposes of MI 61-101. Accordingly, the Plata Latina Financing Resolution requires the approval of a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding votes cast in respect of Plata Latina Shares by "related parties" and their respective joint actors who are parties to Subscription Agreements (as such terms are defined in MI 61-101).

NOTICE TO SECURITYHOLDERS IN THE UNITED STATES

THE NEW WORLD COPPER SHARES, THE PLATA LATINA CONSIDERATION SHARES, THE PLATA LATINA REPLACEMENT OPTIONS AND THE PLATA LATINA REPLACEMENT WARRANTS TO BE ISSUED TO WORLD COPPER SECURITYHOLDERS PURSUANT TO THE ARRANGEMENT HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION (THE “SEC”) OR THE SECURITIES REGULATORY AUTHORITIES OF ANY STATE OF THE UNITED STATES, NOR HAS THE SEC OR THE SECURITIES AUTHORITIES OF ANY STATE IN THE UNITED STATES PASSED ON THE ADEQUACY OR ACCURACY OF THIS CIRCULAR. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

The New World Copper Shares, the Plata Latina Consideration Shares, the Plata Latina Replacement Options and the Plata Latina Replacement Warrants to be issued as consideration to World Copper Securityholders, as applicable, under the Arrangement have not been and will not be registered under the U.S. Securities Act or the Securities Laws of any state of the United States and will be issued in reliance on an exemption from the registration requirements of the U.S. Securities Act provided by Section 3(a)(10) thereof (the “Section 3(a)(10) Exemption”), on the basis of, among other things, the approval of the Court and compliance with or exemption from the registration or qualification requirements of state or “blue sky” Securities Laws. See *“The Transaction – Certain Canadian and U.S. Securities Law Matters – Resales of Distribution Securities after the completion of the Arrangement”*.

The Section 3(a)(10) Exemption exempts securities issued in specified exchange transactions from the registration requirements of the U.S. Securities Act where, among other things, the fairness of the terms and conditions of the issuance and exchange of such securities have been approved by a court or governmental authority expressly authorized by Law to grant such approval, after a hearing upon the fairness of the terms and conditions of the exchange at which all Persons to whom the securities are proposed to be issued have the right to appear and receive adequate and timely notice thereof. The Court is authorized to conduct a hearing at which the fairness of the terms and conditions of the Arrangement will be considered. Accordingly, subject to the additional requirements of Section 3(a)(10) of the U.S. Securities Act, should the Court enter the Final Order approving the Arrangement, the Distribution Securities issued and exchanged pursuant to the Arrangement are expected to be exempt from registration under the U.S. Securities Act. The Court granted the Interim Order on September 12, 2025 and, subject to the approval of the World Copper Arrangement Resolution by World Copper Shareholders and the approval of the Plata Latina Transaction Resolutions by Plata Latina Shareholders, the Final Order Hearing in respect of the Arrangement is scheduled to be held, as described in this Circular, on October 23, 2025 by the Court. See *“The Transaction – Approvals Required for the Transaction – Court Approval”*.

The Section 3(a)(10) Exemption does not exempt the issuance of securities issued upon the exercise of previously issued securities or securities issued pursuant to the Section 3(a)(10) Exemption. Therefore, the Plata Latina Shares issuable upon the exercise of the Plata Latina Replacement Options or the Plata Latina Replacement Warrants following the Effective Date may not be issued in reliance upon the Section 3(a)(10) Exemption and such Plata Latina Replacement Options or the Plata Latina Replacement Warrants may be exercised only pursuant to an available exemption or exclusion from the registration requirements of the U.S. Securities Act and applicable state securities Laws. Prior to the issuance of Plata Latina Shares pursuant to any such exercise, Plata Latina may require the delivery of an opinion of counsel or other evidence reasonably satisfactory to Plata Latina to the effect that the issuance of such securities does not require registration under the U.S. Securities Act or applicable state securities Laws. Any Plata Latina Shares issued upon exercise of the Plata Latina Replacement Options or the Plata Latina Replacement Warrants pursuant to an exemption from the registration requirements of the U.S. Securities Act will be “restricted securities” as defined in Rule 144 and will be subject to restrictions on resales imposed by the U.S. Securities Act. See *“The Transaction – Certain Canadian and U.S. Securities Law Matters – Resales of Distribution Securities after the completion of the Arrangement”*.

Each of World Copper and Plata Latina is a company existing under the Laws of British Columbia. The solicitation of proxies and the transactions contemplated in this Circular involve securities of reporting issuers under Canadian Securities Laws and are being effected in accordance with Canadian corporate Laws, as applicable, and Canadian Securities Laws. The proxy solicitation rules under Section 14(a) of the U.S. Exchange Act, based on exemptions from the proxy solicitation rules for “foreign private issuers” (as such term is defined in Rule 3b-4 under the U.S. Exchange Act), are not applicable to Plata Latina or to World Copper or to this solicitation. Plata

Latina Shareholders and World Copper Securityholders should be aware that disclosure requirements under Canadian Securities Laws may be different from disclosure requirements under U.S. Securities Laws.

Information concerning Plata Latina and World Copper has been prepared in accordance with the requirements of Canadian Securities Laws, which differ from the requirements of U.S. Securities Laws applicable to U.S. companies subject to the reporting and disclosure requirements of the SEC. Unless otherwise indicated, all mineral reserve and mineral resource estimates included or incorporated by reference in this Circular have been prepared in accordance with NI 43-101 and the CIM definitions and classification system. NI 43-101 is a rule developed by Canadian securities regulatory authorities which establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects.

For United States reporting purposes, the SEC has adopted amendments to its disclosure rules (the “**SEC Modernization Rules**”) to modernize the mining property disclosure requirements for certain issuers whose securities are registered with the SEC under the U.S. Exchange Act. The SEC Modernization Rules more closely align the SEC’s disclosure requirements and policies for mining properties with current industry and global regulatory practices and standards, including NI 43-101, and replace the historical property disclosure requirements for mining registrants that were included in SEC Industry Guide 7. Neither Plata Latina nor World Copper are required to provide disclosure on their respective mineral properties under the SEC Modernization Rules and each of Plata Latina and World Copper provides disclosure under NI 43-101 and the CIM Definition Standards. Accordingly, mineral resource information contained or incorporated by reference herein and/or available in the public filings of Plata Latina and World Copper may not be comparable to similar information disclosed by United States companies subject to the SEC Modernization Rules.

As a result of the adoption of the SEC Modernization Rules, the SEC now recognizes estimates of “measured mineral resources”, “indicated mineral resources” and “inferred mineral resources.” In addition, the SEC has amended its definitions of “proven mineral reserves” and “probable mineral reserves” to be “substantially similar” to the corresponding CIM Definition Standards that are required under NI 43-101. While the SEC will now recognize “measured mineral resources”, “indicated mineral resources” and “inferred mineral resources”, U.S. investors should not assume that all or any part of the mineralization in these categories will be converted into a higher category of mineral resources or into mineral reserves without further work and analysis. Mineralization described using these terms has a greater amount of uncertainty as to its existence and feasibility than mineralization that has been characterized as reserves. Accordingly, World Copper Securityholders in the United States are cautioned not to assume that all or any measured mineral resources, indicated mineral resources, or inferred mineral resources that Plata Latina or World Copper reports are or will be economically or legally mineable without further work and analysis. Further, “inferred mineral resources” have a greater amount of uncertainty and as to whether they can be mined legally or economically. Therefore, World Copper Securityholders in the United States are also cautioned not to assume that all or any part of inferred mineral resources will be upgraded to a higher category without further work and analysis. Under Canadian Securities Laws, estimates of “inferred mineral resources” may not form the basis of feasibility or pre-feasibility studies. While the above terms in the SEC Modernization Rules are “substantially similar” to CIM Definitions, there are differences in the definitions under the SEC Modernization Rules and the CIM Definition Standards. Accordingly, there is no assurance any mineral reserves or mineral resources that Plata Latina or World Copper may report as “proven mineral reserves”, “probable mineral reserves”, “measured mineral resources”, “indicated mineral resources” and “inferred mineral resources” under NI 43-101 would be the same had Plata Latina prepared the reserve or resource estimates under the standards adopted under the SEC Modernization Rules.

The financial statements included or incorporated by reference in this Circular have been prepared in accordance with IFRS, which differ from United States generally accepted accounting principles in certain material respects and are subject to auditing and auditor independence standards applicable in Canada. Therefore, such financial statements are not comparable to financial statements of United States companies prepared in accordance with United States generally accepted accounting principles and the related rules and regulations of the SEC.

World Copper Securityholders who are United States persons should be aware that the Arrangement described herein may have tax consequences both in the United States and in Canada. Such consequences for World Copper Securityholders may not be described fully herein. For a general discussion of certain of the material Canadian federal income tax consequences applicable to World Copper Shareholders who are Non-Resident Holders, including persons resident in the United States, see “*Certain Canadian Federal Income Tax Considerations for World Copper Shareholders – Holders Not Resident in Canada*” and for a general discussion of the United States federal income tax consequences applicable to World Copper Shareholders who are United

States persons, see “*Certain United States Federal Income Tax Considerations for World Copper Shareholder*”. U.S. Holders (as defined below) are urged to consult their own tax advisors with respect to such applicable income tax consequences.

The enforcement by World Copper Securityholders of civil liabilities under U.S. Securities Laws may be adversely affected by the fact that World Copper and Plata Latina are corporations existing and governed under the Laws of Canada, and that some or all of World Copper’s and Plata Latina’s respective directors and officers and the experts named in this Circular are not residents of the United States and that all or a substantial portion of their respective assets may be located outside the United States. As a result, it may be difficult or impossible for United States securityholders to effect service of process within the United States upon World Copper, Plata Latina, their respective officers and directors or the experts named herein, or to realize against them upon judgments of courts of the United States predicated upon civil liabilities under the federal Securities Laws of the United States or “blue sky” Laws of any state or territory within the United States. In addition, United States securityholders should not assume that the courts of Canada: (a) would enforce judgments of United States courts obtained in actions against such persons predicated upon civil liabilities under the federal Securities Laws of the United States or “blue sky” Laws of any state or territory within the United States; or (b) would enforce, in original actions, liabilities against such persons predicated upon civil liabilities under the federal Securities Laws of the United States or “blue sky” Laws of any state or territory within the United States.

No broker, investment dealer, salesperson or other person has been authorized to give any information or make any representation other than those contained in this Circular and, if given or made, such information or representation must not be relied upon as having been authorized by World Copper or Plata Latina.

EXCEPT AS OTHERWISE EXPLAINED IN THIS CIRCULAR, THE DISTRIBUTION SECURITIES TO BE ISSUED AND EXCHANGED PURSUANT TO THE ARRANGEMENT ARE BEING ISSUED AND EXCHANGED PURSUANT TO THE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT PROVIDED BY SECTION 3(a)(10) THEREOF AND IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES AND HAVE NOT BEEN REGISTERED OR OTHERWISE QUALIFIED FOR DISTRIBUTION UNDER THE LAWS OF ANY OTHER JURISDICTION OUTSIDE OF CANADA.

For a discussion of certain regulatory issues relating to World Copper Securityholders in the United States, see “*The Transaction – Certain Canadian and U.S. Securities Law Matters – Resales of Distribution Securities after the completion of the Arrangement*”.

SCIENTIFIC AND TECHNICAL INFORMATION

Unless otherwise indicated, all mineral reserve and mineral resource estimates included or incorporated by reference in this Circular have been prepared in accordance with NI 43-101 and the CIM definitions and classification system. All mineral resources are reported exclusive of mineral reserves. Mineral resources that are not mineral reserves do not have demonstrated economic viability. The estimation of “measured” and “indicated” mineral resources involves greater uncertainty as to their existence and economic feasibility than the estimation of proven and probable mineral reserves. The estimation of “inferred” mineral resources involves far greater uncertainty as to their existence and economic viability than the estimation of other categories of mineral resources. It cannot be assumed that all or any part of a “measured”, “indicated” or “inferred” mineral resource will ever be upgraded to a higher category or converted into a mineral “reserve”. Under Canadian Securities Laws, estimates of “inferred mineral resources” may not form the basis of feasibility studies, pre-feasibility studies or other economic studies, except in prescribed cases, such as in a preliminary economic assessment under certain circumstances.

Investors are cautioned not to assume that any part or all of a “measured”, “indicated” or “inferred” mineral resource exists or is economically or legally mineable. Mineral resources that are not mineral reserves do not have demonstrated economic viability. The estimate of mineral resources may be materially affected by environmental, permitting, legal, title, taxation, socio-political, marketing, or other relevant issues. The quantity and grade of reported inferred mineral resources in this estimation are uncertain in nature and there has been insufficient exploration to define these inferred mineral resources as an indicated or measured mineral resource and it is uncertain if further exploration will result in upgrading them to an indicated or measured mineral resource category. Inferred mineral resources are considered too speculative geologically to have the economic considerations applied to enable them to be categorized as mineral reserves.

Additional information concerning the Zonia Property, including information regarding data verification, key assumptions, parameters and methods used to estimate mineral resources and the risks that could materially affect the development of the mineral reserves and mineral resources can be found in (a) the Plata Latina AIF and the technical report titled “NI 43-101 Mineral Resource Estimate for the Zonia Project 2025 Update” dated August 11, 2025, effective July 23, 2025 and prepared by Sue Bird, P. Eng, Moose Mountain Technical Services, each of which is available under Plata Latina’s issuer profile on SEDAR+ at www.sedarplus.ca, and (b) the World Copper AIF and the technical report titled “NI 43-101 Resource Estimate for the Zonia Project 2024 Update” with an effective date of August 27, 2024 and an amended date of November 8, 2024, prepared by Sue Bird, P.Eng., each of which is available under World Copper’s issuer profile on SEDAR+ at www.sedarplus.ca.

The scientific and technical information of Plata Latina contained in this Circular or incorporated by reference herein has been reviewed and approved by Rodney Pace, a “qualified person” as defined in NI 43-101.

STATEMENTS REGARDING FORWARD-LOOKING INFORMATION

This Circular, the combined *pro forma* financial statements of Plata Latina, the unaudited condensed consolidated interim statement of financial position of Zonia Holdings as at June 30, 2025, the audited consolidated statement of loss and comprehensive loss of Zonia Holdings for the year ended December 31, 2024 and the material incorporated by reference into this Circular contain certain forward-looking information and forward-looking statements, as defined in applicable Securities Laws (collectively referred to as “forward-looking statements”).

All statements other than statements of present or historical fact are forward-looking statements. Forward-looking statements are frequently characterized by words such as “will”, “plan”, “expect” or “does not expect”, “project”, “intend”, “believe”, “anticipate”, “forecast”, “schedule”, “estimate” and similar expressions, or statements that certain events, actions, results or conditions “could”, “may”, “might”, “will” or “would” occur, be taken or achieved. Forward-looking statements are not based on historical fact, but rather on current expectations and projections about future events, and are therefore subject to risks, uncertainties and other factors which could cause actual results, performance or achievements of Plata Latina or World Copper to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Plata Latina and World Copper disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable Laws. The reader is cautioned not to place undue reliance on forward-looking statements.

Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Plata Latina and World Copper as at the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The estimates and assumptions of Plata Latina and World Copper contained or incorporated by reference in the Circular which may prove to be incorrect, include, but are not limited to, the various assumptions set forth herein and incorporated by reference as well as: (a) that Plata Latina and World Copper will complete the Transaction in accordance with the terms and conditions of the Arrangement Agreement; (b) the accuracy of Plata Latina’s and World Copper’s assessment of the effects of the completion of the Transaction; (c) the integration of the Zonia Property by Plata Latina and Plata Latina’s plans for the Zonia Property following closing of the Transaction; (d) World Copper’s existence and plans as a stand-alone reporting issuer following closing of the Transaction, including its assets and liabilities, financial condition, liquidity and stock exchange listings; (e) the accuracy of World Copper’s mineral resource estimates; (f) the listing of the Plata Latina Consideration Shares issued under the Arrangement on the TSXV; (g) there being no significant political, legal or tax developments or changes, whether generally or in respect of the mining industry specifically, in any jurisdiction in which Plata Latina or World Copper now, or following completion of the Transaction, carries on business which are not consistent with Plata Latina’s or World Copper’s current expectations; (h) there being no significant disruptions affecting Plata Latina’s or World Copper’s current or future operations, including Plata Latina’s operations following completion of the Transaction; (i) that the exchange rate between the Canadian dollar and the United States dollar will be approximately consistent with current levels; (j) certain price assumptions for copper; (k) Plata Latina’s and World Copper’s expectations and assumptions with respect to future growth of the Plata Latina Shares; (l) prices for natural gas, fuel oil, electricity and other key supplies remaining consistent with current levels; (m) labour and materials costs increasing on a basis consistent with Plata Latina’s and World Copper’s current expectations; and (n) the trading price of the Plata Latina Shares and the World Copper Shares.

In addition to those risk factors described under the heading “*Risk Factors*”, known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements. Factors include, but are not limited to, risks relating to:

- the completion of the Transaction;
- the market value of the Plata Latina Consideration Shares;
- the expected Exchange Ratio that World Copper Shareholders anticipate to receive for each World Copper Share;
- payment of the World Copper Termination Amount or Plata Latina Termination Amount and the risk that such amounts may discourage other parties from proposing a significant business transaction with World Copper or Plata Latina;
- the restrictions imposed on World Copper and Plata Latina while the Arrangement is pending;
- the diversion of World Copper’s and Plata Latina’s management pending the completion of the Transaction;
- the fees and costs incurred and to be incurred by World Copper and Plata Latina in connection with the Transaction;
- the risk that the interests of the directors and officers of each of World Copper and Plata Latina may differ from those of World Copper Shareholders and Plata Latina Shareholders generally;
- the fact that the World Copper Fairness Opinion will not reflect changes in circumstances that may occur between the date of the Arrangement Agreement and the completion of the Arrangement;
- the risk that U.S. holders may be subject to adverse U.S. federal income tax consequences in connection with the receipt of Plata Latina Consideration Shares;
- Plata Latina’s limited history of operating revenue and cash flow;
- World Copper’s history of operating losses and need for additional financing;
- the price of and demand for copper;
- the market price of the Plata Latina Shares following the implementation of the Consolidation;
- estimates of mineral reserves and resources;
- exploration, development and operating risks;
- the laws and regulations governing prospecting, development, production and other matters;
- health, safety and environmental hazards;
- the need for and access to additional financing;
- the cost and availability of commodities required by Plata Latina’s operations;
- the requirement for adequate infrastructure to support Plata Latina’s mining, processing, development and exploration activities;

- the receipt and maintenance of permits;
- hazards not covered by insurance;
- Plata Latina's compliance with anti-corruption and anti-bribery laws and regulations;
- increasing timelines and permitting requirements for the development of Plata Latina's projects;
- challenges to or impairment of title to Plata Latina's properties;
- competition in the mining industry;
- the public's concern relating to the perceived effects of mining activities on the environment and host communities;
- the evolving regulatory obligations of public companies;
- World Copper's and Plata Latina's dependence upon key management personnel and executives and competition for qualified personnel;
- Plata Latina's combined *pro forma* financial statements may not be an indication of Plata Latina's financial condition or results of operations following the Arrangement and Concurrent Financing;
- future potential claims and legal proceedings;
- the integration of the Zonia Project and the ability of Plata Latina to hire and establish good relations with employees;
- Plata Latina management's broad discretion in the application of the net proceeds of the Concurrent Financing;
- the issuance of a significant number of Plata Latina Shares and a resulting "market overhang";
- the volatility of the trading price of the Plata Latina Shares and the World Copper Shares;
- the possibility of Plata Latina's characterization as a "passive foreign investment company";
- the disposal of World Copper's only material asset and World Copper's ability to source new projects;
- the possibility of World Copper failing to meet the TSXV's continued listing requirements;
- the sufficiency of World Copper's post-closing liquidity; and
- World Copper's exposure to risks to which Plata Latina is exposed.

In addition, there are risks and hazards associated with the business of mineral exploration and development including, but not limited to, environmental hazards, industrial accidents, unusual or unexpected formations (and the risk of inadequate insurance, or inability to obtain insurance, to cover these risks). Many of these uncertainties and contingencies can affect Plata Latina's and World Copper's, actual results and could cause actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, Plata Latina or World Copper.

There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management's expectations and plans relating to the future. All of the forward-looking statements made in this Circular are qualified by these cautionary statements and those made in each of Plata Latina's and World Copper's filings with Canadian securities regulatory authorities expressly incorporated by reference into this Circular. These factors are not intended to represent a complete list of the factors that could affect Plata Latina or World Copper. Accordingly, undue reliance should not be placed on forward-looking statements. Plata Latina and World Copper undertake no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of assumptions or factors, whether as a result of new information or future events or otherwise, except as may be required in connection with a material change in the information disclosed in this Circular or as otherwise required by applicable Laws.

If you are a non-registered (beneficial) World Copper Shareholder who has objected to the Intermediary through which your shares are held disclosing ownership information about you to World Copper, you should be aware that World Copper does not intend to pay for Intermediaries to forward proxies, voting information forms, and other meeting materials to you and therefore you will not receive the meeting materials unless your Intermediary assumes the cost of delivery.

THE TRANSACTION

Summary of the Transaction

Plata Latina and World Copper have entered into a definitive Arrangement Agreement pursuant to which they propose to carry out a series of transactions resulting in, among other things, the acquisition of World Copper's 100%-owned Zonia Property in Arizona by Plata Latina. This series of transactions consists of the Arrangement, the Concurrent Financing, the Plata Latina Name Change and the Consolidation, each of which is described below and which are collectively referred to in this Circular as the "**Transaction**".

The Arrangement

Overview of the Arrangement

On July 22, 2025, Plata Latina and World Copper entered into the Arrangement Agreement pursuant to which Plata Latina agreed to acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for aggregate consideration of \$10,500,000 in cash (the "**Cash Consideration**") and such number of Plata Latina Consideration Shares as results in World Copper and World Copper Shareholders collectively owning approximately 31.3% of the issued and outstanding Plata Latina Shares, on a non-diluted basis, immediately following the closing of the Concurrent Financing and the Effective Time (the "**Share Consideration**"). Zonia (USA), the holder of all of the mining rights comprising the Zonia Property, is a direct wholly-owned subsidiary of Zonia Holdings.

The Arrangement will be effected by way of a statutory court-approved plan of arrangement under Division 5 of Part 9 of the BCBCA pursuant to the terms and conditions of the Arrangement Agreement, the Plan of Arrangement, the Interim Order and the Final Order. The following procedural steps must be taken in order for the Arrangement to become effective:

- (a) the Plata Latina Transaction Resolutions must be approved by the Plata Latina Shareholders in the manner required by the TSXV and applicable Laws;
- (b) the World Copper Arrangement Resolution must be approved by the World Copper Shareholders in the manner set forth in the Interim Order and applicable Laws, except where applicable Laws have been modified by the Interim Order;
- (c) the Court must grant each of the Interim Order and the Final Order approving the Arrangement; and
- (d) all conditions to closing of the Arrangement, as set forth in the Arrangement Agreement, must be satisfied or waived by one or both of Plata Latina and World Copper, as applicable.

Subject to the satisfaction or, where applicable, waiver of all of the conditions to closing set out in the Arrangement Agreement, Plata Latina will acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt at 12:01 a.m. (Vancouver time) on the Effective Date. The Parties currently expect the Effective Date to occur in October 2025. There can be no assurance the conditions set out in the Arrangement Agreement will be satisfied or waived on a timely basis or at all.

The Parties intend to rely on the Section 3(a)(10) Exemption with respect to the issuance and exchange of New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options and Plata Latina Replacement Warrants pursuant to the Arrangement.

Effect of the Arrangement on World Copper

Under the Arrangement, World Copper will receive the Cash Consideration and the Share Consideration in consideration for the disposition of all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt to Plata Latina at the Effective Time. The Arrangement Agreement and the Plan of Arrangement provide for the following to occur with respect to the Cash Consideration and the Share Consideration received by World Copper:

- **Cash Consideration.** Of the aggregate \$10,500,000 Cash Consideration, \$10,000,000 constitutes a Creditor Deposit that has been allocated to satisfying in full the claims of all World Copper Group Creditors as of the Effective Date by no later than two Business Days following the Effective Date (other than two Specified World Copper Group Creditors, whose claims will be satisfied by no later than 18 months following the Effective Date). World Copper is entitled to retain \$500,000 of the aggregate Cash Consideration for its own account, as well as any excess cash from the Creditor Deposit that remains after the claims of all World Copper Group Creditors have been satisfied in full. See *“The Transaction – The Arrangement – Effect of the Arrangement on World Copper Group Creditors”*.
- **Share Consideration.** Under the Arrangement, all of the Plata Latina Consideration Shares will be distributed by World Copper to World Copper Shareholders at the Effective Time, except for 5,000,000 Plata Latina Consideration Shares that will be retained by World Copper following the Effective Time for its own account and an additional 10,000,000 Plata Latina Consideration Shares that constitute Trust Shares that will be held for the benefit of a Specified World Copper Group Creditor. The Plan of Arrangement provides for World Copper to reorganize its capital within the meaning of section 86 of the Tax Act, to, among other things, create the new class of shares referred to as the “New World Copper Shares”, with identical rights, privileges, restrictions and conditions to those of the World Copper Shares. The New World Copper Shares are expected to require a new CUSIP/ISIN. Following such capital reorganization, each World Copper Share will be exchanged for one New World Copper Share and such number of Plata Latina Consideration Shares as is equal to the Exchange Ratio.

Immediately following the Effective Time, World Copper is expected to remain a reporting issuer with assets of at least \$500,000 in cash and at least 5,000,000 Plata Latina Shares with no material known liabilities for which provision has not been made under the Arrangement Agreement and the Plan of Arrangement.

See *“The Transaction – The Arrangement”*, *“The Transaction – The Plan of Arrangement”* and *“Summary of Material Agreements – The Arrangement Agreement”*.

Effect of the Arrangement on World Copper Shareholders

Under the Arrangement, World Copper Shareholders (other than Dissenting Shareholders) will receive, in exchange for each World Copper Share, one New World Copper Share and such number of Plata Latina Consideration Shares as is equal to the Exchange Ratio. As a result of the Arrangement, World Copper Shareholders will retain their respective percentage interests in World Copper in the form of New World Copper Shares and will receive an interest in Plata Latina based on the Exchange Ratio in the form of Plata Latina Consideration Shares.

The fraction of a Plata Latina Share for which each World Copper Share is exchanged under the Arrangement at the Effective Time is referred to as the **“Exchange Ratio”**. The Exchange Ratio will be equal to the quotient obtained by dividing:

- (a) the difference between (i) such number of Plata Latina Shares as is equal to 31.3% of the issued and outstanding Plata Latina Shares, on a non-diluted basis, immediately following the closing of the Concurrent Financing and the Effective Time; and (ii) the 15,000,000 Plata Latina Shares that will be retained by World Copper following the Effective Time on the terms and subject to the conditions set forth in the Arrangement Agreement; and
- (b) the number of World Copper Shares issued and outstanding as of the Effective Time.

The final Exchange Ratio will only be determined on the Effective Date depending on, among other things, the number of Plata Latina Shares and World Copper Shares issued and outstanding as of the Effective Time, respectively. For illustrative purposes, based on the number of issued and outstanding Plata Latina Shares and World Copper Shares as of August 26, 2025 on a non-diluted basis (being 79,034,671 Plata Latina Shares and 260,931,067 World Copper Shares, respectively), the Exchange Ratio would be equal to 0.3772 (on a pre-Consolidation basis).

See “*The Transaction – The Arrangement*”, “*The Transaction – The Plan of Arrangement*”, “*The Transaction – Dissent Rights for World Copper Shareholders*” and “*Summary of Material Agreements – The Arrangement Agreement*”.

Effect of the Arrangement on Holders of World Copper Options

Under the Arrangement, the holders of Specified World Copper Options will receive, in exchange for each Specified World Copper Option, one Plata Latina Replacement Option. Each Plata Latina Replacement Option will remain outstanding in accordance with the terms and conditions of the Specified World Copper Option for which it was exchanged, except that each Plata Latina Replacement Option will (a) entitle the holder thereof to receive, on exercise thereof, such fraction of a Plata Latina Share as is equal to the Exchange Ratio at an exercise price equal to the exercise price of the Specified World Copper Option for which it was exchanged; and (b) automatically terminate, if not exercised prior to such date, on the earlier of the termination date of the Specified World Copper Option for which it was exchanged and the date that is 15 months from the Effective Date. Each Specified World Copper Option exchanged for a Plata Latina Replacement Option pursuant to the Arrangement will be cancelled.

All World Copper Options that are not Specified World Copper Options will remain outstanding in accordance with their respective terms and conditions and will not be exchanged for Plata Latina Replacement Options pursuant to the Arrangement.

See “*The Transaction – The Plan of Arrangement*”.

Effect of the Arrangement on Holders of World Copper Warrants

Under the Arrangement, holders of World Copper Warrants will receive, in exchange for each World Copper Warrant, one Plata Latina Replacement Warrant. Each Plata Latina Replacement Warrant will remain outstanding in accordance with the terms and conditions of the World Copper Warrant for which it was exchanged, except that each Plata Latina Replacement Warrant will (a) entitle the holder thereof to receive, on exercise thereof, such fraction of a Plata Latina Share as is equal to the Exchange Ratio at an exercise price equal to the exercise price of the Specified World Copper Warrant for which it was exchanged; and (b) if applicable, be adjusted with respect to the “Triggering Event” applicable to the World Copper Warrant for which it was exchanged. Each World Copper Warrant exchanged for a Plata Latina Replacement Warrant pursuant to the Arrangement will be cancelled.

Effect of the Arrangement on Holders of World Copper Special Warrants

Under the Arrangement, the holders of World Copper Special Warrants will receive, in exchange for the World Copper Special Warrant, one New World Copper Share and such fraction of a Plata Latina Share as is equal to the Exchange Ratio in respect of each World Copper Share such holder would have been entitled to receive on exercise thereof as of the Effective Time as determined in accordance with the formula set forth in the World Copper Special Warrant Certificate. The World Copper Special Warrants exchanged for New World Copper Shares and Plata Latina Shares pursuant to the Arrangement will be cancelled.

See “*The Transaction – The Plan of Arrangement*”.

Effect of the Arrangement on World Copper Group Creditors

Under the Arrangement Agreement, \$10,000,000 of the Cash Consideration (the “**Creditor Deposit**”) and up to 10,000,000 Plata Latina Consideration Shares (the “**Trust Shares**”) have been allocated to satisfying in full the claims of all World Copper Group Creditors as of the Effective Date. The amount of the Creditor Deposit and the value of the Trust Shares have been carefully calculated by World Copper to ensure that World Copper receives sufficient Consideration pursuant to the Arrangement to satisfy in full the claims of World Copper Group Creditors as of the Effective Date, and World Copper has agreed to not permit the aggregate amount of claims owing to World Copper Group Creditors as of the Effective Date to exceed the difference between \$11,000,000 and the then-outstanding aggregate principal amount under the Bridge Loan Agreement as of the Effective Date.

Under the Arrangement, by no later than two Business Days following the Effective Date, each World Copper Group Creditor (other than two Specified World Copper Group Creditors, whose claims will be satisfied by no later than 18 months following the Effective Date) will receive such portion of the Creditor Deposit in cash as is equal to such World Copper Group Creditor's aggregate claim against World Copper and its Subsidiaries as of the Effective Date in full and final satisfaction of such claim.

See "*The Transaction – The Plan of Arrangement*" and "*Summary of Material Agreements – The Arrangement Agreement*".

If the World Copper Arrangement Resolution is approved at the World Copper Meeting, World Copper intends to apply to the Court in accordance with the Arrangement Agreement for the Final Order pursuant to section 291 of the BCBCA approving the Arrangement, including the distribution of the Creditor Deposit as described above, and ordering that the transactions to be implemented by the Plan of Arrangement shall not be void or voidable under federal and provincial law, and shall not be deemed to be preferences, assignments, fraudulent conveyances, transfers at undervalue, or other reviewable transactions under any applicable federal or provincial legislation.

See "*Approvals Required for the Transaction – Court Approval*".

Bridge Loan

In connection with the Arrangement, Plata Latina and World Copper have entered into a definitive Bridge Loan Agreement pursuant to which Plata Latina has agreed to provide bridge financing to World Copper in an aggregate principal amount of up to \$600,000 (the "**Bridge Loan**"). The Bridge Loan Agreement contemplates advances made in two tranches. An initial advance of an aggregate principal amount of \$400,000 was made in connection with the execution of the Arrangement Agreement, and a subsequent advance of up to \$200,000 may be made at the election of World Copper within two Business Days following the satisfaction of certain conditions, including the mailing of this Circular and the prior approval of the TSXV. Advances under the Bridge Loan Agreement are intended primarily to maintain the Zonia Property, including payment of annual maintenance claim fees, as well as general working capital and corporate purposes.

Interest on advances under the Bridge Loan Agreement accrues at 10% per annum (or 15% per annum in the event of a default). World Copper is required to repay the principal amount and all accrued interest by the earlier of March 31, 2026 and the Effective Date (in which case advances under the Bridge Loan Agreement will be set off against the Cash Consideration, with accrued interest reduced to nil). Neither the principal amount nor interest under the Bridge Loan Agreement is convertible into securities.

The Bridge Loan Agreement contains customary representations, warranties and covenants by World Copper, including restrictions on encumbrances, asset sales, and further indebtedness, as well as requirements to maintain corporate existence and compliance with Laws. Events of default include payment failures, breaches of covenants, material adverse changes, insolvency events and breaches related to the Arrangement.

Advances under the Bridge Loan Agreement are unsecured. World Copper's wholly-owned subsidiaries, Zonia Holdings and Zonia (USA), have provided a joint and several guarantee of all obligations under the Bridge Loan Agreement.

The Concurrent Financing

Overview of the Concurrent Financing

In connection with the Arrangement, Plata Latina has entered into binding Subscription Agreements to effect the Concurrent Financing at a price of \$0.10 per Plata Latina Unit for gross aggregate proceeds of \$17,000,000. Each Plata Latina Unit consists of one Plata Latina Share and one-half of one Plata Latina Warrant. Each Plata Latina Warrant will entitle the holder thereof to acquire one Plata Latina Share at an exercise price of \$0.20 for a period of 18 months following closing of the Concurrent Financing.

Plata Latina proposes to issue an aggregate of 170,000,000 Plata Latina Shares pursuant to the Concurrent Financing. If the Arrangement and the Concurrent Financing are consummated, immediately thereafter, the

170,000,000 Plata Latina Shares issued pursuant to the Concurrent Financing are expected to represent approximately 46.9% of the issued and outstanding Plata Latina Shares (based on the number of issued and outstanding Plata Latina Shares as of August 26, 2025 on a non-diluted basis, being 79,034,671 Plata Latina Shares, and assuming 113,461,211 Plata Latina Consideration Shares are issued pursuant to the Arrangement).

The TSXV has conditionally accepted the Concurrent Financing. Closing of the Concurrent Financing is subject to final acceptance by the TSXV.

Subscription Agreements

The Subscription Agreements between Plata Latina and each Concurrent Financing Investor contain customary representations, warranties and covenants. The subscription by each Concurrent Financing Investor for Plata Latina Units pursuant to the Subscription Agreements is irrevocable, subject only to (a) the subscription by insiders of Plata Latina for Plata Latina Units for a gross aggregate subscription price of at least \$5,000,000 under the Concurrent Financing; and (b) all conditions to completion of the Arrangement contemplated by the Arrangement Agreement having been satisfied without any amendment or waiver materially adverse to Plata Latina (other than conditions that, by their terms, are to be satisfied concurrently with closing of the Arrangement).

The Subscription Agreements provide that closing of the Concurrent Financing is to occur concurrently with the closing of the Arrangement. Plata Latina is required to provide each Concurrent Financing Investor with written notice of the anticipated Effective Date at least five Business Days in advance thereof. Each Concurrent Financing Investor has two Business Days thereafter to deliver the aggregate cash consideration for such Concurrent Financing Investor's Plata Latina Units in trust until such cash consideration is released concurrently with the closing of the Arrangement.

Use of Proceeds

The proceeds of the Concurrent Financing are being allocated to finance the Cash Consideration under the Arrangement and to fund exploration and development of the Zonia Property, including drilling, metallurgical test work, engineering, feasibility study work, permitting work and geotechnical work. Approximately \$3,000,000 of the proceeds of the Concurrent Financing will be used for general working capital and corporate purposes, including transaction-related expenses. No commission or brokerage or finder's fee is payable in connection with the Concurrent Financing.

Plata Latina Shareholder Approval and Recommendation of the Plata Latina Board

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Financing Resolution approving the Concurrent Financing. The Plata Latina Shareholders will also be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Option Issuance Resolution approving the Plata Latina Option Issuance. The full text of each of the Plata Latina Financing Resolution and the Plata Latina Option Issuance Resolution is set forth in Appendix A to this Circular.

In order to become effective, the Plata Latina Financing Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101. In order to become effective, the Plata Latina Option Issuance Resolution must be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by the rules and policies of the TSXV. **The Concurrent Financing is a condition to the completion of the Arrangement and the Plata Latina Option Issuance is an integral part of the Arrangement. Accordingly, if the Plata Latina Transaction Resolutions are not approved by Plata Latina Shareholders at the Plata Latina Meeting, the Arrangement cannot be completed in accordance with its terms.**

After careful consideration and the receipt of financial and legal advice, the Plata Latina Board (with conflicted directors abstaining) unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina

Transaction Resolutions. See “*The Transaction – Recommendation of the Plata Latina Board – Reasons for the Recommendation of the Plata Latina Board*”.

See “*The Transaction – The Arrangement*”, *The Transaction – The Concurrent Financing*” and “*Risk Factors*”.

The directors and executive officers of Plata Latina may have interests in the Concurrent Financing that are, or may be, different from, or in addition to, the interests of Plata Latina Shareholders. See “*Interest of Certain Persons in Matters to be Acted Upon – Plata Latina*”.

The Plata Latina Name Change

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Name Change Resolution approving a change in Plata Latina’s corporate name from “Plata Latina Minerals Corporation” to “Edge Copper Corporation” (the “**Plata Latina Name Change**”), or such other name as the Plata Latina Board may in its sole discretion determine (subject to Regulatory Approval). The full text of the Plata Latina Name Change Resolution is set out in Appendix A to this Circular.

In order to become effective, the Plata Latina Name Change Resolution must be approved, with or without variation, by at least two-thirds of the votes cast by Plata Latina Shareholders present in person or represented by proxy at the Plata Latina Meeting. If Plata Latina Shareholders approve the Plata Latina Name Change Resolution at the Plata Latina Meeting and the Arrangement and the Concurrent Financing are consummated, Plata Latina intends, subject to the prior approval of the TSXV, to effect the Plata Latina Name Change immediately following the consummation of the Arrangement and the Concurrent Financing. Neither the Arrangement nor the Concurrent Financing is conditional on approval of the Plata Latina Name Change Resolution. If the Arrangement and the Concurrent Financing are not consummated, Plata Latina does not intend to proceed with the Plata Latina Name Change.

If Plata Latina Shareholders approve the Plata Latina Name Change Resolution at the Plata Latina Meeting, subject to the receipt of applicable Regulatory Approvals, Plata Latina also intends to apply to update its stock symbol on the TSXV to “EDCU”. Following the Transaction, Plata Latina expects it will need to obtain a new CUSIP/ISIN number for the Plata Latina Shares.

Plata Latina believes that, if the Arrangement and Concurrent Financing are completed, the Plata Latina Name Change will reflect its edge as a development-focused copper company poised to advance the 100%-owned Zonia Property and produce domestic pure copper cathode. Accordingly, after careful consideration, the Plata Latina Board has determined that the Plata Latina Name Change more appropriately reflects Plata Latina’s go-forward business strategy and is in the best interests of Plata Latina. Accordingly, the Plata Latina Board unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina Name Change Resolution.

All certificates evidencing Plata Latina Shares will remain valid and Plata Latina Shareholders will not be required to surrender or exchange their current certificates in connection with the Plata Latina Name Change. Plata Latina Shareholders should be aware, however, that they will be required to exchange their certificates evidencing Plata Latina Shares in connection with the Consolidation. See “*The Transaction – The Plata Latina Share Consolidation*”. The Plata Latina Name Change will not affect any of Plata Latina’s rights or obligations or the rights of Plata Latina Shareholders.

The Plata Latina Share Consolidation

At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Share Consolidation Resolution approving a consolidation of all of the issued and outstanding Plata Latina Shares on the basis of up to three pre-consolidation Plata Latina Shares for one post-consolidation Plata Latina Share (the “**Consolidation**”). The full text of the Plata Latina Share Consolidation Resolution is set out in Appendix A to this Circular.

In order to become effective, the Plata Latina Share Consolidation Resolution must be approved, with or without variation, by at least two-thirds of the votes cast by Plata Latina Shareholders present in person or represented by proxy at the Plata Latina Meeting. If Plata Latina Shareholders approve the Plata Latina Share Consolidation

Resolution at the Plata Latina Meeting and the Arrangement and the Concurrent Financing are consummated, Plata Latina intends, subject to the prior approval of the TSXV, to effect the Consolidation immediately following the consummation of the Arrangement and the Concurrent Financing. Neither the Arrangement nor the Concurrent Financing is conditional on approval of the Plata Latina Share Consolidation Resolution. If the Arrangement and the Concurrent Financing are not consummated, Plata Latina does not intend to proceed with the Consolidation.

The principal effect of the Consolidation will be to proportionately decrease the number of issued and outstanding Plata Latina Shares by a factor equal to the consolidation ratio selected by the Plata Latina Board and proportionately raise the market price per Plata Latina Share. Plata Latina believes that, if the Arrangement and Concurrent Financing are completed, the Consolidation will supplement its ability to retain and attract investors and potential financing sources and is in the best interests of Plata Latina. Accordingly, after careful consideration and the receipt of financial and legal advice, the Plata Latina Board unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina Share Consolidation Resolution.

Although the Consolidation will result in each Plata Latina Shareholder owning fewer Plata Latina Shares than were owned immediately prior to the Consolidation, Plata Latina does not expect the Consolidation itself to have any economic effect on holders of Plata Latina Shares or securities convertible into or exercisable for Plata Latina Shares, except that no fractional Plata Latina Shares will be issued under the Consolidation and any fractional Plata Latina Shares resulting from the Consolidation will be rounded down to the nearest whole number. See “*Risk Factors – Risk Factors Relating to Plata Latina Following Completion of the Transaction*”.

For illustrative purposes, the table below sets the anticipated impact of the Consolidation on Plata Latina’s capitalization immediately following the consummation of the Arrangement and the Concurrent Financing and the effectiveness of the Consolidation on a non-diluted basis (assuming a three-to-one consolidation ratio is selected by the Plata Latina Board):

Plata Latina Shares	Pre-Consolidation	Post-Consolidation
Outstanding	79,034,671	26,344,890
Concurrent Financing	170,000,000	56,666,666
Arrangement	113,461,211 ⁽¹⁾	37,820,403
Total	362,495,882	120,831,959

Notes:

- (1) The actual number of Plata Latina Shares to be issued pursuant to the Arrangement will depend on, among other things, the number of issued and outstanding Plata Latina Shares as of the Effective Time. The figures above are based on the number of issued and outstanding Plata Latina Shares as of August 26, 2025, on a non-diluted basis, being 79,034,671 Plata Latina Shares.

The post-Consolidation Plata Latina Shares are expected to require a new CUSIP/ISIN. In connection with the Consolidation, registered Plata Latina Shareholders will be required to surrender the certificates evidencing their Plata Latina Shares and submit to the Depositary a duly completed Consolidation Letter of Transmittal. Until surrendered to the Depositary, each share certificate or other evidence representing pre-Consolidation Plata Latina Shares will be deemed for all purposes to represent the number of post-Consolidation Plata Latina Shares to which the registered Plata Latina Shareholder is entitled as a result of the Consolidation.

See “*The Transaction – Procedures for Exchange of Securities Under the Transaction and Related Matters – The Plata Latina Share Consolidation*”.

Background to the Transaction

The Arrangement Agreement is the result of arm’s length negotiations among Plata Latina, World Copper and their respective financial and legal advisors. The following is a summary of the principal events, meetings, discussions and negotiations involving the Parties and their respective Representatives leading up to the execution and delivery of the Arrangement Agreement and public announcement of the Transaction.

