The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. The Corporation does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment. The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment (based on the gross proceeds from this and prior issuances without deduction of selling and related expenses) per Common Share of \$0.025 or 25%. There can be no assurance that an active and liquid market for the Corporation’s Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such Persons or Companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See “Business of the Corporation”, “Directors, Officers and Promoters - Conflicts of Interest”, “Capitalization”, “Dilution” and “Risk Factors”.

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "Business of the Corporation - Trading Halts, Suspensions and Delisting". Within 75 days after issuance of such news release, the Corporation is required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

- (a) file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
- (b) mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (i) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (ii) confirmation of closing of the Qualifying Transaction; and
- (iii) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding

the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form, where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms or, if applicable, declarations, for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary background searches that the Exchange considers necessary or advisable, must also be completed, before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the Issuer or its remaining assets in some other manner.

If the Corporation has not completed a Qualifying Transaction within the time frame prescribed by the CPC Policy, it may apply for listing on NEX (the market on which former Exchange and Toronto Stock Exchange Issuers that do not meet the Initial Listing Requirements for Tier 2 issuers may continue to trade) rather than be delisted. In order to be eligible to list on NEX the Corporation must:

- (a) obtain majority shareholder approval for the transfer to NEX exclusive of the votes of Non Arm's Length Parties of the Corporation; and
- (b) either:

- (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the IPO price, in accordance with section 11.2(a) of the CPC Policy, as if the Corporation had delisted from the Exchange, or
- (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If the Corporation lists on the NEX, the Corporation must continue to comply with all the requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;
 - (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) Associates of any such Person,collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
- (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
- (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

- (1) Assuming no Common Shares are purchased by these persons under the Offering and assuming no exercise of the Directors’ and Officers’ Options or the Agent’s Warrants.

- (2) Grand Rock Capital Inc. is a private company wholly owned and controlled by Mr. Kim Oishi, a director, officer and promoter of the Company.
- (3) Northern Meadows Enterprises Inc. is a private company wholly owned and controlled by Veronica Vinje, an officer of the Company.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a “**holding company**”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities that could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “**Initial Release**”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Initial Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange’s prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm’s Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this prospectus has irrevocably authorized and directed the Trustee to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm’s Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm’s Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are “Value Securities”, then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the “**Value Security**”).

Escrow Agreement”). “Value Securities” are securities issued pursuant to a transaction for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a “**Surplus Security Escrow Agreement**”).

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities being releasable every 6 months thereafter until the date which is 36 months after the Final Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a 3 year escrow release mechanism with 5% of the escrowed securities releasable at the time of the Final Exchange Bulletin, 5% on the date which is 6 months after the Final Exchange Bulletin, 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin, 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for an 18 month escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30 % on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer,
 - (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period, and
 - (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

Corporate Cease Trade Orders or Bankruptcies

No director, officer, Insider or Promoter or a shareholder holding a sufficient number of securities to affect materially the control of the Corporation is, or within ten years before the date of the prospectus, has been, a director, officer, Insider or Promoter of any other issuer that, while that person was acting in that capacity, was the subject of a cease trade or similar order, or an order that denied such issuer access to any statutory exemptions for a period of more than 30 consecutive days or became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

Penalties or Sanctions

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a

securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority or has been subject to any other penalties or sanctions imposed by a court or regulatory body or self-regulatory authority that would likely be considered important to a reasonable investor in making an investment decision.

Personal Bankruptcies

No director, officer, Insider or Promoter of the Corporation, or a shareholder of the Corporation holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation, or a personal holding company of any such persons has, within the 10 years before the date of this prospectus, as applicable, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or has been subject to or has instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold such person's assets.

Conflicts of Interest

There are potential conflicts of interest to which the directors, officers, Insiders and Promoters of the Corporation may be subject in connection with the operations of the Corporation. All of the directors, officers, Insiders and Promoters are engaged in and will continue to be engaged in corporations or businesses which may be in competition with the search by the Corporation for businesses or assets in order to close a Qualifying Transaction. Accordingly, situations may arise where the directors, officers, Insiders and Promoters will be in direct competition with the Corporation. Conflicts, if any, will be subject to the procedures and remedies as provided under the *Business Corporations Act* (British Columbia).

Executive Compensation

Except as set out below or otherwise disclosed in this prospectus, prior to Completion of a Qualifying Transaction, no payment of any kind has been made, or will be made, directly or indirectly, by the Corporation to a Non Arm's Length Party to the Corporation or a Non Arm's Length Party to the Qualifying Transaction, or to any person engaged in investor relations activities in respect of the securities of the Corporation or any Resulting Issuer by any means, including:

- (a) remuneration, which includes but is not limited to:
 - (i) salaries;
 - (ii) consulting fees;
 - (iii) management contract fees or directors' fees;
 - (iv) finder's fees;
 - (v) loans, advances, bonuses; and
- (b) deposits and similar payments.

Although the Corporation may reimburse Non Arm's Length Parties for the Corporation's reasonable allocation of rent, secretarial services and other general administrative expenses, at fair market value ("**Permitted Reimbursement**"), there have been no such reimbursements since incorporation. No reimbursement may be made for any payment made to lease or buy a vehicle.

