Form 51–102F3
MATERIAL CHANGE REPORT

Item 1 Name and Address of Company

Aether Global Innovations Corp. (the "**Company**")
480-789 West Pender Street
Vancouver BC V6C 1H2

Item 2 Date of Material Change

March 6, 2026

Item 3 News Release

The news release attached hereto as Schedule "A" announcing the material change described herein was disseminated through The Newswire and subsequently filed on SEDAR+ on March 6, 2026.

Item 4 Summary of Material Change

On March 6, 2026, the Company announced that it had received all necessary approvals from the U.S. Department of Homeland Security and the U.S. Department of Defense relating to the transfer of the underlying technology license for the Footwear Screening Platform from Arion Defense Inc. to the Company, effective upon completion of the Company's proposed acquisition of Arion. Completion of the proposed acquisition remains subject to certain conditions, including the execution of definitive agreements, completion of due diligence, and receipt of all required corporate, regulatory, and Canadian Securities Exchange approvals.

Item 5 Full Description of Material Change

5.1 Full Description of Material Change

For more information, please see Schedule "A".

5.2 Disclosure for Restructuring Transactions

Not Applicable.

Item 6 Reliance on subsection 7.1(2) of National Instrument 51–102

Not Applicable.

Item 7 Omitted Information

None.

Item 8 Executive Officers

The following senior officer of the Company is knowledgeable about the material change and this Material Change Report and may be contacted:

Rick Unrau
Chief Executive Officer
Email: rick@aethergic.com

Item 9 Date of Report

Dated at Vancouver, BC, this 13th day of March 2026.

Schedule “A”

Aether Global Innovations Receives DHS and DoD Approvals for License Transfer of Advanced Footwear Screening Technology

- *DHS and DoD approvals clear the way for Aether to assume exclusive license to next-generation footwear screening technology*

VANCOUVER, BC – March 6, 2026 – Aether Global Innovations Corp. (CSE: AETH) (OTC: AETHF) (Frankfurt: 4XA) (WKN# A2N8RH) (“**Aether**” or the “**Company**”), a drone management and automation company, today announced that it has received all necessary approvals from the U.S. Department of Homeland Security (“**DHS**”) and the U.S. Department of Defense (“**DoD**”) related to the transfer of the underlying technology license for a modern Footwear Screening Platform (the “**FSP**”) from Arion Defense Inc. (“**Arion**”) to Aether, effective upon completion of Aether’s proposed acquisition of Arion (the “**Proposed Transaction**”). These approvals represent a key regulatory milestone for the Proposed Transaction and are expected to enable Aether to assume the exclusive license to the FSP technology once the acquisition closes.

Through its pending acquisition of Arion, Aether plans to obtain rights to the exclusive FSP, a modern footwear scanning system licensed from Pacific Northwest National Laboratory. The FSP uses millimeter-wave imaging combined with AI-enhanced analysis to detect concealed weapons, explosives, and contraband in footwear without requiring passengers to remove their shoes, enabling both high-throughput operations and consistent inspection of shoes that might otherwise bypass detailed screening.

The FSP is designed for deployment in high-throughput security environments such as airports, transportation hubs and other critical infrastructure locations where both security effectiveness and operational efficiency are priorities. Within Aether’s broader platform, the FSP will complement counter-UAS systems, ISR-enabled unmanned technologies and advanced screening solutions, supporting an integrated approach to protecting air travel, borders, and other high-value public and private sites.

“As we continue to work toward the Arion transaction, obtaining DHS and DoD approvals for the transfer of this license is a critical step in making the deal executable and in positioning Aether to bring this technology to market,” said Rick Unrau, Chief Executive Officer of Aether. “Recent discussion around aviation screening highlights the growing need for technologies that can strengthen security while maintaining passenger experience and throughput, and Arion’s footwear screening technology is designed to address that challenge while delivering the detailed threat detection that agencies and airport operators still require.”

As disclosed in Aether’s prior news releases dated December 10, 2025 and January 22, 2026, Aether has entered into a letter of intent (the “**LOI**”) with Arion, contemplating the Proposed Transaction. The LOI is non-binding and does not constitute a definitive agreement. Completion of the Proposed Transaction remains subject to a number of conditions, including, without limitation, the negotiation and execution of definitive documentation, completion of due diligence to the satisfaction of the parties and receipt of all required corporate, regulatory, and Canadian Securities Exchange (the “**Exchange**”) approvals. There can be no assurance that the Proposed Transaction will be completed on the terms contemplated in the LOI or at all.

About Aether Global Innovations Corp.

Aether Global Innovations Corp. (AETH) is a defense and security technology company focused on unmanned systems, counter-drone solutions, and advanced security scanning for critical infrastructure and high-value public and private sites. Aether operates a disciplined platform model, acquiring and partnering with proven operators that have established revenue, intellectual property, and government relationships, then scaling these assets through integration, capital deployment, and global distribution. By combining counter-UAV capabilities, ISR-oriented unmanned systems, and advanced screening technologies, Aether aims to deliver rapidly deployable, mission-focused solutions that enhance the safety, resilience, and operational awareness of its customers. Forward-Looking Statements

This news release contains “forward-looking statements” within the meaning of applicable Canadian securities legislation, which are based on expectations, estimates and projections as of the date of this news release. Forward-looking statements in this news release include, but are not limited to, statements with respect to: the consummation of the Proposed Transaction; planned integration of the FSP into Aether’s product suite, including transfer of the license underlying the technology, and the strategy and business purpose thereof; functionality and use-cases for the FSP; and demand for technologies that can strengthen security while maintaining passenger experience and throughput. Forward-looking statements are often, but not always, identified by words such as “anticipates”, “expects”, “plans”, “intends”, “believes”, “proposes”, “potential”, "scheduled", "may", "will", "could", "would", "should", "might", "project", "estimate", "continue", "expect", "intend", "forecast", "future", and similar expressions or the negative of these terms or other comparable terminology. Forward-looking statements are based on management’s current expectations, assumptions and beliefs, including assumptions regarding: the parties’ ability to complete the Proposed Transaction; the anticipated opportunities and synergies relating to the FSP; and the functionality and use-cases for the FSP. Forward-looking statements are subject to a number of risks and uncertainties including, but not limited to: that the Proposed Transaction may not be completed in a timely manner or at all; the failure to satisfy the conditions to the consummation of the Proposed Transaction; the ability of Aether or Arion to execute their respecting business plans and realize the benefits and opportunities from the Proposed Transaction and the FSP technology; general economic conditions; industry trends; and regulatory and exchange approvals. Readers are cautioned not to place undue reliance on forward-looking statements, as actual results may differ materially from those expressed or implied by such statements. Except as required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.