Since 2020, Plata Latina has been considering its long-term strategic direction and evaluating potential opportunities for growth. Through this process, in 2023, Plata Latina commenced actively seeking to capitalize on the value of Plata Latina as a clean listed shell company with cash on hand and recurring cash flow by pursuing, considering and evaluating potential transformational transactions, including acquisitions, business combinations and other strategic transactions.

In order to accelerate its strategy and its pursuit and evaluation of potential transaction opportunities, Plata Latina reconstituted its senior leadership team through the appointments of Ms. Letitia Wong as President and Chief Executive Officer of Plata Latina, Messrs. Joseph Longpre and Rod Pace as directors of Plata Latina and Mr. Lance Newman as an observer to the Plata Latina Board. These appointments complemented Mr. Gilmour Clausen in his role as Chair of the Plata Latina Board. Among them, Plata Latina's senior leadership team has over 150 years of collective experience in executive roles at mining companies that created value through resource growth, including 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023) and greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014), as well as the successful sales of Brio Gold Inc. and other public mining companies. In addition, in order to strengthen its position and enhance its flexibility in negotiating and structuring potential transaction opportunities, in August 2024 Plata Latina sold the La Joya Project in Mexico to Fortuna Mining Corp. for consideration of a 2% net smelter returns royalty on production from the La Joya Project, and in February 2025 Plata Latina sold its 3% net smelter returns royalty over the Naranjillo Property in Mexico to Fresnillo plc for cash consideration of US\$6,000,000 pursuant to the exercise of Fresnillo plc's royalty repurchase option.

Over the same period, since the Republic of Chile established a nature sanctuary over the area covered by the Escalones Project in late 2023, World Copper has focused on the exploration and development of the Zonia Property in Arizona based on a promising mineral resource estimate defined in April 2023. In the following months, under the leadership of the World Copper Board and Mr. Gordon Neal, who was appointed President and Chief Executive Officer of World Copper in January 2024, World Copper achieved a number of milestones in the development of the Zonia Property. In July 2024, the Zonia Property's dedicated Technical Advisory Committee identified potential new mineral reprocessing opportunities at the Zonia Property and, in November 2024, World Copper filed an updated technical report and expanded mineral resource estimate that supported the potential for the Zonia Property to become a large-scale copper project in a mining-friendly jurisdiction.

To finance continuing development work, World Copper completed a non-brokered private placement in April 2024 for gross aggregate proceeds of approximately \$4,868,295 and established an at-the-market equity program of up to \$25,000,000 in July 2024. However, in order to continue advancing development of the Zonia Property and progress to a pre-feasibility study, World Copper required access to additional capital. With the assistance of its advisors, the World Copper Board undertook a review of potential debt and/or equity financing options available to it. Following this review, having regard to the challenging economic conditions broadly impacting junior resource companies and their ability to obtain financing on acceptable terms in the current capital markets environment, the World Copper Board determined that none of these potential financing options were in the best interests of World Copper and were likely to involve significant dilution to World Copper Shareholders. At the same time, in light of the development milestones achieved in 2024, World Copper received numerous unsolicited expressions of interest from third parties with respect to potential strategic transactions. To facilitate an orderly and efficient review of potential strategic transactions, in October 2024 the World Copper Board formed a special M&A committee of the World Copper Board (the "**World Copper M&A Committee**") for the purpose of evaluating and making recommendations with respect to such transactions.

Given World Copper's need to explore new potential financing options and the numerous unsolicited expressions of interest recently received by World Copper, on November 20, 2024, World Copper publicly announced that it had initiated a strategic review process (the "**Strategic Review**") to evaluate a range of strategic alternatives that may be available to World Copper to grow and maximize value for World Copper Shareholders.

In connection with the Strategic Review, World Copper engaged Origin Merchant Partners ("**Origin**") as its financial advisor. The World Copper Board instructed Origin to contact prospective strategic and financial parties to solicit their interest in a potential strategic transaction involving World Copper. As a result of this outreach, World Copper entered into a number of confidentiality agreements with interested parties to facilitate the exchange of confidential due diligence information and, if appropriate, site visits to the Zonia Property and/or Escalones Project. Participants in the Strategic Review were granted access to a comprehensive virtual data

room containing due diligence information prepared by World Copper management. Plata Latina was not part of the initial outreach conducted in connection with the Strategic Review.

In January 2025, consistent with its strategy of pursuing, considering and evaluating potential transaction opportunities, Plata Latina became aware of the publicly-disclosed Strategic Review. Plata Latina contacted Origin to express its interest in participating in the Strategic Review and, shortly thereafter, Plata Latina and World Copper executed and delivered the mutual Confidentiality Agreement on January 20, 2025. Following execution of the Confidentiality Agreement, and over the next several months, Plata Latina's management and its legal, tax and accounting, technical and other advisors conducted extensive due diligence on the Zonia Property, including a site visit on May 1, 2025. Plata Latina also retained Ms. Kathy Arnold, an Arizona-based professional engineer and expert on strategic environmental permitting and compliance, as an environmental and permitting advisor and consultant.

In late 2024, World Copper received a non-binding proposal (the "**Party A Proposal**") from one of the participants in the Strategic Review, a European based metals and mining investment manager ("**Party A**"), to acquire the Zonia Property for all cash consideration. Following receipt of the Party A Proposal, the World Copper Board met with its financial and legal advisors in attendance to review and consider the terms of the Party A Proposal. Following discussion and the receipt of financial and legal advice, the World Copper Board determined that, if certain terms and conditions of the Party A Proposal could be improved, the Party A Proposal would be sufficiently compelling to be considered pre-emptive and the World Copper Board would be prepared to proceed with the Party A Proposal prior to the completion of the Strategic Review process. Accordingly, at the direction and instruction of the World Copper Board, World Copper, Party A and their respective Representatives engaged in non-exclusive discussions and negotiations with respect to the terms and conditions of the Party A Proposal. In parallel, World Copper and its Representatives continued to conduct the Strategic Review and engage with participants.

In February 2025, the World Copper Board met with its financial and legal advisors in attendance to receive an update on the Strategic Review and review and consider the revised terms of the Party A Proposal resulting from negotiations and discussions with Party A as set out in a proposed form of binding letter agreement (the "**Party A Letter Agreement**"). The Party A Letter Agreement provided for the acquisition by Party A of all of the issued and outstanding shares of common stock of Zonia (USA) for consideration of \$8,000,000 in cash, plus deferred consideration of \$8,000,000 in cash payable on or before the 15-month anniversary of closing and an additional \$10,000,000 in cash payable on or before the 30-month anniversary of closing (the "**Proposed Party A Transaction**"). The Proposed Party A Transaction was conditional on, among other things, the satisfactory completion of Party A's due diligence and the negotiation and execution of definitive agreements. A break fee of US\$75,000 would be payable by World Copper if it terminated the Party A Letter Agreement. Following discussion and the receipt of financial and legal advice, the World Copper Board determined that entering into the Party A Letter Agreement was in the best interests of World Copper and authorized the execution and delivery of the Party A Letter Agreement on February 12, 2025. Concurrently with the execution of the Party A Letter Agreement, World Copper suspended the due diligence access of the other participants in the Strategic Review (including Plata Latina).

Also in early February 2025, prior to the suspension of its due diligence access, Plata Latina continued to advance its due diligence and evaluation of World Copper and the Zonia Property. Following numerous reports to the Plata Latina Board with respect to, among other things, the preliminary results of Plata Latina's due diligence review and the attractiveness of the Zonia Property as a potential flagship asset relative to various other strategic options potentially available to Plata Latina (including continuing with its status quo strategy of seeking other transactions), the Plata Latina Board unanimously directed management to prepare a non-binding letter of intent (the "**Initial Plata Latina Proposal**") setting out the indicative terms and conditions on which Plata Latina would be prepared to pursue a potential share-for-share business combination with World Copper. Plata Latina submitted the Initial Plata Latina Proposal to World Copper on February 21, 2025.

Following receipt of the Initial Plata Latina Proposal, on March 17, 2025, the World Copper Board met to consider the Initial Plata Latina Proposal. Following a review of the terms and conditions of the Initial Plata Latina Proposal with the assistance of its financial and legal advisors, the World Copper Board unanimously determined that the Initial Plata Latina Proposal would reasonably be expected to lead to a "superior proposal" under the Party A Letter Agreement and authorized (i) the World Copper M&A Committee to further consult with World Copper's financial and legal advisors regarding the Initial Plata Latina Proposal, and (ii) World Copper to engage in

discussions and negotiations with Plata Latina with respect to the Initial Plata Latina Proposal and reinstitute Plata Latina's access to due diligence information in accordance with the terms of the Party A Letter Agreement.

From late February to late April 2025, Plata Latina, World Copper and their respective Representatives advanced their respective due diligence reviews, engaged in discussions and negotiations regarding a potential transaction and, at the direction of their respective boards of directors, exchanged markups of draft letters of intent setting out indicative terms and conditions for a potential transaction. During this period, Plata Latina formally submitted revised non-binding letters of intent to World Copper reflecting their discussions and negotiations on March 14, 2025 and March 27, 2025. In parallel with their engagement with Plata Latina, in early April 2025, World Copper and its Representatives continued to hold meetings and discussions with senior executives and other representatives of Party A with respect to the Proposed Party A Transaction and the definitive agreements required to implement the Proposed Party A Transaction.

During early April 2025, representatives of World Copper and Plata Latina exchanged comments and markups with respect to Plata Latina's March 27, 2025 letter of intent. On April 7, 2025, the World Copper M&A Committee met with World Copper's financial and legal advisors to review a revised markup submitted by Plata Latina on April 6, 2025. The World Copper M&A Committee recommended that the terms set forth in Plata Latina's proposal be reviewed and considered by the World Copper Board. On April 8, 2025 the World Copper Board met with its financial and legal advisors in attendance to discuss the Plata Latina proposal and, following review and discussion, the World Copper Board determined that further discussions were needed with Plata Latina. World Copper and Plata Latina subsequently engaged in such discussions.

On April 14, 2025 the World Copper Board met to receive an update on the status of discussions with Plata Latina and to review the terms of the Plata Latina proposal set forth in its latest markup, as revised pursuant to such discussions, as compared to the Proposed Party A Transaction. Following a review of the terms of the Plata Latina proposal and the receipt of financial and legal advice, the World Copper Board determined that the transactions contemplated by the then current proposal constituted a "superior proposal" under the Party A Letter Agreement given the World Copper Board's preference for a transaction that allowed World Copper Shareholders to retain an ongoing interest in the Zonia Property rather than an all-cash transaction, and the concerns of the World Copper Board with respect to Party A's ability to obtain financing and close the Proposed Party A Transaction. Accordingly, on April 15, 2025 World Copper provided Party A with a formal notice of a superior offer in respect of Plata Latina's April 6, 2025 proposal, as revised, and subject to Party A not exercising its "right to match", the World Copper Board directed management to terminate the Party A Letter Agreement in accordance with its terms and, subject to Plata Latina agreeing to certain key commercial modifications to its then current proposal, work with Plata Latina to finalize and enter into a non-binding letter of intent.

In late April 2025, Plata Latina notified World Copper that it had substantially completed its due diligence of the Zonia Property and, with the assistance of its financial and legal advisors, engaged in further discussions and negotiations with World Copper regarding the terms and conditions of a potential transaction. On April 29, 2025, with the unanimous support of the Plata Latina Board, Plata Latina formally submitted a further revised non-binding letter of intent to World Copper reflecting these discussions and negotiations.

Following continued discussions and negotiations, on May 5, 2025, with the unanimous support of the Plata Latina Board, Plata Latina formally submitted a further revised non-binding letter of intent to World Copper. On May 9, 2025, following the receipt of feedback from World Copper and with the unanimous support of the Plata Latina Board, Plata Latina formally submitted a further revised non-binding letter of intent (the "**First Plata Latina LOI**") reflecting the discussions and negotiations between Plata Latina and World Copper to date. The First Plata Latina LOI provided for a potential business combination of Plata Latina and World Copper pursuant to which Plata Latina would acquire all of the issued and outstanding World Copper Shares for consideration of Plata Latina Shares implying a value of approximately \$0.08 for each World Copper Share and a concurrent private placement equity financing by Plata Latina for gross aggregate proceeds of \$17,000,000. Among other conditions, the First Plata Latina LOI was conditional on (a) the Parties developing a tax-efficient and mutually agreeable structure to effect the transactions contemplated by the First Plata Latina LOI, including a structure that would enable World Copper Shareholders to retain an interest in the Escalones Project through a spin-out of the Escalones Project or a carve-out disposition of the Zonia Property, (b) the satisfactory completion of each Party's due diligence review, and (c) the negotiation and execution of definitive agreements. The First Plata Latina LOI also contemplated a 90-day mutual exclusivity period during which each Party was, subject to certain exceptions, prohibited from soliciting or engaging in discussions regarding alternative transactions with third parties. World Copper accepted the First Plata Latina LOI on May 13, 2025.

During the ensuing two weeks, in furtherance of their respective commitments to cooperate in developing a mutually agreeable structure for a potential transaction under the First Plata Latina LOI, World Copper, Plata Latina and their respective legal advisors engaged in discussions and exchanged analysis concerning various structuring options and related considerations. Following these discussions, the Parties proceeded to adopt a transaction structure pursuant to which, among other things, (a) Plata Latina would acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for consideration of Plata Latina Shares implying a value of approximately \$0.08 per each World Copper Share, (b) Plata Latina would satisfy certain accrued liabilities of World Copper in cash, (c) World Copper Shareholders would receive a significant portion of such Plata Latina Shares by way of a distribution thereof by World Copper and retain their World Copper Shares and their exposure to the potential upside of the Escalones Project, and (d) Plata Latina would conduct a concurrent private placement equity financing for gross aggregate proceeds of \$17,000,000. On May 27, 2025 and May 30, 2025, Plata Latina's legal advisors circulated initial drafts of the Arrangement Agreement and Plan of Arrangement, respectively, reflecting the proposed transaction structure to World Copper's legal advisors.

In parallel with its discussions and negotiations with World Copper with respect to a potential transaction, Plata Latina initiated outreach to potential investors in its potential concurrent private placement equity financing and, where appropriate, engaged in confidential discussions with such investors regarding their interest in participating in such financing. Based on feedback from these financing sources, including a potential arm's length lead investor that was anticipated to account for a material portion of the potential financing, Plata Latina expected to price each Plata Latina Unit at \$0.10, which then represented a premium to the market price of the Plata Latina Shares on the TSXV. In addition, to facilitate the alignment of interests between Plata Latina's senior leadership and the Plata Latina Shareholders in the future development of the Zonia Property following closing of the potential transaction, Plata Latina anticipated that its directors and officers would be required to invest a meaningful amount of capital under the potential financing and back-stop the planned \$17,000,000 minimum financing size on the same terms and conditions negotiated with the potential arm's length lead investor.

As the Parties and their respective Representatives advanced work on the structure of the potential transaction in the second half of May 2025 and it began to appear that the potential transaction could result in certain "related parties" of World Copper receiving "collateral benefits" (as such terms are defined in MI 61-101), the World Copper Board determined to form a special committee of the World Copper Board comprised solely of independent directors, Messrs. Keith Henderson and Tim McCutcheon, to, among other things, review the terms of the potential transaction and consider whether it was fair to World Copper Shareholders and in the best interests of World Copper and make recommendations to the World Copper Board. See "*Interest of Certain Persons in Matters to be Acted Upon – World Copper*". On June 10, 2025, the World Copper Special Committee formally engaged Evans & Evans to act as its independent financial advisor on a fixed fee basis that is not dependent on the completion of the Transaction or the conclusions of the World Copper Fairness Opinion.

During the same period, as it began to appear more likely that the potential concurrent equity financing by Plata Latina would involve material participation by related parties of Plata Latina, Plata Latina's legal advisor provided Plata Latina with legal advice relating to the requirements of MI 61-101 and the duties and responsibilities of Plata Latina's directors and officers. See "*Interest of Certain Persons in Matters to be Acted Upon – Plata Latina*".

As discussions and negotiations between Plata Latina, World Copper and their respective Representatives concerning the potential transaction continued and the Parties exchanged drafts of the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements, on June 16, 2025, the World Copper Board met with its legal advisors in attendance to receive an update on the status of such discussions and negotiations and to discuss and consider recent developments relating to the Escalones Project and World Copper's liquidity condition and financial position.

The following day, Representatives of Plata Latina and World Copper met to discuss these developments. At the meeting, World Copper notified Plata Latina that the World Copper Board had determined that it would be in the best interests of World Copper to terminate its option agreement to acquire the Escalones Project. In addition, World Copper advised that, because the period of time that had elapsed since the execution of the Party A Letter Agreement was lengthier than anticipated, World Copper was concerned that its liquidity condition and financial position could potentially impact its ability to distribute Plata Latina Shares to World Copper Shareholders under the potential transaction structure in compliance with the solvency requirements of the BCBCA.

During the ensuing week, Plata Latina, World Copper and their respective Representatives engaged in numerous discussions and negotiations concerning potential revisions to the transaction structure that would address World

Copper's liquidity condition and financial position. In parallel, Plata Latina engaged in discussions and negotiations with potential investors in its potential concurrent private placement equity financing. Following these discussions and negotiations, on June 24, 2025, Plata Latina submitted an updated non-binding letter of intent (the "**Second Plata Latina LOI**") to World Copper which provided for the acquisition by Plata Latina of all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for aggregate consideration valued at approximately \$19,300,000, consisting of \$9,000,000 in cash and such number of Plata Latina Shares as would result in World Copper and the World Copper Shareholders owning 29.2% of the issued and outstanding Plata Latina Shares immediately following closing of the potential transaction and a concurrent private placement equity financing by Plata Latina for gross aggregate proceeds of \$17,000,000.

Over the next several days, Plata Latina, World Copper and their respective Representatives negotiated the indicative terms and conditions of the potential transaction set forth in the Second Plata Latina LOI. On July 1, 2025, Plata Latina submitted a revised "best and final" version of the Second Plata Latina LOI (the "**Best and Final Plata Latina LOI**") to World Copper which contained a number of improvements to the initial Second Plata Latina LOI. Among other things, the Best and Final Plata Latina LOI provided for aggregate consideration valued at approximately \$21,840,000 consisting of \$10,500,000 in cash and such number of Plata Latina Shares as would result in World Copper and the World Copper Shareholders owning 31.3% of the issued and outstanding Plata Latina Shares immediately following closing of the potential transaction and a concurrent private placement equity financing by Plata Latina for gross aggregate proceeds of \$17,000,000. In addition, Plata Latina agreed to extend a bridge loan to World Copper in an appropriate amount to provide bridge financing to World Copper until closing of the potential transaction.

Following receipt of the Best and Final Plata Latina LOI, the World Copper Board met with its financial and legal advisors in attendance. During the meeting, the World Copper Board reviewed and considered the terms and conditions of the Best and Final Plata Latina LOI with the assistance of its financial and legal advisors. Following the receipt of financial and legal advice, the World Copper Board determined that the transactions contemplated by the Best and Final Plata Latina LOI were in the best interests of World Copper and authorized the acceptance of the Best and Final Plata Latina LOI. World Copper accepted the Best and Final Plata Latina LOI on July 2, 2025.

On July 3, 2024, Plata Latina's legal advisors circulated revised drafts of the Arrangement Agreement and Plan of Arrangement reflecting the terms of the Best and Final Plata Latina LOI to World Copper's legal advisors. Over the next several days, Plata Latina, World Copper and their respective Representatives negotiated definitive forms of the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements, and Plata Latina negotiated with potential investors on the form of Subscription Agreement for the Concurrent Financing.

On July 15, 2025, the World Copper Special Committee met with Evans & Evans in attendance and other members of the World Copper Board and World Copper management present by invitation. At the meeting, management provided an overview of World Copper's current liquidity condition and financial position and Evans & Evans delivered a presentation with respect to the financial terms of the Arrangement. Thereafter, Evans & Evans provided its verbal opinion that, as of the date of such opinion and subject to the assumptions, limitations and qualifications in the written World Copper Fairness Opinion described to the World Copper Special Committee, (a) the Consideration to be received by World Copper pursuant to the Arrangement is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. Following the meeting, the World Copper Special Committee held an *in camera* session with only Evans & Evans in attendance. During the *in camera* session, after careful consideration and the receipt of financial advice, including the receipt of the World Copper Fairness Opinion, the World Copper Special Committee unanimously determined that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper and unanimously recommended to the World Copper Board that the World Copper Board approve the Arrangement Agreement and the Arrangement.

On July 16, 2025, the Plata Latina Board met with its financial and legal advisors in attendance. During the meeting, Plata Latina's financial advisor presented an analysis of the financial aspects of the Transaction and reviewed the financial and strategic rationale for the Transaction, and Plata Latina's legal advisor provided a report on certain key due diligence matters, an overview of the structure of the Transaction and key terms and issues in the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements and a summary of the current status of ongoing discussions and negotiations with World Copper. In addition, Plata Latina's legal advisor described the duties and responsibilities of the Plata Latina Board in considering the

Transaction, including in relation to considerations under MI 61-101 in respect of the Concurrent Financing. Following discussion and the receipt of financial and legal advice, the Plata Latina Board provided instructions to management and Plata Latina's legal advisor with respect to certain remaining outstanding key issues in the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements. Following the meeting, the Plata Latina Board held an *in camera* session with only its legal advisor in attendance.

From July 16, 2025 until the execution of the Arrangement Agreement on the evening of July 22, 2025, Plata Latina, World Copper and their respective Representatives continued to negotiate the terms and conditions of the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements and exchanged multiple drafts thereof.

On July 20, 2025, the World Copper Board met with its financial and legal advisors in attendance. At the meeting, World Copper's legal advisor described the key terms and issues in the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements and a summary of the current status of ongoing discussions and negotiations with Plata Latina. Following discussion and the receipt of financial and legal advice, the World Copper Board provided instructions to management and World Copper's legal advisor with respect to certain remaining outstanding key issues in the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements.

Only July 20, 2025 and July 22, 2025, Plata Latina management and Plata Latina's legal advisor reported to the Plata Latina Board on the current status of ongoing negotiations with World Copper and changes to the terms of the Arrangement Agreement, the Plan of Arrangement and the ancillary transaction agreements from those described at the July 16, 2025 meeting of the Plata Latina Board.

On July 22, 2025, after careful consideration and the receipt of financial and legal advice, the Plata Latina Board unanimously determined that the entering into of the Arrangement Agreement is in the best interests of Plata Latina, unanimously authorized the execution and delivery of the Arrangement Agreement and unanimously (with conflicted directors disclosing their interests and abstaining) authorized the execution and delivery of the Subscription Agreements in connection with the Concurrent Financing. In making its determination, the Plata Latina Board considered a number of factors and risks, as described below under “– *Recommendation of the Plata Latina Board – Reasons for the Recommendation of the Plata Latina Board*”.

On July 22, 2025, the World Copper Board met with its financial and legal advisors in attendance. After careful consideration and the receipt of financial and legal advice and the unanimous recommendation of the World Copper Special Committee, the World Copper Board unanimously determined (with conflicted directors disclosing their interests and abstaining) that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper and authorized the execution and delivery of the Arrangement Agreement. In making its determination, the World Copper Board considered a number of factors and risks, as described below under “– *Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*”.

Plata Latina and World Copper executed and delivered the Arrangement Agreement on the evening of July 22, 2025 and trading in the Plata Latina Shares and the World Copper Shares was halted prior to the opening of trading on the TSXV on July 23, 2025. Plata Latina and World Copper jointly announced the Transaction on the evening of July 23, 2025, and trading in the Plata Latina Shares and World Copper Shares on the TSXV resumed on July 24, 2025.

Recommendation of the Plata Latina Board

After careful consideration and the receipt of financial and legal advice, and having considered the terms of the Arrangement and the Concurrent Financing and such other matters as it considered necessary and relevant, including the factors set out under “*The Transaction – Reasons for the Recommendation of the Plata Latina Board*”, the Plata Latina Board unanimously determined that the entering into of the Arrangement Agreement is in the best interests of Plata Latina and (with conflicted directors abstaining) unanimously recommends that Plata Latina Shareholders vote **FOR** the Plata Latina Transaction Resolutions.

Reasons for the Recommendation of the Plata Latina Board

In making its recommendation to Plata Latina Shareholders, the Plata Latina Board undertook a thorough review of, and considered the terms of, the Arrangement and the Concurrent Financing with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the Plata Latina Board:

- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina's experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management's experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential.
- **A significant private land package presents a strong exploration opportunity for future value creation.** There are over 900 hectares of private land at the Zonia Property, which hosts a current resource that underpins 10 years of initial production. Limited historical exploration work has been completed which provides strong potential for resource expansion and larger-scale production. An additional sizable BLM land package nearby provides significant potential for a Phase 2 expansion in the future.
- **The Zonia Property is located in a Tier 1 jurisdiction.** Copper is a critical mineral for the United States and the Zonia Property is strategically located in Arizona, the largest producer of copper in the United States, ranked 7th globally on mining investment attractiveness, according to the Fraser Institute's 2023 Annual Survey of Mining Companies. The pre-stripped, past-producing Zonia Property benefits from existing infrastructure and a streamlined permitting process, which only requires state permits for Phase 1.
- **The straightforward and low-risk Zonia Property will become a primary asset for Plata Latina.** The Zonia Property's oxide porphyry deposit is attractive and straightforward with conventional open pit mining at a brownfield site via SX-EW, which is expected to reduce processing, minimizing complexity and emissions.
- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.
- **The Transaction is the result of comprehensive arm's length negotiations.** The terms of the Arrangement Agreement and Concurrent Financing are the result of a comprehensive arm's length negotiation process undertaken by Plata Latina with the assistance of its financial and legal advisors.
- **Other factors.** The Plata Latina Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of Plata Latina and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the Plata Latina Board considered the risks relating to the Arrangement, including those matters described under the heading "Risk Factors". The Plata Latina Board believes that the overall anticipated benefits of the Transaction to Plata Latina outweigh these risks.

The foregoing summary of the information and factors considered by the Plata Latina Board is not intended to be exhaustive but includes the material information and factors considered by the Plata Latina Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in

connection with the Plata Latina's Board's evaluation of the Arrangement, the Plata Latina Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

In making its determinations and recommendations, the Plata Latina Board also observed that a number of procedural safeguards were in place and are present to permit the Plata Latina Board to represent the interests of Plata Latina, the Plata Latina Shareholders and Plata Latina's other stakeholders. These procedural safeguards include, among others:

- **Robust diligence process.** Plata Latina's management and its legal, tax and accounting, technical and other advisors conducted an extensive due diligence review and investigation of the business, operations, financial condition, properties, liabilities and future prospects of World Copper, including site visits to the Zonia Property.
- **Ability to respond to superior proposals.** Notwithstanding the limitations contained in the Arrangement Agreement on Plata Latina's ability to solicit interest from third parties, the Arrangement Agreement allows Plata Latina to engage in discussions or negotiations regarding any unsolicited Plata Latina Acquisition Proposal received prior to the Plata Latina Meeting that constitutes or that may reasonably be expected to lead to a Plata Latina Superior Proposal.
- **The Termination Payment is reasonable.** The amount of the Plata Latina Termination Amount, being \$1,000,000 payable under certain circumstances described under "*Summary of Material Agreements – The Arrangement Agreement – Termination – Plata Latina Termination Amount*", is reasonable.
- **The Transaction requires the approval of Plata Latina Shareholders.** In order to become effective, the Plata Latina Transaction Resolutions must each be approved, with or without variation, by a simple majority of the votes cast by Plata Latina Shareholders in person or represented by proxy at the Plata Latina Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101 and the rules and policies of the TSXV, as applicable.

Recommendation of the World Copper Special Committee

After careful consideration and the receipt of financial advice, including receipt of the World Copper Fairness Opinion, and having considered the terms of the Arrangement and such other matters as it considered necessary and relevant, including the factors set out under "*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*", the World Copper Special Committee unanimously determined that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper and unanimously recommended to the World Copper Board that the World Copper Board approve the Arrangement Agreement and the Arrangement and recommend that World Copper Shareholders vote **FOR** the World Copper Arrangement Resolution.

Recommendation of the World Copper Board

After careful consideration and the receipt of financial and legal advice and the unanimous recommendation of the World Copper Special Committee, and having considered the terms of the Arrangement and such other matters as it considered necessary and relevant, including the factors set out under "*The Transaction – Reasons for the Recommendation of the World Copper Board*", the World Copper Board unanimously determined (with conflicted directors abstaining) that the Arrangement is fair and reasonable to World Copper Shareholders and in the best interests of World Copper Shareholders and unanimously recommends that World Copper Shareholders vote **FOR** the World Copper Arrangement Resolution.

Reasons for the Recommendation of the World Copper Board

In making its recommendation to World Copper Shareholders, the World Copper Board undertook a thorough review of, and considered the terms of, the Arrangement with its financial and legal advisors. The following is a summary of the principal reasons for the recommendation of the World Copper Board:

- **Premium valuation of the Zonia Property with robust cash position to fund development and future growth.** The aggregate Cash Consideration and Share Consideration are valued at approximately \$22,000,000, which implies a value of approximately \$0.085 per World Copper Share, representing a premium of approximately 40% to the five-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025 (the last trading day prior to the execution of the Arrangement Agreement) and a premium of approximately 71% to the 20-day volume-weighted average price of the World Copper Shares on the TSXV as of July 22, 2025. Additionally, it is a condition precedent to the completion of the Arrangement that Plata Latina complete the Concurrent Financing for gross proceeds of \$17,000,000, resulting in a well-capitalized vehicle to advance the Zonia Property.
- **The Arrangement is the result of a strategic review process and arm's length negotiations.** Since November 20, 2024, World Copper has publicly conducted a strategic review process exploring potential transaction involving the Zonia Property. The World Copper Board has determined that the Arrangement, the terms of which are the result of an arm's length negotiation process undertaken by World Copper, is fair and reasonable to the World Copper Shareholders and in the best interests of World Copper.
- **World Copper Fairness Opinion.** Evans & Evans has provided an opinion to the World Copper Special Committee with respect to the Arrangement to the effect that, subject to the assumptions, limitations and qualifications stated in the written opinion of Evans & Evans, (a) the consideration to be received by World Copper pursuant to the Arrangement is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. Evans & Evans delivered the World Copper Fairness Opinion on a fixed fee basis that is not dependent on the completion of the Arrangement or the conclusions of the World Copper Fairness Opinion.
- **Combination of a seasoned management team with a strategic copper project in Arizona.** Plata Latina's experienced management team has significant prior experience in Arizona and a strong track record of creating value through resource growth. Management's experience includes generating a 175% shareholder return and a 2.5x resource increase at Copper Mountain Mining Corporation (sold to Hudbay Minerals Inc. in 2023), as well as generating a greater than 1,200% shareholder return and a 1.5x resource increase at Augusta Resource Corporation (sold to Hudbay Minerals Inc. in 2014).
- **Strategically aligned transaction provides attractive value proposition and re-rate upside potential.** Following the Transaction, Plata Latina is expected to compare favourably to peers on key valuation metrics, providing upside and re-rate potential. Through their Plata Latina Consideration Shares, World Copper Shareholders will have the opportunity to participate in the potential re-rating as the Plata Latina management team executes its strategic vision for the Zonia Property.
- **Support of Directors, Officers and Shareholders.** Directors, officers and certain shareholders of each of Plata Latina and World Copper have, respectively, agreed to vote their Plata Latina Shares in favour of the Plata Latina Resolutions and their World Copper Shares in favour of the World Copper Arrangement Resolution. Plata Latina Shares representing approximately 43% of the issued and outstanding Plata Latina Shares are subject to Plata Latina Voting and Support Agreements and World Copper Shares representing approximately 29% of the issued and outstanding World Copper Shares are subject to World Copper Voting and Support Agreements.
- **Capital markets flexibility for World Copper Shareholders through a retained interest in World Copper.** World Copper Shareholders will have the opportunity to retain their interest in World Copper which, following the Arrangement, will be a vehicle with a clean balance sheet and cash and Plata Latina Shares. This structure allows World Copper to access further financing to acquire mineral properties, advance exploration and development of acquired mineral properties or serve as a viable "reverse takeover" candidate.
- **Cash Consideration addresses World Copper's liquidity requirements.** Under the Arrangement Agreement, \$10,000,000 of the Cash Consideration has been allocated to satisfying in full the claims of all World Copper Group Creditors as of the Effective Date.

- **Other factors.** The World Copper Board also considered the Transaction with reference to current economic, industry, political and market trends affecting each of World Copper and the Zonia Property in the copper mining industry, which they deemed as favourable. In addition, the World Copper Board considered the risks relating to the Arrangement, including those matters described under the heading “*Risk Factors*”. The World Copper Board believes that the overall anticipated benefits of the Arrangement to World Copper outweigh these risks.

The foregoing summary of the information and factors considered by the World Copper Board is not intended to be exhaustive but includes the material information and factors considered by the World Copper Board in its consideration of the Arrangement. In view of the variety of factors and the amount of information considered in connection with the World Copper Board’s evaluation of the Arrangement, the World Copper Board did not find it practicable to and did not quantify or otherwise attempt to assign any relative weight to each of the specific factors considered in reaching its conclusions and recommendations.

In making its determinations and recommendations, the World Copper Board also observed that a number of procedural safeguards were in place and are present to permit the World Copper Board to represent the interests of World Copper, the World Copper Shareholders and the World Copper Group Creditors. These procedural safeguards include, among others:

- **Ability to respond to superior proposals.** Notwithstanding the limitations contained in the Arrangement Agreement on World Copper’s ability to solicit interest from third parties, the Arrangement Agreement allows World Copper to engage in discussions or negotiations regarding any unsolicited World Copper Acquisition Proposal received prior to the World Copper Meeting that constitutes or that may reasonably be expected to lead to a World Copper Superior Proposal.
- **The Termination Payment is reasonable.** The amount of the World Copper Termination Amount, being \$1,000,000 payable under certain circumstances described under “*Summary of Material Agreements – The Arrangement Agreement – Termination – Termination Payments*”, is reasonable.
- **The Arrangement requires the approval of World Copper Shareholders.** In order to become effective, the World Copper Arrangement Resolution must be approved, with or without variation, by (a) two-thirds of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof; (b) a simple majority of the votes cast by World Copper Shareholders in person or represented by proxy at the World Copper Meeting or any adjournment or postponement thereof, excluding the votes cast by persons required to be excluded by MI 61-101; and (c) a simple majority of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting, excluding the votes casts by persons required to be excluded by the corporate finance policies of the TSXV.
- **Reciprocal terms of the Arrangement Agreement.** Key terms of the Arrangement Agreement, including non-solicitation covenants, termination fee amounts and triggers, and expense reimbursement amounts and triggers, are reciprocal between World Copper and Plata Latina.
- **Court approval.** The Arrangement must be approved by the Court, which will consider, among other things, the substantive and procedural fairness and the rights and interests of every person affected.
- **Dissent Rights.** Dissent Rights are available to registered World Copper Shareholders with respect to the Arrangement. See “*The Transaction – Dissent Rights for World Copper Shareholders*”.

World Copper Fairness Opinion

Conclusions

The World Copper Board retained Evans & Evans, which has provided advice and an opinion to the World Copper Special Committee in respect of the fairness of the terms of the Arrangement, from a financial point of view, to each of World Copper and the World Copper Shareholders. Evans & Evans delivered the World Copper Fairness Opinion, which concludes that, as of July 16, 2025, based upon and subject to the assumptions, limitations and

qualifications set out therein, (a) the Consideration is fair, from a financial point of view, to World Copper; and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders.

The following summary of the World Copper Fairness Opinion is qualified in its entirety by reference to the full text of the World Copper Fairness Opinion, which is attached to this Circular as Appendix F. The full text of the World Copper Fairness Opinion describes, among other things, the assumptions made, matters considered and limitations on the review undertaken in connection with the opinion. World Copper Shareholders are urged to read the World Copper Fairness Opinion carefully in its entirety.

Evans & Evans has consented to the inclusion in this Circular of the World Copper Fairness Opinion, together with the summary thereof herein, and other information relating to the World Copper Fairness Opinion. The World Copper Fairness Opinion was provided to the World Copper Special Committee for their exclusive use only in considering the Arrangement and may not be relied upon by any other person or for any other purpose or published or disclosed to any other person, relied upon by any other person or used for any other purpose without Evans & Evans's written consent.

Neither Evans & Evans nor any of its affiliates is an insider, associate or affiliate (as such terms are defined in the *Securities Act* (British Columbia)) of World Copper or Plata Latina or any of their respective associates or affiliates. Evans & Evans was paid a fixed fee upon delivery of the World Copper Fairness Opinion to the World Copper Board, which was not contingent upon completion of the Arrangement.

Qualifications regarding the World Copper Fairness Opinion

The World Copper Fairness Opinion addresses only the fairness of the Consideration due under the Arrangement from a financial point of view and is not and should not be construed as a valuation of World Copper or Plata Latina or any of their respective assets or securities or a recommendation to any World Copper Shareholder as to how to vote on the World Copper Arrangement Resolution. The World Copper Fairness Opinion only speaks to the fairness of the Consideration, from a financial point of view, to World Copper and World Copper Shareholders and does not address any other aspect of the Arrangement or any related transaction, including any tax consequences of the Arrangement to World Copper or the World Copper Shareholders. The World Copper Fairness Opinion does not address the relative merits of the Arrangement as compared to other business strategies or transactions that might be available to World Copper or the underlying business decision of World Copper to effect the Arrangement. The World Copper Fairness Opinion was one of a number of factors taken into consideration by the World Copper Board in making their determination to recommend that World Copper Shareholders vote in favour of the World Copper Arrangement Resolution. See "*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*".

The Court may approve the Arrangement in any manner the Court may direct, subject to compliance with such terms and conditions, if any, as the Court deems fit. There can be no assurance that the Court will approve the Arrangement. At the Final Order Hearing, the Court will be informed that World Copper and Plata Latina intend to rely on the Section 3(a)(10) Exemption for the issuance and exchange of the New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options and Plata Latina Replacement Warrants to be issued and exchanged pursuant to the Arrangement, subject to and conditioned upon the Court's determination that the Arrangement is substantively and procedurally fair and reasonable to holders of World Copper Securityholders, as applicable, to whom such Distribution Securities will be issued.

Pursuant to the Interim Order, any holder of World Copper Shares, Specified World Copper Options, World Copper Warrants, World Copper Special Warrants, certain specified World Copper Group Creditors and any other interested person will have the right to appear at the hearing and make submissions at the Final Order Hearing subject to such party filing with the Court and serving upon World Copper and upon counsel to World Copper, a Response to Petition and any supporting materials, including such party's address for service, in the manner required by the rules of the Court and the Interim Order, as more particularly described in the Notice of Petition attached as Appendix D to this Circular.

In accordance with the Interim Order, the Response to Petition and supporting materials must be delivered to World Copper's counsel, Lawson Lundell LLP, at Suite 1600 Cathedral Place, 925 West Georgia Street, Vancouver, British Columbia, Canada V6C 3L2, (Attention: Marko Vesely, K.C.), and Lotz & Company, at 320 Granville Street, Suite 880, Vancouver, British Columbia, Canada V6C 1S9 (Attention: Jonathan Lotz), as soon as reasonably practicable, and, in any event, not later than 4:00 p.m. (Vancouver time) on October 20, 2025. If the Final Order Hearing is postponed, adjourned or rescheduled, then, subject to further direction of the Court, only those persons having previously served and filed a Response to Petition in compliance with the rules of the Court and the Interim Order will be given notice of the new date of the Final Order Hearing.

TSXV Approval

The Arrangement

It is a condition to the Arrangement that the necessary approvals of the TSXV (whether conditional or final) with respect to the Arrangement and the other transactions contemplated by the Arrangement Agreement have been obtained. Each of the disposition of all of the issued and outstanding Zonia Shares by World Copper and the acquisition of all of the issued and outstanding Zonia Shares by Plata Latina pursuant to the Arrangement has been conditionally accepted by the TSXV, subject only to customary conditions. The Parties are not permitted to close the Arrangement until they have received written confirmation from the TSXV that the TSXV has no objection to closing.

A transaction fee of 4.0% of the transaction value is also payable in cash by World Copper to Origin upon completion of the Transaction, which fee is subject to TSXV review and acceptance.

In addition, the issuance to Plata Latina Replacement Options to the holders of Specified World Copper Options constitutes "security-based compensation" for purposes of TSXV Policy 4.4 – *Security-Based Compensation*.

Accordingly, such issuance is subject to disinterested shareholder approval in accordance with section 6.1 of TSXV Policy 4.4 – *Security-Based Compensation*. At the Plata Latina Meeting, Plata Latina Shareholders will be asked to consider and, if thought advisable, approve, with or without variation, the Plata Latina Option Issuance Resolution, which provides for the approval of the issuance of the Plata Latina Replacement Options.

The Concurrent Financing

The Concurrent Financing is subject to the approval of the TSXV in accordance with TSXV Policy 4.1 – *Private Placements*. The Concurrent Financing has been conditionally accepted by the TSXV, subject only to customary conditions, including approval of the Plata Latina Financing Resolution at the Plata Latina Meeting and the TSXV's final acceptance of the Arrangement.

Dissent Rights for World Copper Shareholders

Registered World Copper Shareholders who wish to dissent with respect to the World Copper Arrangement Resolution should take note that strict compliance with the dissent procedures is required.

The following description of the rights of World Copper Shareholders to dissent with respect to the World Copper Arrangement Resolution is not a comprehensive statement of the procedures to be followed by World Copper Shareholders wishing to exercise Dissent Rights and is qualified in its entirety by reference to the full text of the Plan of Arrangement, a copy of which is attached to this Circular as Appendix E, the full text of the Interim Order, which is attached to this Circular as Appendix C, and the provisions of Part 8, Division 2 of the BCBCA, which is attached to this Circular as Appendix K.

Registered World Copper Shareholders who intend to exercise Dissent Rights should carefully consider and comply with the provisions of Part 8, Division 2 of the BCBCA, as modified by the Interim Order, the Plan of Arrangement and any other order of the Court. **The statutory provisions covering the right to exercise Dissent Rights are technical and complex. Failure to strictly comply with the requirements set forth in Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court) may result in the loss of Dissent Rights. It is recommended that you seek independent legal advice if you wish to exercise Dissent Rights.**

The Court hearing the application for the Final Order has the discretion to alter the Dissent Rights described herein based on the evidence presented at such hearing. Pursuant to the Interim Order, each registered World Copper Shareholder as at the close of business on the World Copper Record Date may exercise rights of dissent with respect to the World Copper Shares held by such registered World Copper Shareholder pursuant to and in the manner set forth in sections 242 to 247 of the BCBCA, as modified or supplemented by the Interim Order, the Final Order and the Plan of Arrangement ("**Dissent Rights**"), provided that such registered World Copper Shareholder:

- (a) is the registered holder of the World Copper Shares in respect of which such Dissent Rights are sought to be exercised as of the World Copper Record Date;
- (b) is a registered world Copper Shareholder as of the deadline for providing the Notice of Dissent as contemplated below;
- (c) has strictly complied with the procedures for exercising Dissent Rights set forth in Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court); and
- (d) has not withdrawn such election to exercise Dissent Rights prior to the Effective Time.

A registered World Copper Shareholder wishing to exercise Dissent Rights must exercise such rights with respect to all World Copper Shares in which such World Copper Shareholder owns a beneficial interest and must provide a written notice of dissent ("**Notice of Dissent**") to World Copper, which Notice of Dissent must be received by World Copper at #1570 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6 (Attention: Marla Ritchie, Corporate Secretary), with a copy to World Copper's counsel, Lotz & Company (Attention: Jonathan Lotz) by email (jlotz@lotzandco.com), no later than 5:00 p.m. on October 14, 2025 (or on the Business Day that is two

Business Days immediately preceding any adjournment or postponement of the World Copper Meeting) and must otherwise comply with the requirements set forth in Part 8, Division 2 of the BCBCA.

Non-registered (beneficial) World Copper Shareholders should be aware that only registered World Copper Shareholders as at the close of business on the World Copper Record Date are entitled to exercise Dissent Rights. The World Copper Shares are most often global securities registered in the name of CDS & Co. with CDS & Co. as the sole registered holder of such World Copper Shares. Accordingly, a non-registered (beneficial) World Copper Shareholder who wishes to exercise Dissent Rights must either (a) make arrangements for such beneficially owned World Copper Shares to be registered in the name of the World Copper Shareholder prior to the time the Notice of Dissent is required to be received by World Copper; or (b) make arrangements for the registered World Copper Shareholder of such beneficially owned World Copper Shares to exercise Dissent Rights on behalf of such non-registered (beneficial) holder.

No holder of World Copper Options, World Copper Warrants or World Copper Special Warrants will be entitled to Dissent Rights in respect of such holder's World Copper Options, World Copper Warrants or World Copper Special Warrants.

Pursuant to the Interim Order and the Plan of Arrangement, each Dissenting Shareholder who validly exercises Dissent Rights in respect of the World Copper Arrangement Resolution in strict compliance with Part 8, Division 2 of the BCBCA (as modified or supplemented by the Interim Order, the Plan of Arrangement or any other order of the Court) and:

- is ultimately determined to be entitled to be to be paid by World Copper the fair value of the World Copper Shares held by such Dissenting Shareholder for which Dissent Rights have been validly exercised, such Dissenting Shareholder: (a) shall be deemed not to have participated in the Arrangement; (b) shall be entitled to be paid the fair value of such World Copper Shares by World Copper (less any applicable withholdings required by section 5.4 of the Plan of Arrangement), which fair value, notwithstanding anything to the contrary contained in the BCBCA, shall be determined as of the close of business on the day immediately preceding the date on which the World Copper Arrangement Resolution was adopted at the World Copper Meeting; and (c) shall not be entitled to any other payment or consideration, including any payment that would be payable under the Arrangement had such Dissenting Shareholder not exercised Dissent Rights in respect of such Dissent Notice Shares; or
- is ultimately determined not to be entitled, for any reason, to be paid fair value for such World Copper Shares held by such Dissenting Shareholder, such Dissenting Shareholder shall be deemed to have participated in the Arrangement, as of the Effective Time, on the same basis as a non-dissenting registered World Copper Shareholder, and shall be entitled to receive only the New World Copper Shares and Plata Latina Consideration Shares pursuant to Section 3.1(e)(i) of the Plan of Arrangement that such Dissenting Shareholder would have received pursuant to the Arrangement if such Dissenting Shareholder had not exercised its Dissent Rights.

In no circumstances shall Plata Latina, World Copper or any other Person be required to recognize any Dissenting Shareholder as holders of any World Copper Shares for which Dissent Rights have been validly exercised after the Effective Time, and the names of such Dissenting Shareholders shall be deleted from the central securities register as holders of such World Copper Shares.

Any failure by a registered World Copper Shareholder to strictly comply with the requirements set forth in Part 8, Division 2 of the BCBCA, as modified by the Interim Order, the Plan of Arrangement and any other order of the Court, may result in the loss of such World Copper Shareholder's Dissent Rights with respect to the Arrangement. Non-registered (beneficial) World Copper Shareholders who wish to exercise Dissent Rights must arrange for the registered World Copper Shareholder holding their beneficially owned World Copper Shares to exercise Dissent Rights on behalf of such non-registered (beneficial) World Copper Shareholder, including the delivery of any Notice of Dissent.

The giving of a Notice of Dissent does not deprive a registered World Copper Shareholder of the right to vote at the World Copper Meeting; however, a World Copper Shareholder who votes or has instructed a proxyholder to vote such holder's World Copper Shares in favour of the World Copper Arrangement Resolution will be deemed to have withdrawn such holder's election to exercise Dissent Rights and will not be entitled to exercise the Dissent

Rights . Further, a vote in person or by proxy against the World Copper Arrangement Resolution, or a failure to vote in respect of the World Copper Arrangement Resolution, will not by itself constitute a Notice of Dissent.

A registered World Copper Shareholder who intends to exercise Dissent Rights must prepare separate Notices of Dissent for such holder, if dissenting on such holder's own behalf, and for each other Person who beneficially owns World Copper Shares registered in such registered World Copper Shareholder's name and on whose behalf such registered World Copper Shareholder is exercising Dissent Rights, and must dissent with respect to all of the World Copper Shares registered in such holder's name beneficially owned by the non-registered (beneficial) World Copper Shareholder on whose behalf such holder is dissenting. Each Notice of Dissent must set out the name and address of the registered World Copper Shareholder exercising the Dissent Rights and the number of World Copper Shares in respect of which the Notice of Dissent is being sent (the "**Dissent Notice Shares**") and: (a) if such Dissent Notice Shares constitute all of the World Copper Shares of which such Dissenting Shareholder is both the registered and beneficial owner and that holder owns no other World Copper Shares as beneficial owner, a statement to that effect; (b) if such World Copper Shares constitute all of the World Copper Shares of which the Dissenting Shareholder is both the registered and beneficial owner but the Dissenting Shareholder owns additional World Copper Shares as beneficial owner, a statement to that effect and (i) the names of the registered World Copper Shareholders of those other World Copper Shares, (ii) the number of those other World Copper Shares held by each such registered World Copper Shareholders, and (iii) a statement that Notices of Dissent are being or have been sent in respect of all those other World Copper Shares; or (c) if Dissent Rights are being exercised by a registered World Copper Shareholder on behalf of a non-registered (beneficial) World Copper Shareholder, a statement to that effect and (i) the name and address of the non-registered (beneficial) owner, and (ii) a statement that the registered World Copper Shareholder is exercising Dissent Rights with respect to all of the World Copper Shares of the non-registered (beneficial) World Copper Shareholder that are registered in such registered World Copper Shareholder's name.

If the World Copper Arrangement Resolution is approved by the World Copper Shareholders as required at the World Copper Meeting, and if World Copper notifies the Dissenting Shareholders of its intention to act upon the World Copper Arrangement Resolution, the Dissenting Shareholder is then required within one month after World Copper gives such notice, to send to World Copper the certificates representing the Dissent Notice Shares and a written statement that requires World Copper to purchase all of the Dissent Notice Shares. If the Dissent Rights with respect to the Arrangement are being exercised by the Dissenting Shareholder on behalf of a non-registered (beneficial) World Copper Shareholder who is not the Dissenting Shareholder, a statement signed by such non-registered (beneficial) World Copper Shareholder is required which sets out whether the Dissenting Shareholder is the beneficial owner of other World Copper Shares and if so, (a) the names of the registered World Copper Shareholder of such other World Copper Shares; (b) the number of such other World Copper Shares; and (c) that Dissent Rights are being exercised in respect of all such other World Copper Shares. Upon delivery of these documents, the Dissenting Shareholder is deemed to have sold the Dissent Notice Shares and World Copper is deemed to have purchased them. Once the Dissenting Shareholder has done so, the Dissenting Shareholder may not vote or exercise any shareholder rights in respect of the Dissent Notice Shares.

The right of Dissenting Shareholders to exercise Dissent Rights with respect to Dissent Notice Shares shall terminate if, before full payment is made to the Dissenting Shareholder for the Dissent Notice Shares, (a) the World Copper Arrangement Resolution is not approved; (b) the Arrangement is abandoned or by its terms will not proceed; (c) a court permanently enjoins or sets aside the corporate action approved by the World Copper Arrangement Resolution; (d) the Dissenting Shareholder votes in favour of the World Copper Arrangement Resolution, (e) the Dissenting Shareholder withdraws the Notice of Dissent with World Copper's written consent; or (f) or the Court determines that the Dissenting Shareholder is not entitled to is not entitled to Dissent Rights. In such cases, World Copper must return the share certificates representing the Dissent Notice Shares to Dissenting Shareholders and the Dissenting Shareholders must return any payment made to them by World Copper in respect of Dissent Notice Share, and Dissenting Shareholders shall regain any ability lost to vote and exercise or assert its right as a World Copper Shareholder.

If a Dissenting Shareholder fails to strictly comply with the requirements of the Dissent Rights with respect to the Arrangement, such Dissenting Shareholder will lose such Dissent Rights, World Copper will return to the Dissenting Shareholder the certificate(s) representing the Dissent Notice Shares that were delivered to World Copper, if any, and if the Arrangement is completed, that Dissenting Shareholder will be deemed to have participated in the Arrangement on the same terms as a World Copper Shareholder.

The discussion above is only a summary of the Dissent Rights of registered World Copper Shareholders with respect to the Arrangement, which are technical and complex. The above summary does not purport to provide a comprehensive statement of the procedures to be followed by World Copper Shareholder wishing to exercise Dissent Rights. World Copper suggests that any World Copper Shareholder wishing to exercise Dissent Rights with respect to the Arrangement seek legal advice, as failure to comply strictly with the provisions of the BCBCA, the Interim Order, the Plan of Arrangement or any other order of the Court may prejudice the availability of such Dissent Rights. Non-registered (beneficial) World Copper Shareholders should be aware that only registered World Copper Shareholders as at the close of business on the World Copper Record Date are entitled to exercise Dissent Rights. World Copper Shareholders wishing to exercise Dissent Rights should note that the exercise of Dissent Rights with respect to the Arrangement can be a complex, time-consuming and expensive process. There can be no assurance that the amount received by a Dissenting Shareholder will be more than or equal to the value of the Shareholder Consideration under the Arrangement.

Certain Canadian and U.S. Securities Law Matters

Canada

The distribution of the Distribution Securities pursuant to the Arrangement will constitute a distribution of securities which is exempt from the prospectus requirements of applicable Canadian Securities Laws. Other than the Trust Shares retained by World Copper and not distributed to World Copper Shareholders, the Distribution Securities received by World Copper Shareholders pursuant to the Arrangement will not be legended and may be resold through registered dealers in each of the provinces of Canada, provided that (a) the trade is not a "control distribution" as defined NI 45-102; (b) no unusual effort is made to prepare the market or to create a demand for the Distribution Securities; (c) no extraordinary commission or consideration is paid to a person or company in respect of such sale; and (d) if the selling securityholder is an insider or officer of Plata Latina, the selling securityholder has no reasonable grounds to believe that the Plata Latina is in default of applicable Canadian Securities Laws. Each World Copper Shareholder is urged to consult his or her professional advisors to determine the Canadian conditions and restrictions applicable to trades in Distribution Securities issued to such World Copper Shareholders as consideration under the Arrangement.

United States

The following discussion is a general overview of certain requirements of United States federal Securities Laws that may be applicable to World Copper Securityholders in the United States (collectively, "**U.S. Securityholders**"). All U.S. World Copper Securityholders are urged to consult with their own legal counsel to ensure that any subsequent resale of Distribution Securities distributed to them under the Arrangement complies with applicable U.S. Securities Laws. Further information applicable to U.S. Securityholders is disclosed under the heading "*Notice to Securityholders in the United States*".

The following discussion does not address the Canadian Securities Laws that will apply to the distribution of Distribution Securities or the resale of Distribution Securities by U.S. Securityholders within Canada. United States shareholders reselling their Distribution Securities in Canada must comply with Canadian Securities Laws, as outlined elsewhere in this Circular.

Distribution Securities to be issued and exchanged pursuant to the Arrangement have not been, and will not be, registered under the U.S. Securities Act or the Securities Laws of any state of the United States. Distribution Securities to be issued and exchanged in the Arrangement are expected to be issued and exchanged in reliance upon the Section 3(a)(10) Exemption and similar exemptions provided under the Securities Laws of each state of the United States in which U.S. Securityholders reside, based on, among other things, the approval of the Arrangement by the Court.

The Section 3(a)(10) Exemption exempts securities issued in exchange for one or more outstanding securities from the registration requirements of the U.S. Securities Act where, among other things, the terms and conditions of the issuance and exchange of the securities have been approved by a court of competent jurisdiction, after a hearing upon the fairness of the terms and conditions of the issuance and exchange at which all persons to whom the securities will be issued have the right to appear and to whom timely and adequate notice of the hearing has been given. The Final Order is required for the Arrangement to become effective, and the Court will be advised that its approval of the terms and conditions of the Arrangement will be relied upon to exempt the issuance of the

Distribution Securities under the Arrangement from the registration requirements of the U.S. Securities Act pursuant to the Section 3(a)(10) Exemption. Therefore, if the Court approves the Arrangement, its approval will constitute the basis for the Distribution Securities to be issued and exchanged without registration under the U.S. Securities Act. In addition, Distribution Securities to be issued pursuant to the Arrangement will be issued in compliance with or pursuant to an exemption from the registration or qualification requirements of state or “blue sky” Securities Laws.

Resales of Distribution Securities after the completion of the Arrangement

Persons who are not “affiliates” of Plata Latina or World Copper, as applicable, after the Effective Date and have not been “affiliates” of Plata Latina or World Copper, as applicable, in the 90-day period prior to the Effective Date may resell Distribution Securities that they receive in connection with the Arrangement without restriction under the U.S. Securities Act. As defined in Rule 144, an “affiliate” of an issuer is a person that, directly or indirectly through one or more intermediaries, controls, is controlled by or is under common control with, the issuer and may include directors and certain officers of such issuer as well as principal shareholders of such issuer. U.S. Securityholders should consult their own legal counsel regarding their status as an “affiliate” of Plata Latina or World Copper, as applicable.

Distribution Securities received by a holder who is an “affiliate” of Plata Latina or World Copper, as applicable, after the Effective Date, or was an “affiliate” of Plata Latina or World Copper, as applicable, at any time within 90 days prior to the Effective Date, may be subject to certain restrictions on resale imposed by the U.S. Securities Act. Such persons may not be able to sell Distribution Securities that they receive in connection with the Arrangement in the absence of registration under the U.S. Securities Act or an exemption from such registration, if available, such as the exemptions and safe harbours contained in Rule 144 or Rule 903 or 904 of Regulation S.

- *Affiliates – Rule 144.* In general, under Rule 144, persons who are affiliates of Plata Latina or World Copper, as applicable, after the Effective Date or were affiliates of Plata Latina or World Copper, as applicable, at any time within 90 days prior to the Effective Date will be entitled to sell, during any three-month period, a portion of the Distribution Securities that they receive in connection with the Arrangement, provided that the number of such Distribution Securities sold, as the case may be, does not exceed the greater of 1% of the then outstanding securities of such class or, if such securities are listed on a United States securities exchange and/or reported through the automated quotation system of a United States registered securities association, the average weekly trading volume of such securities on all such national securities exchanges and/or reported through such quotation system during the four-calendar week period preceding the date of transmitting to the SEC a notice of sale on Form 144 (if such notice is required) or the date of sale, subject to specified restrictions on manner of sale, filing requirements, aggregation rules and the availability of current public information about Plata Latina or World Copper, as applicable,. Persons who are affiliates of Plata Latina or World Copper, as applicable, after the Effective Date will continue to be subject to the resale restrictions described in this paragraph for so long as they continue to be affiliates of Plata Latina or World Copper, as applicable.
- *Directors and Officers – Regulation S.* In general, under Regulation S, if at the Effective Date, Plata Latina or World Copper, as applicable, is a “foreign private issuer” (as defined in Rule 405 of the U.S. Securities Act), persons who are affiliates of Plata Latina or World Copper, as applicable, after the Effective Date solely by virtue of their status as an officer or director of Plata Latina or World Copper, as applicable, may sell Distribution Securities outside the United States in an “offshore transaction” (as such term is defined in Regulation S, which would include a sale through the TSXV, if applicable) if neither the seller nor any person acting on its behalf engages in “directed selling efforts” (as defined below) in the United States and no selling commission, fee or other remuneration is paid in connection with such sale other than a usual and customary broker’s commission. For purposes of Regulation S, “directed selling efforts” is defined by Rule 902(c) of Regulation S as “any activity undertaken for the purpose of, or that could reasonably be expected to have the effect of, conditioning the market in the United States for any of the securities being offered” in the sale transaction. For purposes of Regulation S, an offer or sale of securities is made in an “offshore transaction” if the offer is not made to a person in the United States and either (a) at the time the buy order is originated, the buyer is outside the United States, or the seller reasonably believes that the

buyer is outside of the United States, or (b) the transaction is executed in, on or through the facilities of a “designated offshore securities market” (as defined in Regulation S), (which would include a sale through the TSXV), and neither the seller nor any person acting on its behalf knows that the transaction has been pre-arranged with a buyer in the United States. Certain additional restrictions under Regulation S are applicable to sales outside the United States by a holder of Distribution Securities who is an affiliate of Plata Latina or World Copper, as applicable, after the Effective Date, or was an affiliate of Plata Latina or World Copper, as applicable, within 90 days prior to the date of the proposed resale, other than by virtue of his or her status as an officer or director of Plata Latina or World Copper, as applicable.

Issuance of Plata Latina Shares upon the exercise of Plata Latina Replacement Options or Plata Latina Replacement Warrants

The Section 3(a)(10) Exemption does not exempt the issuance of securities issued upon the exercise of previously issued securities or securities issued pursuant to the Section 3(a)(10) Exemption. Therefore, the Plata Latina Shares issuable upon the exercise of the Plata Latina Replacement Options or Plata Latina Replacement Warrants following the Effective Date may not be issued in reliance upon the Section 3(a)(10) Exemption and such Plata Latina Replacement Options or Plata Latina Replacement Warrants may be exercised only pursuant to an available exemption or exclusion from the registration requirements of the U.S. Securities Act and applicable U.S. state securities Laws. Prior to the issuance of Plata Latina Shares pursuant to any such exercise, Plata Latina may require the delivery of an opinion of counsel or other evidence reasonably satisfactory to Plata Latina to the effect that the issuance of such securities does not require registration under the U.S. Securities Act or applicable U.S. state securities Laws. Any Plata Latina Shares issued upon exercise of the Plata Latina Replacement Options or Plata Latina Replacement Warrants pursuant to an exemption from the registration requirements of the U.S. Securities Act will be “restricted securities” as defined in Rule 144 and will be subject to restrictions on resales imposed by the U.S. Securities Act.

Investors are urged to consult with their own legal counsel before proceeding to sell any Plata Latina Shares.

Procedures for Exchange of Securities Under the Transaction and Related Matters

The Arrangement

Procedure for Exchange of World Copper Shares

Enclosed with this Circular as sent to World Copper Shareholders is the Letter of Transmittal which, when properly completed and duly executed and returned to the Depositary together with a share certificate or share certificates representing World Copper Shares and all other required documents, will enable each registered World Copper Shareholder to obtain the New World Copper Shares and Plata Latina Consideration Shares to which such World Copper Shareholder is entitled as consideration under the Arrangement.

The Letter of Transmittal sets out the details to be followed by each registered World Copper Shareholder for delivering the share certificate(s) held by such registered World Copper Shareholder to the Depositary. In order to receive certificates or DRS Advices representing the New World Copper Shares and Plata Latina Consideration Shares which the registered World Copper Shareholder is entitled to receive on completion of the Arrangement, registered World Copper Shareholders must deposit with the Depositary (at the address specified on the last page of the Letter of Transmittal) the applicable validly completed and duly signed Letter of Transmittal together with the share certificate(s) representing the registered World Copper Shareholder's World Copper Shares and such other documents and instruments as World Copper, Plata Latina or the Depositary may reasonably require. The New World Copper Shares are expected to require a new CUSIP/ISIN.

Provided that a registered World Copper Shareholder has returned a properly completed and executed Letter of Transmittal and has presented and surrendered the share certificate(s) representing such registered World Copper Shareholder's World Copper Shares to the Depositary, together with such other documents and instruments as Plata Latina or the Depositary may reasonably require as set forth in the Letter of Transmittal, the Depositary will cause the New World Copper Shares (which are expected to require a new CUSIP/ISIN number) and Plata Latina Consideration Shares be issued to such World Copper Shareholder as consideration under the Arrangement, less any applicable tax withholdings for each World Copper Share exchanged pursuant to the

Arrangement, in the form of certificates or DRS Advices representing the New World Copper Shares and Plata Latina Consideration Shares to be sent to such registered World Copper Shareholder as soon as practicable following the Effective Date. The New World Copper Shares and Plata Latina Consideration Shares issued as consideration under the Arrangement will be either: (a) issued and mailed in accordance with the instructions provided by the registered World Copper Shareholder in its Letter of Transmittal; (b) held for pick-up at the offices of the Depositary if directed by the registered World Copper Shareholder in its Letter of Transmittal; or (c) if no instructions are provided by the registered World Copper Shareholder in the Letter of Transmittal, issued in the name of the registered World Copper Shareholder and mailed to the address of the registered World Copper Shareholder as it appears in the register of shareholders of World Copper.

A registered World Copper Shareholder that does not deposit a properly completed and executed Letter of Transmittal with the Depositary or who does not surrender the share certificate(s) representing such registered World Copper Shareholder's World Copper Shares in accordance with the Letter of Transmittal or does not otherwise comply with the requirements of the Letter of Transmittal and the instructions therein will not be entitled to receive the New World Copper Shares and Plata Latina Consideration Shares issued as consideration under the Arrangement until the registered World Copper Shareholder deposits with the Depositary a properly completed and executed Letter of Transmittal and the certificate(s) representing the registered World Copper Shareholder's World Copper Shares.

If the Arrangement is not completed, the Letter of Transmittal will be of no effect and the Depositary will return all deposited share certificate(s) to the registered World Copper Shareholder as soon as possible. The Letter of Transmittal is also available on World Copper's issuer profile on SEDAR+ at www.sedarplus.ca.

Non-registered (beneficial) World Copper Shareholders whose World Copper Shares are registered in the name of an Intermediary must contact their nominee to deposit their World Copper Shares.

It is recommended that registered World Copper Shareholders complete, sign and return the Letter of Transmittal with the accompanying share certificate(s) representing their World Copper Shares to the Depositary as soon as possible.

Fractional Shares

No fractional New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options or Plata Latina Replacement Warrants are issuable pursuant to the Plan of Arrangement. Notwithstanding anything to the contrary in the Plan of Arrangement, in any case where the aggregate New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options or Plata Latina Replacement Warrants issuable to a particular Person under the Arrangement would result in a fraction thereof, then the number of New World Copper Shares, Plata Latina Consideration Shares, Plata Latina Replacement Options or Plata Latina Replacement Warrants issuable to such Person, as the case may be, will be rounded down to the nearest whole number thereof.

Lost Certificates

In the event any certificate which immediately prior to the Effective Time represented one or more outstanding World Copper Shares or World Copper Special Warrants that were exchanged pursuant to the Plan of Arrangement has been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such certificate to be lost, stolen or destroyed, the Depositary will issue in exchange for such lost, stolen or destroyed certificate, the applicable New World Copper Shares and Plata Latina Consideration Shares, in accordance with such holder's Letter of Transmittal. When authorizing such New World Copper Shares and Plata Latina Consideration Shares in exchange for any lost, stolen or destroyed certificate, the Person to whom such New World Copper Shares and Plata Latina Consideration Shares are to be delivered shall as a condition precedent to the delivery thereof, give a bond satisfactory to Plata Latina, World Copper and the Depositary (acting reasonably) in such sum as Plata Latina and World Copper may direct (acting reasonably), or otherwise indemnify Plata Latina and World Copper in a manner satisfactory to Plata Latina and World Copper, acting reasonably, against any claim that may be made against Plata Latina, World Copper and the Depositary with respect to the certificate alleged to have been lost, stolen or destroyed.

Extinction of Rights

Any certificate or DRS Advice formerly representing World Copper Shares or World Copper Special Warrants not duly surrendered on or before the sixth anniversary of the Effective Date shall cease to represent a claim by or interest of any former holder of World Copper Shares or World Copper Special Warrants, as applicable, of any kind or nature against or in World Copper or Plata Latina. On such anniversary date, all certificates or DRS Advice representing World Copper Shares or World Copper Special Warrants will be deemed to have been surrendered and all New World Copper Shares and Plata Latina Consideration Shares to which such former holder of World Copper Shares or World Copper Special Warrants, as applicable, was entitled, together with any entitlements to dividends, distributions and interest thereon, shall be deemed to have been surrendered for no consideration, and shall be paid over by the Depositary to the World Copper or as directed by World Copper (in the case of New World Copper Shares) or Plata Latina or as directed by Plata Latina (in the case of Plata Latina Consideration Shares).

Withholding Rights

Plata Latina, World Copper, the Depositary and any Acquired Entity will be entitled to deduct or withhold (or cause to be deducted or withheld) from any amount payable or otherwise deliverable to any Person pursuant to the Plan of Arrangement or the Arrangement Agreement, including Dissenting Shareholders, and from all dividends, other distributions or other amounts otherwise payable to any holder of World Copper Shares, Specified World Copper Options, World Copper Warrants or World Copper Special Warrants, such Taxes or other amounts as Plata Latina, World Copper, the Depositary or any Acquired Entity is required to deduct or withhold under the Tax Act or the provisions of any other applicable Law with respect to any payment (including an issuance of shares or a payment of other non-cash consideration) made pursuant to the Plan of Arrangement or the Arrangement Agreement. To the extent that Taxes or other amounts are so deducted or withheld, such deducted or withheld Taxes or other amounts will be treated for all purposes under the Arrangement Agreement and the Plan of Arrangement as having been paid to the Person in respect of which such deduction or withholding was made, provided that such deducted or withheld Taxes or other amounts are actually remitted to the appropriate Governmental Entity. Each of World Copper and the Depositary is authorized to sell or otherwise dispose of, on behalf of such Person, such portion of any share or other security deliverable to such Person as is necessary to provide sufficient funds to World Copper or the Depositary, as the case may be, to enable it to comply with such deduction or withholding requirement and World Copper or the Depositary will notify such Person thereof and remit the applicable portion of the net proceeds of such sale to the appropriate Governmental Entity and, if applicable, any portion of such net proceeds that is not required to be so remitted shall be paid to such Person.

The Plata Latina Share Consolidation

Procedure for Exchange of Plata Latina Shares

At the time of sending this Circular to each Plata Latina Shareholder, Plata Latina is also sending the Consolidation Letter of Transmittal to each registered Plata Latina Shareholder. The Consolidation Letter of Transmittal is only for use by registered Plata Latina Shareholders and is not to be used by non-registered (beneficial) Plata Latina Shareholders. Non-registered (beneficial) Plata Latina Shareholders should contact their Intermediary for instructions and assistance regarding this process.

Computershare, the transfer agent of Plata Latina, is acting as the depositary in connection with the Transaction. The Depositary will receive deposits of existing Plata Latina Shares and an accompanying Consolidation Letter of Transmittal, at the office specified in the Consolidation Letter of Transmittal and will be responsible for delivering certificates representing Plata Latina Shares (on a post-Consolidation basis) to which registered Plata Latina Shareholders are entitled under the Consolidation.

The Consolidation Letter of Transmittal contains instructions on how to surrender share certificate(s) representing pre-Consolidation Plata Latina Shares to the Depositary. Registered Plata Latina Shareholders can request additional copies of the Consolidation Letter of Transmittal by contacting the Depositary. The Consolidation Letter of Transmittal is also available under Plata Latina's issuer profile on SEDAR+ at www.sedarplus.ca.

Registered Plata Latina Shareholders are requested to tender to the Depositary any share certificates representing existing Plata Latina Shares along with the duly completed Consolidation Letter of Transmittal and all other required documents as soon as possible. As soon as practicable following the Effective Date, the Depositary will forward to each registered Plata Latina Shareholder who has sent the required documents a new share certificate representing the post-Consolidation Plata Latina Shares to which the registered Plata Latina Shareholder is entitled under the Consolidation. Until surrendered, each share certificate representing pre-Consolidation Plata Latina Shares will be deemed for all purposes to represent the number of whole post-Consolidation Plata Latina Shares to which the registered Plata Latina Shareholder is entitled as a result of the Consolidation. Registered Plata Latina Shareholders should not destroy any share certificate(s). The method of delivery of share certificates representing Plata Latina Shares and the duly completed Consolidation Letter of Transmittal and all other required documents will be at the option and risk of the person surrendering them. It is recommended that such documents be delivered by hand to the Depositary, at the address noted in the Consolidation Letter of Transmittal, and a receipt obtained therefore, or, if mailed, that registered mail, with return receipt requested, be used and that proper insurance be obtained. No new share certificates will be issued to a registered Plata Latina Shareholder until such registered Plata Latina Shareholder has surrendered the corresponding existing share certificates, together with a properly completed and executed Consolidation Letter of Transmittal, to the Depositary.

Following the Transaction, Plata Latina expects it will need to obtain a new CUSIP/ISIN number for the post-Consolidation Plata Latina Shares. Consequently, following the Consolidation, registered Plata Latina Shareholders will need to surrender their existing share certificates before they will be able to sell or transfer their Plata Latina Shares. If the Consolidation is implemented, intermediaries will be instructed to effect the Consolidation for beneficial Plata Latina Shareholders holding Plata Latina Shares indirectly. However, such intermediaries may have different procedures than registered Plata Latina Shareholders for processing the Consolidation. If you hold your Plata Latina Shares through an Intermediary and if you have any questions in this regard, you are encouraged to contact your Intermediary.

Treatment of Fractional Shares

In no event shall any Plata Latina Shareholder be entitled to a fractional post-Consolidation Plata Latina Share. Where the aggregate number of post-Consolidation Plata Latina Shares to be issued to a registered Plata Latina Shareholder under the Consolidation would result in a fraction of a post-Consolidation Plata Latina Share being issuable, the number of post-Consolidation Plata Latina Shares to be received by such registered Plata Latina Shareholder shall be rounded down to the nearest whole post-Consolidation Plata Latina Share and any fractional post-Consolidation Plata Latina Shares arising from the Consolidation of the Plata Latina Shares will be deemed to have been tendered by its registered owner to Plata Latina for cancellation for no consideration.

Lost Certificates

If a share certificate representing Plata Latina Shares has been lost or destroyed, the Consolidation Letter of Transmittal should be completed as fully as possible and forwarded by the registered Plata Latina Shareholder to the Depositary together with correspondence stating that the original share certificate representing the Plata Latina Shares has been lost. The Depositary will respond with replacement instructions (which may include bonding requirements).

Covenants Regarding Non-Solicitation

Pursuant to the Arrangement Agreement, during the Pre-Closing Period and except as otherwise expressly permitted in the Arrangement Agreement, each Party and its Subsidiaries shall not, directly or indirectly, through any Representative, and each Party shall direct its Representatives and its Subsidiaries not to:

- (a) solicit, initiate, encourage or otherwise knowingly facilitate (including by way of furnishing or providing copies of, access to, or disclosure of, any confidential information, properties, facilities, books or records of such Party or its Subsidiaries) any inquiry, proposal or offer that

constitutes or may reasonably be expected to lead to a World Copper Acquisition Proposal or a Plata Latina Acquisition Proposal, as applicable;

- (b) enter into, engage in, continue or otherwise participate in any discussions or negotiations with any Person (other than the other Party and its affiliates and their respective Representatives) in respect of any inquiry, proposal or offer that constitutes or may reasonably be expected to lead to a World Copper Acquisition Proposal or a Plata Latina Acquisition Proposal, as applicable, provided that such Party may (i) advise any Person of the restrictions of the Arrangement Agreement, and (ii) clarify the terms of any inquiry, proposal or offer, in each case, if, in so doing, no other information that is prohibited from being communicated under the Arrangement Agreement is communicated to such Person;
- (c) make any World Copper Change in Recommendation or Plata Latina Change in Recommendation, as applicable; or

If World Copper, any of its Subsidiaries or any of their respective Representatives receives: (a) any inquiry, proposal or offer made after the date of the Arrangement Agreement that constitutes or would reasonably be expected to lead to a World Copper Acquisition Proposal, or (b) any request for copies of, access to, or disclosure of, confidential information relating to World Copper or its Subsidiaries in connection with any inquiry, proposal or offer that constitutes or may reasonably be expected to constitute or lead to a World Copper Acquisition Proposal, including information, access or disclosure relating to the properties, facilities, books or records of World Copper or the Acquired Entities, in each case, then, World Copper must:

- (a) (i) promptly notify Plata Latina, at first orally, and then in writing within 24 hours, of such World Copper Acquisition Proposal, inquiry, proposal, offer or request, including a description of the identity of the Person or group of Persons making such World Copper Acquisition Proposal, inquiry, proposal, offer or request and the material terms and conditions thereof, and (ii) provide copies of all written documents, substantive correspondence or other material documentation received in respect of, from or on behalf of any such Person or group of Persons; and

discussions and negotiations with respect to such World Copper Acquisition Proposal, inquiry, proposal, offer or request, including any material changes, modifications or other amendments to any such World Copper Acquisition Proposal, inquiry, proposal, offer or request.

Responding to a World Copper Acquisition Proposal

Notwithstanding the provisions under the Arrangement Agreement, if at any time prior to the approval of the World Copper Arrangement Resolution at the World Copper Meeting in accordance with the terms of the Interim Order, World Copper receives a bona fide written World Copper Acquisition Proposal that was not solicited in contravention of the Arrangement Agreement or the Exclusivity Agreement, World Copper may (x) enter into, engage in or participate in discussions or negotiations with the Person or group of Persons making such World Copper Acquisition Proposal, and/or (y) provide copies of, access to or disclosure of information, properties, facilities, books or records of World Copper and its Subsidiaries, if and only if:

- (a) the World Copper Board first determines, in good faith after consultation with its financial advisors and outside legal counsel, that such World Copper Acquisition Proposal constitutes or may reasonably be expected to constitute or lead to a World Copper Superior Proposal;
- (b) such Person or group of Persons making such World Copper Acquisition Proposal was not restricted from making a World Copper Acquisition Proposal pursuant to an existing standstill, confidentiality, use or similar restriction with World Copper or any of its Subsidiaries;
- (c) World Copper has been, and continues to be, in compliance with its obligations under the Arrangement Agreement in all material respects; and
- (d) prior to providing any such copies, access or disclosures, (i) World Copper enters into an Acceptable Confidentiality Agreement with such Person or group of Persons or confirms it has previously entered into such an agreement which remains in effect, (ii) World Copper provides Plata Latina with a true, complete and final executed copy of such Acceptable Confidentiality Agreement, and (iii) any such copies, access or disclosure provided to such Person shall have already been or shall concurrently be provided to Plata Latina.

Nothing contained in the Arrangement Agreement prohibits World Copper or the World Copper Board from complying with a court order or section 2.17 of NI 62-104 – *Take-Over Bids and Issuer Bids* and similar provisions under Canadian Securities Laws relating to the provision of a directors' circular in respect of a World Copper Acquisition Proposal; provided that World Copper shall provide Plata Latina with a reasonable opportunity to review the form and content of such directors' circular before it is mailed by World Copper and World Copper shall give reasonable consideration to any comments made by Plata Latina and its outside legal counsel; provided, further, that neither World Copper nor the World Copper Board shall be permitted to recommend that the World Copper Shareholders tender any securities in connection with any take-over bid that is a World Copper Acquisition Proposal or effect a World Copper Change in Recommendation with respect thereto, except as permitted by the Arrangement Agreement. In addition, nothing contained in the Arrangement Agreement prohibits World Copper or the World Copper Board from calling and/or holding a meeting of World Copper Shareholders requisitioned by World Copper Shareholders in accordance with the BCBCA or taking any other action to the extent ordered or otherwise mandated by a Governmental Entity.

Plata Latina's Right to Match

If World Copper receives a World Copper Acquisition Proposal that constitutes a World Copper Superior Proposal prior to the approval of the World Copper Arrangement Resolution at the World Copper Meeting in accordance with the terms of the Interim Order, the World Copper Board may make a World Copper Change in Recommendation in response to such World Copper Superior Proposal and/or may enter into a definitive agreement with respect to such World Copper Superior Proposal, if and only if:

- (a) the Person making such World Copper Superior Proposal was not restricted from making a World Copper Acquisition Proposal pursuant to an existing standstill, confidentiality, use or similar restriction;

- (b) World Copper has been, and continues to be, in compliance with its obligations under the Arrangement Agreement;
- (c) World Copper or its Representatives have delivered to Plata Latina a written notice of the determination of the World Copper Board that such World Copper Acquisition Proposal constitutes a World Copper Superior Proposal and of the intention of the World Copper Board to make a World Copper Change in Recommendation in response to such World Copper Superior Proposal and/or to enter into a definitive agreement with respect to such World Copper Superior Proposal, which notice shall include (i) if applicable, a copy of the proposed agreement to be entered into in connection with the World Copper Superior Proposal and all supporting materials, including any financing documents supplied to World Copper in connection therewith, and (ii) details as to the value in financial terms that the World Copper Board, in consultation with its financial advisors, has determined should be ascribed to any non-cash consideration offered under the World Copper Superior Proposal (collectively, a **"World Copper Superior Proposal Notice"**);
- (d) five Business Days (a **"Plata Latina Response Period"**) shall have elapsed from the date on which Plata Latina received the World Copper Superior Proposal Notice that fully complies with the Arrangement Agreement;
- (e) during any Plata Latina Response Period, Plata Latina has had the opportunity (but not the obligation) in accordance with the Arrangement Agreement to offer to amend the Arrangement Agreement and the Plan of Arrangement in order for such World Copper Acquisition Proposal to cease to constitute a World Copper Superior Proposal;
- (f) after the Plata Latina Response Period, the World Copper Board has determined in good faith, after consultation with its financial advisors and outside legal counsel, that (i) such World Copper Acquisition Proposal continues to constitute a World Copper Superior Proposal (if applicable, compared to the terms of the Arrangement as proposed to be amended by Plata Latina), and (ii) the failure by the World Copper Board to make a World Copper Change in Recommendation in response to such World Copper Superior Proposal and/or to enter into a definitive agreement with respect to such World Copper Superior Proposal would be inconsistent with its fiduciary duties; and
- (g) prior to or concurrently with entering into a definitive agreement with respect to such World Copper Superior Proposal, (i) World Copper shall have terminated the Arrangement Agreement pursuant to the Arrangement Agreement and paid the World Copper Termination Amount in full in accordance with the Arrangement Agreement, and (ii) Plata Latina shall have been paid the then-outstanding aggregate principal amount under the Bridge Loan Agreement, together with all accrued and unpaid interest and fees thereunder, as of (but excluding) the date on which the Arrangement Agreement was terminated by World Copper pursuant to the Arrangement Agreement.

During the Plata Latina Response Period or such longer period as World Copper may approve in writing for such purpose: (a) the World Copper Board shall review any offer made by Plata Latina to amend the terms of the Arrangement Agreement and the Plan of Arrangement in good faith, after consultation with its financial advisors and outside legal counsel, in order to determine whether such offer would, upon acceptance, result in the World Copper Acquisition Proposal previously constituting a World Copper Superior Proposal ceasing to constitute a World Copper Superior Proposal; and (b) if the World Copper Board determines that such World Copper Acquisition Proposal would cease to constitute a World Copper Superior Proposal, World Copper shall promptly so advise Plata Latina, and World Copper and Plata Latina shall negotiate in good faith to amend the Arrangement Agreement and the Plan of Arrangement to reflect such offer made by Plata Latina.

Each successive amendment or modification to any World Copper Acquisition Proposal or agreement proposed to be entered into in connection with the World Copper Superior Proposal that results in an increase in, or modification of, the consideration (or value of such consideration) in respect of such World Copper Acquisition Proposal or other material terms or conditions thereof shall constitute a new World Copper Acquisition Proposal for the purposes of the Arrangement Agreement, and Plata Latina shall be afforded a new Plata Latina Response

Period of five Business Days from the date on which Plata Latina has received the new World Copper Superior Proposal Notice from World Copper with respect to the new World Copper Superior Proposal.

Notification of Plata Latina Acquisition Proposals

If Plata Latina, any of its Subsidiaries or any of their respective Representatives receives: (y) any inquiry, proposal or offer made after the date of the Arrangement Agreement that constitutes or would reasonably be expected to lead to a Plata Latina Acquisition Proposal, or (z) any request for copies of, access to, or disclosure of, confidential information relating to Plata Latina or its Subsidiaries in connection with any inquiry, proposal or offer that constitutes or may reasonably be expected to constitute or lead to a Plata Latina Acquisition Proposal, including information, access or disclosure relating to the properties, facilities, books or records of Plata Latina or its Subsidiaries, in each case, then, Plata Latina must:

- (a) (i) promptly notify World Copper, at first orally, and then in writing within 24 hours, of such Plata Latina Acquisition Proposal, inquiry, proposal, offer or request, including a description of the identity of the Person or group of Persons making such Plata Latina Acquisition Proposal, inquiry, proposal, offer or request and the material terms and conditions thereof, and (ii) provide copies of all written documents, substantive correspondence or other material documentation received in respect of, from or on behalf of any such Person or group of Persons; and

Responding to a Plata Latina Acquisition Proposal

Notwithstanding the provisions under the Arrangement Agreement, if at any time prior to the approval of the Plata Latina Resolutions at the Plata Latina Meeting, Plata Latina receives a bona fide written Plata Latina Acquisition Proposal that was not solicited in contravention of the Arrangement Agreement or the Exclusivity Agreement, Plata Latina may (x) enter into, engage in or participate in discussions or negotiations with the Person or group of Persons making such Plata Latina Acquisition Proposal, and/or (y) provide copies of, access to or disclosure of information, properties, facilities, books or records of Plata Latina and its Subsidiaries, if and only if:

- (a) the Plata Latina Board first determines, in good faith after consultation with its financial advisors and outside legal counsel, that such Plata Latina Acquisition Proposal constitutes or may reasonably be expected to constitute or lead to a Plata Latina Superior Proposal;
- (b) such Person or group of Persons was not restricted from making a Plata Latina Acquisition Proposal pursuant to an existing standstill, confidentiality, use or similar restriction with Plata Latina or any of its Subsidiaries;
- (c) Plata Latina has been, and continues to be, in compliance with its obligations under the Arrangement Agreement; and
- (d) prior to providing any such copies, access or disclosures, (i) Plata Latina enters into an Acceptable Confidentiality Agreement with such Person or group of Persons or confirms it has previously entered into such an agreement which remains in effect, (ii) Plata Latina provides World Copper with a true, complete and final executed copy of such Acceptable Confidentiality Agreement, and (iii) any such copies, access or disclosure provided to such Person shall have already been or shall concurrently be provided to World Copper.

Nothing contained in the Arrangement Agreement prohibits Plata Latina or the Plata Latina Board from complying with a court order or section 2.17 of NI 62-104 – *Take-Over Bids and Issuer Bids* and similar provisions under Canadian Securities Laws relating to the provision of a directors' circular in respect of a Plata Latina Acquisition Proposal; provided, that Plata Latina shall provide World Copper with a reasonable opportunity to review the form and content of such directors' circular before it is mailed by Plata Latina and Plata Latina shall give reasonable

consideration to any comments made by World Copper and its outside legal counsel; provided, further, that neither Plata Latina nor the Plata Latina Board shall be permitted to recommend that Plata Latina Shareholders tender any securities in connection with any take-over bid that is a Plata Latina Acquisition Proposal or effect a Plata Latina Change in Recommendation with respect thereto, except as permitted by the Arrangement Agreement. In addition, nothing contained in the Arrangement Agreement prohibits Plata Latina or the Plata Latina Board from calling and/or holding a meeting of Plata Latina Shareholders requisitioned by Plata Latina Shareholders in accordance with the BCBCA or taking any other action to the extent ordered or otherwise mandated by a Governmental Entity.

World Copper's Right to Match

If Plata Latina receives a Plata Latina Acquisition Proposal that constitutes a Plata Latina Superior Proposal prior to the approval of the Plata Latina Resolutions at the Plata Latina Meeting, the Plata Latina Board may make a Plata Latina Change in Recommendation in response to such Plata Latina Superior Proposal and/or may enter into a definitive agreement with respect to such Plata Latina Superior Proposal, if and only if:

- (a) the Person making such Plata Latina Superior Proposal was not restricted from making a Plata Latina Acquisition Proposal pursuant to an existing standstill, confidentiality, use or similar restriction;
- (b) Plata Latina has been, and continues to be, in compliance with its obligations under the Arrangement Agreement;
- (c) Plata Latina or its Representatives have delivered to World Copper a written notice of the determination of the Plata Latina Board that such Plata Latina Acquisition Proposal constitutes a Plata Latina Superior Proposal and of the intention of the Plata Latina Board to make a Plata Latina Change in Recommendation in response to such Plata Latina Superior Proposal and/or to enter into a definitive agreement with respect to such Plata Latina Superior Proposal, which notice shall include (i) if applicable, a copy of the proposed agreement to be entered into in connection with the Plata Latina Superior Proposal and all supporting materials, including any financing documents supplied to Plata Latina in connection therewith, and (ii) details as to the value in financial terms that the Plata Latina Board, in consultation with its financial advisors, has determined should be ascribed to any non-cash consideration offered under the Plata Latina Superior Proposal (collectively, a **"Plata Latina Superior Proposal Notice"**);
- (d) five Business Days (a **"World Copper Response Period"**) shall have elapsed from the date on which World Copper received the Plata Latina Superior Proposal Notice that fully complies with the Arrangement Agreement;
- (e) during any World Copper Response Period, World Copper has had the opportunity (but not the obligation) in accordance with the Arrangement Agreement to offer to amend the Arrangement Agreement and the Plan of Arrangement in order for such Plata Latina Acquisition Proposal to cease to constitute a Plata Latina Superior Proposal;
- (f) after the World Copper Response Period, the Plata Latina Board has determined in good faith, after consultation with its financial advisors and outside legal counsel, that (i) such Plata Latina Acquisition Proposal continues to constitute a Plata Latina Superior Proposal (if applicable, compared to the terms of the Arrangement as proposed to be amended by World Copper), and (ii) the failure by the Plata Latina Board to make a Plata Latina Change in Recommendation in response to such Plata Latina Superior Proposal and/or to enter into a definitive agreement with respect to such Plata Latina Superior Proposal would be inconsistent with its fiduciary duties; and
- (g) prior to or concurrently with entering into a definitive agreement with respect to such Plata Latina Superior Proposal, Plata Latina shall have terminated the Arrangement Agreement pursuant to the Arrangement Agreement and paid the Plata Latina Termination Amount in full in accordance with the Arrangement Agreement.

During the World Copper Response Period or such longer period as Plata Latina may approve in writing for such purpose: (a) the Plata Latina Board shall review any offer made by World Copper to amend the terms of the Arrangement Agreement and the Plan of Arrangement in good faith, after consultation with its financial advisors and outside legal counsel, in order to determine whether such offer would, upon acceptance, result in the Plata Latina Acquisition Proposal previously constituting a Plata Latina Superior Proposal ceasing to constitute a Plata Latina Superior Proposal; and (b) if the Plata Latina Board determines that such Plata Latina Acquisition Proposal would cease to constitute a Plata Latina Superior Proposal, Plata Latina shall promptly so advise World Copper, and Plata Latina and World Copper shall negotiate in good faith to amend the Arrangement Agreement and the Plan of Arrangement to reflect such offer made by World Copper.

Each successive amendment or modification to any Plata Latina Acquisition Proposal or agreement proposed to be entered into in connection with the Plata Latina Superior Proposal that results in an increase in, or modification of, the consideration (or value of such consideration) in respect of such Plata Latina Acquisition Proposal or other material terms or conditions thereof shall constitute a new Plata Latina Acquisition Proposal for the purposes of the Arrangement Agreement, and World Copper shall be afforded a new World Copper Response Period of five Business Days from the date on which World Copper has received the new Plata Latina Superior Proposal Notice from Plata Latina with respect to the new Plata Latina Superior Proposal.

Payment and Distribution of Consideration

Following receipt of the Final Order and no later than the Business Day prior to the anticipated Effective Date determined in accordance with the Arrangement Agreement, Plata Latina is required to deposit, or cause to be deposited, sufficient Plata Latina Shares and cash to satisfy the aggregate Consideration required to be issued or paid, as applicable, pursuant to section 3.1(c) of the Plan of Arrangement, in each case, held in trust by the Depositary (the terms and conditions of such escrow to be satisfactory to the Parties, acting reasonably).

On the Effective Date, upon joint written notice from Plata Latina and World Copper confirming the consummation of the Arrangement, together with any additional documents and instruments as the Depositary may reasonably require, World Copper will be entitled to receive, and the Depositary will deliver to World Copper, as soon as practicable, the Consideration that World Copper has the right to receive under the Arrangement for all of the issued and outstanding Zonia Shares and the entirety of the Zonia Intercompany Debt, less any applicable withholdings pursuant to the Arrangement Agreement. In furtherance of the foregoing, the Cash Consideration which World Copper is entitled to so receive will be delivered by the Depositary (a) as to \$500,000 to a bank account of World Copper, and (b) as to the balance (such amount being the Creditor Deposit) to the trust account of World Copper's legal counsel, Lotz & Company, which Creditor Deposit will be held by Lotz & Company in trust for the benefit of the World Copper Group Creditors for distribution thereto in accordance with the terms of the Arrangement Agreement.

As promptly as reasonably practicable, and in any event not later than two Business Days, following the Effective Date, World Copper will cause Lotz & Company to distribute such portion of the Creditor Deposit from its trust account as is sufficient to satisfy in full the Claim of each World Copper Group Creditor (other than two specified World Copper Group Creditors, whose claims will be satisfied by no later than 18 months following the Effective Date) against World Copper or any of its Subsidiaries and distribute to each such World Copper Group Creditor an amount in cash equal to the amount set forth next to such World Copper Group Creditor's name on the Final Closing Date World Copper Group Creditor Schedule in full and final satisfaction of such World Copper Group Creditor's Claim.

 - (i) the World Copper Meeting is duly convened and held and the World Copper Arrangement Resolution is not approved at the World Copper Meeting in accordance with the terms of the Interim Order; provided that a Party may not terminate the

- (ii) the Plata Latina Meeting is duly convened and held and the Plata Latina Transaction Resolutions are not approved at the Plata Latina Meeting; provided that a Party may not terminate the Arrangement Agreement if the failure to obtain the approval of the Plata Latina Transaction Resolutions at the Plata Latina Meeting has been caused by, or is a result of, a breach by such Party of any of its representations or warranties or the failure of such Party to perform any of its covenants or agreements under the Arrangement Agreement;
- (iii) after the date of the Arrangement Agreement, any Law or Order is enacted, made, enforced or amended, as applicable, that makes the consummation of the Arrangement illegal or otherwise prohibits or enjoins World Copper or Plata Latina from consummating the Arrangement, and such Law or Order has, if applicable, become final and non-appealable; or
- (iv) the Effective Time does not occur on or prior to the Outside Date; provided that a Party may not terminate the Arrangement Agreement if the failure of the Effective Time to so occur has been caused by, or is a result of, a breach by such Party of any of its representations or warranties or the failure of such Party to perform any of its covenants or agreements under the Arrangement Agreement;

(c) by World Copper if:

- (i) a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Plata Latina under the Arrangement Agreement occurs that would cause any condition related to its representations and warranties or covenants not to be satisfied, and such breach or failure is incapable of being cured or is not cured on or prior to the Outside Date; provided that World Copper is not then in breach of the Arrangement Agreement so as to cause any condition related to its representations and warranties or any covenants not to be satisfied;
- (ii) prior to the approval of the World Copper Arrangement Resolution at the World Copper Meeting in accordance with the terms of the Interim Order, World Copper enters into a definitive agreement (other than a confidentiality agreement permitted by and in accordance with the Arrangement Agreement) with respect to a World Copper Superior Proposal in accordance with the Arrangement Agreement, provided that (A) World Copper is then in compliance with the Arrangement Agreement in all material respects, and (B) prior to or concurrently with such termination, World Copper pays the World Copper Termination Amount in full in accordance with the Arrangement Agreement;

 - (v) after the date of the Arrangement Agreement, there has occurred a Plata Latina Material Adverse Effect which is incapable of being cured on or prior to the Outside Date;
- (d) by Plata Latina if:
- (i) a breach of any representation or warranty or failure to perform any covenant or agreement on the part of World Copper under the Arrangement Agreement occurs that would cause any condition related to its representations and warranties or covenants not to be satisfied, and such breach or failure is incapable of being cured or is not cured on or prior to the Outside Date; provided that Plata Latina is not then in breach of the Arrangement Agreement so as to cause any condition related to its representations and warranties or covenants not to be satisfied;
 - (ii) prior to the approval of the Plata Latina Resolutions at the Plata Latina Meeting, Plata Latina enters into a definitive agreement (other than a confidentiality agreement permitted by and in accordance with the Arrangement Agreement) with respect to a Plata Latina Superior Proposal in accordance with the Arrangement Agreement, provided that (1) Plata Latina is then in compliance with the Arrangement Agreement, and (2) prior to or concurrently with such termination, Plata Latina pays the Plata Latina Termination Amount in full in accordance with the Arrangement Agreement;

Despite any other provision in the Arrangement Agreement relating to the payment of fees and expenses, including the payment of brokerage fees, if a Plata Latina Termination Amount Event occurs, Plata Latina is required to pay the Plata Latina Termination Amount to World Copper in accordance with the Arrangement Agreement.

For the purposes of the Arrangement Agreement, “**Plata Latina Termination Amount**” means \$1,000,000, and “**Plata Latina Termination Amount Event**” means the termination of the Arrangement Agreement:

- (a) by World Copper pursuant to Section 9.2(a)(iii)(C) [*Change in Recommendation*] of the Arrangement Agreement or Section 9.2(a)(iii)(D) [*Material Breach of Non-Solicitation Covenant*] of the Arrangement Agreement;
- (b) by any Party pursuant to the termination provisions of the Arrangement Agreement if at such time World Copper is entitled to terminate the Arrangement Agreement pursuant to Section 9.2(a)(iii)(C) [*Change in Recommendation*] of the Arrangement Agreement or Section 9.2(a)(iii)(D) [*Material Breach of Non-Solicitation Covenant*] of the Arrangement Agreement;
- (c) by Plata Latina pursuant to Section 9.2(a)(iv)(B) [*Superior Proposal*] of the Arrangement Agreement;
- (d) by (X) Plata Latina or World Copper pursuant to Section 9.2(a)(ii)(B) [*Failure of Company Shareholders to Approve*] of the Arrangement Agreement or Section 9.2(a)(ii)(D) [*Occurrence of Outside Date*] of the Arrangement Agreement or (Y) World Copper pursuant to Section 9.2(a)(iii)(A) [*Breach of Representation or Warranty or Failure to Perform Covenants by the Parent*] of the Arrangement Agreement due to a wilful breach, but in each case only if:
 - (i) prior to such termination, a Plata Latina Acquisition Proposal has been publicly announced or otherwise publicly disclosed by any Person (other than World Copper or any of its affiliates) or any Person (other than World Copper or any of its affiliates) has publicly announced an intention to do so; and
 - (ii) within 12 months following the date of such termination, (x) a Plata Latina Acquisition Proposal (whether or not such Plata Latina Acquisition Proposal is the same Plata Latina Acquisition Proposal referred to in clause (i) above) is consummated, or (y) Plata Latina or any of its Subsidiaries, directly or indirectly, in one or more transactions, enters into a contract in respect of a Plata Latina Acquisition Proposal (whether or not such Plata Latina Acquisition Proposal is the same Plata Latina Acquisition Proposal referred to in clause (i) above and whether or not such Plata Latina Acquisition Proposal is later consummated),

provided that, for purposes of the foregoing, (1) the term “**Plata Latina Acquisition Proposal**” shall have the meaning assigned to it in the Arrangement Agreement, except that references to “20% or more” shall be deemed to be references to “50% or more”, and (2) no Plata Latina Termination Amount shall be payable if a World Copper Material Adverse Effect or a Zonia Material Adverse Effect has occurred and is continuing at the time of the termination of the Arrangement Agreement.

This summary is qualified in its entirety by reference to the forms of Contribution Agreement and the Indemnity Agreement attached as Schedule G and Schedule F to the Arrangement Agreement, respectively, a copy of which is available under the issuer profiles of each of World Copper and Plata Latina on SEDAR+ at www.sedarplus.ca.

World Copper and Plata Latina encourage their respective shareholders to read the Contribution Agreement and the Indemnity Agreement in their entirety.

Contribution Agreement

In accordance with the terms of the Arrangement Agreement, Plata Latina, World Copper and Zonia Holdings will enter into a contribution at closing of the Arrangement, substantially in the form attached to the Arrangement Agreement (the “**Contribution Agreement**”). The Contribution Agreement will provide for (a) the transfer, assignment and conveyance by World Copper and its Subsidiaries to Zonia Holdings of all the right, title and interest of World Copper and its Subsidiaries in and to any Zonia Assets that are not owned, leased or licensed by any of the Acquired Entities as of the Contribution Effective Time; and (b) the assumption by Zonia Holdings of the Assumed Liabilities as of the Contribution Effective Time, in each case, on the terms and conditions of the Contribution Agreement.

that may be specified in the Contribution Agreement and all liabilities and obligations (contingent or otherwise) of World Copper or any of its Subsidiaries (other than, for certainty, the Acquired Entities), whether or not incurred in connection with the Zonia Assets, that are not expressly Zonia Liabilities; and (b) any tax liabilities or obligations imposed on or in respect of the Contributed Zonia Assets, the Assumed Liabilities or any Acquired Entity for or in respect of any taxable period (or portion thereof) ending on or prior to the Contribution Effective Time.

Indemnity Agreement

In accordance with the terms of the Arrangement Agreement, Plata Latina and World Copper will enter into an indemnity agreement at closing of the Arrangement substantially in the form attached to the Arrangement Agreement (the “**Indemnity Agreement**”). The Indemnity Agreement will require each Party to indemnify and save harmless the other Party against all Losses suffered or incurred by the other Party as a result of or arising directly or indirectly out of or in connection with: (a) any inaccuracy or breach by the Party of certain fundamental representations and warranties of such Party contained in the Arrangement Agreement and, in the case of World Copper, certain representations and warranties of World Copper contained in the Arrangement Agreement relating to the Zonia Property, the Zonia Property Technical Report and taxes; and (b) any breach or non-performance by the Party of any covenant of such Party contained in the Arrangement Agreement or in any agreement, certificate or other document delivered by the Parties pursuant thereto.

The indemnification obligations and liabilities of the Parties in the Indemnity Agreement are subject to certain specified limitations, including a maximum aggregate limitation of liability of each Party of \$10,500,000. In addition, a claim of indemnification by Plata Latina must be made within the following time limitations to the extent made in respect of the representations and warranties of World Copper contained in the Arrangement Agreement relating to (a) organization and qualification, corporate authorization, execution and binding obligation, non-contravention, ownership of the Zonia Property, the third anniversary of the Effective Date; (b) capitalization, the Zonia Property and the Zonia Property Technical Report, 18 months following the Effective Date; and (c) taxes, 90 days after the expiration of the applicable statute of limitations and any extensions thereof. Neither Party is required to indemnify the other Party under the Indemnity Agreement with respect to a claim for any breach of covenant any time after the date that is 18 months following the Effective Date, except the covenants that by their terms apply or are to be performed in whole or in part after the closing of the Arrangement.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS FOR WORLD COPPER SHAREHOLDERS

The following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Tax Act in respect of the Arrangement that are generally applicable to a World Copper Shareholder who is a beneficial owner of World Copper Shares and at all relevant times and for purposes of the Tax Act: (a) deals at arm's length with World Copper and Plata Latina; (b) is not and will not be affiliated with World Copper or Plata Latina; (c) disposes of World Copper Shares pursuant to the Arrangement and (d) holds World Copper Shares and will hold New World Copper Shares and Plata Latina Consideration Shares received pursuant to the Arrangement as capital property (each such owner in this section, a “**Holder**”).

Generally, World Copper Shares, New World Copper Shares and Plata Latina Consideration Shares will be capital property of a Holder for purposes of the Tax Act, provided the Holder does not hold or use (and is not deemed to hold or use) those shares in the course of carrying on a business of trading or dealing in securities and did not hold or acquire (and was not deemed to hold or acquire) those shares in one or more transactions considered to be an adventure or concern in the nature of trade. Holders who hold or will hold World Copper Shares, New World Copper Shares or Plata Latina Consideration Shares other than as capital property should consult their own tax advisors with respect to the tax consequences of the Arrangement. Certain Resident Holders (as defined below) whose World Copper Shares, New World Copper Shares or Plata Latina Consideration Shares might not otherwise qualify as capital property may, in certain circumstances, be eligible

to make an irrevocable election in accordance with subsection 39(4) of the Tax Act to have their World Copper Shares, New World Copper Shares, Plata Latina Consideration Shares and every other “Canadian security” (as defined in the Tax Act) owned by such Resident Holder in the taxation year in which the election is made and in all subsequent taxation years, be deemed to be capital property. Resident Holders should consult their own tax advisors as to whether they hold or will hold their World Copper Shares, New World Copper Shares and Plata Latina Consideration Shares as capital property and whether such election can or should be made.

This summary is not applicable to a holder of World Copper Options, World Copper Warrants or World Copper Special Warrants and the tax considerations relevant to such holders are not discussed herein. Any such holders should consult their own tax advisors with respect to the tax consequences of the Arrangement.

In addition, this summary is not applicable to a Holder: (a) that is a “financial institution” (as defined in the Tax Act for the purposes of the “mark-to-market rules”); (b) who makes, or has made, an election under section 261 of the Tax Act to determine its “Canadian tax results” (as defined in the Tax Act) in a currency other than Canadian currency; (c) who acquired World Copper Shares under an employee stock option plan or other equity-based employment compensation arrangement or otherwise in the course of employment; (d) that has entered into or will enter into a “derivative forward agreement” or “synthetic disposition arrangement” (each as defined in the Tax Act) with respect to World Copper Shares, New World Copper Shares or Plata Latina Consideration Shares; (e) an interest in which is, or whose World Copper Shares, New World Copper Shares or Plata Latina Consideration Shares are, a “tax shelter investment” (as defined in the Tax Act); (f) that is a “specified financial institution” (as defined in the Tax Act); or (g) that receives dividends on its New World Copper Shares or Plata Latina Consideration Shares under or as part of a “dividend rental arrangement” (as defined in the Tax Act). **Such Holders should consult their own tax advisors with respect to the tax consequences of the Arrangement.**

Additional considerations not discussed herein may apply to a Holder that is a corporation resident in Canada, or a corporation that does not deal at “arm’s length” (for the purposes of the Tax Act) with a corporation resident in Canada, that is or becomes, as part of a transaction or event or a series of transactions or events that includes the acquisition of the New World Copper Shares and Plata Latina Consideration Shares, controlled by a non-resident person, or a group of non-resident persons that do not deal with each other at arm’s length (for the purposes of the Tax Act), for purposes of the “foreign affiliate dumping rules” in section 212.3 of the Tax Act. Such Holders should consult their own tax advisors with respect to the tax consequences of the Arrangement.

This summary is based on the current provisions of the Tax Act and the regulations thereunder, in force as of the date hereof, and counsel’s understanding of the current published administrative policies of the CRA publicly available prior to the date hereof. This summary also takes into account all specific proposals to amend the Tax Act that have been publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the “**Proposed Amendments**”) and assumes that the Proposed Amendments will be enacted in the form proposed. However, no assurance can be given that the Proposed Amendments will be enacted in the form proposed, or at all. If the Proposed Amendments are not enacted or otherwise implemented as presently proposed, the tax consequences may not be as described below in all cases. Except for the Proposed Amendments, this summary does not otherwise take into account or anticipate any changes in Law, whether by judicial, governmental or legislative decision or action, or any changes in the administrative policies of the CRA, nor does it take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the Canadian federal income tax legislation and considerations discussed below.

This summary is of a general nature only and is not exhaustive of all possible Canadian federal income tax considerations. This summary is not, and should not be construed as, legal, business or tax advice to any particular Holder and no representation with respect to the tax consequences to any particular Holder is made. Accordingly, all Holders should consult their own tax advisors regarding the Canadian federal income tax consequences of the Arrangement applicable to their particular circumstances, and any other consequences applicable to them of such transactions under Canadian federal, provincial, local and foreign tax Laws.

Currency Conversion

Subject to certain exceptions that are not discussed herein, for the purposes of the Tax Act, all amounts relating to the acquisition, holding or disposition of securities (including dividends, adjusted cost base and proceeds of disposition) must be expressed in Canadian dollars. Amounts denominated in a foreign currency must generally be converted into Canadian dollars based on the rate quoted by the Bank of Canada for the exchange of the

foreign currency for Canadian dollars on the date such amounts arise, or such other rate of exchange as is acceptable to the Minister of National Revenue (Canada).

Holders Resident in Canada

This portion of the summary is generally applicable to a Holder who, at all relevant times, for purposes of the Tax Act (a) is, or is deemed to be, resident in Canada, and (b) is not exempt from tax under Part I of the Tax Act (a “Resident Holder”).

Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares

A Resident Holder that receives New World Copper Shares and Plata Latina Consideration Shares in exchange for its World Copper Shares pursuant to the Arrangement will generally be deemed to have received a taxable dividend on the World Copper Shares so exchanged in an amount equal to the amount (if any) by which (a) the fair market value, at the time of the exchange, of the Plata Latina Consideration Shares received by the Resident Holder, exceeds (b) the paid-up capital (for the purposes of the Tax Act), immediately prior to the exchange, of such World Copper Shares. The estimated paid-up capital of the World Copper Shares at the date hereof is \$0.229 per share. World Copper’s management has informed counsel that, at the time of the exchange, the fair market value of all Plata Latina Consideration Shares distributed World Copper Shareholders is expected to be less than the paid-up capital, immediately prior to the exchange, of the World Copper Shares for which they are exchanged. Accordingly, World Copper does not anticipate that any deemed dividend will arise on the exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares pursuant to the Arrangement.

On the exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares pursuant to the Arrangement, a Resident Holder will be deemed to have disposed of its World Copper Shares for proceeds of disposition in an amount equal to the amount (if any) by which (a) the greater of (x) the adjusted cost base to the Resident Holder of such World Copper Shares immediately before exchange and (y) the fair market value, at the time of the exchange, of the Plata Latina Consideration Shares received by the Resident Holder, exceeds (b) the amount of any taxable dividend deemed to have been received by the Resident Holder on such World Copper Shares as described above. As noted above, World Copper’s management does not anticipate that a deemed dividend will arise on the exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares pursuant to the Arrangement. As a result, it is expected that a Resident Holder will be deemed to have disposed of its World Copper Shares for proceeds of disposition equal to the greater of the adjusted cost base to the Resident Holder of such World Copper Shares immediately before the exchange and the fair market value, at the time of the exchange, of the Plata Latina Consideration Shares received by the Resident Holder pursuant to the exchange. A Resident Holder will realize a capital gain (or capital loss) to the extent that the deemed proceeds of disposition of its World Copper Shares exceed (or are less than) the adjusted cost base to the Resident Holder of such World Copper Shares immediately before the exchange. For a summary of the tax treatment of capital gains and capital losses, see “*Taxation of Capital Gains and Capital Losses*” below.

On the exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares pursuant to the Arrangement, a Resident Holder will be deemed (a) to have acquired such Plata Latina Consideration Shares at a cost equal to the fair market value thereof at the time of the exchange, and (b) to have acquired the New World Copper Shares at a cost equal to the amount, if any, by which the adjusted cost base to the Resident Holder of its World Copper Shares immediately prior to the exchange exceeds the fair market value, at the time of the exchange, of the Plata Latina Consideration Shares received by the Resident Holder. For the purpose of determining the adjusted cost base to a Resident Holder of its Plata Latina Consideration Shares immediately following the exchange, the Resident Holder’s cost of the Plata Latina Consideration Shares acquired pursuant to the exchange will be averaged with the adjusted cost base to the Resident Holder of all other Plata Latina Consideration Shares owned by the Resident Holder as capital property immediately before the exchange.

Consolidation of Plata Latina Consideration Shares

If the Plata Latina Share Consolidation Resolution is approved and subject to the prior approval of the TSXV, the Plata Latina Consideration Shares received by World Copper Shareholders pursuant to the Arrangement will be

consolidated. Based on the CRA's administrative position, a Resident Holder should not be considered to have disposed of its Plata Latina Consideration Shares as a result of the Consolidation, and the aggregate cost to a Resident Holder of its Plata Latina Consideration Shares immediately following the Consolidation should be equal to the aggregate cost to such Resident Holder of its Plata Latina Consideration Shares immediately prior to the Consolidation.

Taxation of New World Copper Shares and Plata Latina Consideration Shares

Dividends

Dividends received or deemed to be received on New World Copper Shares or Plata Latina Consideration Shares by a Resident Holder who is an individual (other than certain trusts) must be included in computing the Resident Holder's income for the taxation year in which the dividends are received or deemed to be received. Such dividends will be subject to the gross-up and dividend tax credit rules under the Tax Act, including the enhanced gross-up and dividend tax credit if such dividends are designated as "eligible dividends" by World Copper or Plata Latina, as applicable, in accordance with the provisions of the Tax Act. There may be limitations on the ability of World Copper and Plata Latina to designate dividends as eligible dividends.

A Resident Holder that is a corporation must include in computing the Resident Holder's income for a taxation year the amount of any dividends received or deemed to be received in the taxation year in respect of the Resident Holder's New World Copper Shares or Plata Latina Consideration Shares and will generally be entitled to deduct the amount of such dividends in computing its taxable income. A Resident Holder that is a "private corporation" or "subject corporation" (each as defined in the Tax Act) may be liable to pay, in addition to tax otherwise payable under the Tax Act, a refundable tax on any dividends received or deemed to be received to the extent such dividends are deductible in computing the Resident Holder's taxable income for the year. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received or deemed to be received by a corporation as proceeds of disposition or a capital gain, rather than as a dividend. Resident Holders that are corporations should consult their own tax advisors in this regard.

Resident Holders should also note the comments below under the headings "*Alternative Minimum Tax*" and "*Additional Refundable Tax on Canadian-Controlled Private Corporations and Substantive CCPCs*".

Dispositions

A Resident Holder that disposes or is deemed to dispose of its Plata Latina Consideration Shares in a taxation year (other than a disposition to Plata Latina that is not a sale in the open market in the manner in which shares would normally be purchased by any member of the public in an open market) will realize a capital gain (or capital loss) in an amount equal to the amount by which the proceeds of disposition of the Plata Latina Consideration Shares exceeds (or is exceeded by) the aggregate of the Resident Holder's adjusted cost base of such Plata Latina Consideration Shares immediately before the disposition or deemed disposition and any reasonable costs of disposition. For a summary of the tax treatment of capital gains and capital losses, see "*Taxation of Capital Gains and Capital Losses*" below.

Taxation of Capital Gains and Capital Losses

Generally, a Resident Holder will be required to include in computing its income for a taxation year one-half of the amount of any capital gain (a "**taxable capital gain**") realized in that year. Subject to and in accordance with the provisions of the Tax Act, a Resident Holder must deduct one-half of the amount of any capital loss (an "**allowable capital loss**") realized in a taxation year from taxable capital gains realized by the Resident Holder in that year. Allowable capital losses in excess of taxable capital gains for a taxation year may be carried back to any of the three preceding taxation years or carried forward to any subsequent taxation year and deducted against net taxable capital gains realized in such years, subject to the detailed rules contained in the Tax Act. Resident Holders should confirm the amount of any taxable capital gain or allowable capital loss arising in connection with the Arrangement with their own tax advisors.

A capital loss realized on the disposition of a share by a Resident Holder that is a corporation may, to the extent and under the circumstances specified by the Tax Act, be reduced by the amount of any dividends received or deemed to have been received by the Resident Holder on such share (or on a share for which such share is

substituted or exchanged). Similar rules may apply where a corporation is member of a partnership or a beneficiary of a trust that owns shares directly or indirectly through a partnership or a trust. Resident Holders to whom these rules may be relevant should consult their own advisors in this regard.

Resident Holders should also note the comments below under the headings “*Alternative Minimum Tax*” and “*Additional Refundable Tax on Canadian-Controlled Private Corporations and Substantive CCPCs*”.

Alternative Minimum Tax

A capital gain realized, or a dividend received or deemed to have been received, by a Resident Holder who is an individual (including certain trusts and estates) may give rise to liability for alternative minimum tax under the Tax Act. Resident Holders who are individuals should consult their own tax advisors with respect to the potential application of alternative minimum tax.

Additional Refundable Tax on Canadian-Controlled Private Corporations and Substantive CCPCs

A Resident Holder that is throughout a taxation year a “Canadian-controlled private corporation” (as defined in the Tax Act) (a “**CCPC**”), or that is at any time in a taxation year a “substantive CCPC” (as defined in the Tax Act), may be required to pay, in addition to tax otherwise payable under the Tax Act, an additional tax (refundable in certain circumstances) on its “aggregate investment income” (as defined in the Tax Act) for the year, including on taxable capital gains, dividends or deemed dividends that are not deductible in computing taxable income, and interest.

Dissenting Resident Holders

A Resident Holder that validly exercises Dissent Rights (a “**Resident Dissenter**”) will be deemed to have transferred its World Copper Shares to World Copper in consideration for a right to receive a payment from World Copper in an amount equal to the fair value of such World Copper Shares.

Under the Plan of Arrangement, World Copper Shareholders who fail to properly exercise, or who withdraw, their Dissent Rights will be treated as if they had participated in the Arrangement on the same basis as non-dissenting World Copper Shareholders. The principal Canadian federal income tax considerations generally applicable to such World Copper Shareholders who are Resident Holders with respect to their World Copper Shares will be the same as those described above in connection with Resident Holders who do not exercise Dissent Rights.

Deemed Dividend

A Resident Dissenter will be deemed to have received a taxable dividend in an amount equal to the amount (if any) by which the amount of the payment received from World Copper (other than any portion that is in respect of interest awarded by the Court) on account of the fair value of the Resident Dissenter’s World Copper Shares exceeds the paid-up capital (for the purposes of the Tax Act) of such World Copper Shares immediately before the time at which such shares are deemed to be transferred to World Copper pursuant to the Arrangement.

A Resident Dissenter who is an individual (other than certain trusts) will be subject to the gross-up and dividend tax credit rules under the Tax Act, including the enhanced gross-up and dividend tax credit if such deemed dividend is designated as an “eligible dividend” by World Copper in accordance with the provisions of the Tax Act. There may be limitations on the ability of World Copper to designate the deemed dividend as an eligible dividend.

A Resident Dissenter that is a corporation will generally be entitled to deduct the amount of such deemed dividend in computing its taxable income. A Resident Dissenter that is a “private corporation” or “subject corporation” (each as defined in the Tax Act) may be liable to pay, in addition to tax otherwise payable under the Tax Act, a refundable tax on such deemed dividend to the extent it is deductible in computing the Resident Dissenter’s taxable income for the year. In certain circumstances, subsection 55(2) of the Tax Act will treat a taxable dividend received or deemed to be received by a corporation as proceeds of disposition or a capital gain, rather than as a dividend. Resident Dissenters that are corporations should consult their own tax advisors in this regard.

Resident Dissenters should also note the comments above under the headings “*Alternative Minimum Tax*” and “*Additional Refundable Tax on Canadian-Controlled Private Corporations and Substantive CCPCs*”.

Interest

Any interest awarded by the Court to a Resident Dissenter must be included in the Resident Dissenter’s income in accordance with the provisions of the Tax Act.

A Resident Dissenter that is a CCPC throughout a taxation year, or a “substantive CCPC” (as defined in the Tax Act) at any time in a taxation year, should also note the comments above under the heading “*Additional Refundable Tax on Canadian-Controlled Private Corporations and Substantive CCPCs*”.

Capital Gain or Capital Loss

A Resident Dissenter will realize a capital gain (or capital loss) on the transfer of its World Copper Shares to World Copper in an amount equal to the amount (if any) by which the proceeds of disposition of its World Copper Shares exceeds (or is exceeded by) the aggregate of the Resident Dissenter’s adjusted cost base of such World Copper Shares immediately before the disposition and any reasonable costs of disposition. For the purposes of determining the amount of any capital gain (or capital loss) realized by the Resident Dissenter, the Resident Dissenter’s proceeds of disposition will be equal to the amount received on account of the fair value of its World Copper Shares, less the amount of any deemed dividend (as described above) and any interest awarded by the Court. For a summary of the tax treatment of capital gains and capital losses, see “*Taxation of Capital Gains and Capital Losses*” above.

Holders Not Resident in Canada

The following portion of the summary is generally applicable to a Holder who, at all relevant times, for purposes of the Tax Act and any applicable income tax treaty or convention, (a) is neither resident nor deemed to be resident in Canada, (b) does not use or hold, and is not deemed to use or hold, its World Copper Shares and will not use or hold, and will not be deemed to use or hold, its New World Copper Shares or Plata Latina Consideration Shares in, or in the course of carrying on, a business in Canada, (c) does not carry on an insurance business in Canada and elsewhere, and (d) is neither a “specified shareholder” (as defined in the Tax Act) of World Copper or Plata Latina, nor a person who does not deal at arm’s length (for the purposes of the Tax Act) with a “specified shareholder” of World Copper or Plata Latina (a “**Non-Resident Holder**”). All Non-Resident Holders should consult their own tax advisors with respect to the tax consequences of the Arrangement.

Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares

The tax consequences described above under this heading “*Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares*” will apply to a Non-Resident Holder that receives New World Copper Shares and Plata Latina Consideration Shares in exchange for its World Copper Shares pursuant to the Arrangement.

To the extent that any dividend is deemed to be received by a Non-Resident Holder on the exchange of its World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares pursuant to the Arrangement, the tax consequences described below under the heading “*Taxation of New World Copper Shares and Plata Latina Consideration Shares – Dividends*” will apply to the Non-Resident Holder.

A Non-Resident Holder will not be subject to tax under the Tax Act on any capital gain realized on the disposition of World Copper Shares under the Arrangement, nor will capital losses arising therefrom be recognized under the Tax Act, unless the World Copper Shares are “taxable Canadian property” and are not “treaty-protected property” (each as defined in the Tax Act) of the Non-Resident Holder.

Generally, a World Copper Share will not be taxable Canadian property of a Non-Resident Holder at a particular time provided that such share is listed on a “designated stock exchange” (which, as defined in the Tax Act, currently includes Tiers 1 and 2 of the TSXV), unless, at any time during the 60-month period immediately preceding the disposition: (a) one or any combination of (i) the Non-Resident Holder, (ii) persons with whom the Non-Resident Holder does not deal at arm’s length (for the purposes of the Tax Act), and (iii) partnerships in

which the Non-Resident Holder or a person described in (ii) holds a membership interest directly or indirectly through one or more partnerships, held 25% or more of the issued shares of any class or series in the capital stock of World Copper; and (b) more than 50% of the fair market value of the share was derived directly or indirectly from one or any combination of real or immovable property situated in Canada, "Canadian resource property" or "timber resource property" (each as defined in the Tax Act), and options in respect of, or interests in, or for civil law rights in, any such properties (whether or not such property exists). Notwithstanding the foregoing, in certain other circumstances a share could be deemed to be taxable Canadian property for the purposes of the Tax Act. Non-Resident Holders should consult their own tax advisors in this regard.

Even if the World Copper Shares are taxable Canadian property of a Non-Resident Holder, any taxable capital gain resulting from the disposition thereof will not be included in computing the Non-Resident Holder's taxable income earned in Canada for the purposes of the Tax Act if, at the time of the disposition, the shares constitute treaty-protected property of the Non-Resident Holder for purposes of the Tax Act. The World Copper Shares of a Non-Resident Holder will generally be considered treaty-protected property for purposes of the Tax Act at the time of the disposition if the gain from their disposition would be exempt from tax under Part I of the Tax Act because of an applicable income tax treaty or convention between Canada and the country in which the Non-Resident Holder is resident for purposes of such treaty or convention and in respect of which the Non-Resident Holder is entitled to receive benefits thereunder (taking into account, where applicable, the *Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting*).

In the event that the World Copper Shares constitute taxable Canadian property (other than treaty-protected property) of a particular Non-Resident Holder, the Non-Resident Holder's capital gain (or capital loss) resulting from the disposition of its World Copper Shares pursuant to the Arrangement will be calculated as described above with respect to Resident Holders under the heading "*Holders Resident in Canada – Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares*" and the tax treatment of such capital gain (or capital loss) will be as described above with respect to Resident Holders under the heading "*Holders Resident in Canada – Taxation of Capital Gains and Capital Losses*".

If the World Copper Shares are "taxable Canadian property" to a Non-Resident Holder, the Non-Resident Holder may, in certain circumstances, be required to file a Canadian tax return reporting the disposition of such shares even if no capital gain is realized by the Non-Resident Holder on the disposition or the capital gain is otherwise exempt from tax under Part I of the Tax Act pursuant to the provisions of any applicable income tax treaty or convention.

Non-Resident Holders whose shares are, or may be, taxable Canadian property should consult their own tax advisors for advice having regard to their particular circumstances, including whether their shares constitute treaty-protected property.

Consolidation of Plata Latina Consideration Shares

If the Plata Latina Share Consolidation Resolution is approved and subject to the prior approval of the TSXV, the Plata Latina Consideration Shares received by World Copper Shareholders pursuant to the Arrangement will be consolidated. Based on the CRA's administrative position, a Non-Resident Holder should not be considered to have disposed of its Plata Latina Consideration Shares as a result of the Consolidation, and the aggregate cost to a Non-Resident Holder of its Plata Latina Consideration Shares immediately following the Consolidation should be equal to the aggregate cost to such Non-Resident Holder of its Plata Latina Consideration Shares immediately prior to the Consolidation.

Taxation of New World Copper Shares and Plata Latina Consideration Shares

Dividends

Dividends paid or credited, or deemed to be paid or credited, to a Non-Resident Holder on its New World Copper Shares or Plata Latina Consideration Shares will generally be subject to withholding tax under the Tax Act at a rate of 25% on the gross amount of the dividends, unless the rate is reduced under the provisions of an applicable income tax treaty or convention. Under the *Canada-United States Tax Convention (1980)*, as amended (the "**Canada-US Tax Treaty**"), the withholding rate on any such dividend beneficially owned by a Non-Resident Holder that is a resident of the United States for purposes of the Canada-US Tax Treaty and fully entitled to the

benefits of such treaty (a **“U.S. Resident Holder”**) is generally reduced to 15%, or to 5% if the beneficial owner of such dividend is a U.S. Resident Holder that is a company that owns, directly or indirectly, at least 10% of the voting stock of World Copper or Plata Latina (as applicable). The *Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting*, of which Canada is a signatory, affects many of Canada’s bilateral tax treaties (but not the Canada-US Tax Treaty), including the ability to claim benefits thereunder. Non-Resident Holders are urged to consult their own tax advisors to determine their entitlement to tax relief under an applicable income tax treaty or convention.

Dispositions

A Non-Resident Holder will not be subject to tax under the Tax Act on any capital gain realized on the disposition of its New World Copper Shares or Plata Latina Consideration Shares received pursuant to the Arrangement, nor will capital losses arising therefrom be recognized under the Tax Act, unless such shares are, or are deemed to be, “taxable Canadian property” (as defined in the Tax Act) of the Non-Resident Holder at the time of disposition and the Non-Resident Holder is not entitled to relief under an applicable income tax treaty or convention. Provided that, at the time of disposition, the New World Copper Shares or Plata Latina Consideration Shares are listed on a “designated stock exchange” for purposes of the Tax Act (which currently includes Tiers 1 and 2 of the TSXV), the considerations applicable to determining whether a Non-Resident Holder’s New World Copper Shares or Plata Latina Consideration Shares constitute “taxable Canadian property”, and the resultant Canadian income tax consequences, are similar to those discussed above with respect to a Non-Resident Holder’s World Copper Shares under the heading *“Holders Not Resident in Canada – Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares”*, substituting references to World Copper with World Copper or Plata Latina (as applicable) and substituting references to World Copper Shares with New World Copper Shares or Plata Latina Consideration Shares (as applicable).

Dissenting Non-Resident Holders

A Non-Resident Holder that validly exercises Dissent Rights (a **“Non-Resident Dissenter”**) will be deemed to have transferred its World Copper Shares to World Copper in consideration for a right to receive a payment from World Copper in an amount equal to the fair value of such World Copper Shares.

Under the Plan of Arrangement, World Copper Shareholders who fail to properly exercise, or who withdraw, their Dissent Rights will be treated as if they had participated in the Arrangement on the same basis as non-dissenting World Copper Shareholders. The principal Canadian federal income tax considerations generally applicable to such World Copper Shareholders who are Non-Resident Holders in connection with their World Copper Shares will be the same as those described above in connection with Non-Resident Holders who do not exercise Dissent Rights.

Deemed Dividend

A Non-Resident Dissenter will be deemed to have received a taxable dividend equal to the amount by which the amount of the payment received from World Copper (other than any portion that is in respect of interest awarded by the Court) on account of the fair value of the Non-Resident Dissenter’s World Copper Shares exceeds the paid-up capital (for the purposes of the Tax Act) of such World Copper Shares immediately before the time at which such shares are deemed to be transferred to World Copper pursuant to the Arrangement. Any such deemed dividend will be subject to tax under the Tax Act as described above under the heading *“Holders Not Resident in Canada – Taxation of New World Copper Shares and Plata Latina Consideration Shares – Dividends”*.

Interest

Any interest awarded by the Court to a Non-Resident Dissenter will not be subject to withholding tax under the Tax Act, provided that such interest is not “participating debt interest” (as defined in the Tax Act).

Capital Gain or Capital Loss

A Non-Resident Dissenter will realize a capital gain (or capital loss) on the transfer of its World Copper Shares to World Copper in an amount equal to the amount by which the proceeds of disposition of such World Copper

Shares exceeds (or is exceeded by) the aggregate of the Non-Resident Dissenter's adjusted cost base of such World Copper Shares immediately before their transfer and any reasonable costs of disposition. For the purposes of determining the amount of any capital gain (or capital loss) realized by the Non-Resident Dissenter on the transfer, the Resident Dissenter's proceeds of disposition will be equal to the amount received on account of the fair value of its World Copper Shares, less the amount of any taxable dividend deemed to have been received by the Resident Dissenter on the transfer (as described above) and any interest awarded by the Court.

A Non-Resident Dissenter will be subject to Canadian federal income tax in respect of any such capital gain in the manner, and to the extent, described above under the heading "*Holders Not Resident in Canada – Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares*". As discussed therein, a Non-Resident Dissenter will generally not be subject to tax under the Tax Act on any capital gain realized on the disposition of its World Copper Shares unless such shares are "taxable Canadian property" of the Non-Resident Dissenter and are not "treaty-protected property" (each as defined in the Tax Act). If the World Copper Shares of the Non-Resident Dissenter constitute taxable Canadian property (other than treaty-protected property), then the Non-Resident Dissenter's capital gain (or capital loss) resulting from the disposition of its World Copper Shares pursuant to the Arrangement will be calculated in the manner described above with respect to Resident Holders under the heading "*Holders Not Resident in Canada – Exchange of World Copper Shares for New World Copper Shares and Plata Latina Consideration Shares*" and the tax treatment of such capital gain (or capital loss) will be as described above with respect to Resident Holders under the heading "*Holders Resident in Canada – Taxation of Capital Gains and Capital Losses*".

Eligibility for Investment

If New World Copper Shares and Plata Latina Consideration Shares were issued on the date of this Circular:

- (a) the New World Copper Shares received by World Copper Shareholders pursuant to the Arrangement would be "qualified investments" under the Tax Act for a trust governed by a "registered retirement savings plan", a "first home savings account", a "registered retirement income fund", a "registered education savings plan", a "registered disability savings plan", a "tax-free savings account" (collectively, "**Registered Plans**") and a "deferred profit sharing plan" (each as defined in the Tax Act) at a particular time, provided that, at such time, (i) the New World Copper Shares are listed on a "designated stock exchange" (which, as defined in the Tax Act, currently includes Tiers 1 and 2 of the TSXV), or (ii) World Copper is a "public corporation" other than a "mortgage investment corporation" (each as defined in the Tax Act); and
- (b) the Plata Latina Consideration Shares received by World Copper Shareholders pursuant to the Arrangement would be "qualified investments" under the Tax Act for Registered Plans and a "deferred profit sharing plan" (as defined in the Tax Act) at a particular time, provided that, at such time, (i) the Plata Latina Consideration Shares are listed on a "designated stock exchange" (which, as defined in the Tax Act, currently includes Tiers 1 and 2 of the TSXV), or (ii) Plata Latina is a "public corporation" other than a "mortgage investment corporation" (each as defined in the Tax Act).

Notwithstanding that New World Copper Shares and the Plata Latina Consideration Shares may be qualified investments for a Registered Plan, a holder, annuitant or subscriber (each a "**Plan Holder**"), as the case may be, of such Registered Plan will be subject to a penalty tax on such shares if such shares are a "prohibited investment" (as defined in the Tax Act) for the Registered Plan. New World Copper Shares will not be a "prohibited investment" for a Registered Plan unless the Plan Holder does not deal at arm's length (for the purposes of the Tax Act) with World Copper or has a "significant interest" (as defined in subsection 207.01(4) of the Tax Act) in World Copper, and Plata Latina Consideration Shares will not be a "prohibited investment" for a Registered Plan unless the Plan Holder does not deal at arm's length (for the purposes of the Tax Act) with Plata Latina or has a "significant interest" (as defined in subsection 207.01(4) of the Tax Act) in Plata Latina. In addition, New World Copper Shares and Plata Latina Consideration Shares will not be a "prohibited investment" if such shares are "excluded property" (as defined in subsection 207.01(1) of the Tax Act) for a Registered Plan. Plan Holders are advised to consult their own tax advisors to determine the tax consequences of New World Copper Shares and Plata Latina Consideration Shares being acquired or held by a Registered Plan of which they are a holder, annuitant or subscriber (as the case may be), including whether such shares would be a "prohibited investment" in their particular circumstances.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR WORLD COPPER SHAREHOLDERS

The following discussion summarizes certain United States federal income tax considerations relating to the Arrangement and to the ownership and disposition of New World Copper Shares and Plata Latina Consideration Shares received pursuant to the Arrangement generally applicable to a World Copper Shareholder who is a U.S. Holder (as defined below).

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential U.S. federal income tax considerations that may apply to a U.S. Holder as a result of the acquisition of securities pursuant to this offering. In addition, this summary does not take into account the individual facts and circumstances of any particular U.S. Holder that may affect the U.S. federal income tax consequences to such U.S. Holder, including specific tax consequences to a U.S. Holder under an applicable tax treaty. Accordingly, this summary is not intended to be, and should not be construed as, legal or U.S. federal income tax advice with respect to any particular U.S. Holder. Each U.S. Holder should consult its own tax advisor regarding the U.S. federal, U.S. federal net investment income, U.S. federal alternative minimum, U.S. federal estate and gift, U.S. state and local, and non-U.S. tax consequences relating to the acquisition, ownership and disposition of the securities.

This summary is based upon the Internal Revenue Code of 1986, as amended (the “**Code**”), the Treasury Regulations (whether final, temporary, or proposed) promulgated thereunder (the “**Treasury Regulations**”), judicial authorities, published rulings and administrative positions of the United States Internal Revenue Service (the “**IRS**”), and other applicable authorities, all as in effect on the date hereof. Any of the authorities on which this summary is based could be subject to differing interpretations and could be changed in a material and adverse manner at any time, and any such change could be applied on a retroactive basis.

There can be no assurance that the IRS will not challenge any of the tax considerations described in this summary, and neither Plata Latina nor World Copper has obtained, or intends to obtain, a ruling from the IRS or an opinion from legal counsel with respect to the United States federal income tax considerations discussed herein. This summary addresses only certain considerations arising under United States federal income tax law, and it does not address any other federal tax considerations such as U.S. federal estate and gift tax, alternative minimum tax, the Foreign Account Tax Compliance Act, Medicare tax on net investment income, or any U.S. state or local or non-U.S. tax considerations.

This summary is not applicable to a holder of World Copper Options, World Copper Warrants or World Copper Special Warrants, and the tax considerations relevant to such holders are not discussed herein. In addition, this summary does not address tax considerations relevant to any Dissenting Shareholders. Any such holders should consult their own tax advisors with respect to the tax consequences of the Arrangement having regard to their own circumstances.

In addition, this summary is of a general nature only and does not address all of the United States federal income tax considerations that may be relevant to a U.S. Holder in light of such U.S. Holder’s circumstances. In particular, this discussion applies only to a U.S. Holder holding World Copper Shares as “capital assets” (generally, property held for investment purposes), and does not address the special tax rules that may apply to special classes of taxpayers, such as:

- U.S. Holders that hold World Copper Shares, Plata Latina Consideration Shares or New World Copper Shares as part of a hedging or integrated financial transaction, conversion transaction, constructive sale, or a straddle;
- U.S. Holders whose functional currency is not the United States dollar;
- United States expatriates or former long-term residents of the United States subject to Section 877 or 877A of the Code;
- U.S. Holders that are owners of an interest in a partnership or other pass-through entity that is a holder of World Copper Shares, Plata Latina Consideration Shares or New World Copper Shares;

- brokers or dealers in securities;
- regulated investment companies;
- real estate investment trusts;
- qualified retirement plans, individual retirement accounts and other tax-deferred accounts;
- financial institutions;
- insurance companies;
- traders that have elected a mark-to-market method of accounting;
- tax-exempt organizations (including private foundations);
- certain taxpayers subject to special tax accounting rules as a result of their use of financial statements;
- U.S. Holders who own or have owned, directly, indirectly, or by attribution, 10% or more of the total combined voting power of all classes of stock entitled to vote or value of the World Copper's or Plata Latina's equity securities;
- U.S. Holders liable for the alternative minimum tax or the unearned income Medicare tax on net investment income; and
- U.S. Holders who received their World Copper Shares upon the exercise of employee stock options or otherwise as compensation.

U.S. Holders that are subject to special provisions under the Code, including U.S. Holders described above, should consult their own tax advisor regarding the U.S. federal income, U.S. federal alternative minimum, U.S. net investment income, U.S. federal estate and gift, U.S. state or local, and non-U.S. tax consequences related to the Arrangement and the ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares received pursuant to the Arrangement.

For purposes of this summary, a "U.S. Holder" means a beneficial owner of World Copper Shares, Plata Latina Consideration Shares or New World Copper Shares, as the case may be, who is, for United States federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity that is classified as a corporation for United States federal income tax purposes) created or organized in or under the Laws of the United States or any political subdivision thereof;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust (i) that has validly elected to be treated as a U.S. person for U.S. federal income tax purposes or (ii) the administration over which a United States court can exercise primary supervision and all of the substantial decisions of which one or more U.S. persons have the authority to control.

For purposes of this summary, a "**Non-U.S. Holder**" means any person who is a beneficial owner of World Copper Shares, Plata Latina Consideration Shares or New World Copper Shares, as the case may be, and who is not a U.S. Holder or a partnership or other entity or arrangement that is classified as a partnership for United States federal income tax purposes. This summary does not address the U.S. federal income tax consequences

applicable to Non-U.S. Holders arising from the Arrangement or the ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares received pursuant to the Arrangement. Accordingly, a Non-U.S. Holder should consult its own tax advisor regarding the tax consequences (including the potential application of and operation of any income tax treaties) related to the Arrangement and the ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares received pursuant to the Arrangement.

If a partnership (or other entity or arrangement classified as a partnership for United States federal income tax purposes) holds World Copper Shares (or after the Arrangement, Plata Latina Consideration Shares or New World Copper Shares), the tax treatment of a partner of such partnership generally will depend upon the status of such partner and the activities of the partnership (or other entity). Partners of partnerships holding World Copper Shares (or after the Arrangement, Plata Latina Consideration Shares or New World Copper Shares) should consult their tax advisors regarding the specific tax consequences of the Arrangement and of the ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares.

This summary is of a general nature only and is not, and is not intended to be, legal or tax advice to any particular World Copper Shareholder (or after the Arrangement, holder of Plata Latina Units, Plata Latina Consideration Shares and New World Copper Shares). This summary is not exhaustive of all United States federal income tax considerations. Consequently, beneficial owners of World Copper Shares (or after the Arrangement, Plata Latina Consideration Shares or New World Copper Shares) are urged to consult their tax advisors to determine the particular tax effects to them of the Arrangement and any other consequences to them in connection with the Arrangement under United States federal, state, local, and non-United States tax Laws, having regard to their particular circumstances.

The summary below is subject to the rules discussed below under “*Passive Foreign Investment Company Considerations*”.

Passive Foreign Investment Company Considerations

The tax consequences of the Arrangement and ownership and disposition of the New World Copper Shares to a particular U.S. Holder will depend on whether World Copper was a passive foreign investment company (a “**PFIC**”) during any taxable year in which the U.S. Holder owned shares in World Copper. Similarly, the tax consequences of the ownership and disposition of Plata Latina Consideration Shares will depend on whether Plata Latina is or becomes a PFIC during any taxable year in which the U.S. Holder owns Plata Latina Consideration Shares. In general, a non-U.S. corporation is a PFIC with respect to a U.S. Holder if, for any taxable year in which the U.S. Holder holds shares of the corporation’s stock, either (a) at least 75% of the corporation’s gross income for the taxable year is passive income; or (b) at least 50% of the average value of the corporation’s assets is attributable to assets that produce or are held for the production of passive income. For this purpose, passive income includes, among other things, dividends, interest, rents or royalties (other than certain rents or royalties derived from the active conduct of a trade or business), annuities, and gains from assets that produce passive income. If a non-U.S. corporation owns at least 25% by value of the stock of another corporation, the non-U.S. corporation is treated for purposes of the PFIC tests as owning a proportionate share of the assets of the other corporation and as receiving directly a proportionate share of the other corporation’s income.

If World Copper or Plata Latina were classified as a PFIC for any taxable year that a U.S. Holder holds its shares, World Copper or Plata Latina, as the case may be, generally would continue to be treated as a PFIC with respect to that U.S. Holder in all succeeding years, even if World Copper or Plata Latina, as the case may be, ceases to satisfy the requirements for being a PFIC. In addition, a U.S. Holder would be treated as owning a proportionate interest in the shares of any non-U.S. subsidiaries of World Copper or Plata Latina, as the case may be, treated as PFICs and would be subject to the PFIC rules on a separate basis with respect to any indirect interests in any such lower-tier PFICs. If World Copper or Plata Latina, as the case may be, were a PFIC with respect to a U.S. Holder, then such U.S. Holder may be subject to adverse tax consequences pursuant to the Arrangement and with respect to the ownership of Plata Latina Consideration Shares or New World Copper Shares, as the case may be.

The determination of whether any non-U.S. corporation is a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. World Copper has not performed an analysis or made a determination as to its status as a PFIC for the current or any past years. However, World Copper believes that it likely was treated as a PFIC for its most recent taxable year and

likely it will be one for its current taxable year. The determination whether a non-U.S. corporation is a PFIC is made annually at the end of each taxable year and is dependent upon a number of factors, some of which are beyond the control of the non-U.S. corporation, including the value of the corporation's assets and the amount and type of its income. Accordingly, there can be no assurance that World Copper is not and has not been a PFIC during a U.S. Holder's holding period, and there /is a high level of risk that World Copper is or was a PFIC at some point during a U.S. Holder's holding period. Similarly, Plata Latina has not performed any analysis or made any determination as to its status as a PFIC historically, there is a high level of risk that Plata Latina is or will become a PFIC, and there can be no assurance that Plata Latina is not and will not be classified as a PFIC for the current or subsequent years.

Each U.S. Holder is urged to consult its tax advisor regarding the possible PFIC status of World Copper and Plata Latina for any relevant taxable year and the tax considerations relevant to an exchange of the World Copper Shares pursuant to the Arrangement and the ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares.

PFIC Consequences

Subject to the mark-to-market rules discussed below, if World Copper were a PFIC for any taxable year during which a U.S. Holder holds World Copper Shares or New World Copper Shares, or if Plata Latina were a PFIC for any taxable year during which a U.S. Holder holds Plata Latina Consideration Shares, a special adverse tax regime (the “**Default PFIC Regime**”) will apply with respect to shares in such PFIC to both (a) any “excess distribution” to such holder for the year (defined as the holder's ratable portion of distributions in the year which are greater than 125% of the average annual distribution received by the holder in the shorter of the three preceding years or the holder's holding period in the shares); and (b) any gain recognized on the sale or other disposition (including in connection with the Arrangement) of the shares. Under this regime, any excess distribution and recognized gain will be treated as ordinary income and will be subject to tax as if (i) the excess distribution or gain had been recognized ratably over the holder's holding period, (ii) the amount deemed recognized in each year had been subject to tax in each year of that holding period at the highest applicable marginal rate for such year (other than income allocated to the current period or any taxable period before World Copper or Plata Latina, as the case may be, became a PFIC, which would be subject to tax at the U.S. Holder's regular ordinary income rate for the current year and would not be subject to the interest charge discussed below), and (iii) the interest charge applicable to underpayments of tax had been imposed on the taxes deemed to have been payable in those years. In addition, the tax liability for amounts allocated to years prior to the year of disposition or “excess distribution” cannot be offset by any net operating losses for such years, and dividend distributions made to the holder will not qualify for the preferential long-term capital gains rate discussed below under “*Ownership and Disposition of New World Copper Shares and Plata Latina Consideration Shares Received in the Arrangement – Distributions on Plata Latina Consideration Shares*”.

Mark-to-Market Election

A U.S. Holder may make a “Mark-to-Market Election” under Section 1296 of the Code with respect to shares of a PFIC (“**PFIC Shares**”) only if such shares are marketable stock. Such shares generally will be “marketable stock” if they are regularly traded on a “qualified exchange,” which is defined as (a) a national securities exchange that is registered with the Securities and Exchange Commission; (b) the national market system established pursuant to section 11A of the Exchange Act; or (c) a non-U.S. securities exchange that is regulated or supervised by a governmental authority of the country in which the market is located, provided that (i) such non-U.S. exchange has trading volume, listing, financial disclosure, surveillance, and other requirements, and the Laws of the country in which such non-U.S. exchange is located, together with the rules of such non-U.S. exchange, ensure that such requirements are actually enforced and (ii) the rules of such non-U.S. exchange ensure active trading of listed stocks. PFIC Shares will generally be treated as “regularly traded” in any calendar year in which more than a de minimis quantity of shares is traded on a qualified exchange for at least 15 days during each calendar quarter. Both World Copper and Plata Latina are currently listed on non-U.S. securities exchanges that may be “qualified exchanges” for this purpose, but no assurance can be provided that the New World Copper Shares or Plata Latina Consideration Shares will qualify as marketable stock. Each U.S. Holder should consult its own tax advisor with respect to the availability of a Mark-to-Market Election with respect to the New World Copper Shares or Plata Latina Consideration Shares, in the event that either or both companies were a PFIC.

In general, a U.S. Holder that makes a timely Mark-to-Market Election with respect to PFIC Shares will include in ordinary income, for each taxable year in which the shares are PFIC Shares, an amount equal to the excess,

if any, of (a) the fair market value of the shares as of the close of such taxable year over (b) such U.S. Holder's tax basis in such shares. A U.S. Holder that makes a Mark-to-Market Election will be allowed a deduction in an amount equal to the lesser of (a) the excess, if any, of (i) such U.S. Holder's adjusted tax basis in the shares over (ii) the fair market value of the shares as of the close of such taxable year or (b) the excess, if any, of (i) the amount included in ordinary income because of such Mark-to-Market Election for prior taxable years over (ii) the amount allowed as a deduction because of such Mark-to-Market Election for prior taxable years. If a U.S. Holder makes a Mark-to-Market Election after the first taxable year in which the shares are PFIC Shares, the Default PFIC Regime will apply to certain dispositions of, and distributions on, the shares, and the U.S. Holder's mark-to-market income for the year of the election. If the shares were to cease being PFIC Shares, a U.S. Holder that marked such shares to market should not include mark-to-market gain or loss with respect to such shares for any taxable year that the shares were not PFIC Shares.

A U.S. Holder that makes a Mark-to-Market Election generally will also adjust such holder's tax basis in its PFIC Shares to reflect the amount included in gross income or allowed as a deduction because of such Mark-to-Market Election. In addition, upon a sale or other taxable disposition of the shares subject to a Mark-to-Market Election, any gain or loss on such disposition will be ordinary income or loss (to the extent that such loss does not to exceed the excess, if any, of (a) the amount included in ordinary income because of such Mark-to-Market Election for prior taxable years over (b) the amount allowed as a deduction because of such Mark-to-Market Election for prior taxable years). A Mark-to-Market Election applies to the taxable year in which such Mark-to-Market Election is made and to each subsequent taxable year, unless the shares cease to be "marketable stock" or the IRS consents to revocation of such election. A Mark-To-Market Election will not apply to any lower-tier PFICs. Accordingly, a U.S. Holder may continue to be subject to tax under the Default PFIC Regime with respect to any lower-tier PFICs notwithstanding the U.S. Holder's mark-to-market election for its PFIC Shares.

If World Copper were a PFIC, and a U.S. Holder made a valid Mark-to-Market Election with respect to the World Copper Shares in the first taxable year during such holder's holding period in which World Copper was treated as a PFIC, the Default PFIC Regime should not apply in connection with the Arrangement and the preceding paragraph would generally apply with respect to any gain or loss recognized in the Arrangement. U.S. Holders that made a valid Mark-to-Market Election in a taxable year after the first taxable year of the holder's holding period for the World Copper Shares should consult their tax advisors regarding the application of the Default PFIC Regime to gain recognized as a result of the Arrangement.

If World Copper were a PFIC and Plata Latina were a PFIC, and a U.S. Holder made a valid Mark-to-Market Election with respect to the World Copper Shares, such U.S. Holder will be required to make another Mark-to-Market Election with respect to the Plata Latina Consideration Shares in order to have a valid Mark-to-Market Election in effect for the Plata Latina Consideration Shares. However, such U.S. Holder should not be required to make another Mark-to-Market Election with respect to the New World Copper Shares issued in exchange for World Copper Shares.

U.S. Holders are urged to consult their tax advisors regarding the availability and consequences of a mark-to-market election, and whether the election would be advisable in the holder's particular circumstances.

QEF Elections

A U.S. Holder of PFIC Shares generally would not be subject to the Default PFIC Regime if the U.S. Holder had made a timely and effective election (a "**QEF Election**") to treat the PFIC as a "qualified electing fund" (a "**QEF**"). Instead, such U.S. Holder would be subject to U.S. federal income tax on its pro rata share of the QEF's (a) net capital gain, which would be taxed as long-term capital gain to such U.S. Holder, and (b) ordinary earnings, which would be taxed as ordinary income to such U.S. Holder, in each case regardless of whether such amounts are actually distributed to such U.S. Holder. A QEF Election will be treated as "timely" if such QEF Election is made for the first taxable year during such holder's holding period in which such shares are treated as PFIC Shares. However, a U.S. Holder cannot make and maintain a valid QEF Election unless the PFIC provides certain U.S. tax information necessary to make and maintain such an election. World Copper has not provided such information in the past and is not expected to provide such information in the near future, and Plata Latina is not expected to provide such information. U.S. Holders should consult their tax advisors with respect to whether they would be able to make and maintain a valid QEF Election with respect to World Copper and Plata Latina and the consequences of such an election, including if such an election is made after the first taxable year in the holder's holding period in which such shares are treated as PFIC Shares.

PFIC Reporting

Subject to certain exceptions, if a U.S. Holder were to own shares of a PFIC during any taxable year, that holder generally would be required to file IRS Form 8621 both with respect to the applicable corporation and with respect to any lower-tier PFICs. Significant penalties are imposed for failing to file IRS Form 8621, and the failure to file such form may suspend the running of the statute of limitations for U.S. federal income tax purposes.

The remainder of this disclosure is subject to the discussion above under this “*Certain United States Federal Income Tax Considerations for World Copper Shareholders – Passive Foreign Investment Company Considerations*”.

Tax Consequences of the Arrangement to U.S. Holders

Pursuant to the Arrangement, among other steps, for applicable legal purposes (a) each World Copper Share will be redesignated as a Company Class A Share and (b) each Company Class A Share will be exchanged for the Shareholder Consideration. While neither Plata Latina nor World Copper has obtained, or intends to obtain, a ruling from the IRS or an opinion from legal counsel regarding the appropriate U.S. federal income tax characterization of the Arrangement and there can be no assurance that the IRS will agree with such treatment, for U.S. federal income tax purposes such steps are instead intended to be treated as (i) the exchange of World Copper Shares for New World Copper Shares in a Recapitalization (as defined below) and (ii) the distribution of Plata Latina Consideration Shares by World Copper. The remainder of this disclosure assumes that such characterization is applicable. U.S. Holders are urged to consult their tax advisors regarding the applicability of such treatment and the tax consequences of the Arrangement, in each case having regard to their particular circumstances.

Exchange of World Copper Shares for New World Copper Shares

The exchange by U.S. Holders of their World Copper Shares ultimately for New World Copper Shares pursuant to the Arrangement is intended to qualify as a reorganization within the meaning of Section 368(a)(1)(E) of the Code (a “**Recapitalization**”) for U.S. federal income tax purposes. Consequently, a U.S. Holder of World Copper Shares will not recognize gain or loss upon the exchange of World Copper Shares for New World Copper Shares pursuant to the Recapitalization. A U.S. Holder’s aggregate tax basis in the New World Copper Shares received in connection with the Recapitalization will generally be the same as its aggregate tax basis in the World Copper Shares surrendered in the transaction, (subject to the discussion below under, “Receipt of Plata Latina Consideration Shares by U.S. Holders pursuant to the Arrangement”). In addition, the holding period of New World Copper Shares received in the Recapitalization generally will include the holding period of World Copper Shares surrendered in the Recapitalization.

Receipt of Plata Latina Consideration Shares by U.S. Holders pursuant to the Arrangement.

As noted above, it is intended that the receipt of Plata Latina Consideration Shares by U.S. Holders be treated as a distribution made by World Copper with respect to its stock. As such, U.S. Holders who receive Plata Latina Consideration Shares pursuant to the Arrangement will be required to include the amount of such distribution in gross income as a dividend (without reduction for any Canadian income tax withheld from such distribution) to the extent of World Copper’s current and accumulated “earnings and profits”, as computed under U.S. federal income tax principles. World Copper may realize for its current taxable year gain from the exchange of its Zonia Shares and Zonia Intercompany Debt for the Consideration, which may result in World Copper having current earnings and profits. The amount treated as a distribution will be the fair market value of the Plata Latina Consideration Shares received by a U.S. Holder. Although U.S. federal income tax laws do not specify how to determine fair market value, one approach is to use the U.S. dollar value of the mean between the high and low of the trading prices of such shares on the TSX on the distribution date. A dividend generally will be taxed to a U.S. Holder at ordinary income tax rates and subject to the rules described above under “*Certain United States Federal Income Tax Considerations for World Copper Shareholders – Passive Foreign Investment Company Considerations*” if World Copper is a PFIC for the tax year of such distribution or the preceding tax year. To the extent that such distribution exceeds World Copper’s current and accumulated “earnings and profits,” such distribution will be treated first as a tax-free return of capital to the extent of a U.S. Holder’s tax basis in such New World Copper Shares and thereafter as gain from the sale or exchange of such New World Copper Shares. However, World Copper may not maintain calculations of earnings and profits in accordance with U.S. federal

income tax principles, and each U.S. Holder may be required to assume that the entire amount of the distribution will constitute ordinary dividend income. Dividends received on such New World Copper Shares generally will not be eligible for the “dividends received deduction” generally applicable to corporations. Subject to applicable limitations and provided we are eligible for the benefits of the Convention Between Canada and the United States of America with Respect to Taxes on Income and on Capital, signed September 26, 1980, as amended, or the common shares are readily tradable on a United States securities market, dividends paid by us to non-corporate U.S. Holders, including individuals, generally will be eligible for the preferential tax rates applicable to long-term capital gains for dividends, provided certain holding period and other conditions are satisfied, including that World Copper is not classified as a PFIC in the tax year of distribution or in the preceding tax year. A U.S. Holder’s initial tax basis in the Plata Latina Consideration Shares received pursuant to the Arrangement will be the fair market value of such shares on the distribution date, and its holding period in such Plata Latina Consideration Shares should begin the day after the distribution date. The dividend rules are complex, and each U.S. Holder is urged to consult its own tax advisor regarding the application of such rules and the tax consequences to the receipt by such U.S. Holder of Plata Latina Consideration Shares.

Consolidation of Plata Latina Consideration Shares

If the Plata Latina Share Consolidation Resolution is approved and prior approval is received from the TSXV (among certain other conditions precedent), the Plata Latina Consideration Shares received by World Copper Shareholders pursuant to the Arrangement will be consolidated. For U.S. federal income tax purposes, Plata Latina intends to treat the Consolidation as a reorganization within the meaning of Section 368(a)(1)(E) of the Code for U.S. federal income tax purposes. Consequently, a U.S. Holder of Plata Latina Consideration Shares will generally not recognize gain or loss in connection with the Consolidation and will continue to have the same holding period and aggregate tax basis in the post-Consolidation Plata Latina Shares as it had in its Plata Latina Shares prior to the Consolidation. Plata Latina has not obtained, and does not intend to obtain, a ruling from the IRS or an opinion from legal counsel regarding the appropriate U.S. federal income tax characterization of the Share Consolidation and there can be no assurance that the IRS will agree with such treatment.

Ownership and Disposition of New World Copper Shares and Plata Latina Consideration Shares Received in the Arrangement

Distributions on New World Copper Shares and Plata Latina Consideration Shares Received in the Arrangement

The gross amount of any distributions by World Copper with respect to the New World Copper Shares or Plata Latina with respect to the Plata Latina Consideration Shares generally will be taxable to a U.S. Holder as ordinary dividend income to the extent paid out of World Copper’s or Plata Latina’s, as applicable, current or accumulated earnings and profits (as determined under U.S. federal income tax principles). World Copper or Plata Latina may not maintain calculations of its earnings and profits in accordance with U.S. federal income tax principles and therefore may treat all distributions as paid out of the applicable company’s current or accumulated earnings and profits. U.S. Holders should consult their tax advisors regarding whether distributions from World Copper or Plata Latina should be treated as dividends for U.S. federal income tax purposes. Dividends paid by World Copper or Plata Latina will not be eligible for the dividends received deduction provided under the Code for certain dividends paid to U.S. corporate shareholders.

A dividend paid by World Copper or Plata Latina generally will be taxed at the preferential tax rates applicable to long-term capital gains if, among other requirements, (a) World Copper or Plata Latina, as applicable, is a “qualified foreign corporation” (as defined below); (b) the U.S. Holder receiving such dividend is an individual, estate, or trust; and (c) such dividend is paid on New World Copper Shares or Plata Latina Consideration Shares that have been held by such U.S. Holder for at least 61 days during the 121-day period beginning 60 days before the “ex-dividend date” (i.e., the first date that a purchaser of such New World Copper Shares or Plata Latina Consideration Shares will not be entitled to receive such dividend). World Copper or Plata Latina generally will be a “qualified foreign corporation” (a “QFC”) if (a) World Copper or Plata Latina, as applicable, is eligible for the benefits of a comprehensive tax treaty with the United States which the Secretary of Treasury of the United States determines is satisfactory for purposes of this provision and which includes an exchange of information provision; or (b) the New World Copper Shares or Plata Latina Consideration Shares, as applicable, are readily tradable on an established securities market in the U.S., within the meaning provided in the Code. However, even if the New World Copper Shares or the Plata Latina Consideration Shares satisfies one or more of such requirements, World Copper or Plata Latina, as applicable, will not be treated as a QFC if it is classified as a PFIC for the taxable year during which such company pays the applicable dividend or for the preceding taxable

year. If World Copper or Plata Latina is not a QFC, a dividend paid by it to a U.S. Holder that is an individual, estate, or trust generally will be taxed at ordinary income tax rates (and not at the preferential tax rates applicable to long-term capital gains). The dividend rules are complex, and each U.S. Holder should consult its own tax advisor regarding the application of such rules to such holder in its particular circumstances.

Sale or Other Taxable Disposition of World Copper Shares or Plata Latina Consideration Shares

A U.S. Holder generally will recognise capital gain or loss upon the sale, exchange or other taxable disposition of the World Copper Shares or Plata Latina Consideration Shares equal to the difference, if any, between the U.S. dollar amount realised on the sale, exchange or other taxable disposition of the applicable securities and the U.S. Holder's adjusted tax basis in the applicable securities. Any such gain or loss will be long-term capital gain or loss if the applicable securities have been held for more than one year. The deductibility of capital losses is subject to limitations.

Receipt of Foreign Currency

The amount of any distribution paid to a U.S. Holder in foreign currency, or on the sale, exchange or other taxable disposition of Plata Latina Consideration Shares, generally will be equal to the U.S. dollar value of such foreign currency based on the exchange rate applicable on the date of receipt (regardless of whether such foreign currency is converted into U.S. dollars at that time). A U.S. Holder will have a tax basis in the foreign currency equal to its U.S. dollar value on the date of receipt. Any U.S. Holder who converts or otherwise disposes of the foreign currency after the date of receipt may have a foreign currency exchange gain or loss that would be treated as ordinary income or loss, and generally will be U.S. source income or loss for foreign tax credit purposes. Different rules apply to U.S. Holders who use the accrual method of tax accounting. Each U.S. Holder should consult its own U.S. tax advisors regarding the U.S. federal income tax consequences of receiving, owning and disposing of foreign currency.

Foreign Tax Credit

Subject to the PFIC rules discussed above, a U.S. Holder that pays (whether directly or through withholding) Canadian income tax with respect to dividends paid on the securities generally will be entitled, at the election of such U.S. Holder, to receive either a deduction or a credit for such Canadian income tax paid. Generally, a credit will reduce a U.S. Holder's U.S. federal income tax liability on a dollar-for-dollar basis, whereas a deduction will reduce a U.S. Holder's income subject to U.S. federal income tax. This election is made on a year-by-year basis and applies to all foreign taxes paid or accrued (whether directly or through withholding) by a U.S. Holder during a year. The foreign tax credit rules are complex and involve the application of rules that depend on a U.S. Holder's particular circumstances. Accordingly, each U.S. Holder should consult its own tax advisor regarding the foreign tax credit rules.

Backup Withholding and Information Reporting

U.S. Holders may be subject to information reporting and backup withholding on any cash payments made in connection with the Arrangement. Payments of distributions on, or the proceeds from a sale or other taxable disposition of, Plata Latina Consideration Shares or New World Copper Shares paid within the United States may be subject to information reporting and backup withholding. Payments of distributions on, or the proceeds from the sale or other taxable disposition of, Plata Latina Consideration Shares or New World Copper Shares to or through a foreign office of a broker generally will not be subject to backup withholding, although information reporting may apply to those payments in certain circumstances.

Backup withholding generally will not apply, however, to a U.S. Holder who furnishes an IRS Form W-9 (or substitute form) listing a correct taxpayer identification number and certifying that such holder is not subject to backup withholding or who otherwise establishes an exemption from backup withholding. Non-U.S. Holders generally will not be subject to United States information reporting or backup withholding. However, such holders may be required to certify non-United States status (generally, on an applicable IRS Form W-8) in connection with payments received in the United States or through certain United States-related financial intermediaries.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a holder under the backup withholding rules generally may be credited against the holder's U.S. federal income tax liability, and a holder

may obtain a refund of any excess amounts withheld by filing the appropriate claim for refund with the IRS in a timely manner and furnishing any required information.

Certain U.S. Holders must report information relating to an interest in “specified foreign financial assets,” including shares issued by a non-United States corporation, for any year in which the aggregate value of all specified foreign financial assets exceeds \$50,000, subject to certain exceptions (including an exception for shares held in accounts maintained with certain financial institutions). Penalties may be imposed for the failure to disclose such information. U.S. Holders are urged to consult their tax advisors regarding the effect, if any, of these reporting requirements on their ownership and disposition of Plata Latina Consideration Shares or New World Copper Shares received pursuant to the Arrangement.

THE ABOVE SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE ANALYSIS OF ALL TAX CONSIDERATIONS APPLICABLE TO U.S. HOLDERS WITH RESPECT TO THE ARRANGEMENT AND THE OWNERSHIP AND DISPOSITION OF PLATA LATINA CONSIDERATION SHARES OR NEW WORLD COPPER SHARES RECEIVED PURSUANT TO THE ARRANGEMENT. U.S. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSIDERATIONS APPLICABLE TO THEM IN LIGHT OF THEIR OWN PARTICULAR CIRCUMSTANCES.

RISK FACTORS

Plata Latina Shareholders that vote in favour of the Plata Latina Transaction Resolutions are making an investment decision with respect to the business of Plata Latina following the completion of the Arrangement, including the Zonia Property and its prospects. World Copper Shareholders that vote in favour of the World Copper Arrangement Resolution are making an investment decision with respect to the New World Copper Shares and the Plata Latina Shares. Plata Latina Shareholders and World Copper Shareholders should carefully consider the risk factors set out below relating to the Arrangement and the businesses of Plata Latina and World Copper following completion of the Arrangement. Plata Latina Shareholders and World Copper Shareholders should also carefully consider the risk factors contained in the documents incorporated by reference in this Circular. Readers are cautioned that such risk factors are not exhaustive and additional risks and uncertainties, including those currently unknown or not considered material to Plata Latina or World Copper, may also adversely affect the Arrangement, Plata Latina or World Copper prior to the completion of the Arrangement or their businesses following completion of the Arrangement.

Risk Factors Relating to the Transaction

The Arrangement may not be completed.

Each of Plata Latina and World Copper has the right to terminate the Arrangement Agreement in certain circumstances. Accordingly, there is no certainty that the Arrangement will be completed in accordance with the terms of the Arrangement Agreement or the Plan of Arrangement, or at all.

In addition, the completion of the Arrangement is subject to a number of conditions precedent (including the consummation of the Concurrent Financing), certain of which may be outside the control of both Plata Latina and World Copper. Among other things, the Arrangement is conditional upon the approval of each of the Plata Latina Transaction Resolutions by Plata Latina Shareholders, approval of the World Copper Arrangement Resolution by World Copper Shareholders, TSXV approval and Court approval. There can be no assurance that any or all such approvals will be obtained. A failure or substantial delay in obtaining satisfactory approvals or the imposition of unfavourable terms or conditions in any approvals could have an adverse effect on the business, financial condition or results of operations of Plata Latina and World Copper.

The Concurrent Financing may not be completed.

The Subscription Agreements may be terminated in certain circumstances. Accordingly, there is no certainty that the Concurrent Financing will be completed in accordance with the terms of the Subscription Agreements, or at all.

The subscription by each Concurrent Financing Investor for Plata Latina Units pursuant to the Subscription Agreements is irrevocable, subject only to (a) the subscription by insiders of Plata Latina for Plata Latina Units

for a gross aggregate subscription price of at least \$5,000,000 under the Concurrent Financing; and (b) all conditions to completion of the Arrangement contemplated by the Arrangement Agreement having been satisfied without any amendment or waiver materially adverse to Plata Latina (other than conditions that, by their terms, are to be satisfied concurrently with closing of the Arrangement). A failure or substantial delay in the satisfaction or, where applicable, waiver of the conditions precedent to the Arrangement could result in the termination of the Arrangement Agreement and have an adverse effect on the business, financial condition or results of operations of Plata Latina and World Copper.

The market value of the Plata Latina Consideration Shares that World Copper Shareholders receive in connection with the Arrangement may be less than the value of the World Copper Shares as of the date of the Arrangement Agreement or the date of the Plata Latina Meeting and the World Copper Meeting.

The Plata Latina Consideration Shares payable to World Copper Shareholders pursuant to the Arrangement is based on a fixed 31.3% interest in the outstanding Plata Latina Shares immediately following closing of the Arrangement and the Concurrent Financing, and there will be no adjustment for changes in the market price of Plata Latina Shares or World Copper Shares prior to the completion thereof. Neither Plata Latina nor World Copper is permitted to terminate the Arrangement Agreement and abandon the Arrangement solely because of changes in the market price of Plata Latina Shares or World Copper Shares. There will be a gap in time between the date when Plata Latina Shareholders and World Copper Shareholders vote at their respective shareholder meetings and the date on which the Arrangement is completed. As a result, the relative or absolute prices of the Plata Latina Shares or the World Copper Shares may fluctuate significantly between the dates of the Arrangement Agreement, this Circular, the Plata Latina Meeting, the World Copper Meeting and completion of the Arrangement.

These fluctuations may be caused by, among other factors, changes in the businesses, operations, results and prospects of one or both of Plata Latina and World Copper, market expectations as to the likelihood that the Arrangement will be completed and the timing of its completion, the prospects for developing Plata Latina's mineral projects following completion of the Arrangement and general market and economic conditions. As a result of such fluctuations, historical market prices are not indicative of future market prices or the market value of the Plata Latina Consideration Shares that World Copper Shareholders will receive on completion of the Arrangement. There can be no assurance that the market value of such Plata Latina Consideration Shares will equal or exceed the market value of the World Copper Shares held by World Copper Shareholders prior to such time. In addition, there can be no assurance that the market price of the Plata Latina Consideration Shares will not decline following completion of the Arrangement.

The expected Exchange Ratio that World Copper Shareholders anticipate to receive for each World Copper Share may be greater than the final Exchange Ratio determined under the Plan of Arrangement at the Effective Time and actually received by World Copper Shareholders.

Under the Arrangement Agreement, Plata Latina has agreed to acquire all of the issued and outstanding Zonia Shares and the Zonia Intercompany Debt for aggregate consideration of \$10,500,000 in cash and such number of Plata Latina Consideration Shares as results in World Copper and World Copper Shareholders collectively owning approximately 31.3% of the issued and outstanding Plata Latina Shares, on a non-diluted basis, immediately following the closing of Concurrent Financing and the Effective Time.

Under the Arrangement, World Copper Shareholders (other than Dissenting Shareholders) will receive, in exchange for each World Copper Share, one New World Copper Share and such number of Plata Latina Consideration Shares as is equal to the Exchange Ratio. The final Exchange Ratio will only be determined on the Effective Date depending on, among other things, the number of Plata Latina Shares and World Copper Shares issued and outstanding as of the Effective Time, respectively.

As and when World Copper issues additional World Copper Shares prior to the Effective Time, the Exchange Ratio would be expected to decrease given that the aggregate interest of World Copper and the World Copper Shares in the issued and outstanding Plata Latina Shares immediately following closing of the Arrangement and the Concurrent Financing will remain fixed at 31.3% on a non-diluted basis. There will be no adjustment to this percentage for increases in the number of issued and outstanding World Copper Shares prior to the Effective Time.

There will be a gap in time between the date when Plata Latina Shareholders and World Copper Shareholders vote at their respective shareholder meetings and the date on which the Arrangement is completed. As a result, the final Exchange Ratio may decrease significantly between the dates of the Arrangement Agreement, this Circular, the Plata Latina Meeting, the World Copper Meeting and completion of the Arrangement.

World Copper may become liable to pay the World Copper Termination Amount.

In certain circumstances, including if the World Copper Board authorizes World Copper to enter into a definitive agreement with respect to a World Copper Superior Proposal, World Copper may be required to pay to Plata Latina the World Copper Termination Amount. If World Copper is required to pay such amount and World Copper does not enter into a definitive agreement with respect to a World Copper Superior Proposal, the financial condition of World Copper may be materially adversely affected. In addition, if the Arrangement Agreement is terminated by Plata Latina as a result of World Copper's breach of its representations or warranties or failure to perform its covenants under the Arrangement Agreement, World Copper may be required to pay \$250,000 to Plata Latina as a reimbursement for the costs and expenses incurred by Plata Latina in connection with the Arrangement Agreement.

The World Copper Termination Amount may discourage other parties from proposing a significant business transaction with World Copper.

Under the Arrangement Agreement, World Copper is required to pay the World Copper Termination Amount in the event that the Arrangement is terminated in certain circumstances relating to a possible alternative transaction to the Arrangement. The World Copper Termination Amount may discourage third parties from attempting to propose a significant business transaction with World Copper, even if a different transaction could provide better value to World Copper Shareholders than the Arrangement.

Plata Latina may become liable to pay the Plata Latina Termination Amount.

In certain circumstances, including if the Plata Latina Board authorizes Plata Latina to enter into a definitive agreement with respect to a Plata Latina Superior Proposal, Plata Latina may be required to pay to World Copper the Plata Latina Termination Amount. If Plata Latina is required to pay such amount and Plata Latina does not enter into a definitive agreement with respect to a Plata Latina Superior Proposal, the financial condition of Plata Latina may be materially adversely affected. If the Arrangement Agreement is terminated by World Copper as a result of Plata Latina's breach of its representations or warranties or failure to perform its covenants under the Arrangement Agreement, Plata Latina may be required to pay \$250,000 to World Copper as a reimbursement for the costs and expenses incurred by World Copper in connection with the Arrangement Agreement.

The Plata Latina Termination Amount provided for under the Arrangement Agreement may discourage other parties from proposing a significant business transaction with Plata Latina.

Under the Arrangement Agreement, Plata Latina is required to pay the Plata Latina Termination Amount in the event that the Arrangement is terminated in certain circumstances relating to a possible alternative transaction to the Arrangement. The Plata Latina Termination Amount may discourage third parties from attempting to propose a significant business transaction with Plata Latina, even if a different transaction could provide better value than the Arrangement to Plata Latina Shareholders.

Prior to the Effective Date, Plata Latina and World Copper are restricted from taking certain actions.

The Arrangement Agreement restricts Plata Latina and World Copper from taking specified actions until the Arrangement is completed without the consent of the other Party which may adversely affect the ability of each to execute certain business strategies, including, but not limited to, the ability in certain cases to enter into or amend contracts, acquire or dispose of assets, incur indebtedness or incur capital expenditures. These restrictions may prevent Plata Latina and World Copper from pursuing attractive business opportunities that may arise prior to the completion of the Arrangement.

The pending Transaction may divert the attention of Plata Latina's and World Copper's management.

The pending Transaction could cause the attention of Plata Latina's and World Copper's management to be diverted from the day-to-day operations. These disruptions could be exacerbated by a delay in the completion of the Arrangement and could have an adverse effect on the business, operating results or prospects of Plata Latina or World Copper regardless of whether the Arrangement is ultimately completed.

Plata Latina and World Copper will incur substantial transaction fees and costs in connection with the Transaction. If the Transaction is not completed, the costs may be significant and could have an adverse effect on Plata Latina or World Copper.

Plata Latina and World Copper have incurred and expect to incur additional material non-recurring expenses in connection with the Transaction and completion of the transactions contemplated by the Arrangement Agreement (and, in the case of Plata Latina, the Subscription Agreements). Additional unanticipated costs may be incurred by Plata Latina in the course of coordinating the businesses of Plata Latina and World Copper after the completion of the Transaction. If the Transaction is not completed, Plata Latina and World Copper will need to pay certain costs relating to the Transaction incurred prior to the date the Transaction was abandoned, such as legal, accounting, financial advisory, meeting-related and printing fees. Such costs may be significant and could have an adverse effect on the future results of operations, cash flows and financial condition of Plata Latina and World Copper.

Directors and officers of each of Plata Latina and World Copper may have interests in the Transaction, respectively, that may be different from those of Plata Latina Shareholders and World Copper Shareholders generally.

In considering the unanimous recommendation of each of the Plata Latina Board to vote for each of the Plata Latina Transaction Resolutions and the World Copper Board to vote for the World Copper Arrangement Resolution, respectively, Plata Latina Shareholders and World Copper Shareholders should be aware that certain directors and officers of each company may have certain interests in connection with the Transaction that differ from, or are in addition to, those of Plata Latina Shareholders or World Copper Shareholders generally and may present them with actual or potential conflicts of interest in connection with the Transaction. See *"Interest of Certain Persons in Matters to be Acted Upon"*.

The World Copper Fairness Opinion does not reflect changes in circumstances that may have occurred or that may occur between the date of the Arrangement Agreement and the completion of the Arrangement.

World Copper does not expect to receive an updated, revised or reaffirmed opinion prior to the completion of the Arrangement. Changes in the operations and prospects of the Parties, general market and economic conditions and other factors that may be beyond the control of the Parties, and on which the World Copper Fairness Opinion was based, may significantly alter the value of the Parties or the market price of the New World Copper Shares and Plata Latina Shares by the time the Arrangement is completed. The World Copper Fairness Opinion does not speak as of the time the Arrangement will be completed or as of any date other than the date of such opinion. Because Evans & Evans will not be updating the World Copper Fairness Opinion, such opinion will not address the fairness of the Consideration, from a financial point of view, at the time the Arrangement is completed.

U.S. holders may be subject to adverse U.S. federal income tax consequences in connection with the receipt of Plata Latina Consideration Shares pursuant to the Arrangement

U.S. investors should be aware that the Arrangement is expected to give rise to taxable income for U.S. income tax purposes, even if such U.S. investor otherwise has a loss in its World Copper shares. In addition, U.S. investors should be aware that they could be subject to certain adverse U.S. federal income tax consequences in the event that World Copper is classified as a "passive foreign investment company" ("PFIC") for U.S. federal income tax purposes. The determination of whether World Copper is a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations, and the determination will depend on the composition of World Copper's income, expenses and assets from time to time and the nature of the activities performed by World Copper's officers and employees. Based on the composition of World Copper's income and the value of its assets as reported for financial statement purposes, World Copper believes that it may be classified as a PFIC for its most recent taxable year. However, World Copper has not

engaged such an analysis applying U.S. federal income tax rules, which may vary from financial accounting rules. World Copper also expects to be a PFIC for the current year. However, the determination as to whether World Copper is a PFIC for any given year depends on the composition of World Copper's income, expenses and assets for the entire years and, therefore, World Copper cannot definitively ascertain whether it will be classified as a PFIC for the current taxable year. U.S. Holders should carefully read the discussion under the heading "Certain United States Federal Income Tax Considerations For World Copper Shareholders" for more information and consult their own tax advisors regarding the tax treatment of the Arrangement, the likelihood and consequences of World Copper being treated as a PFIC for U.S. federal income tax purposes, including the advisability of making certain elections that may mitigate certain possible adverse U.S. federal income tax consequences that may result in an inclusion in gross income without receipt of such income.

Risk Factors Relating to Plata Latina Following Completion of the Transaction

The following risk factors assume that the Transaction will be completed in accordance with the terms of the Arrangement Agreement and the Subscription Agreements.

Plata Latina will have limited history of operating revenue and cash flow.

Plata Latina will have a limited history of earnings. Development of Plata Latina's projects will only follow upon obtaining satisfactory results of further exploration work and geological and other studies. Exploration and the development of natural resources involve a high degree of risk and few properties which are explored are ultimately developed into producing properties. There is no assurance that Plata Latina's exploration and development activities will result in any discoveries of commercial bodies of ore. The long-term profitability of Plata Latina's operations will be in part directly related to the cost and success of its exploration programs, which may be affected by a number of factors. Even if commercial quantities of minerals are discovered, the exploration properties may not be brought into a state of commercial production. The commercial viability of a metal or mineral deposit once discovered is also dependent on various factors, including particulars of the deposit itself, proximity to infrastructure, commodity prices, and availability of power and water to permit development. Further, Plata Latina will be subject to many risks common to mining exploration companies, including undercapitalization, cash shortages, limitations with respect to personnel, financial and other resources and the lack of revenues. There is no assurance Plata Latina will be successful in achieving a return on shareholder's investment and the likelihood of success must be considered in light of its early-stage operations.

The price of and demand for copper will have a significant impact on Plata Latina.

Plata Latina's profitability and long term viability will depend, in large part, upon the market price of and demand for copper. The copper price fluctuates widely and is affected by numerous factors beyond Plata Latina's control, including: global and regional supply and demand for copper or for products containing copper; changes in global or regional investment or consumption patterns; increased production due to new mine developments and improved mining and production methods; decreased production due to mine closures; interest rates and interest rate expectation; expectations with respect to the rate of inflation or deflation; fluctuations in the value of the United States dollar and other currencies; availability and costs of metal substitutes; global or regional political or economic conditions; and sales by central banks, holders, speculators and other copper producers in response to any of the above factors. There can be no assurance that copper price will remain at current levels or that the price will improve. A decrease in the market price could adversely affect the profitability of Plata Latina's mines and projects, as well as its ability to finance the exploration and development of additional properties. A decline in copper price may require Plata Latina to write down mineral reserve and mineral resource estimates by removing ores from mineral reserves that would not be economically processed at lower copper prices and revise life of mine plans, which could result in material write downs of investments in mining properties.

There is no assurance that the market price of the Plata Latina Shares will increase following the implementation of the Consolidation.

Reducing the number of issued and outstanding Plata Latina Shares through the Consolidation is intended, absent other factors, to increase the per-Plata Latina Share market price of the Plata Latina Shares by a factor approximately equal to the ratio adopted for the Consolidation (being up to three pre-Consolidation Plata Latina Shares for every one post-Consolidation Plata Latina Shares). However, the market price of the Plata Latina Shares will also be affected by Plata Latina's financial and operational results, its financial position, including its

liquidity and capital resources, industry conditions, the market's perception of Plata Latina's business and other factors, which are unrelated to the number of Plata Latina Shares outstanding. There is no assurance that the anticipated market price of the Plata Latina Shares immediately following the implementation of the Consolidation will be realized or, if realized, will be sustained or will increase. There is a risk that the total market capitalization of the Plata Latina Shares (the market price of the Plata Latina Shares multiplied by the number of Plata Latina Shares outstanding) after the implementation of the Consolidation may be lower or higher than the total market capitalization of the Plata Latina Shares prior to the implementation of the Consolidation.

Having regard to these other factors, there can be no assurance that the market price of the Plata Latina Shares will increase by a factor approximately equal to the consolidation ratio following the implementation of the Consolidation.

If the Consolidation is implemented and the market price of the Plata Latina Shares (adjusted to reflect the ratio of the Consolidation) declines, the percentage decline as an absolute number and as a percentage of the Plata Latina's overall market capitalization may be greater than would have occurred if the Consolidation had not been implemented. Both the total market capitalization of Plata Latina and the adjusted market price of the Plata Latina Shares following the Consolidation may be lower than they were before the Consolidation took effect. The reduced number of Plata Latina Shares that would be outstanding after the Consolidation is implemented could adversely affect the liquidity of the Plata Latina Shares.

Mineral reserve and mineral resource figures pertaining to Plata Latina's properties are only estimates and are subject to revision based on developing information.

To extend the lives of its mines and projects, ensure the continued operation of the business and realize its growth strategy, it is essential that Plata Latina convert mineral resources into mineral reserves, increase its mineral resource base by adding new mineral resources from areas of identified mineralized potential, and undertake successful exploration or acquire new mineral resources. No proven or probable mineral reserves or measured resources have been defined or delineated in respect of the Zonia Property. No assurance can be given that the anticipated tonnages and grades in respect of mineral resources contained in, and incorporated by reference into, this Circular will be achieved, that the indicated level of recovery will be realized or that mineral reserves resulting from the conversion of mineral resources, if any, will be mined or processed profitably. There are numerous uncertainties inherent in estimating mineral resources, including many factors beyond Plata Latina's control.

Plata Latina will be subject to various exploration, development and operating risks.

Mining operations are inherently dangerous and generally involve a high degree of risk. Plata Latina's operations will be subject to all the hazards and risks normally encountered in the exploration, development and production of copper, including, unusual and unexpected geologic formations, seismic activity, flooding, pit wall failure and other conditions involved in the drilling and removal of material, any of which could result in damage to, or destruction of, mines and other producing facilities, personal injury or loss of life, damage to property and environmental damage. The occurrence of any of these events could result in a prolonged interruption of Plata Latina's operations.

The exploration for and development of mineral deposits involves significant risks, which even a combination of careful evaluation, experience and knowledge may not eliminate. While the discovery of a mineral body may result in substantial rewards, few properties that are explored are ultimately developed into producing mines. Major expenses may be required to locate and establish mineral reserves, to develop metallurgical processes and to construct mining and processing facilities at a particular site.

It is impossible to ensure that the exploration or development programs planned by Plata Latina will result in a profitable commercial mining operation. Whether a mineral deposit will be commercially viable depends on a number of factors, some of which are the particular attributes of the deposit, such as size, grade and proximity to infrastructure, copper prices that are highly cyclical and government regulations, including regulations relating to prices, taxes, royalties, land tenure, land use, importing and exporting of minerals and environmental protection. The exact effect of these factors cannot be accurately predicted, but the combination of these factors may result in Plata Latina not receiving an adequate return on invested capital. There is no certainty that the

expenditures made by Plata Latina towards the search and evaluation of mineral deposits will result in discoveries or development of commercial quantities of mineral resources.

Plata Latina will be subject to various Laws.

The mineral exploration activities of Plata Latina will be subject to various Laws governing prospecting, development, production, taxes, labour standards and occupational health, mine safety, toxic substances and other matters. Mining and exploration activities are also subject to various Laws and regulations relating to the protection of the environment. No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner that could limit or curtail production or development of Plata Latina's properties. Amendments to current Laws and regulations governing the operations and activities of Plata Latina or more stringent implementation thereof could have a material adverse effect on Plata Latina's business, financial condition and results of operations.

Plata Latina will be subject to various health, safety and environmental risks and hazards.

Mining, like many other extractive natural resource industries, is subject to potential risks and liabilities due to accidents that could result in serious injury or death and/or material damage to the environment and Plata Latina's assets. The impact of such accidents could affect the profitability of the operations, potentially result in fines, penalties or other prosecutions, cause an interruption to operations, lead to a loss of licenses, affect the reputation of Plata Latina and its ability to obtain further licenses, damage community relations and reduce the perceived appeal of Plata Latina as an employer.

All phases of Plata Latina's operations will be subject to environmental and safety regulations in the jurisdictions in which it operates. Failure to comply with applicable health, safety and environmental Laws and regulations could result in injunctions, fines, suspension or cancellation of permits and approvals and could include other penalties including negligence claims or criminal prosecution. There is no assurance that Plata Latina has been or will at all times be in full compliance with all environmental Laws and regulations or hold, and be in full compliance with, all required environmental and health and safety permits. Failure to comply with applicable Laws, regulations and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Potential costs and delays associated with compliance with such Laws, regulations and permits could prevent Plata Latina from proceeding with the development of a project or the operation or further development of a mine.

Plata Latina may require additional financing which may not be available or if available, might not be on terms favourable to Plata Latina.

The exploration and development of Plata Latina's properties, including exploration and development projects, and the construction of mining facilities and commencement of mining operations may require substantial additional financing. Failure to obtain sufficient financing may result in a delay or indefinite postponement of exploration, development or production on any of Plata Latina's properties or even a loss of property interests. Additional financing may not be available when needed, or if available, the terms of such financing might not be favourable to Plata Latina. Any such financing, if obtained, may involve the issuance of equity or voting securities (or securities convertible into or exchangeable for equity or voting securities) and could result in a material increase in the number of the outstanding Plata Latina Shares, which may adversely affect the market price of the Plata Latina Shares.

The costs and availability of commodities needed for Plata Latina's operations and projects may affect the success of Plata Latina's operations.

The success of Plata Latina's operations will be dependent upon the cost and availability of commodities which will be consumed or otherwise used in connection with Plata Latina's operations and projects, including, diesel, fuel, natural gas, electricity, steel and concrete. Commodity prices fluctuate widely and are affected by numerous factors beyond Plata Latina's control, including, the continuance or escalation of the military conflict between Ukraine and Russia and the economic sanctions imposed on Russia in connection therewith, which have and may continue to result in increased prices for a variety of commodities and which could have other long term effects on the global economy in addition to the near term effects on Ukraine and Russia.

Plata Latina may be affected by public health crises.

Public health crises can result in volatility and disruptions in the supply and demand for commodities, global supply chains and financial markets, as well as declining trade and market sentiment and reduced mobility of people, all of which could affect commodity prices, access to capital markets, interest rates, credit ratings, credit risk and inflation. The risks to Plata Latina of such public health crises may also include: risks to the health and safety of employees and contractors, a slowdown or temporary suspension of exploration operations, restrictions on travel and movement of personnel, increased labour and fuel costs, regulatory changes, political or economic instabilities or civil unrest.

Plata Latina's mining, processing, development and exploration activities depend on adequate infrastructure.

Mining, processing, development and exploration activities depend, to one degree or another, on adequate infrastructure. Reliable roads, bridges, power sources and water supply are important determinants that affect capital and operating costs. Unusual or infrequent weather phenomena, sabotage, government or other interference in the maintenance or provision of such infrastructure could adversely affect Plata Latina's operations, financial condition and results of operations.

Plata Latina's operations will depend on receiving and maintain permits.

Plata Latina's operations will be subject to receiving and maintaining permits from relevant governmental authorities. There is no assurance that delays will not occur in connection with obtaining all necessary renewals of permits for Plata Latina's operations, additional permits for any possible future changes to operations, or additional permits associated with new legislation. Prior to any development on any of its properties, Plata Latina must receive permits from appropriate governmental authorities. There can be no assurance that Plata Latina will obtain and continue to hold all permits necessary to develop or continue operating at any particular property.

Plata Latina will be subject to various risks which may not be covered by insurance.

Following the Transaction, Plata Latina's business will be subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, catastrophic equipment failures, fires or unavailability of materials and equipment, cyber attacks, changes in the regulatory environment and natural phenomena such as inclement weather conditions, floods and earthquakes, most of which are beyond Plata Latina's control. Such occurrences could result in damage to mineral properties or production facilities, personal injury or death, environmental damage to Plata Latina's properties or the properties of others, delays in mining, monetary losses and possible legal liability that Plata Latina may incur. Insurance will not cover all the potential risks associated with Plata Latina's operations. Even if available, Plata Latina may also be unable to maintain insurance to cover these risks at economically feasible premiums.

Plata Latina will be required to comply with various anti-corruption and anti-bribery Laws and regulations.

Following the Transaction, Plata Latina will be subject to various anti-corruption and anti-bribery Laws and regulations. In recent years, there has been a general increase in both the frequency of enforcement and the severity of penalties under such anti-corruption and anti-bribery Laws, resulting in greater scrutiny and punishment of companies found in violation of such Laws. Failure to comply with the applicable legislation and other similar foreign Laws could expose Plata Latina and its senior management to civil and criminal penalties, other sanctions and remedial measures, legal expenses and reputational damage.

Plata Latina will be subject to increasing timelines and permitting requirements for the development of its projects.

The success of development projects, including the Zonia Property, and the construction and startup of new mines by Plata Latina, are subject to a number of factors, including the availability and performance of engineering and construction contractors, mining contractors, suppliers and consultants, the receipt of required governmental approvals and permits in connection with the construction of mining facilities and the conduct of mining operations (including environmental permits), the successful completion and operation of open pits, the comminution / adsorption / desorption / recovery plants and conveyors to move ore, among other operational elements. Timelines to permit new mining operations continue to increase and permitting requirements are

becoming more stringent, which could adversely affect Plata Latina's ability to successfully develop and operate its projects.

It cannot be certain that the title to properties held by Plata Latina will not be challenged or impaired.

The acquisition and maintenance of title to mineral properties is generally a detailed and time-consuming process. Title to, and the area of, mining and exploration licences may be disputed. Title insurance is generally not available for mineral properties and Plata Latina's ability to ensure that it has obtained secure mine tenure may be severely constrained. There is no guarantee that title to any of its properties will not be challenged or impaired. Third parties may have valid claims underlying portions of Plata Latina's interests, including prior unregistered liens, agreements, transfers or claims, and title may be affected by, among other things, undetected defects.

Plata Latina faces intense competition in all phases of the mining industry.

The mining industry is intensely competitive in all of its phases and Plata Latina will compete with many companies possessing greater financial and technical resources than itself. Such competition may result in Plata Latina being unable to acquire desired properties, to recruit or retain qualified employees or to acquire the capital necessary to fund its operations and develop its properties. Existing or future competition in the mining industry could materially adversely affect Plata Latina's prospects for mineral exploration and success in the future.

Plata Latina will face increasing levels of public concern relating to the perceived effects of mining activities on the environment and on host communities.

Plata Latina's relationships with host communities will be critical to ensure the success of its operations and the construction and development of new operations. There is an increasing level of public concern relating to the perceived effects of mining activities on the environment and on host communities. The evolving expectations related to human rights and environmental protection may result in opposition to Plata Latina's operations or further development or new development of Plata Latina's projects and mines. Such opposition may be directed through legal or administrative proceedings or expressed in public opposition such as protests, roadblocks or other forms of expression against Plata Latina's activities. Such opposition may require modification of, or preclude the operation or development of, Plata Latina's projects and mines or may require Plata Latina to enter into agreements with such groups or local governments with respect to Plata Latina's projects and mines, in some cases, causing increased cost and considerable delays.

Plata Latina will face evolving regulatory obligations as a public company.

Plata Latina will be subject to evolving corporate governance and public disclosure regulations that may increase both Plata Latina's compliance costs and the risk of non-compliance, which could adversely affect Plata Latina's share price. Plata Latina will be subject to changing rules and regulations promulgated by a number of governmental and self-regulated organizations, including Canadian securities administrators, the TSXV, and the International Accounting Standards Board. These rules and regulations continue to evolve in scope and complexity creating many new requirements. Plata Latina's efforts to comply with increasing regulatory burdens could result in increased general and administration expenses and a diversion of management's time and attention from revenue-generating activities to compliance activities. If Plata Latina becomes subject to an enforcement action, this may result in significant penalties, fines and/or sanctions, which may have a material adverse effect on Plata Latina's reputation.

Plata Latina will be dependent upon key management personnel and executives and will face intense competition for qualified personnel.

Plata Latina will be dependent upon several key management personnel. The loss of the services of one or more of such key management personnel could have a material adverse effect on Plata Latina. Plata Latina's ability to manage its operating, development, exploration and financing activities depend in large part on the efforts of these individuals. Plata Latina will face intense competition for qualified personnel, and there can be no assurance that Plata Latina will be able to attract and retain such personnel. The loss of the services of one or more key employees or the failure to attract and retain new personnel could have a material adverse effect on Plata Latina's ability to manage and expand its business.

The unaudited combined pro forma financial statements are presented for illustrative purposes only and may not be an indication of Plata Latina's financial condition or results of operations following the Arrangement and Concurrent Financing.

The combined *pro forma* financial statements contained in this Circular are presented for illustrative purposes only and may not be an indication of Plata Latina's financial condition or results of operations following the Arrangement and Concurrent Financing for several reasons. For example, the combined *pro forma* financial statements have been derived from the historical financial statements of Plata Latina and World Copper and their respective subsidiaries (including Zonia Holdings) and do not represent a financial forecast or projection and certain assumptions have been made. Such assumptions may not prove to be accurate. Moreover, the combined *pro forma* financial statements do not reflect all Transaction-related costs that are expected to be incurred by Plata Latina following completion of the Transaction. For example, the impact of any incremental costs incurred in integrating Plata Latina and World Copper is not reflected in the combined *pro forma* financial statements. In addition, the assumptions used in preparing the combined *pro forma* financial information may not prove to be accurate, and other factors may affect Plata Latina's financial condition or results of operations following completion of the Arrangement and Concurrent Financing.

World Copper and Plata Latina are and may in the future become, subject to legal proceedings.

World Copper and Plata Latina may, from time to time, become involved in various claims, legal Proceedings, regulatory investigations and complaints. In addition, in connection with the Arrangement Plata Latina will assume certain intercompany liabilities of World Copper. Neither World Copper nor Plata Latina can reasonably predict the likelihood or outcome of these actions, or any other actions, should they arise following completion of the Transaction. If Plata Latina and/or World Copper is unable to resolve any such disputes favourably, it may have a material adverse impact on Plata Latina's financial performance, cash flows, and results of operations following completion of the Transaction. Plata Latina's and World Copper's assets and properties may become subject to further liens, agreements, claims, or other charges as a result of such disputes following completion of the Transaction.

Plata Latina faces risks related to the integration of the Zonia Property and labour and employment matters.

Plata Latina presently, beyond its management team, does not have any employees. Exploration and development at the Zonia Property will be dependent upon the ability of Plata Latina to hire and establish good relations with employees.

Management will have broad discretion in the application of the net proceeds of the Concurrent Financing.

Plata Latina currently intends to allocate the net proceeds from the Concurrent Financing to finance the Cash Consideration, fund exploration and development of the Zonia Property and for general working capital and corporate purposes. However, management will have broad discretion in the actual application of the net proceeds, and may elect to allocate net proceeds if management believes it would be in Plata Latina's best interests to do so. Shareholders of Plata Latina will have to rely upon the judgment of management with respect to the use of proceeds. Accordingly, although such allocations are based on the current expectation of management of Plata Latina there may be circumstances where for sound business reasons, a reallocation of funds may be necessary. Shareholders may not agree with the manner in which management chooses to allocate and spend the net proceeds from the Concurrent Financing.

The issuance of a significant number of Plata Latina Consideration Shares and a resulting "market overhang" could adversely affect the market price of the Plata Latina Shares after completion of the Transaction.

On completion of the Arrangement and the Concurrent Financing, a significant number of additional Plata Latina Shares will be issued and available for trading in the public market. While Plata Latina intends, subject to the prior approval of the TSXV, to complete the Consolidation immediately following the Arrangement, if approved by Plata Latina Shareholders, the increase in the number of outstanding Plata Latina Shares may lead to sales of such shares or the perception that such sales may occur (commonly referred to as "market overhang"), either of which may adversely affect the market for, and the market price of, the Plata Latina Shares.

Plata Latina's principal shareholders may have influence over Plata Latina after completion of the Transaction.

Upon completion of the Transaction, and to the knowledge of management, no person is expected to hold 10% or more of Plata Latina voting securities other than Gilmour Clausen and his joint actors and Resource Venture Capital Inc. The presence of one or more 10% or more holders may influence or control matters requiring shareholder approval, including director elections and strategic transactions. Actions by such holders may not align with the interests of other Plata Latina Shareholders (including World Copper or World Copper Shareholders) and could affect the liquidity and trading price of Plata Latina Shares.

Following completion of the Transaction, the market price of the Plata Latina Shares may be volatile.

The market prices of the Plata Latina Shares and the World Copper Shares have been and may continue to be subject to and, following completion of the Transaction, the Plata Latina Shares, may be subject to, material fluctuations and may increase or decrease in response to a number of events and factors. The Plata Latina Shares may be subject to, material fluctuations and may increase or decrease in response to a number of events and factors, including:

- changes in the market price of the commodities that Plata Latina and World Copper sell and purchase;
- current events affecting the economic situation in Canada and internationally;
- trends in copper mining and mining, in general;
- regulatory and/or government actions;
- changes in financial estimates and recommendations by securities analysts;
- acquisitions and financings;
- the economics of current and future projects of Plata Latina or World Copper;
- quarterly variations in operating results;
- epidemics or pandemics; and
- the operating and share price performance of other companies, including those that investors may deem comparable.

If Plata Latina is characterized as a "passive foreign investment company", U.S. holders may be subject to adverse U.S. federal income tax consequences.

U.S. investors should be aware that they could be subject to certain adverse U.S. federal income tax consequences with respect to the holding and disposition of Plata Latina Shares in the event that Plata Latina is classified as a PFIC for U.S. federal income tax purposes. The determination of whether Plata Latina is a PFIC for a taxable year depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations, and the determination will depend on the composition of Plata Latina's income, expenses and assets from time to time and the nature of the activities performed by Plata Latina's officers and employees. Plata Latina has not performed any analysis or made any determination as to its status as a PFIC historically, there is a high level of risk that Plata Latina is or will become a PFIC, and there can be no assurance that Plata Latina is not and will not be classified as a PFIC for the current or subsequent years. Prospective investors should carefully read the discussion under the heading "Certain U.S. Federal Income Tax Considerations for U.S. Holders" for more information and are urged to consult their own tax advisors regarding the likelihood and consequences of Plata Latina being treated as a PFIC for U.S. federal income tax purposes, including the advisability of making certain elections that may mitigate certain possible adverse U.S. federal income tax consequences that may result in an inclusion in gross income without receipt of such income.

Risk Factors Relating to World Copper Following Completion of the Transaction

The following risk factors assume that the Arrangement will be completed in accordance with the terms of the Arrangement Agreement. These risk factors should be read together with the cautionary statements regarding forward-looking information contained elsewhere in this Circular.

World Copper is disposing its only material asset and there may be uncertainty regarding its ability to source new projects.

Upon completion of the Transaction, World Copper will have disposed of its only material mineral asset and will primarily hold an equity interest in Plata Latina representing approximately 1.4% of the issued and outstanding

Plata Latina Shares immediately following closing of the Transaction (excluding the Trust Shares). There is no assurance that World Copper will be able to identify, acquire and finance a replacement project on acceptable terms, or at all. If suitable opportunities are unavailable or delayed, World Copper may have no active operations or mineral exploration projects for an extended period and its value may depend largely on the market value and liquidity of its Plata Latina Consideration Shares.

World Copper has a history of operating losses and may need additional financing.

World Copper has a limited history of revenues and has incurred operating losses to date. The acquisition or advancement of World Copper's future mineral projects will require significant capital investment. There is no assurance that World Copper will be able to raise the financing necessary to fund exploration, development, and operating activities on any such project on acceptable terms, or at all. Failure to obtain sufficient financing could result in delay or indefinite postponement of exploration or development or the loss of property interests.

World Copper may face risks associated with the sufficiency of its post-closing liquidity and continuing solvency.

Upon receipt of the Consideration pursuant to the Arrangement, World Copper will be solvent and full provision will have been made for all of the Claims of all World Copper Group Creditors. With no operating revenues and a concentrated asset base consisting primarily of Plata Latina Shares, World Copper's ability to meet obligations arising after the completion of the Arrangement, including corporate and public-issuer compliance costs, taxes and payables, and costs of identifying and evaluating new projects, will depend on (a) its residual cash balance (b) the market value, liquidity and timely monetization of its Plata Latina Shares; and (c) access to additional financing, which may not be available on acceptable terms, or at all.

Adverse movements in the price or liquidity of Plata Latina Shares, delays or inability to raise capital, or higher-than-expected corporate and compliance costs could result in renewed uncertainty and liquidity shortfalls. These risks arise from the inherently speculative, capital-intensive and cyclical nature of mineral exploration and resource capital markets and prevailing external conditions.

Certain agreements with key personnel of World Copper may entitle such individuals to receive severance or change of control payments, accelerated vesting of security compensation or other compensation in the event that they are terminated or resign. Any such payments may result in significant cash outflows or dilution of World Copper and adversely affect its financial condition.

World Copper may be exposed to risks to which Plata Latina is exposed.

Upon completion of the Transaction, World Copper will be a minority Plata Latina Shareholder, and the value of World Copper's assets will be substantially concentrated in Plata Latina Shares. As a minority holder beneficially owning approximately 1.4% of the issued and outstanding Plata Latina Shares immediately following closing, World Copper will have limited ability to influence Plata Latina's strategy, capital allocation, or timing of any liquidity event. Accordingly, until it acquires another material mineral project, World Copper will be subject to the same risks and uncertainties as Plata Latina, including each of the risks described under the heading "*Risk Factors – Risk Factors Relating to Plata Latina Following Completion of the Transaction*", which World Copper Shareholders are encouraged to carefully review.

World Copper will continue to be subject to public issuer compliance and listing obligations.

Upon completion of the Transaction, World Copper will continue as a public issuer and must comply with evolving corporate governance and financial reporting, including IFRS, internal control, continuous disclosure and applicable stock-exchange requirements. With limited operations and a concentrated asset base, principally an equity interest in Plata Latina, the relative burden and cost of compliance may be higher and resource constraints may increase the risk of delays, deficiencies or errors. Non-compliance could result in restatements, investigations, enforcement actions, penalties or sanctions, cease-trade or other orders, and impair access to capital. World Copper must also continue to satisfy continued-listing standards; failure could result in a tier transfer, including to the TSXV NEX board, or voluntary or involuntary delisting. If World Copper fails to meet Exchange listing requirements after the Transaction or is subject to a tier transfer or delisting, World Copper may no longer be a viable reverse-takeover target, and may have difficulty acquiring and financing new mineral projects and attracting directors and officers.

World Copper faces competition in the mining industry.

The mining industry is intensely competitive in all its phases and the Issuer competes with other companies that have greater financial resources and technical facilities. Competition could adversely affect World Copper's ability to acquire suitable properties or prospects in the future.

World Copper may be dependent on key personnel.

World Copper's ability to execute its strategy and satisfy its ongoing public-issuer obligations depends on a limited number of key executives, employees and advisors. The loss of any such individual, or World Copper's inability to attract and retain suitably qualified technical, financial, compliance or governance personnel in a competitive market could materially and adversely affect its business, prospects and regulatory compliance. There can be no assurance that World Copper will be able to retain existing personnel or recruit replacements on acceptable terms, or at all.

World Copper may be subject to litigation and regulatory proceedings.

World Copper and Plata Latina may, from time to time, become involved in various claims, legal Proceedings, regulatory investigations and complaints. Neither World Copper nor Plata Latina can reasonably predict the likelihood or outcome of these actions, or any other actions, should they arise following completion of the Transaction. If Plata Latina and/or World Copper is unable to resolve any such disputes favourably, it may have a material adverse impact on World Copper's financial performance, cash flows, and results of operations following completion of the Transaction. Plata Latina's and World Copper's assets and properties may become subject to further liens, agreements, claims, or other charges as a result of such disputes following completion of the Transaction. No assurance can be given that any Proceedings will be resolved favourably.

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

Multilateral Instrument 61-101

Overview

The Parties are subject to TSXV Policy 5.9 – *Protection of Minority Security Holders in Special Transactions* and MI 61-101, which regulates certain transactions that are, while not inherently unfair, capable of being abusive or unfair, including "issuer bids", "insider bids", "related party transactions" and "business combinations" (each as defined in MI 61-101). MI 61-101 is intended to ensure that all securityholders are treated in a manner that is fair and that is perceived to be fair with respect to these transactions.

Related Party Transactions

A related party transaction includes, among other things, for an issuer, a transaction between the issuer and a person that is a "related party" (as defined in MI 61-101) of the issuer at the time the transaction is agreed to, as a consequence of which, either through the transaction itself or together with connected transactions, the issuer directly or indirectly issues a security to the related party. Under MI 61-101, a "connected transaction" means a transaction that has at least one party in common, directly or indirectly, other than transactions related solely to services as an employee, director or consultant, and (a) that is negotiated or completed at approximately the same time; or (b) the completion of which is conditional on the completion of the other transaction.

MI 61-101 provides that a related party transaction may not be carried out unless the issuer complies with the formal valuation requirements of MI 61-101 and obtains "minority approval" (as defined in MI 61-101) of the transaction, unless an exemption is available or discretionary relief is granted by the applicable securities regulatory authorities.

The formal valuation requirements of MI 61-101 generally require, among other things, the preparation of a formal valuation in the manner contemplated by MI 61-101 of the subject matter of the related party transaction and any non-cash consideration in respect of such related party transaction, and the disclosure of the formal valuation in the manner contemplated by MI 61-101.

If minority approval is required, the related party transaction must be approved by a majority of the votes cast, excluding the votes attached to securities beneficially owned, or over which control or direction is exercised, by (a) “interested parties” (as defined in MI 61-101); (b) any related party to such interested party within the meaning of MI 61-101 (subject to the exceptions set forth therein); and (c) any person that is a joint actor with a person referred to in the foregoing clauses (a) or (b). Under MI 61-101, interested parties include, in respect of a transaction that constitutes a related party transaction, any related party of the issuer that is party to the transaction (unless it is a party only in its capacity as a holder of affected securities and is treated identically to the general body of holders in Canada of securities of the same class on a per security basis) or is entitled to receive, directly or indirectly, as a consequence of the transaction, a “collateral benefit” (as defined in MI 61-101).

Business Combinations

A business combination for an issuer includes an arrangement as a consequence of which the interest of a holder of an equity security of the issuer may be terminated without the holder’s consent, regardless of whether the equity security is replaced with another security, in circumstances where a person that is a related party of the issuer at the time the transaction is agreed to (a) would, as a consequence of the transaction, directly or indirectly acquire the issuer or the business of the issuer, or combine with the issuer, through an amalgamation, arrangement or otherwise, whether alone or with “joint actors” (as defined in MI 61-101); (b) is a party to any connected transaction to the transaction; or (c) is entitled to receive, directly or indirectly, as a consequence of the transaction, (i) consideration per equity security that is not identical in amount and form to the entitlement of the general body of holders in Canada of securities of the same class, or (ii) a collateral benefit.

Under MI 61-101, a collateral benefit includes any benefit that a related party of the issuer is entitled to receive as a consequence of a transaction, including, without limitation, an increase in salary, a lump sum payment, a payment for surrendering securities or other enhancements in benefits related to services as an employee, director or consultant of the issuer or another person. MI 61-101 excludes from the meaning of collateral benefit a payment per security that is identical in amount and form to the entitlement of the general body of holders in Canada of securities of the same class, as well as certain benefits to a related party received solely in connection with the related party’s services as an employee or director of an issuer, of an affiliated entity of such issuer or of a successor to the business of such issuer where: (a) the benefit is not conferred for the purpose, in whole or in part, of increasing the value of the consideration paid to the related party for securities relinquished under the transaction; (b) the conferring of the benefit is not, by its terms, conditional on the related party supporting the transaction in any manner; (c) full particulars of the benefit are disclosed in the disclosure document for the transaction; and (d) either (i) at the time the transaction is agreed to, the related party and his or her associated entities beneficially own, or exercise control or direction over, less than 1% of the outstanding securities of each class of equity securities of the issuer, or (ii) the related party discloses to an independent committee of the issuer the amount of consideration that the related party expects to be beneficially entitled to receive, under the terms of the transaction, in exchange for the equity securities the related party beneficially owns and the independent committee, acting in good faith, determines that the value of the benefit, net of any offsetting costs to the related party, is less than 5% of the value of the consideration the related party will receive pursuant to the terms of the transaction for the equity securities beneficially owned by the related party, and the independent committee’s determination is disclosed in the disclosure document for the transaction.

MI 61-101 provides that a business combination may not be carried out unless the issuer complies with the formal valuation requirements of MI 61-101 and obtains “minority approval” (as defined in MI 61-101) of the transaction, unless an exemption is available or discretionary relief is granted by the applicable securities regulatory authorities.

In particular, MI 61-101 requires, in certain circumstances (including in circumstances where an interested party would, as a consequence of the transaction, directly or indirectly, acquire the issuer or the business of the issuer, or combine with the issuer through an amalgamation, arrangement or otherwise, whether alone or with joint actors, or if an interested party is a party to any connected transaction to the business combination, if the connected transaction is a related party transaction for which the issuer is required to obtain a formal valuation), that an issuer carrying out a business combination obtain a formal valuation prepared in the manner contemplated by MI 61-101.

If minority approval is required, the business combination must be approved by a majority of the votes cast, excluding the votes attached to securities beneficially owned, or over which control or direction is exercised, by (a) interested parties; (b) any related party to such interested party within the meaning of MI 61-101 (subject to

the exceptions set forth therein); and (c) any person that is a joint actor with a person referred to in the foregoing clauses (a) or (b). Under MI 61-101, interested parties include, in respect of a transaction that constitutes a business combination, any related party of the issuer that (x) is a party to any connected transaction to the business combination, or (y) is entitled to receive, directly or indirectly, as a consequence of the transaction (1) consideration per affected security that is not identical in amount and form to the entitlement of the general body of holders in Canada of securities of the same class, (2) a collateral benefit, or (3) consideration for securities of a class of equity securities of the issuer if the issuer has more than one outstanding class of equity securities, unless that consideration is not greater than the entitlement of the general body of holders in Canada of every other class of equity securities of the issuer in relation to the voting and financial participating interests in the issuer represented by the respective securities.

World Copper

The directors and executive officers of World Copper may have interests in the Arrangement that are, or may be, different from, or in addition to, the interests of the World Copper Shareholders. These interests include those described below. The World Copper Board was aware of these interests and considered them, among other matters, when recommending approval of the Arrangement by the World Copper Shareholders.

Ownership of World Copper Shares, World Copper Options, World Copper Warrants and World Copper Special Warrants

As of August 26, 2025, the directors and senior officers of World Copper and their associates and affiliates, as a group, beneficially owned, directly or indirectly, or exercised control or direction over, an aggregate of approximately 40,918,842 World Copper Shares representing approximately 15% of the issued and outstanding World Copper Shares. Pursuant to the World Copper Voting and Support Agreements, directors and senior officers of World Copper who beneficially owned, directly or indirectly, or exercised control or direction over, World Copper Shares agreed with Plata Latina to vote or cause to be voted such World Copper Shares in favour of the World Copper Arrangement Resolution.

All of the World Copper Shares held by such directors and senior officers of World Copper will be treated in the same manner under the Arrangement as World Copper Shares held by any other World Copper Shareholder. If the Arrangement is completed, the directors and executive officers of World Copper and their associates holding such World Copper Shares will receive, in exchange for such World Copper Shares, an aggregate of approximately 5,146,849 Plata Latina Shares (prior to deduction or applicable withholdings, rounding due to fractions, and on a post-Consolidation basis).

As of August 26, 2025, the directors and senior officers of World Copper and their associates and affiliates, as a group, beneficially owned, directly or indirectly, or exercised control or direction over, an aggregate of approximately 10,450,000 World Copper Options, 17,168,593 World Copper Warrants and nil World Copper Special Warrants.

Except as described below, all of the World Copper Shares, World Copper Options, World Copper Warrants, and World Copper Special Warrants held by the directors and executive officers of World Copper will be treated in the same manner under the Arrangement as the World Copper Shares, World Copper Options, World Copper Warrants, and World Copper Special Warrants held by other holders of such securities.

Specified World Copper Options

Under the Arrangement, the holders of Specified World Copper Options will receive, in exchange for each Specified World Copper Option, one Plata Latina Replacement Option. Each Plata Latina Replacement Option will remain outstanding in accordance with the terms and conditions of the Specified World Copper Option for which it was exchanged, except that each Plata Latina Replacement Option will (a) entitle the holder thereof to receive, on exercise thereof, such fraction of a Plata Latina Share as is equal to the Exchange Ratio at an exercise price equal to the exercise price of the Specified World Copper Option for which it was exchanged, and (b) automatically terminate, if not exercised prior to such date, on the earlier of the termination date of the Specified World Copper Option for which it was exchanged and the date that is 15 months from the Effective Date. Each Specified World Copper Option exchanged for a Plata Latina Replacement Option pursuant to the Arrangement will be cancelled. An aggregate of 17,750,000 World Copper Options are expected to be exchanged

for Plata Latina Replacement Options covering an aggregate of 6,697,886 Plata Latina Shares based on the current Exchange Ratio.

World Copper Change of Control Payments

No director, officer or employee of World Copper is entitled to any change of control or other bonus or payment solely as a consequence of the Arrangement.

Gordon Neal

World Copper has entered into a consulting agreement dated January 22, 2024 with Gordon Neal (the “**Neal Agreement**”), the current President and CEO of World Copper. Pursuant to the Neal Agreement, Mr. Neal is entitled to receive a change of control payment if the Neal Agreement is terminated by either party thereto within six months following the Effective Date. Assuming the Arrangement is completed and the Neal Agreement is terminated by either party thereto in accordance with its terms within six months following the Effective Date, Mr. Neal is entitled to receive an aggregate cash payment of approximately \$600,000 in connection with such termination.

Marla Ritchie

World Copper has entered into a consulting agreement dated April 1, 2020 with Marla Ritchie (the “**Ritchie Agreement**”), Corporate Secretary of World Copper. Pursuant to the Ritchie Agreement, Ms. Ritchie is entitled to a lump sum change of control payment if she terminates the Ritchie Agreement by providing World Copper with 30 days’ notice within a reasonable period of time following the Effective Date. Assuming the Arrangement is completed and Ms. Ritchie terminates the Ritchie Agreement in accordance with its terms within a reasonable period of time following the Effective Date, she would be entitled to receive an aggregate cash payment of approximately \$72,000.

Arrangements with Certain Directors

Pursuant to the Arrangement Agreement, the Plata Latina Board on completion of the Arrangement will include two directors to be appointed from the World Copper Board, currently expected to be Robert Kopple and Keith Henderson. Each such director is expected to become entitled to receive fees and reimbursement of expenses in connection with his or her appointment and service as a director of the Plata Latina following completion of the Arrangement on the same terms as the other non-executive directors of Plata Latina.

The Arrangement Agreement provides that following the Effective Time, Plata Latina will, and will cause its Subsidiaries to, enter into indemnification agreements with certain existing directors or executive officers of World Copper, providing for all rights to indemnification or exculpation existing as at the Effective Time under Law or Contract in favour of certain specified present and former employees, officers and directors of the Acquired Entities (each, an “**Indemnified Person**”), with such rights surviving the consummation of the Arrangement. Plata Latina has agreed that, to the extent within its control, it shall ensure that the such indemnification agreements shall not be amended, repealed or otherwise modified in any manner that would adversely affect any right thereunder of any such Indemnified Person and shall continue in full force and effect in accordance with their terms for a period of not less than six years from the Effective Date.

Kopple Debt Repayment

World Copper is party to a loan consolidation and extension agreement made as of May 18, 2024, as amended on July 18, 2024 (the “**Kopple Debt Agreement**”) with E.L. II Properties Trust and Kopple Family Partnership, L.P., certain entities controlled by Robert Kopple, a director of World Copper. The Kopple Debt Agreement governs the terms and conditions relating to various loans made by Mr. Kopple to Zonia Holdings. As of the date of this Circular, in the aggregate amount outstanding under the Kopple Debt Agreement is approximately \$2,207,199. In connection with the Arrangement and in accordance with the terms of the Arrangement Agreement, World Copper has agreed to use a portion of the Cash Consideration to pay off the indebtedness owing to Mr. Kopple, or entities controlled by Mr. Kopple, under the Kopple Debt Agreement (the “**Kopple Debt Repayment**”).

Kopple Share Exchange

For a limited period of time following the closing of the Arrangement and subject to applicable Securities Laws, Plata Latina has agreed to use reasonable best efforts to assist in facilitating an orderly disposition of the Plata Latina Shares and Plata Latina Replacement Warrants to be received by KF Business Ventures, LP, Robert and Carole Kopple Grandchildren's Trust (2007) and Perugia Investment Trust pursuant to the Arrangement in exchange for certain units of World Copper acquired for \$0.07 per unit in April 2024 for an aggregate acquisition price of approximately \$2,557,000, including by using a bank or broker to intermediate such disposition and paying any associated brokerage commissions (the "**Kopple Share Exchange**").

Multilateral Instrument 61-101

In connection with the Arrangement, certain World Copper directors and executive are entitled to certain rights and entitlements, as set forth and in the circumstances described under "*Interest of Certain Persons in Matters to be Acted Upon – World Copper – World Copper Change of Control Payments*", "*Interest of Certain Persons in Matters to be Acted Upon – World Copper – Arrangements with Certain Directors*", "*Interest of Certain Persons in Matters to be Acted Upon – World Copper – Kopple Debt Repayment*" and "*Interest of Certain Persons in Matters to be Acted Upon – World Copper – Kopple Share Exchange*". World Copper has considered whether these entitlements may constitute collateral benefits for purposes of MI 61-101 such that the Arrangement would constitute a "business combination" under MI 61-101.

World Copper has determined that the only related party who is receiving a collateral benefit for the purposes of MI 61-101 in connection with the Arrangement and beneficially owns or exercises control or direction over more than 1% of World Copper's outstanding equity securities is Mr. Robert Kopple. Mr. Kopple (including his joint actors) beneficially owns or exercises control over 35,890,409 World Copper Shares (calculated in accordance with the provisions of MI 61-101), representing approximately 13.75% of the outstanding World Copper Shares as at the Record Date, and the value of the collateral benefit he will receive by virtue of the Kopple Debt Repayment and the Kopple Share Exchange is greater than 5% of the total consideration he will receive. Consequently, the Arrangement constitutes a business combination in respect of World Copper and, as a result, "minority approval" (as defined in MI 61-101) is required for the World Copper Arrangement Resolution. The World Copper Shares Mr. Kopple beneficially owns, directly or indirectly, or over which he has control or direction, will be excluded for the purpose of determining if minority approval of the World Copper Arrangement Resolution is obtained. This minority approval is in addition to the requirement that the World Copper Arrangement Resolution be approved by (a) at least two-thirds of the votes cast by World Copper Shareholders present virtually or represented by proxy at the World Copper Meeting; and (b) simple majority of the votes cast by World Copper Shareholders present in person or represented by proxy and entitled to vote at the World Copper Meeting, excluding the votes casts by persons required to be excluded by the corporate finance policies of the TSXV.

Form 62-104F2 Disclosure

Section 4.2(3) of MI 61-101 requires that the information circular sent to shareholders in connection with the meeting at which minority approval of a business combination is sought, must include the disclosure required by Form 62- 104F2 *Issuer Bid Circular* of National Instrument 62-104 – *Take-Over Bids and Issuer Bids*, to the extent applicable and with the necessary modifications. World Copper has determined that the following items of Form 62-104F2 are applicable to the Arrangement.

Consideration

Purpose of the Arrangement

See the heading "*The Transaction – Recommendation of the World Copper Board – Reasons for the Recommendation of the World Copper Board*".

Valuation

Pursuant to MI 61-101, if a transaction is a business combination, a formal valuation and minority approval of the Arrangement may be required. The Arrangement does not constitute a business combination for which a formal valuation would be required under MI 61-101. World Copper is not required to obtain a formal valuation under MI 61-101 as no "interested party" (as defined in MI 61-101) is, as a consequence of the Arrangement, directly or indirectly acquiring World Copper or its business or combining with World Copper, whether alone or with joint actors, and there is no "connected transaction" that would qualify as a "related party transaction" (as defined in MI 61-101) for which World Copper would be required to obtain a formal valuation. Furthermore, except as described under the heading "*The Transaction – Background to the Transaction*", neither World Copper nor any director or executive officer of World Copper, after reasonable inquiry, has knowledge of any "prior valuation" (as defined in MI 61-101) in respect of World Copper that has been made in the 24 months before the date of this Circular and no bona fide prior offer (as contemplated in MI 61-101) that relates to the transactions contemplated

by the Arrangement has been received by World Copper during the 24 months prior to the date of the Arrangement Agreement. In addition, where an issuer is listed or quoted on the TSXV and no other stock exchange outside of Canada and the United States, MI 61-101 provides an exemption to the general requirement to obtain a formal valuation for a transaction that is a business combination.

Securities of World Copper to be Exchanged for Others

See Article 3 of the Plan of Arrangement and the heading "*The Transaction*" in this Circular.

Approval of the Arrangement

This Circular has been approved by the World Copper Board (with conflicted directors abstaining) and its delivery to the World Copper Shareholders has been authorized by the World Copper Board. See the heading "*The Transaction*" for more information.

Dividend Policy

World Copper has not paid any dividends on its outstanding shares. Payment of dividends in the future will be dependent on, among other things, the cash flow, results of operations and financial condition of World Copper, the need for funds to finance ongoing operations and other considerations as the World Copper Board considers relevant.

Expenses of the Arrangement

See under the heading "*Expenses of the Arrangement*".

Solicitations

See the heading "*The World Copper Meeting – Appointment and Revocation of Proxies*" and "*The World Copper Meeting – Voting of Proxies and Exercise of Discretion*".

Other Material Facts

There are no material facts concerning the World Copper Shares or other matter not disclosed in the Circular that has not been generally disclosed, is known to World Copper and would reasonably be expected to affect the decision of the World Copper Shareholders as to voting on the World Copper Arrangement Resolution.

There are no "prior valuations" (as defined in MI 61-101) that relate to the subject matter of or that are otherwise relevant to the Arrangement that have been made in the 24 months before the date of this Circular and the existence of which is known to World Copper or to any director or senior officer of World Copper. No formal valuations of World Copper have been made in the last 24 months, to the knowledge of World Copper, the World Copper Board or World Copper management.

Plata Latina

The directors and executive officers of Plata Latina may have interests in the Concurrent Financing that are, or may be, different from, or in addition to, the interests of Plata Latina Shareholders. These interests include those described below. The Plata Latina Board was aware of these interests and considered them, among other matters, when unanimously recommending (with conflicted directors abstaining) that Plata Latina Shareholders vote **FOR** the Plata Latina Transaction Resolutions.

Plata Latina Director and Officer Subscription Agreements

Certain directors, officers and a board observer of Plata Latina, being Gilmour Clausen (Executive Chair), Letitia Wong (President and Chief Executive Officer), Joseph Longpre (director), Lance Newman (board observer), and Patricia Fong (Chief Financial Officer), and certain of their respective joint actors, have entered into Subscription Agreements pursuant to which they have agreed to subscribe for, and Plata Latina has agreed to issue, Plata Latina Units to such persons for gross aggregate proceeds of approximately \$8,500,000. The terms and

conditions such Subscription Agreements are substantially the same as the terms and conditions of the Subscription Agreements entered into by Plata Latina and other Concurrent Financing Investors.

If the Arrangement and the Concurrent Financing are completed, immediately prior to the Consolidation, the persons listed above are expected to beneficially own, or exercise control or direction over, the following securities of Plata Latina:

Individual	Pre-Closing				Post-Closing				
	Plata Latina Shares	Plata Latina Options	Percentage Interest (Non-Diluted)	Percentage Interest (Partially-Diluted)	Plata Latina Shares	Plata Latina Options	Plata Latina Warrants	Percentage Interest (Non-Diluted)	Percentage Interest (Partially-Diluted)

Notes:

(1) Post-Closing ownership includes 20,000,000 Plata Latina Units subscribed for by Mr. Clausen's spouse as part of the Concurrent Financing. Mr. Clausen's spouse may assign all or a portion of her subscription for Plata Latina Units to third parties, which would reduce Mr. Clausen's post-Closing ownership accordingly.

Multilateral Instrument 61-101

Directors and officers of Plata Latina who have entered into Subscription Agreements are related parties of Plata Latina. For this reason, the issuance of Plata Latina Units to such directors and officers and their respective joint actors pursuant to their respective Subscription Agreements constitutes a related party transaction for purposes of MI 61-101. The Arrangement will not constitute a business combination for Plata Latina because no Plata Latina Shares or any other equity security of Plata Latina will be terminated without the holder's consent.

The Plata Latina Board has determined that an exemption under MI 61-101 from the minority approval requirement is not available. Accordingly, the Plata Latina Financing Resolution will require the approval of a simple majority of the votes cast by Plata Latina Shareholders present in person or represented by proxy and at the Plata Latina Meeting, excluding the votes cast by, among others, interested parties in respect of the Concurrent Financing. As each of Gilmour Clausen, Letitia Wong, Joseph Longpre, Lance Newman and Patricia Fong is an interested party in respect of the Concurrent Financing, the Plata Latina Shares voted in person or by proxy at the Plata Latina by such persons on the Plata Latina Financing Resolution are required to be excluded. To the knowledge of Plata Latina and its directors and senior officers, after reasonable inquiry, 24,088,095 Plata Latina Shares will therefore be excluded from the minority approval requirement.

As neither the Plata Latina Shares nor any other securities of Plata Latina are listed or quoted on a specified stock exchange, Plata Latina is relying on the exemption from the formal valuation requirements of MI 61-101 contained in section 5.5(b) of MI 61-101 in relation to the Concurrent Financing.

There are no "prior valuations" (as defined in MI 61-101) that relate to the subject matter of or that are otherwise relevant to the Concurrent Financing that have been made in the 24 months before the date of this Circular and the existence of which is known, after reasonable inquiry, to Plata Latina or to any director or senior officer of Plata Latina.

(a) Following receipt of the Final Order and no later than the Business Day prior to the Effective Date, the Parent shall deposit, or caused to be deposited, with the Depositary a sufficient number of Parent Shares and cash to satisfy the aggregate Consideration required to be issued or paid, as applicable, pursuant to Section 3.1(c), which Parent Shares and cash shall be held by the Depositary as agent and nominee for the Company and the former holders of Company Shares, as applicable, for distribution thereto in accordance with the provisions of this Article 5.

(b) On the Effective Date, upon joint written notice from the Parent and the Company confirming the consummation of the Arrangement, together with any such additional documents and instruments as the Depositary may reasonably require, the Company shall be entitled to receive, and the Depositary shall deliver to the Company, as soon as practicable, the Consideration that the Company has the right to receive under the Arrangement for all of the issued and outstanding Zonia Shares and the entirety of the Zonia Intercompany Debt, less any applicable withholdings pursuant to Section 5.4. In furtherance of the foregoing, the Cash Consideration which the Company is entitled to so receive shall be delivered by the Depositary (i) as to \$500,000 to a bank account of the Company, and (ii) as to the balance (the "**Creditor Deposit**") to the trust account of the Company's legal counsel, Lotz & Company, which Creditor Deposit shall be held by Lotz & Company in trust for the benefit of the Company Creditors for distribution thereto in accordance with the provisions of the Arrangement Agreement.

(c) Upon surrender to the Depositary for cancellation of a certificate or a direct registration statement (DRS) advice (a "**DRS Advice**") by a registered holder of Company Shares, which immediately prior to the Effective Time represented outstanding Company Shares that were exchanged pursuant to Section 3.1(e)(i), together with a duly completed and executed Letter of Transmittal and any such additional documents and instruments as the Depositary may reasonably require, the registered holder of the Company Shares represented by such surrendered certificate or DRS Advice shall be entitled to receive in exchange therefor, and the Depositary shall deliver to such registered holder on behalf of the Company, as soon as practicable, the Shareholder Consideration that such registered holder has the right to receive under the Arrangement for such Company Shares, less any applicable withholdings pursuant to Section 5.4, and any certificate or DRS Advice so surrendered shall forthwith be cancelled.

(d) Upon surrender to the Depositary for cancellation of the Company Special Warrant Certificate, which immediately prior to the Effective Time represented outstanding Company Special Warrants that were exchanged pursuant to Section 3.1(i), together with a duly completed and executed Letter of Transmittal and any such additional documents and instruments as the Depositary may reasonably require, the holder of the Company Special Warrants represented by such surrendered Company Special Warrant Certificate shall be entitled to receive in exchange therefor, and the Depositary shall deliver to such holder on behalf of the Company and the Parent, as soon as practicable, the New Company Shares and Parent Shares that such holder has the right to receive under the Arrangement for such Company Special Warrants, less any applicable withholdings pursuant to Section 5.4, and the Special Warrant Certificate so surrendered shall forthwith be cancelled.

(e) Until surrendered as contemplated by Section 5.1(c), each certificate or DRS Advice that immediately prior to the Effective Time represented one or more Company Shares shall be deemed after the Effective Time to represent only the right to receive upon surrender the Shareholder Consideration in lieu of such certificate or DRS Advice as contemplated in accordance with Section 3.1, less any applicable withholdings pursuant to Section 5.4. Any such certificate or DRS Advice formerly representing Company Shares not duly surrendered on or before the sixth anniversary of the Effective Date shall cease to represent a claim by or interest of any former holder of Company Shares of any kind or nature against or in the Company or the Parent. On such anniversary date, all certificates or DRS Advice representing Company Shares shall be deemed to have been surrendered and all Shareholder Consideration to which such former holder of Company Shares was entitled, together with any entitlements to dividends, distributions and interest thereon, shall be deemed to have been surrendered for no consideration, and shall be paid over by the Depositary to the Company or as directed by the Company (in the case of New Company Shares) or the Parent or as directed by the Parent (in the case of Parent Shares).

(f) Until surrendered as contemplated by Section 5.1(d), the Company Special Warrant Certificate that immediately prior to the Effective Time represented one or more Company Special Warrants shall be deemed after the Effective Time to represent only the right to receive upon surrender New Company Shares and Parent Shares in lieu of such Company Special Warrant Certificate as contemplated in accordance with Section 3.1, less any applicable withholdings pursuant to Section 5.4. Any such Company Special Warrant Certificate formerly representing Company Special Warrants not duly surrendered on or before the sixth anniversary of the Effective Date shall cease to represent a claim by or interest of any former holder of Company Special Warrants of any kind or nature against or in the Company or the Parent. On such anniversary date, the Company Special Warrant Certificate representing Company Special Warrants shall be deemed to have been surrendered and all New Company Shares and Parent Shares to which such former holder of Company Special Warrants was entitled, together with any entitlements to dividends, distributions and interest thereon, shall be deemed to have been surrendered for no consideration, and shall be paid over by the Depositary to the Company or as directed by the Company (in the case of New Company Shares) or the Parent or as directed by the Parent (in the case of Parent Shares).

(g) No holder (or former holder) of Zonia Shares, Zonia Intercompany Debt, Company Shares, Company Class A Shares, Company Stock Options, Company Warrants or Company Special Warrants shall be entitled to receive any consideration with respect thereto other than any consideration to which such holder is entitled to receive in accordance with Section 3.1 and this Section 5.1 and, for greater certainty, no such holder will be entitled to

receive any interest, dividends, premium or other payment or distribution in connection therewith.

5.2 Lost Certificates

In the event any certificate which immediately prior to the Effective Time represented one or more outstanding Company Shares or Company Special Warrants that were exchanged pursuant to Section 3.1, as the case may be, shall have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such certificate to be lost, stolen or destroyed, the Depositary will issue in exchange for such lost, stolen or destroyed certificate, the consideration to which such holder is entitled pursuant to Section 3.1, as the case may be, deliverable in accordance with such holder's duly completed and executed Letter of Transmittal. When authorizing such payment in exchange for any lost, stolen or destroyed certificate, the Person to whom such cash is to be delivered shall, as a condition precedent to the delivery of such consideration, give a bond satisfactory to the Parent, the Company and the Depositary, each acting reasonably, in such sum as the Parent may direct (acting reasonably), or otherwise indemnify the Parent and the Company in a manner satisfactory to the Parent and the Company, each acting reasonably, against any claim that may be made against the Parent, the Company and the Depositary with respect to the certificate alleged to have been lost, stolen or destroyed.

5.3 Distributions with Respect to Surrendered Certificates

No dividend or other distribution declared or made after the Effective Time with respect to New Company Shares or Parent Shares with a record date after the Effective Time shall be delivered to the holder of any unsurrendered certificate that, immediately prior to the Effective Time, represented outstanding Company Shares or Company Special Warrants, unless and until the holder of such certificate shall have complied with Section 5.1 or Section 5.2, as applicable. Subject to applicable Law and this Article 5, at the time of such compliance, there shall, in addition to the delivery of the Shareholder Consideration to which such holder is entitled in accordance with Section 3.1, be delivered to such holder, without interest, (i) the amount of the dividend or other distribution with a record date after the Effective Time theretofore paid with respect to such New Company Shares or Parent Shares, and (ii) on the appropriate payment date, the amount of the dividend or other distribution with a record date after the Effective Time but prior to surrender and a payment date subsequent to surrender payable with respect to such New Company Shares or Parent Shares.

5.4 Withholding Rights

The Parent, the Company, the Depositary and any Acquired Entity shall be entitled to deduct or withhold (or cause to be deducted or withheld) from any amount payable or otherwise deliverable to any Person pursuant to this Plan of Arrangement or the Arrangement Agreement, including holders of Company Shares exercising Dissent Rights, and from all dividends, other distributions or other amounts otherwise payable to any holder of Company Shares, Specified Company Stock Options, Company Warrants or Company Special Warrants, such Taxes or other amounts as the Parent, the Company, the Depositary or any Acquired Entity is required to deduct or withhold under the Tax Act or the provisions of any other applicable Law with respect to any payment (including an issuance of shares or a payment of other non-cash consideration) made pursuant to this Plan of Arrangement or the Arrangement Agreement. To the extent that Taxes or other amounts are so deducted or withheld, such

deducted or withheld Taxes or other amounts shall be treated for all purposes under the Arrangement Agreement and this Plan of Arrangement as having been paid to the Person in respect of which such deduction or withholding was made, provided that such deducted or withheld Taxes or other amounts are actually remitted to the appropriate Governmental Entity. Each of the Company and the Depositary is hereby authorized to sell or otherwise dispose of, on behalf of such Person, such portion of any share or other security deliverable to such Person as is necessary to provide sufficient funds to the Company or the Depositary, as the case may be, to enable it to comply with such deduction or withholding requirement and the Company or the Depositary shall notify such Person thereof and remit the applicable portion of the net proceeds of such sale to the appropriate Governmental Entity and, if applicable, any portion of such net proceeds that is not required to be so remitted shall be paid to such Person.

5.5 No Liens

Any exchange or transfer of securities pursuant to this Plan of Arrangement shall be free and clear of any Liens or other claims of third parties of any kind.

5.6 Paramountcy

From and after the Effective Time: (a) this Plan of Arrangement shall take precedence and priority over any and all Company Shares, Specified Company Stock Options, Company Warrants and Company Special Warrants issued and outstanding prior to the Effective Time; (b) the rights and obligations of the holders of Company Shares, Specified Company Stock Options, Company Warrants and Company Special Warrants and of the Company, the Parent, the Depositary and any transfer agent or other depositary in relation thereto, shall be solely as provided for in this Plan of Arrangement and the Arrangement Agreement; and (c) all actions, causes of action, claims or proceedings (actual or contingent and whether or not previously asserted) based on or in any way relating to any Company Shares, Specified Company Stock Options, Company Warrants and Company Special Warrants or other securities of the Company, shall be deemed to have been settled, compromised, released and determined without liability except as set forth in this Plan of Arrangement.

5.7 No Fractional Shares

Notwithstanding anything to the contrary in this Plan of Arrangement, no fractional Parent Shares, Parent Replacement Stock Options or Parent Replacement Warrants shall be issued hereunder. Notwithstanding anything to the contrary in this Plan of Arrangement, in any case where the aggregate Parent Shares, Parent Replacement Stock Options or Parent Replacement Warrants issuable to a particular Person under the Arrangement would, but for this Section 5.7, include a fraction thereof, then the number of Parent Shares, Parent Replacement Stock Options or Parent Replacement Warrants issuable to such Person, as the case may be, shall be rounded down to the nearest whole number thereof.

ARTICLE 6 **AMENDMENTS**

6.1 Amendments

(a) General. The Parent and the Company may amend, modify and/or supplement this Plan of Arrangement at any time and from time to time prior to the Effective Time, provided

that each such amendment, modification and/or supplement be (i) set out in writing; (ii) approved by the Company and the Parent, each acting reasonably, (iii) filed with the Court and, if made following the Company Meeting, approved by the Court, and (iv) communicated to or approved by the holders of the Company Shares if and as required by the Court.

(b) Amendments Made Prior to or at the Company Meeting. Any amendment, modification or supplement to this Plan of Arrangement pursuant to Section 6.1(a) may be proposed by the Company and the Parent at any time prior to or at the Company Meeting (provided that the Company or the Parent, as applicable, shall have consented thereto in writing, such consent not to be unreasonably withheld, conditioned or delayed), with or without any other prior notice or communication, and if so proposed and accepted by the Persons voting at the Company Meeting (other than as may be required under the Interim Order), shall become part of this Plan of Arrangement for all purposes.

(c) Amendments Made Following the Company Meeting. Any amendment, modification or supplement to this Plan of Arrangement that is approved or directed by the Court following the Company Meeting shall be effective only if it is agreed to in writing by the Company and the Parent, each acting reasonably, and if required by the Court, consented to by some or all of the holders of Company Shares in the manner directed by the Court.

(d) Amendments Made After the Effective Date. Any amendment, modification or supplement to this Plan of Arrangement may be made following the Effective Date unilaterally by the Company (with the prior written consent of the Parent) or the Parent (with the prior written consent of the Company) provided that such amendment, modification or supplement concerns a matter which, in the reasonable opinion of the Company or the Parent, as applicable, is of an administrative or ministerial nature or required to better give effect to the implementation of this Plan of Arrangement, is not adverse to the financial or economic interests of any Person that received consideration payable to such Person pursuant to this Plan of Arrangement.

(e) Withdrawal. This Plan of Arrangement may be withdrawn prior to the Effective Time in accordance with the terms of the Arrangement Agreement.

ARTICLE 7

FURTHER ASSURANCES

Attention: Independent Committee of the Board of Directors

Dear Sirs:

Subject: Fairness Opinion

1.0 Introduction

- 1.01 Evans & Evans, Inc. (“Evans & Evans” or the “authors of the Opinion”) was engaged by the Independent Committee (the “Committee”) of the Board of Directors (the “Board”) of World Copper Ltd. (“World Copper” or the “Issuer”) to prepare a Fairness Opinion (the “Opinion”) with respect to the proposed acquisition of World Copper’s 100% interest in the Zonia Copper Project in Arizona (the “Zonia Property”) by Plata Latina Minerals Corporation (“Plata Latina” or the “Acquiror”) through the acquisition of all the issued and outstanding shares in the capital of World Copper’s wholly owned subsidiary Zonia Holdings Corp. (“Zonia Holdings”) and Zonia Holdings’ intercompany debt payable to World Copper, in exchange for common shares of Plata Latina and cash, by way of a plan of arrangement under the *Business Corporations Act* (British Columbia) (the “Proposed Transaction”). The Proposed Transaction is summarized in section 1.03 of this Opinion.

Evans & Evans has been requested by the Committee to prepare the Opinion to provide an independent opinion as to the fairness of the Proposed Transaction, from a financial point of view, to each of World Copper and the shareholders of World Copper (the “World Copper Shareholders”).

World Copper is a reporting issuer whose shares are listed for trading on the TSX Venture Exchange (the “TSXV”) under the symbol “WCU”. Plata Latina is a Canadian resource company focused on exploring strategic opportunities within the mining industry, whose shares are listed for trading on the TSXV under the symbol “PLA”.

- 1.02 Unless otherwise noted, all monetary amounts referenced herein are Canadian dollars.
- 1.03 As of the date of the Opinion, World Copper and Plata Latina (together the “Companies”) had agreed to the general business terms of the Proposed Transaction which were set out

in a draft arrangement agreement between Plata Latina and World Copper (the “Arrangement Agreement”) and related plan of arrangement (the “Plan of Arrangement”). Evans & Evans reviewed substantially final forms of the Arrangement Agreement and the Plan of Arrangement. The key terms of the Proposed Transaction are highlighted below.

1. The Proposed Transaction will be effected by way of a plan of arrangement under the *Business Corporations Act* (British Columbia).
2. World Copper will receive \$10.5 million in cash (the “Cash Consideration”) and such number of Plata Latina common shares (“Plata Latina Shares”) as results in World Copper and World Copper Shareholders owning approximately 31.3% of Plata Latina, on a non-diluted basis, immediately following closing of the Proposed Transaction and the Concurrent Financing (as defined below) (the “Share Consideration”) and together with Cash Consideration the (“Consideration”).
3. World Copper Shareholders are expected to receive approximately 0.3783 of a Plata Latina Share (the “Exchange Ratio”)¹ for each World Copper common share (“World Copper Shares”) pursuant to the distribution by World Copper to the World Copper Shareholders of all of the Share Consideration, except for 5,000,000 Plata Latina Shares that will be retained by World Copper for its own account and an additional 10,000,000 Plata Latina Shares that will be held in trust for the benefit of a specified creditor of World Copper.
4. Immediately following closing of the Proposed Transaction, World Copper will retain \$500,000 of the Cash Consideration and will use the balance of the Cash Consideration to satisfy outstanding indebtedness, accounts payable and other liabilities of World Copper and its subsidiaries.
5. Under the Proposed Transaction, holders of World Copper warrants will receive replacement warrants to acquire Plata Latina Shares, exercisable until their respective expiry dates, subject to adjustments described in the plan of arrangement in respect of the Proposed Transaction based on the final Exchange Ratio at which Plata Latina Shares are distributed to World Copper Shareholders at closing. The terms of such replacement warrants will otherwise be the same as the terms of the World Copper warrants in effect immediately prior to the closing of the Transaction.
6. In connection with the Proposed Transaction, Plata Latina is planning to enter into subscription agreements with investors pursuant to a non-brokered private placement of units of Plata Latina (“Plata Latina Units”) at a price of \$0.10 per Plata Latina Unit for gross aggregate proceeds of \$17 million (the “Concurrent Financing”). The

¹ The final Exchange Ratio will be determined at closing depending on, among other things, the number of then-issued and outstanding Plata Latina Shares and World Copper Shares. The Exchange Ratio of 0.3783 is based on the current number of issued and outstanding Plata Latina Shares and World Copper Shares on a non-diluted basis, being 79,034,671 Plata Latina Shares and 250,519,067 World Copper Shares.

proceeds of the Concurrent Financing are expected to be used to finance the Cash Consideration and to fund exploration and development of Zonia Holdings, including drilling, metallurgical test work, feasibility study work and permitting work, and for general working capital and corporate purposes.

7. In connection with the Proposed Transaction, Plata Latina intends to change its corporate name to “Edge Copper Corporation” and change its ticker symbol on the TSXV to reflect its edge as a development-focused copper company poised to advance the 100%-owned Zonia Property in Arizona on private and patented lands and produce domestic pure copper cathode.
8. Plata Latina also intends to consolidate the Plata Latina Shares on the basis of one post-consolidation Plata Latina Share for every three pre-consolidation Plata Latina Shares.

The Proposed Transaction was not announced as of the date of the Opinion.

- 1.04 The Committee has engaged Evans & Evans to act as an independent advisor to World Copper and to prepare and deliver the Opinion to the Committee to provide an independent opinion as to the fairness of the Proposed Transaction, from a financial point of view, to each of World Copper and the World Copper Shareholders as of July 16, 2025.
- 1.05 World Copper was incorporated under the *Business Corporations Act* (British Columbia) on June 16, 2006 under the name Allante Resources Ltd. and on January 15, 2021, changed its name to “World Copper Ltd.” and began trading under the symbol “WCU” on the TSXV on January 26, 2021. World Copper is an exploration stage junior mining company currently engaged in the identification, acquisition and exploration of mineral resources in the United States (“U.S.”) and Chile.

As of the date of this Opinion, World Copper holds an interest in the Zonia Property, the Issuer’s flagship asset, which is prospective for copper mineralization. Prior to the date of this Opinion, World Copper also held an interest in the Escalones Project in Chile (the “Escalones Property”), however Evans & Evans have been informed that the Issuer no longer holds such an interest as of the date of this Opinion.

Zonia Property, Arizona, U.S.

The Zonia Property is in south-central Arizona in the Walnut Grove mining district of Yavapai County, approximately 81 miles northwest of the city of Phoenix.

The Zonia Property consists of 78 patented claims totalling 686.4 acres, 169 unpatented mineral claims totalling 2868.7 acres, 564.62 acres of surface rights acquired from the State of Arizona, 376 acres purchased from a private estate, and 45 unpatented claims of the Silver Queen property totalling 801.4 acres. The unpatented mineral claims include lode mining claims and millsite claims, all of which have an associated survey description, and all patented claims have been surveyed by a registered land surveyor.

World Copper acquired 100% of the Zonia Property pursuant to a business combination with Cardero Resources Corp. completed in February 2022 by way of a plan of arrangement, at which time all of Cardero Resources Corp.'s right, title, and interest in the patented and unpatented claims that comprise the project area were indirectly acquired by World Copper. World Copper maintains legal, public access to the project area via Zonia Road, which extends to the south from South Wagoner Road roughly 1 mile east of Kirkland Junction (State Highway 89).

On October 25, 2024, the Issuer announced that it has filed a National Instrument 43-101 ("NI 43-101") technical report for an updated mineral resource estimate for the Zonia Property, which sets out an updated indicated and inferred mineral resource with an effective date of August 17, 2024.

Escalones Property, Chile

World Copper acquired the Escalones Property from Gold Springs Resource Corp., formerly TriMetals Mining Inc. (hereinafter referred to as "TMI") pursuant to a share purchase agreement made as of May 31, 2019, as amended, among Wealth Minerals Ltd., World Copper, Escalones Resource Corp. and TMI. As consideration, World Copper issued 25,000,000 World Copper Shares to Escalones Resource Corp., a wholly owned subsidiary of TMI, made a cash payment in the amount of \$150,000, and granted to TMI a 1% to 2% net smelter returns (NSR) royalty on the Escalones Property exploration concessions. Evans & Evans have been informed that this agreement has since lapsed and the Issuer has no interest in the Escalones Property as of the date of the Opinion.

Financial Position and Capital Structure

As at December 31, 2024, Zonia Holdings has cash and equivalents of \$9,608 (December 31, 2023 - \$nil). The working capital deficiency was \$486,341 as at December 31, 2024 compared to working capital deficiency of \$5,089,171 as at December 31, 2023. As at June 30, 2025, Zonia Holdings had a debt of approximately \$2,188,406.

As at March 31, 2025, World Copper has cash and equivalents of \$39,788 (December 31, 2024 - \$193,977) and debt of \$2.2 million.

The Issuer's mineral properties are exploration stage and hence the Issuer does not generate revenue. Over the period January 1, 2020 to March 31, 2025, the Issuer incurred a cumulative net loss of \$56,647,929.

As of the date of the Opinion, the authorized capital of World Copper consists of an unlimited number of World Copper Shares of which 250,519,067 World Copper Shares are issued and outstanding. There are currently 16,370,000 options, 60,622,050 warrants and 6,384,400 special warrants outstanding at various exercise prices.

On February 14, 2025, World Copper issued 2,837,500 units at a price of \$0.08 per unit for gross proceeds of \$227,000 in a non-brokered private placement. Each unit consisted of one World Copper Share and one World Copper Share purchase warrant. Each whole warrant entitles the holder to acquire one additional World Copper Share for a period of three years from the date of issuance at a price of \$0.16 per World Copper Share.

- 1.06 Plata Latina was incorporated under the laws of British Columbia, Canada. Plata Latina is focused on exploring strategic opportunities within the mining industry. Historically, Plata Latina was engaged in mineral exploration in Mexico. Through its wholly owned subsidiary, Plaminco S.A. de C.V. (“Plaminco”), Plata Latina held interests in four Mexican mineral properties – Naranjillo property (“Naranjillo Property”), Vaquerias, Palo Alto and La Joya.

Naranjillo Property

The Naranjillo Property is situated in Guanajuato, Mexico and consists of three mineral exploration licenses: La Sibila, La Sibila I and La Sibila II, issued by the Mexican General Directorate of Mines (“GDM”) in 2011. The three licenses cover 11,482 hectares and are valid for 50 years until 2061.

In February 2017, Plata Latina entered into an option agreement with a wholly owned subsidiary of Fresnillo PLC (“Fresnillo”) granting Fresnillo the right to explore Naranjillo over a three-year period for a total cash payment of US\$1,650,000 and aggregate exploration expenditures of US\$3,000,000.

At the end of the three-year option period, Fresnillo had the option to acquire Naranjillo for an additional US\$500,000 and to grant Plata Latina a 3% net smelter return (“NSR”). Fresnillo would also be required to pay advance royalty payments of US\$100,000 annually until the earlier of (a) a maximum of US\$1,000,000 in advance royalty payments have been paid, or (b) Naranjillo commences commercial production of minerals. Fresnillo had the right to purchase 1% NSR for an additional US\$1,000,000, and, thereafter, the remaining 2% NSR for an additional US\$5,000,000.

In February 2020, Fresnillo executed its option to acquire Naranjillo for \$663,950 (US\$500,000) and granted Plata Latina a 3% NSR. Starting February 2021, Fresnillo started to make annual advance royalty payments of US\$100,000. As of March 31, 2025 the company received five advance royalty payments for a total of \$665,023 (US\$500,000).

On February 25, 2025, Fresnillo exercised its right to purchase the 3% NSR on Naranjillo for US\$6,000,000. The transaction closed on April 10, 2025 and Fresnillo is no longer required to pay the annual advance royalty payment.

Vaquerias, Palo Alto and La Joya

In 2020, Plata Latina elected to terminate the Vaquerias and Palo Alto mineral licenses. In January 2022, the licenses held under Vaquerias and Palo Alto were cancelled. On August 21, 2024, Plata and Fortuna entered into an agreement wherein Plata Latina assigned to Fortuna the La Joya mineral concession in consideration for the right to receive a 2% NSR upon commercial production on La Joya. Fortuna may at any time acquire 1% of the NSR for US\$1,000,000.

Financial Position and Capital Structure

For the three months ended March 31, 2025, Plata Latina had net income of \$77,974 comparing to \$87,137 for the same quarter in 2024. The income for the comparative periods of 2025 and 2024 was primarily from the proceeds of the annual advance royalty payments of \$142,206 and \$134,662, respectively. The operating expenses for the first quarter of 2025 were higher by \$19,000, primarily due to the costs incurred pertaining to the sale of the 3% NSR on Naranjillo to Fresnillo.

As at March 31, 2025, Plata Latina had cash and cash equivalents of \$364,628 (December 31, 2024 - \$298,252) and working capital of \$359,000 (December 31, 2024 - \$269,467).

Subsequent to the three months ended March 31, 2025, on April 10, 2025, Plata Latina completed the sale of the 3% NSR to Fresnillo and received payment of US\$6,000,000 (\$8,409,000). Plata Latina will continue to manage its cash balance while exploring growth opportunities through acquisitions, partnerships and other strategic transactions.

As of April 24, 2025, there were 79,034,671 Plata Latina Shares issued and outstanding. In addition, the Plata Latina had 6,328,572 stock options outstanding, each exercisable at a price of \$0.01 per Plata Latina Share and expiring on August 23, 2029.

2.0 Engagement of Evans & Evans, Inc.

- 2.01 Evans & Evans was formally engaged by the Board pursuant to an engagement letter dated June 6, 2025 (the “Engagement Letter”). The Engagement Letter provides the terms upon which Evans & Evans has agreed to provide the Opinion to the Committee.

The terms of the Engagement Letter provide that Evans & Evans is to be paid a fixed professional fee for its services. In addition, Evans & Evans is to be reimbursed for its reasonable out-of-pocket expenses and to be indemnified by World Copper in certain circumstances. No portion of Evans & Evans’ fee under the Engagement Letter is contingent upon the conclusions of the Opinion or the completion of the Proposed Transaction.

4.0 **Market Summary**

- 4.01 In determining the fairness of the Proposed Transaction as of the date of the Opinion, Evans & Evans reviewed the copper market conditions and the market for exploration and development stage companies.
- 4.02 Global nonferrous exploration budgets witnessed a decline in 2024. Budgets for grassroots and late-stage exploration fell by 8% and 5%, respectively, while minesite exploration saw a 2% year-over-year increase. The reduction in gold exploration budgets had a negative impact on both early and late-stage exploration allocations, while increased spending on minesite exploration for copper, gold, and lithium contributed to the growth in that sector. As a result, the rate of new discoveries has been adversely impacted. With decarbonization and electrification on the horizon, identifying new mineral deposits is critical to meet the growing demand.²

The junior sector's exploration budget decreased for the second consecutive year in 2024,

² Metals And Mining Research- S&P Capital IQ, issued November 25, 2024

mainly due to difficulties in securing funding. The juniors' budget, which makes up 41% of total exploration budgets, dropped by 7% to US\$5.08 billion, more than offsetting the majors' modest 0.7% increase to US\$6.09 billion. Allocations from intermediate companies fell for the third year in a row, reaching a seven-year low of US\$942 million. On the other hand, budgets from government and other companies rose by 16% to \$373 million.³

Overall, the majority of exploration budgets across most company types were directed towards gold, followed by copper. The majors allocated half of their total budget to gold, up from 45% in 2015. In contrast, the juniors' share for gold exploration dropped to a record low of 36% in 2024, after a 20% decline year-over-year. The intermediates' allocation for gold exploration increased to 66%, up from 56% in 2015. Copper continued to be the preferred commodity for the government/others group, accounting for 41% of their budget, up from 31% in 2015.⁴

4.04 According to IndexBox, a leading global research firm, the global copper ore market is expected to experience substantial growth by 2030. This growth is primarily driven by increasing demand for copper in various sectors, including construction, electrical and electronics, and automotive industries, underpinned by advancements in mining and ore processing technologies. The market's expansion is propelled by the growing electrical and electronics industry, rising construction activities worldwide, and the increasing usage of copper in renewable energy applications. However, the market faces challenges such as environmental concerns related to mining and fluctuating copper prices. Demand for copper ore is influenced by global infrastructure development trends, the burgeoning electric vehicle market, and the shift toward renewable energy sources. Additionally, advancements in telecommunications and the need for high-quality copper in electrical

applications shape market demand. Key industries consuming copper ore include the electronics and electrical sector, construction industry, and the automotive sector. The growth of these industries directly impacts the demand for copper ore and concentrates.

The global copper mining market was valued at US\$9.26 billion in 2024 and is projected to grow from US\$9.61 billion in 2025 to US\$13.15 billion in 2032 indicating a compound annual growth rate (“CAGR”) of 5.48% in the forecast period. Copper is mined as composite ore, known as copper oxide ore and copper sulfide. Copper is a necessary component in so many products that the consumption of copper is an important indicator of the economy of a country.⁵

- 4.05 Copper is essential for constructing infrastructure projects such as buildings, bridges, and electric systems. Hence, government initiatives and policies promoting infrastructure development can significantly boost the market.⁶ Furthermore, the transition to a clean energy system, powered by technologies like solar panels, wind turbines, and electric vehicles electric vehicle (“EVs”), requires significantly more minerals than traditional fossil fuel-based systems. For example, electric cars need six times more minerals than conventional cars, and wind farms require nine times more than gas-fired plants. The demand for minerals such as lithium, nickel, cobalt, and copper has surged, as these materials are essential for batteries, wind turbines, and electricity networks. As clean energy adoption increases, the energy sector is becoming a dominant force in mineral markets, with demand for certain minerals expected to rise dramatically, especially in scenarios aligned with the Paris Agreement goals.⁷

As shown in the following chart, over the period from January 2021 to the date of the Opinion, copper price has fluctuated between US\$3.24 per pound to US\$5.11 per pound. Copper was trading at US\$5.5815 per pound as at the date of the Opinion.⁸

Copper is essential for constructing infrastructure projects such as buildings, bridges, and electric systems. Hence, government initiatives and policies promoting infrastructure development can significantly boost the market.⁹ Furthermore, the increasing demand for renewable energy and EVs is reshaping the demand for various commodities, with copper being a major beneficiary of the decarbonization trend. The growth of EVs, solar, wind, storage, and charging infrastructure is expected to drive strong growth in copper consumption, although there may be some reduction in copper usage from traditional energy supply and conventional vehicles. According to the renewables market report 2024 issued by the International Energy Agency, renewable energy consumption in the power, heat, and transport sectors is projected to grow by nearly 60% from 2024 to 2030.¹⁰

The London Metal Exchange three-month copper price reached US\$9,665 per metric ton on February 14, 2025 the highest level since November 2024, driven by developments in U.S. tariffs and tightness in concentrate supply. On February 12, 2025, the US Consumer Price Index reported its largest increase since May 2024, with a 3% year-over-year rise in January 2025. As a result, the first-interest rate cut is now expected in September 2025, which may potentially strengthen the U.S. dollar and exert downward pressure on copper prices. Following the announcement of a 25% tariff on steel and aluminum imports to the U.S., there is broad speculation that copper could also become subject to increased U.S. tariffs.

The preparation of a fairness opinion is a complex process and is not necessarily

susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis. Evans & Evans' conclusions as to the fairness, from a financial point of view, to each of World Copper and the World Copper Shareholders of the Proposed Transaction were based on its review of the Proposed Transaction taken as a whole, in the context of all of the matters described under "Scope of Review", rather than on any particular element of the Proposed Transaction or the Proposed Transaction outside the context of the matters described under "Scope of Review". The Opinion should be read in its entirety.

7.0 Assumptions

- 7.01 In preparing the Opinion, Evans & Evans has made certain assumptions as outlined below.
- 7.02 With the approval of World Copper and as provided for in the Engagement Letter, Evans & Evans has relied upon, and has assumed the completeness, accuracy and fair presentation of, all financial information, business plans, forecasts and other information, data, advice, opinions and representations obtained by it from public sources or provided by the Issuer or its affiliates or any of their respective officers, directors, consultants, advisors or representatives (collectively, the "Information"). The Opinion is conditional upon such completeness, accuracy and fair presentation of the Information. In accordance with the terms of the Engagement Letter, but subject to the exercise of its professional judgment, and except as expressly described herein, Evans & Evans has not attempted to verify independently the completeness, accuracy or fair presentation of any of the Information.
- 7.03 Senior officers of World Copper represented to Evans & Evans that among other things: (i) the Information (other than estimates or budgets) provided orally by, an officer or employee of World Copper or in writing by World Copper (including, in each case, affiliates and their respective directors, officers, consultants, advisors and representatives) to Evans & Evans relating to World Copper, its affiliates or the Proposed Transaction, for the purposes of the Engagement Letter, including in particular preparing the Opinion was, at the date the Information was provided to Evans & Evans, fairly and reasonably presented and complete, true and correct in all material respects, and did not, and does not, contain any untrue statement of a material fact in respect of World Copper, its affiliates or the Proposed Transaction and did not and does not omit to state a material fact in respect World Copper, its affiliates or the Proposed Transaction that is necessary to make the Information not misleading in light of the circumstances under which the Information was made or provided; (ii) with respect to portions of the Information that constitute financial estimates

or budgets of World Copper or any of its affiliates, they have been fairly and reasonably presented and reasonably prepared on bases reflecting the best currently available estimates and judgments of management of the Issuer and its affiliates as to the matters covered thereby and such financial estimates and budgets reasonably represent the views of management of the Issuer; and (iii) since the dates on which the Information was provided to Evans & Evans, except as disclosed in writing to Evans & Evans, there has been no material change, financial or otherwise, in the financial condition, assets, liabilities (contingent or otherwise), business, operations or prospects of the Issuer or any of its affiliates and no material change has occurred in the Information or any part thereof which would have, or which would reasonably be expected to have, a material effect on the Opinion.

- 7.04 In preparing the Opinion, we have made several assumptions, including that all final or executed versions of documents will conform in all material respects to the drafts provided to us, all of the conditions required to implement the Proposed Transaction will be met, all consents, permissions, exemptions or orders of relevant third parties or regulating authorities will be obtained without adverse condition or qualification, the procedures being followed to implement the Proposed Transaction are valid and effective and that the disclosure provided or (if applicable) incorporated by reference in any information circular provided to shareholders or other persons with respect to World Copper, Plata Latina and the Proposed Transaction will be accurate in all material respects and will comply with the requirements of applicable law. Evans & Evans also made numerous assumptions with respect to industry performance, general business, market and economic conditions and other matters, many of which are beyond the control of Evans & Evans and any party involved in the Proposed Transaction. Although Evans & Evans believes that the assumptions used in preparing the Opinion are appropriate in the circumstances, some or all of these assumptions may nevertheless prove to be incorrect.
- 7.05 The Issuer and the Acquiror and all of their related parties and their principals had no contingent liabilities, unusual contractual arrangements, or substantial commitments, other than in the ordinary course of business, nor litigation pending or threatened, nor judgments rendered against, other than those disclosed by management and included in the Opinion that would affect the evaluation or comment.
- 7.06 As of March 31, 2025, all assets and liabilities of World Copper, Zonia Holdings and Plata Latina, respectively, have been recorded in their accounts and financial statements and follow International Financial Reporting Standards.
- 7.07 There were no material changes in the financial position of the Issuer and the Acquiror between the date of their financial statements and the date of the Opinion unless noted in the Opinion. Evans & Evans specifically makes reference to cash and debt balances of the Issuer and the Acquiror as at the date of the Opinion as outlined in section 1.0 of this Opinion.

- 7.08 All options or warrants “in-the-money” based on the trading price of the Issuer and the Acquiror and the value implied by the Exchange Ratio are assumed to be exercised at the close of the Proposed Transaction. Such an assumption was deemed appropriate by the authors of the Opinion to provide World Copper Shareholders with a clear understanding of their potential shareholding in Plata Latina on a fully diluted basis.
- 7.09 Representations made by the Issuer and the Acquiror as to the World Copper Shares in the Arrangement Agreement outstanding are accurate.

8.0 Analysis of World Copper

- 8.01 In assessing the fairness of the Proposed Transaction, Evans & Evans considered the following analyses and factors, amongst others with respect to World Copper and the Zonia Property: (1) trading price analysis; (2) guideline company analysis; (3) precedent transaction analysis; and (4) other considerations. A review of World Copper was deemed appropriate as at the date of the Opinion, as the Zonia Property was the primary asset of the Issuer.
- 8.02 Evans & Evans reviewed World Copper’s trading prices over the 10, 30, 90 and 180 trading days preceding the date of the Opinion. In the 180 trading days preceding the date of the Opinion, the Issuer share price had been increasing from an average of \$0.05 to \$0.06 per World Copper Share as outlined in the table below. While Evans & Evans reviewed data over a 180-day trading period, the analysis focused on the 30 to 90-days preceding the date of the Opinion. Over the 90-trading days preceding the date of the Opinion, World Copper’s share price has stabilized around \$0.05 per World Copper Share.

Trading Price (Canadian Dollars)	July 16, 2025		
	<u>Minimum</u>	<u>Average</u>	<u>Maximum</u>
10-Days Preceding	\$0.04	\$0.06	\$0.07
30-Days Preceding	\$0.04	\$0.05	\$0.07
90-Days Preceding	\$0.04	\$0.05	\$0.07
180-Days Preceding	\$0.04	\$0.05	\$0.10

In undertaking the share price analysis, the authors of the Opinion deemed it necessary to examine the trading history of the World Copper Shares to determine the actual ability of the World Copper Shareholders to realize the implied value of their World Copper Shares (i.e., sell).

In reviewing the trading volumes of the World Copper Shares at the date of the Opinion, it appears trading volume has been relatively consistent in the range of 300,000 to 350,000 World Copper Shares traded per day. As can be seen from the table below, in the 90 trading days preceding the date of the Opinion, approximately 26.4 million World Copper Shares were traded, representing 10.5% of the issued and outstanding World Copper Shares. World Copper Shares traded on 156 of the 180 trading days considered. Trading volumes below 300,000 World Copper Shares per day suggest that the actual ability of large

numbers of World Copper Shareholders to realize the current trading price of the World Copper Shares is highly unlikely.

10-Days Preceding	6,000	345,546	1,029,640	3,455,460	1.4%

180-Days Preceding	1,000	357,011	5,751,510	63,547,920	25.4%

Given the limited trading volumes, Evans & Evans also considered the volume-weighted average price (“VWAP”) of the World Copper Shares. Over the 30 trading days preceding the date of the Opinion, the VWAP of the World Copper Shares had remained consistent at \$0.05.

10-Day VWAP	\$0.058	20-Day VWAP	\$0.051
15-Day VWAP	\$0.051	30-Day VWAP	\$0.050

8.03 Evans & Evans considered the enterprise value¹¹ (“EV”) based on the Consideration per Reserves and Resources implied by the Proposed Transaction. The EV / Reserves and Resources implied by the Proposed Transaction is in the range of 0.026x. Evans & Evans reviewed trading data for exploration-stage guideline public companies (“GPCs”) whose shares trade on the TSXV and hold copper properties. In calculating EV / Reserves and Resources, Evans & Evans considered 100% of proven and probable reserves, 100% of measured and indicated resources, and 50% of inferred resources. Evans & Evans found the EV / Reserves and Resources of the GPCs was in the range of 0.006x to 0.059x, with an average of 0.033x and a median of 0.036x, placing the multiples implied by the Proposed Transaction below the average and median of the range. It should be noted that publicly traded companies generally exhibit higher valuation multiples than private subsidiaries, primarily due to greater liquidity, enhanced transparency, and broader access to capital markets; accordingly, the multiples observed for public comparables may not fully reflect the valuation considerations applicable to a privately held entity, which typically warrants adjustments for illiquidity and lack of marketability.

Evans & Evans also identified 10 transactions involving the sale of copper properties in the three years preceding the date of the Opinion which the authors of the Opinion deemed comparable to the Proposed Transaction. The EV / Reserves and Resources for the identified transactions ranged from 0.000028x to 0.119441x with an average of 0.042888x and a median of 0.019769x. The EV / Resources and Reserves multiple implied by the Proposed Transaction is above the median and below the average of those of the identified transactions.

In assessing the reasonableness of the above, we considered the following:

¹¹ Enterprise value = market capitalization less cash plus debt / minority interest / preferred shares

WORLD COPPER LTD.**Fairness Opinion**

July 16, 2025

Page 19

- there are a limited number of directly comparable public companies when one considers differentiating factors such as stage of exploration and number of properties;
- World Copper has one primary property and many of the GPC's have multiple projects or projects at a more advanced stage of development.
- no company considered in the analysis is identical to Zonia Holdings and World Copper; and,
- an analysis of the results of the foregoing necessarily involves complex considerations and judgments concerning the differences in the financial and operating characteristics in relation to World Copper, the Proposed Transaction and other factors that could affect the trading value and aggregate transaction values of the companies to which they are being compared.

8.04 Evans & Evans also reviewed transactions over the last three years involving companies operating in the metal and mining industry with enterprise value greater than \$20 million. For the transactions reviewed, Evans & Evans found the average five-day acquisition premium ranged from -20% to 349% with an average of 43% and a median of 30%. The implied premium in the Proposed Transaction, estimated to be in the range of approximately 61.3% to 72.9%, exceeds both the median and average premiums observed in comparable transactions. In addition to this premium, World Copper Shareholders will retain their existing World Copper Shares, thereby allowing them to continue participating in the future upside potential of World Copper.

8.05 Evans & Evans also conducted a dilution analysis for World Copper. World Copper does require funding in order to maintain its existing claims in good standing and to undertake a meaningful exploration program. As outlined in the following table, Evans & Evans assessed the dilution based on a financing of \$4.0 million to \$10.0 million and assumed any financing would be a unit financing involving the issuance of a World Copper share and a full warrant. The ultimate dilution to the existing World Copper Shareholders (assuming all warrants are exercised and priced at twice the initial unit price) would be significant.

8.06 As World Copper has publicly disclosed, the World Copper Board has been reviewing and searching for strategic alternatives for the past six months for Zonia Property and there have been no alternative transactions advanced to a stage similar to the Proposed Transaction. We compared the Proposed Transaction to the Terminated Zonia Transaction and found the value to be comparable. However, under the Proposed Transaction, in contrast to an all-cash transaction, World Copper Shareholders will continue to hold an interest in the Zonia Property by virtue of their entitlement to a substantial portion of the Share Consideration.

9.0 Analysis of Plata Latina

9.01 In assessing the fairness of the Proposed Transaction, Evans & Evans considered the following analyses and factors, amongst others with respect to Plata Latina: (1) trading price analysis; and (2) other considerations (such as the subscription price under the Concurrent Financing).

9.02 Evans & Evans conducted a review of the trading price of the Plata Latina Shares on the TSXV. Evans & Evans reviewed the Acquiror's market capitalization as of the date of the Opinion. As outlined in the table below, Plata Latina's market capitalization has been in the range of \$7.4 million to \$9.2 million over the 30 days preceding the date of the Opinion.

<u>Market Capitalization</u>	<u>10-day</u>	<u>20-day</u>	<u>30-day</u>
	\$9,158,096	\$8,113,081	\$7,409,092

Evans & Evans reviewed Plata Latina's trading prices over the 10, 30, 90 and 180 trading days preceding the date of the Opinion. In the 180 trading days preceding the date of the Opinion, Plata Latina share price had been increasing from an average of \$0.05 to \$0.12 per Plata Latina Share as outlined in the table below. While Evans & Evans reviewed data over a 180-day trading period, the analysis focused on the 30 to 90-days preceding the date of the Opinion. Over the 90-trading days preceding the date of the Opinion, Plata Latina's share price has stabilized around \$0.08 per Plata Latina Share.

In reviewing the trading volumes of the Plata Latina Shares at the date of the Opinion, it appears liquidity had been declining from over 85,000 Plata Latina Shares traded per day to less than 40,000. As can be seen from the table below, in the 90 trading days preceding the date of the Opinion, approximately 46,000 Plata Latina Shares were traded, representing 3.6% of the issued and outstanding Plata Latina Shares. Plata Latina Shares traded on 9 of the 180 trading days considered. Trading volumes below 40,000 Plata Latina Shares per day suggest that the actual ability of large numbers of Plata Latina Shareholders to realize the current trading price of the Plata Latina Shares is highly unlikely.

Given the limited trading volumes, Evans & Evans also considered the VWAP of Plata Latina. Over the 30 trading days preceding the date of the Opinion, World Copper's VWAP had remained consistent at \$0.094.

10-Day VWAP	\$0.116	20-Day VWAP	\$0.103
15-Day VWAP	\$0.105	30-Day VWAP	\$0.094

- 9.03 Given the transactions outlined in section 1.06 of the Opinion, Evans & Evans determined that the most appropriate basis for establishing the Share Consideration was the planned pricing of the Concurrent Financing, set at \$0.10 per Plata Latina Share.

10.0 Fairness Conclusion

- 10.01 In considering fairness, from a financial point of view, Evans & Evans considered the Proposed Transaction from the perspective of each of World Copper and the World Copper Shareholders as a group and did not consider the specific circumstances of any particular World Copper Shareholder, including with regard to income tax considerations.
- 10.02 Based upon and subject to the foregoing and such other matters as we consider relevant, it is our opinion, as of the date hereof and the date of the Opinion, that (a) the Consideration is fair, from a financial point of view, to World Copper, and (b) the Exchange Ratio is fair, from a financial point of view, to the World Copper Shareholders. In the view of Evans & Evans, the completion of the Concurrent Financing is critical to the fairness of the Proposed Transaction.

In arriving at the conclusion as to fairness, from a financial standpoint, Evans & Evans considered the following non-exhaustive quantitative and qualitative issues. Evans & Evans has not attempted to quantify the qualitative issues.

- a. As outlined in section 8.0 of the Opinion, the metrics implied by the Proposed Transaction are supported by a review of the trading multiples of World Copper peers.

WORLD COPPER LTD.**Fairness Opinion**

July 16, 2025

Page 22

- b. The Terminated Zonia Transaction contemplated by World Copper considered an outright sale of the Zonia Property in exchange for cash at a similar value to the Proposed Transaction. Under the Proposed Transaction, the World Copper Shareholders will continue to participate in the development of the Zonia Project.
- c. The World Copper Shareholders will receive a substantial portion of the Share Consideration and still retain their World Copper Shares. Following closing, World Copper will continue with cash and nominal debt.
- d. As detailed in Section 8.03 of this Opinion, the Proposed Transaction implies an EV/Resource and Reserve multiple for World Copper of 0.026x. This reflects a significant premium ranging from approximately 61.3% to 72.9% over the 10-day, 20-day, and 30-day VWAP of the World Copper Shares prior to the announcement of the Proposed Transaction, which is greater than the median and average premium paid in transactions over the last three years involving companies operating in the metal and mining industry.
- e. Evans & Evans considered the ability of the World Copper Shareholders to receive greater than the value implied by the Exchange Ratio in the market. The Exchange Ratio implies a value of \$0.038 per World Copper Share based on Plata Latina's planned financing price under the Concurrent Financing as of the date of the Opinion. Evans & Evans conducted a review of the trading price of World Copper Shares to determine how many World Copper Shares had traded above the value implied by the Exchange Ratio. As can be seen from the table below, 20.8% of World Copper shares had traded above \$0.039 in the 90 days preceding the date of the Opinion. However, the Exchange Ratio does not reflect the total value of the Proposed Transaction. The World Copper Shareholders will still hold the same number of World Copper Shares following the Proposed Transaction.

Implied Consideration \$0.038	# of Days Closing Price Exceeded Implied Consideration	Shares Traded at Implied Consideration or Higher	% of Shares Outstanding
10-Days Preceding	10	3,455,460	2.9%
30-Days Preceding	30	6,654,690	5.5%
90-Days Preceding	86	25,080,140	20.8%
180-Days Preceding	176	62,203,500	51.7%

- f. World Copper's cash on hand is not sufficient to last longer than six months and any financings at current prices would be highly dilutive to existing World Copper Shareholders.
- g. Management of World Copper has been searching for strategic options for the Zonia Property over the past six months. World Copper and its advisors have reached out to several parties with respect to various corporate transactions and has entered into a non-binding letter of intent to enter into a property option agreement.

- h. The agreement for the Escalones Property has lapsed, and as such the Issuer will need to identify a new material property. Following the Proposed Transaction, World Copper will have nominal debt and will require funding to acquire/advance a new project.
- i. The Proposed Transaction enables optimization of exploration and development budgets by leveraging combined technical teams, geoscientific data, and shared learnings from similar geological environments. The regional expertise of Plata Latina's senior leadership in Arizona and historical exploration data can complement World Copper's technical capabilities, accelerating asset development and resource definition efforts.

Plata Latina Minerals Corporation
Notes to the Pro-Forma Consolidated Financial Statements
(Unaudited – expressed in Canadian dollars)

1. Basis of Presentation

The accompanying unaudited pro-forma consolidated financial statements (the “Accompanying Financial Statements”) of Plata Latina Minerals Corporation (“Plata Latina”) have been prepared in connection with a transaction involving, among other things, (a) the proposed acquisition by Plata Latina of all of the issued and outstanding common shares of Zonia Holdings Corp. (“Zonia Holdings”), a wholly-owned subsidiary of World Copper Ltd. (“World Copper”) that indirectly holds the Zonia Copper Project, and certain intercompany receivables from World Copper by way of plan of arrangement under the provisions of the *Business Corporations Act* (British Columbia) (the “Arrangement”), and (b) the proposed concurrent non-brokered private placement financing by Plata Latina (the “Concurrent Financing”). The proposed consolidation of the issued and outstanding common shares (the “Plata Latina Shares”) of Plata Latina on the basis of one post-consolidation Plata Latina Share for every three pre-consolidation Plata Latina Shares (the “Consolidation”) is not addressed in these Accompanying Financial Statements. The Arrangement and the Concurrent Financing are expected to close in the fourth quarter of 2025 and are further described in Note 2 – The Arrangement and Concurrent Financing.

The Accompanying Financial Statements have been prepared from information derived from, and should be read in conjunction with, the following financial statements:

- (A) Pro-forma consolidated statement of financial position as at June 30, 2025 (unaudited) prepared as if the Arrangement and Concurrent Financing occurred on June 30, 2025, combining:
 - i. the unaudited condensed consolidated interim statement of financial position of Plata Latina as at June 30, 2025;
 - ii. the unaudited condensed consolidated interim statement of financial position of Zonia Holdings as at June 30, 2025; and
 - iii. the footnotes following the pro-forma statements.
- (B) Pro-forma consolidated statement of loss and comprehensive loss for the six months ended June 30, 2025 (unaudited) prepared as if the Arrangement and Concurrent Financing occurred on January 1, 2024, combining:
 - i. the unaudited condensed consolidated interim statement of income and comprehensive income of Plata Latina for the six months ended June 30, 2025;
 - ii. the unaudited condensed consolidated interim statement of loss and comprehensive loss of Zonia Holdings for the six months ended June 30, 2025; and
 - iii. the footnotes following the pro-forma statements.
- (C) Pro-forma consolidated statement of loss and comprehensive loss for the year December 31, 2024 (unaudited) prepared as if the Arrangement and Concurrent Financing occurred on January 1, 2024, combining:
 - i. the consolidated statement of loss and comprehensive loss of Plata Latina for the year ended December 31, 2024;
 - ii. the consolidated statement of loss and comprehensive loss of Zonia Holdings for the year ended December 31, 2024;
 - iii. the footnotes following the pro-forma statements.

The unaudited pro-forma consolidated statement of financial position has been prepared for illustrative purposes only and is not necessarily indicative of the actual results that would have occurred had the Arrangement and Concurrent Financing been concluded at the dates indicated. The pro-forma adjustments are based on currently available information and management estimates and assumptions. Actual adjustments may differ from the pro-forma adjustments. Management believes that such adjustments provide a reasonable basis for presenting all of the significant effects of the Arrangement and Concurrent Financing in accordance with International Financial Reporting Standards (“IFRS”). The accounting policies applied are the same as described in the audited financial statements of Plata Latina for the year ended December 31, 2024.

2. The Arrangement and Concurrent Financing

- (a) Pursuant to the Arrangement, World Copper will receive \$10.5 million in cash (the “Cash Consideration”) and such number of Plata Latina Shares (the “Share Consideration”) as results in World Copper and its shareholders owning 31.3% of Plata Latina, on a non-diluted basis, immediately following closing of the Arrangement and the Concurrent Financing (see below). The Arrangement is subject to customary closing conditions, including approvals of shareholders, the court, the TSX Venture Exchange and the completion of the Concurrent Financing.
- (b) With respect to the Share Consideration, based on, among other things, the number of Plata Latina Shares and World Copper Shares issued and outstanding as of August 26, 2025, World Copper shareholders are expected to receive approximately 0.3773 (the “Exchange Ratio”) of a Plata Latina Share (on a pre-Consolidation basis) for each common share of World Copper pursuant to a distribution by World Copper to its shareholders of a substantial portion of the Share Consideration. Based on the foregoing illustrative Exchange Ratio, the number of Plata Latina Shares to be issued pursuant to the Arrangement would be 113,461,211 valued at \$14,749,957. The final Exchange Ratio will only be determined on the effective date of the Arrangement depending on, among other things, the number Plata Latina Shares and World Copper Shares issued and outstanding as of the effective time of the Arrangement.
- (c) Holders of World Copper warrants and stock options outstanding at the effective time of the Arrangement are expected to receive Plata Latina replacement warrants and stock options at the Exchange Ratio. Based on the illustrative Exchange Ratio, the number of Plata Latina replacement warrants and stock options to be issued pursuant to the Arrangement would be 17,254,173 (excluding certain World Copper warrants that will expire prior to the effective time of the Arrangement – see Note 4(b)) and 6,697,886, respectively, fair-valued at \$879,484 and \$682,940, respectively. The final Exchange Ratio will only be determined on the effective date of the Arrangement depending on, among other things, the number Plata Latina Shares and World Copper Shares issued and outstanding as of the effective time of the Arrangement.
- (d) In connection with the Arrangement, Plata Latina has entered into binding subscription agreements with investors pursuant to a non-brokered private placement of 170,000,000 units of Plata Latina (“Units”) at a price of \$0.10 per Unit for gross aggregate proceeds of \$17,000,000. Each Unit consists of one Plata Latina Share and one-half Plata Latina Share purchase warrant with each whole warrant being exercisable for one Plata Latina Share at a price of \$0.20 for a period of 18 months following closing of the Concurrent Financing. The closing of the Arrangement and Concurrent Financing are cross-conditional.

3. Pro-forma Assumptions and Adjustments

The accompanying unaudited pro-forma statement of financial position incorporates the following pro-forma assumptions and adjustments to give effect to the Arrangement and Concurrent Financing described in Note 2 as if it had occurred on June 30, 2025.

(a) Arrangement

The Arrangement has been accounted for as an asset acquisition as the assets acquired and liabilities assumed from Zonia Holdings do not constitute a business combination under *IFRS 3, Business Combination*. The fair value of the Cash Consideration and the Share Consideration has been allocated to the assets acquired and liabilities assumed, based on their fair values as at June 30, 2025.

ZONIA HOLDINGS CORP.

Notes to the Interim Consolidated Financial Statements

June 30, 2025

(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Zonia Holdings Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on June 16, 2006.

The Company is an exploration stage junior mining company currently engaged in the identification, acquisition, and exploration of mineral resources in the United States. The Company’s head office and records office are located at #1570 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6, Canada.

These interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern. Several adverse conditions may cast significant doubt on the validity of this assumption. The Company incurred a net loss of \$462,375 during the period ended June 30, 2025 (June 30, 2024 - \$402,808) and as at of June 30, 2024, has an accumulated deficit of \$173,058,700 (December 31, 2025 - \$172,596,325). The Company is currently unable to self-finance operations, has limited resources, has no source of operating cash flow, and has no assurances that sufficient funding will be available to conduct further exploration and development of its exploration and evaluation assets and to maintain operations.

The Company has relied principally upon its Parent, World Copper Ltd. (which trades under the symbol “WCU.V” on the TSX Venture Exchange), for intercompany loans for financing. Future capital requirements will depend on many factors, including the Company’s ability to execute its business plan. The Company intends to continue relying upon its Parent to finance its future activities, but there can be no assurance that such financial assistance will be available on a timely basis under terms acceptable to the Company.

These interim consolidated financial statements do not include any adjustments to the carrying amounts and classification of assets and liabilities that may result from the inability to secure future financing and therefore be unable to continue as a going concern. Such a situation would have a material adverse effect on the Company’s business, financial performance, and financial condition. Such adjustments could be material.

2. BASIS OF PRESENTATION

a) Basis of presentation

These interim condensed consolidated financial statements have been prepared using accounting policies consistent with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IFRS Accounting Standards”) and in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting. Accordingly, these interim consolidated financial statements do not include all of the information required for full IFRS Accounting Standards financial statements and therefore should be read in conjunction with the Company’s most recent annual consolidated financial statements for the year ended December 31, 2024, which were prepared in accordance with IFRS Accounting Standards.

They have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss or fair value through other comprehensive loss, which are stated at their fair value. In addition, these interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The Board of Directors approved these consolidated interim condensed financial statements for issue on August 28, 2025.

b) Functional and presentation currency

These interim consolidated financial statements are presented in Canadian dollars, which is the functional and presentation currency of the Company and its subsidiary.

ZONIA HOLDINGS CORP.

Notes to the Interim Consolidated Financial Statements

June 30, 2025

(Unaudited - Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)**c) Principles of consolidation**

These interim consolidated financial statements include the financial statements of the Company and the entity controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiary are included in the interim consolidated financial statements from the date that control commences until the date that control ceases. All significant inter-company transactions and balances have been eliminated.

The interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiary listed in the following table:

	Country of Incorporation	Principal Activity
Cardero Copper (USA) Inc.	USA	Mineral exploration

d) Critical estimates, judgments and assumptions

The preparation of the Company's interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

Critical accounting estimates

Critical accounting estimates are estimates made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and include, but are not limited to, the following:

Share-based payments

Share-based payments related to issuance of options and warrants is valued using the Black-Scholes option pricing model at the date of grant. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Share-based payment expense also utilizes subjective assumption on forfeiture rate. Changes in these input assumptions can significantly affect the fair value estimate.

Interest rates

The Company estimates a market interest rate in determining the fair value of the loans payable. The determination of market interest rate is subjective and could significantly affect the fair value estimate.

Significant judgments

The preparation of these interim consolidated financial statements requires management to use judgment in applying its accounting policies and estimates and assumptions about the future. The following discusses the most significant accounting judgments the Company has made in the preparation of the interim consolidated financial statements.

ZONIA HOLDINGS CORP.

Notes to the Interim Consolidated Financial Statements

June 30, 2025

(Unaudited - Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)**d) Critical estimates, judgments and assumptions (Continued)****Critical accounting estimates (Continued)****Going concern**

The assumption that the Company will be able to continue as a going concern is subject to critical judgments of management with respect to assumptions surrounding the short and long-term operating budget, expected profitability, investing and financing activities, and management's strategic planning. Should those judgments prove to be inaccurate, management's continued use of the going concern assumption could be inappropriate.

Exploration and evaluation assets impairment

At the end of each reporting period, the Company assesses each of its exploration and evaluation assets or cash-generating units ("CGUs") to determine whether any indication of impairment exists. The Company has used geographical proximity, geological similarities, analysis of shared infrastructure, commodity type, assessment of exposure to market risks, and materiality to define its CGUs.

Judgment is required in determining whether indicators of impairment exist, including factors such as: the period for which the Company has the right to explore, expected renewals of exploration rights, whether substantive expenditures on further exploration and evaluation of resource properties are budgeted or planned, and results of exploration and evaluation activities on the exploration and evaluation assets.

Modification versus extinguishment of financial liability

Judgment is required in applying IFRS 9 – *Financial Instruments* to determine whether the amended terms of the loan agreements are a modification of an existing financial liability and whether amendments that are substantial should be accounted for as an extinguishment of the original financial liability.

3. MATERIAL ACCOUNTING POLICIES**a) Exploration and evaluation assets**

All of the Company's projects are currently in the exploration and evaluation phase. Pre-exploration costs are expensed in the period in which they are incurred. Acquisition costs include cash consideration and the fair value of common shares issued and are capitalized as exploration and evaluation assets. Exploration and evaluation expenditures are expensed as incurred. These direct expenditures include such costs as materials used, geological and geophysical evaluation, surveying costs, drilling costs, payments made to contractors, and depreciation on equipment during the exploration phase. As the Company currently has no operational income, any incidental revenues earned in connection with exploration activities are recorded in profit and loss.

3. MATERIAL ACCOUNTING POLICIES (Continued)

b) Impairment of non-current assets

Non-current assets are evaluated at each reporting date by management for indicators that carrying value is impaired and may not be recoverable. When indicators of impairment are present, the recoverable amount of an asset is evaluated at the level of a cash-generating unit ("CGU"), the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets, where the recoverable amount of a CGU is the greater of the CGU's fair value less costs to sell and its value in use. An impairment loss is recognized in profit or loss to the extent the carrying amount exceeds the recoverable amount.

In calculating recoverable amount, if applicable, the Company uses discounted cash flow techniques to determine fair value when it is not possible to determine fair value either by quotes from an active market or a binding sales agreement.

Discounted cash flow techniques often require management to make estimates and assumptions, which if incorrect, could result in a material difference in the interim consolidated financial statements.

An impairment loss is reversed if there is an indication that there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment had been recognized.

c) Foreign currency translation

The functional currency of the Company and its subsidiaries is measured using the currency of the primary economic environment in which that entity operates.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in profit or loss.

Exchange differences arising on the translation of non-monetary items are recognized in other comprehensive income (loss) to the extent that gains and losses arising on those non-monetary items are also recognized in other comprehensive income (loss).

d) Financial instruments

Financial Assets

The Company recognizes a financial asset when it becomes a party to the contractual provisions of the instrument. The Company classifies financial assets at initial recognition as financial assets: measured at amortized cost, measured at fair value through other comprehensive income, or measured at fair value through profit or loss.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Assessment and decision on the business model approach used is an accounting judgment.

The Company only holds financial assets classified at fair value through profit or loss.

Financial assets measured at fair value through profit or loss ("FVTPL")

ZONIA HOLDINGS CORP.

Notes to the Interim Consolidated Financial Statements

June 30, 2025

(Unaudited - Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)**d) Financial instruments (Continued)**Financial Assets (Continued)

A financial asset measured at FVTPL is recognized initially at fair value with any associated transaction costs being recognized in profit or loss when incurred. Subsequently, the financial asset is re-measured at fair value, and a gain or loss is recognized in profit or loss in the reporting period in which it arises.

Impairment

In relation to the impairment of financial assets, IFRS 9 *Financial Instruments* requires an expected credit loss model. The expected credit loss model requires the Company to account for expected credit losses ("ECL") and changes in those ECL at each reporting date to reflect changes in credit risk since initial recognition of the financial assets.

Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument. A financial liability is derecognized when it is extinguished, discharged, cancelled, or when it expires. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or financial liabilities subsequently measured at amortized cost. All interest-related charges are reported in profit or loss within interest expense, if applicable.

As at June 30, 2025 and December 31, 2024, the Company's financial instruments are comprised of cash, receivables excluding GST, deposits, accounts payable and accrued liabilities, loan payable, related party loans, and due to parent.

e) New accounting pronouncements

The Company is performing an assessment of upcoming accounting standards that are not yet effective to assess the impact of adopting these accounting standards on its interim consolidated financial statements.

EXTENTIONS – ZONIA AND OTHER LOAN ADVANCES

On August 13, 2024, the Company extended the due dates on advances from E.L. II Properties Trust (related to a Director of the Company). Four loans in the aggregate amount of USD\$1,380,265 and CAD\$85,000 were to be extended to have new due dates of February 22, 2026, and May 22, 2026, as noted above. The issued warrants contain a clause that restricts exercise if exercising causes the holders' ownership to exceed 19.99%. In accordance with IFRS 9 – *Financial Instruments*, the Company determined the extension of the loans and grant of bonus warrants meet the definition of a substantial modification and was accounted for as an extinguishment of debt. The fair value of the liability portion at the time of amendment was determined based on an estimated discount rate of 23%, the bonus warrants of \$270,330 were valued using Black-Scholes option pricing model with the following assumptions: risk-free rate of 3.24%, expected volatility of 111%, expected dividend of \$Nil, and expected life of 2 years.

During the year ended December 31, 2024, the Company repaid the following amounts on the outstanding loans:

9. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to accounts receivable excluding GST and cash. The Company's management believes it has no significant credit risk.

The financial instrument that potentially subjects the Company to a significant concentration of credit risk is cash. The Company mitigates its exposure to credit loss associated with cash by placing its cash in major financial institutions. As at June 30, 2025, the Company had cash of \$3,570 (December 31, 2024 - \$9,608).

Interest rate risk

Interest rate risk is the risk that future cash flows of the Company's assets and liabilities can change due to a change in interest rates. Loans payable have a fixed interest rate between 8% and 12% and cash earns interest rate at a nominal rate. The Company is not exposed to significant interest rate cash flow risk.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At December 31, 2024, the Company had a cash balance of \$9,608 (2023 indebtedness - \$951) to settle current liabilities of \$499,069 (2023 - \$5,105,830). All of the Company's accounts payable and accrued liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. Related party loans and loan payable have varying payment terms as noted in Notes 5 and 6. The Company expects to fund these liabilities through the use of existing cash resources and will need to obtain additional equity financing. The Company's undiscounted financial liabilities are due as follows:

As at June 30, 2025:

	0 to 3 months	3 to 6 months	6 to 12 months	More than 12 months	Total
Accounts payable and accrued liabilities	\$ 370,521	\$ -	\$ -	\$ -	\$ 370,521

As at December 31, 2024:

	<u>\$ 499,069</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,251,039</u>	<u>\$ 2,750,108</u>

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and equity prices. The Company is not exposed to significant interest rate or equity price risks at June 30, 2025 and December 31, 2024.

9. FINANCIAL INSTRUMENTS (Continued)*Foreign currency risk*

The Company is exposed to foreign currency risk as certain monetary financial instruments are denominated in United States currencies. Canadian dollar denominated balances generated foreign exchange gains and losses that are reported on the interim consolidated statement of loss and comprehensive loss. A strengthening of 10% in the US dollars against the Canadian dollar would have increased the Company's net loss and comprehensive loss by \$217,600 (December 31, 2024 - \$224,100) due to the impact of the exchange rate fluctuation on Canadian dollar denominated financial instruments.

At June 30, 2025, and December 31, 2024, the Company had the following financial instruments denominated in United States Dollars (presented in Canadian dollars):

	June 30, 2025	December 31, 2024
Cash	\$ -	\$ (15)
Accounts payable and accrued liabilities	(108,425)	(133,669)
Loans	(2,067,580)	(2,107,000)
Net	\$ (2,176,005)	\$ (2,240,684)

Fair value

The fair value of the Company's cash, receivables excluding GST, and accounts payable and accrued liabilities approximates the carrying amount due to their short-term maturity of the instruments. The fair value of related party loans and loan payable is determined by using discounted cash flows based on the expected amounts and timing of the cash flows discounted using a market rate of interest adjusted for appropriate credit risk.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's fair value hierarchy is as follows:

As at	June 30, 2025			
	Level 1	Level 2	Level 3	
Accounts payable and accrued liabilities	\$ 370,521	\$ -	\$ -	
Related party loans		2,118,520	-

12. SUBSEQUENT EVENT

On July 22, 2025, the Company's Parent World Copper Ltd. ("World Copper") and Plata Latina Minerals Corporation ("Plata Latina") entered into an arm's length definitive agreement (the "Transaction Agreement") for Plata Latina to acquire the Company, and the Zonia Copper Project ("Zonia") in Arizona from World Copper for consideration of cash and common shares of Plata Latina ("Plata Latina Shares") by way of a court-approved plan of arrangement (the "Transaction").

Under the terms of the Transaction, World Copper will receive \$10.5 million in cash (the "Cash Consideration") and such number of Plata Latina Shares as results in World Copper and its shareholders owning approximately 31.3% of Plata Latina, on a non-diluted basis, immediately following closing of the Transaction and the Concurrent Financing (as defined below) (the "Share Consideration"). The aggregate Cash Consideration and Share Consideration are valued at approximately \$22 million, which implies a value of approximately \$0.085 per common share of World Copper (the "World Copper Shares").

In connection with the Transaction, Plata Latina has entered into binding subscription agreements with investors pursuant to a non-brokered private placement of units of Plata Latina ("Plata Latina Units") at a price of \$0.10 per Plata Latina Unit for gross aggregate proceeds of \$17 million (the "Concurrent Financing"). The proceeds of the Concurrent Financing are being allocated to finance the Cash Consideration and to fund exploration and development of Zonia, including drilling, metallurgical test work, feasibility study work and permitting work, and for general working capital and corporate purposes. No commission or brokerage or finder's fee is payable in connection with the Concurrent Financing.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF ZONIA HOLDINGS CORP.

Opinion

We have audited the consolidated financial statements of Zonia Holdings Corp. and its subsidiary (the "Company"), which comprise:

- ◆ the consolidated statement of financial position as at December 31, 2024;
- ◆ the consolidated statement of loss and comprehensive loss for the year then ended;
- ◆ the consolidated statement of changes in shareholder's (deficiency) equity for the year then ended;
- ◆ the consolidated statement of cash flows for the year then ended; and
- ◆ the notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Comparative Information

The consolidated financial statements of the Company for the year ended December 31, 2023 are unaudited.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial statements, which indicates that the Company incurred a net loss of \$1,135,564 during the year ended December 31, 2024 and as at of that date, has an accumulated deficit of \$172,596,325 and a working capital deficiency of \$5,007,942. As stated in Note 1, this event, along with other matters, indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ◆ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ◆ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ◆ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ◆ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ◆ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ◆ Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

ZONIA HOLDINGS CORP.

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Zonia Holdings Corp. (the “Company”) was incorporated under the Business Corporations Act (British Columbia) on June 16, 2006.

The Company is an exploration stage junior mining company currently engaged in the identification, acquisition, and exploration of mineral resources in the United States. The Company’s head office and records office are located at #1570 – 200 Burrard Street, Vancouver, British Columbia, V6C 3L6, Canada.

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern. Several adverse conditions may cast significant doubt on the validity of this assumption. The Company incurred a net loss of \$1,135,564 during the year ended December 31, 2024 (2023 - \$2,010,290) and as at of December 31, 2024, has an accumulated deficit of \$172,596,325 (2023 - \$171,460,761) and working capital deficiency of \$5,007,942 (2023 - \$5,829,336). The Company is currently unable to self-finance operations, has limited resources, has no source of operating cash flow, and has no assurances that sufficient funding will be available to conduct further exploration and development of its exploration and evaluation assets and to maintain operations.

The Company has relied principally upon its parent, World Copper Ltd. (“World Copper” or “Parent”) (which trades under the symbol “WCU.V” on the TSX Venture Exchange), for intercompany loans for financing. Future capital requirements will depend on many factors, including the Company’s ability to execute its business plan. The Company intends to continue relying upon its Parent to finance its future activities, but there can be no assurance that such financial assistance will be available on a timely basis under terms acceptable to the Company.

These consolidated financial statements do not include any adjustments to the carrying amounts and classification of assets and liabilities that may result from the inability to secure future financing and therefore be unable to continue as a going concern. Such a situation would have a material adverse effect on the Company’s business, financial performance, and financial condition. Such adjustments could be material.

2. BASIS OF PRESENTATION**a) Basis of presentation**

These consolidated financial statements have been prepared in accordance with the IFRS Accounting Standards as issued by the International Accounting Standards Board (“IFRS Accounting Standards”).

They have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss or fair value through other comprehensive loss, which are stated at their fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The Board of Directors approved these consolidated financial statements for issue on August 28, 2025.

b) Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is the functional and presentation currency of the Company and its subsidiary.

ZONIA HOLDINGS CORP.

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)**c) Principles of consolidation**

These consolidated financial statements include the financial statements of the Company and the entity controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. All significant intercompany transactions and balances have been eliminated.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary listed in the following table:

	Country of Incorporation	Principal Activity
Cardero Copper (USA) Inc.	USA	Mineral exploration

d) Critical estimates, judgments and assumptions

The preparation of the Company's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from these estimates.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

Critical accounting estimates

Critical accounting estimates are estimates made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and include, but are not limited to, the following:

Share-based payments

Share-based payments related to issuance of options and warrants is valued using the Black-Scholes option pricing model at the date of grant. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Share-based payment expense also utilizes subjective assumption on forfeiture rate. Changes in these input assumptions can significantly affect the fair value estimate.

Interest rates

The Company estimates a market interest rate in determining the fair value of the loans payable. The determination of market interest rate is subjective and could significantly affect the fair value estimate.

Significant judgments

The preparation of these consolidated financial statements requires management to use judgment in applying its accounting policies and estimates and assumptions about the future. The following discusses the most significant accounting judgments the Company has made in the preparation of the consolidated financial statements.

ZONIA HOLDINGS CORP.

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION (Continued)**d) Critical estimates, judgments and assumptions (Continued)****Significant judgments (Continued)****Going concern**

The assumption that the Company will be able to continue as a going concern is subject to critical judgments of management with respect to assumptions surrounding the short- and long-term operating budget, expected profitability, investing and financing activities, and management's strategic planning. Should those judgments prove to be inaccurate, management's continued use of the going concern assumption could be inappropriate.

Exploration and evaluation assets impairment

At the end of each reporting period, the Company assesses each of its exploration and evaluation assets or cash-generating units ("CGUs") to determine whether any indication of impairment exists. The Company has used geographical proximity, geological similarities, analysis of shared infrastructure, commodity type, assessment of exposure to market risks, and materiality to define its CGUs.

Judgment is required in determining whether indicators of impairment exist, including factors such as: the period for which the Company has the right to explore, expected renewals of exploration rights, whether substantive expenditures on further exploration and evaluation of resource properties are budgeted or planned, and results of exploration and evaluation activities on the exploration and evaluation assets.

Modification versus extinguishment of financial liability

Judgment is required in applying IFRS 9 – *Financial Instruments* to determine whether the amended terms of the loan agreements are a modification of an existing financial liability and whether amendments that are substantial should be accounted for as an extinguishment of the original financial liability.

3. MATERIAL ACCOUNTING POLICIES**a) Exploration and evaluation assets**

All of the Company's projects are currently in the exploration and evaluation phase. Pre-exploration costs are expensed in the period in which they are incurred. Acquisition costs include cash consideration and the fair value of common shares issued and are capitalized as exploration and evaluation assets. Exploration and evaluation expenditures are expensed as incurred. These direct expenditures include such costs as materials used, geological and geophysical evaluation, surveying costs, drilling costs, payments made to contractors, and depreciation on equipment during the exploration phase. As the Company currently has no operational income, any incidental revenues earned in connection with exploration activities are recorded in profit and loss.

ZONIA HOLDINGS CORP.

Notes to the Consolidated Financial Statements

December 31, 2024 and 2023

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)**b) Impairment of non-current assets**

Non-current assets are evaluated at each reporting date by management for indicators that carrying value is impaired and may not be recoverable. When indicators of impairment are present, the recoverable amount of an asset is evaluated at the level of a cash-generating unit ("CGU"), the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets, where the recoverable amount of a CGU is the greater of the CGU's fair value less costs to sell and its value in use. An impairment loss is recognized in profit or loss to the extent the carrying amount exceeds the recoverable amount.

In calculating recoverable amount, if applicable, the Company uses discounted cash flow techniques to determine fair value when it is not possible to determine fair value either by quotes from an active market or a binding sales agreement.

Discounted cash flow techniques often require management to make estimates and assumptions, which if incorrect, could result in a material difference in the consolidated financial statements.

An impairment loss is reversed if there is an indication that there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment had been recognized.

c) Foreign currency translation

The functional currency of the Company and its subsidiaries is measured using the currency of the primary economic environment in which that entity operates.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Exchange differences arising on the translation of monetary items or on settlement of monetary items are recognized in profit or loss.

Exchange differences arising on the translation of non-monetary items are recognized in other comprehensive income (loss) to the extent that gains and losses arising on those non-monetary items are also recognized in other comprehensive income (loss).

d) Financial instrumentsFinancial Assets

The Company recognizes a financial asset when it becomes a party to the contractual provisions of the instrument. The Company classifies financial assets at initial recognition as financial assets: measured at amortized cost, measured at fair value through other comprehensive income, or measured at fair value through profit or loss.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Assessment and decision on the business model approach used is an accounting judgment.

The Company only holds financial assets classified at fair value through profit or loss.

(Expressed in Canadian Dollars)

3. MATERIAL ACCOUNTING POLICIES (Continued)**d) Financial instruments (Continued)**Financial Assets (Continued)*Financial assets measured at fair value through profit or loss ("FVTPL")*

A financial asset measured at FVTPL is recognized initially at fair value with any associated transaction costs being recognized in profit or loss when incurred. Subsequently, the financial asset is re-measured at fair value, and a gain or loss is recognized in profit or loss in the reporting period in which it arises.

Impairment

In relation to the impairment of financial assets, IFRS 9 *Financial Instruments* requires an expected credit loss model. The expected credit loss model requires the Company to account for expected credit losses ("ECL") and changes in those ECL at each reporting date to reflect changes in credit risk since initial recognition of the financial assets.

Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument. A financial liability is derecognized when it is extinguished, discharged, cancelled, or when it expires. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or financial liabilities subsequently measured at amortized cost. All interest-related charges are reported in profit or loss within interest expense, if applicable.

As at December 31, 2024 and 2023, the Company's financial instruments are comprised of cash, receivables excluding GST, deposits, accounts payable and accrued liabilities, loan payable, related party loans, and due to parent.

e) New accounting pronouncements

The Company is performing an assessment of upcoming accounting standards that are not yet effective to assess the impact of adopting these accounting standards on its consolidated financial statements.

5. RELATED PARTY LOANS (Continued)**OTHER LOAN ADVANCES**

The Company has three loan agreements with E.L. II Properties Trust, for unsecured loans (the “Loan Advances”) in the aggregate of USD\$750,265 plus accrued interest. EXTENTIONS – ZONIA AND OTHER LOAN ADVANCES

On January 10, 2023, the Company extended the due dates on advances from E.L. II Properties Trust. Four loans in the aggregate amount of USD\$1,065,265 were extended to February 22, 2024. In connection, the Company’s parent company issued 10,321,657 non-transferable bonus warrants to purchase common shares of the parent company at an exercise price of \$0.14 per share expiring on February 22, 2024. In accordance with IFRS 9 – Financial Instruments, the Company determined the extension of the loans and grant of bonus warrants meets the definition of a substantial modification and was accounted for as an extinguishment of debt. The fair value of the liability portion at the time of amendment was determined based on an estimated discount rate of 23%. The fair value of the bonus warrants issued by the parent company was calculated as \$937,647 using the Black-Scholes option pricing model with the following assumptions: risk-free rate of 4.25%, expected volatility of 87%, expected dividend of \$Nil, and expected life 1 year and included within due to parent. Consequently, the bonus warrants of \$937,647, net of a gain on extinguishment of debt of \$241,446, totaling \$696,201 was recognized as a loss on extinguishment in the consolidated statements of loss and comprehensive loss.

On August 13, 2024, the Company extended the due dates on advances from E.L. II Properties Trust (related to a Director of the Company). Four loans in the aggregate amount of USD\$1,380,265 and CAD\$85,000 were to be extended to have new due dates of February 22, 2026, and May 22, 2026, as noted above. In connection, the Company’s parent company issued 7,251,925 non-transferable bonus warrants to purchase common share of the parent company at an exercise price of \$0.135 CAD per share expiring July 18, 2026. In accordance with IFRS 9 – Financial Instruments, the Company determined the extension of the loans and grant of bonus warrants meet the definition of a substantial modification and was accounted for as an extinguishment of debt. The fair value of the liability portion at the time of amendment was determined based on an estimated discount rate of 23%. The fair value of the bonus warrants issued by the parent company was calculated as \$270,330 using the Black-Scholes option pricing model with the following assumptions: risk-free rate of 3.24%, expected volatility of 111%, expected dividend of \$Nil, and expected life of 2 years and included within due to parent. Consequently, the bonus warrants of \$270,330, net of a gain on extinguishment of debt of \$362,292, totaling \$91,962 was recognized as a gain on extinguishment in the consolidated statements of loss and comprehensive loss.

During the year ended December 31, 2024, the Company repaid the following amounts on the outstanding loans:

8. CAPITAL MANAGEMENT

The Company manages its capital structure to maximize its financial flexibility making adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets and business opportunities. The Company does not presently utilize any quantitative measures to monitor its capital and is not subject to externally imposed capital requirements.

The Company currently has no source of revenues; as such, the Company is dependent upon the Parent (World Copper Ltd.) or the sale of assets (or an interest therein) to fund activities. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. 9. FINANCIAL INSTRUMENTS

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfil its payment obligations. The Company's credit risk is primarily attributable to accounts receivable excluding GST and cash. The Company's management believes it has no significant credit risk.

As at December 31, 2024, the Company had cash of \$9,608 (2023 indebtedness - \$951).

Interest rate risk

Interest rate risk is the risk that future cash flows of the Company's assets and liabilities can change due to a change in interest rates. Loans payable have a fixed interest rate between 8% and 12% and cash earns interest rate at a nominal rate. The Company is not exposed to significant interest rate cash flow risk.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. At December 31, 2024, the Company had a cash balance of \$9,608 (2023 indebtedness - \$951) to settle current liabilities of \$5,020,670 (2023 - \$5,845,995). All of the Company's accounts payable and accrued liabilities and due to parent have contractual maturities of 30 days or due on demand and are subject to normal trade terms. Related party loans and loan payable have varying payment terms as noted in Notes 5 and 6. The Company expects to fund these liabilities through the use of existing cash resources and will need to obtain additional equity financing. The Company's undiscounted financial liabilities are due as follows:

As at December 31, 2024:

	0 to 3 months		4 to 6 months		7 to 12 months		More than 12 months	Total

9. FINANCIAL INSTRUMENTS (Continued)*Foreign currency risk*

The Company is exposed to foreign currency risk as certain monetary financial instruments are denominated in United States currencies. Canadian dollar denominated balances generated foreign exchange gains and losses that are reported on the consolidated statement of loss and comprehensive loss. A strengthening of 10% in the Chilean and US dollars against the Canadian dollar would have increased the Company's net loss and comprehensive loss by \$224,100 (2023 - \$314,400) due to the impact of the exchange rate fluctuation on Canadian dollar denominated financial instruments.

At December 31, 2024, the Company had the following financial instruments denominated in United States Dollars (presented in Canadian dollars):

	2024	2023
Bank indebtedness	\$ (15)	\$ (1,039)
Accounts payable and accrued liabilities	(133,669)	(122,269)
Loans	(2,107,000)	(3,020,301)
Net	\$ (2,240,684)	\$ (3,143,609)

Fair value

The fair value of the Company's cash, receivables excluding GST, accounts payable and accrued liabilities, and related party loans and loan payable approximates the carrying amount due to their short-term maturity of the instruments.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's fair value hierarchy is as follows:

As at	December 31, 2024			
	Level 1	Level 2	Level 3	
Accounts payable and accrued liabilities	\$ 375,886	\$ -	\$ -