The directors and officers of the Corporation will also be granted the Directors' and Officers' Options. See "Plan of Distribution" and "Options to Purchase Securities".

Following Completion of the Qualifying Transaction, it is anticipated that the Corporation shall pay compensation to its officers. However, no payment other than the Permitted Reimbursements, will be made by the Corporation or by any party on behalf of the Corporation, after Completion of the Qualifying

Transaction, if the payment relates to services rendered or obligations incurred or in connection with the Qualifying Transaction.

DILUTION

Purchasers of Common Shares under this prospectus will suffer an immediate dilution of \$0.025 per Common Share or 25% on the basis of there being 8,000,000 Common Shares of the Corporation issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds to be raised by this prospectus and from sales of securities prior to the filing of this prospectus, without deduction of commissions or related expenses incurred by the Corporation, as set forth below:

Item	Total Offering (\$)
Gross proceeds of prior share issues	200,000
Gross proceeds of this Offering	400,000
Total gross proceeds after this Offering	600,000
Offering price per share	0.10
Proceeds per share after this Offering	0.075
Dilution per share to subscriber	0.025
Percentage of dilution in relation to offering price	25%

ELIGIBILITY FOR INVESTMENT

In the opinion of Clark Wilson LLP, counsel to the Corporation, based on the current provisions of the Income Tax Act (Canada) (the “**Tax Act**”) and the regulations thereunder, and any specific proposals to amend the Tax Act publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof, provided that either the Common Shares are listed on a “designated stock exchange” as defined in the Tax Act (which currently includes the Exchange), or the Corporation is a “public corporation”, as defined in the Tax Act, the Common Shares would, if issued on the date hereof, be a “qualified investment” under the Tax Act for trusts governed by registered retirement savings plans (“**RRSPs**”), registered retirement income funds (“**RRIFs**”), deferred profit sharing plans, registered education savings plans, registered disability savings plans and tax-free savings accounts (“**TFSAs**”).

The Common Shares are not currently listed on a “designated stock exchange”. However, the Corporation is applying to list the Common Shares on the Exchange prior to the time of Closing. In addition, the Corporation intends to file an election in its tax return for its first taxation year on or before its first filing due date to be deemed to have been a public corporation from the beginning of that taxation year, and the Issuer will provide a covenant in the Agency Agreement to this effect.

Notwithstanding that the Common Shares may be a “qualified investment” for a trust governed by a TFSA, RRSP or RRIF (each, a “**Registered Plan**”) the holder of a TFSA, or an annuitant of an RRSP or RRIF, will be subject to a penalty tax with respect to the Common Shares held in a Registered Plan if such securities are a “prohibited investment” within the meaning of the Tax Act. The Common Shares will generally not be a “prohibited investment” for a Registered Plan provided that the holder or annuitant of the Registered Plan deals at arm’s length with the Corporation for the purposes of the Tax Act and does not have a “significant interest”, as defined in the Tax Act, in the Issuer or in a corporation, partnership or trust that does not deal at arm’s length with the Corporation for the purposes of the Tax Act. **Prospective purchasers who intend to hold Common Shares in a Registered Plan are urged to consult their own tax advisors to ensure that the Common Shares would not constitute a “prohibited investment” in their particular circumstances.**

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by this prospectus is highly speculative given the proposed nature of the Corporation's business and its present stage of development;
- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time. See "Directors, Officers and Promoter - Conflicts of Interest";
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of \$0.025 per Common Share or 25%;
- (e) there can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;
- (i) Completion of the Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;

- (l) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service of notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in all or part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation;
- (q) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan; and
- (r) if the Corporation does not list the Common Shares on the Exchange prior to the time of Closing or does not make an election to be a "public corporation" for purposes of the Tax Act in the manner contemplated under "Eligibility for Investment", adverse tax consequences will arise with respect to any Common Shares held in RRSPs, RRIFs, TFSAs or other deferred plans.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

LEGAL PROCEEDINGS

The Corporation is not currently a party to any legal proceedings, nor is the Corporation currently contemplating any legal proceedings, which are material to its business. Management of the Corporation is currently not aware of any legal proceedings contemplated against the Corporation.

RELATIONSHIP BETWEEN THE CORPORATION AND THE AGENT

The Corporation is not a "related issuer" or "connected issuer" of the Agent for the purposes of National Instrument 33-105 - Underwriting Conflicts.

RELATIONSHIP BETWEEN THE CORPORATION AND PROFESSIONAL PERSONS

Certain legal matters relating to this Offering will be passed upon by Clark Wilson LLP, Vancouver, British Columbia, on behalf of the Corporation, and by Miller Thomson, LLP, Vancouver, British Columbia, on behalf of the Agent.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of KCO Capital Inc. as at May 31, 2012 and its financial performance and its cash flows for the period then ended in accordance with International Financial Reporting Standards.

Notes to the Financial Statements

(Expressed in Canadian Dollars)

May 31, 2012

1. Nature of operations

KCO Capital Inc. ("KCO" or the "Company") was incorporated on July 29, 2011 under the laws of British Columbia. The Company is in the process of completing an initial public offering to be classified as a Capital Pool Company as defined in the TSX Venture Exchange ("TSX-V") Policy 2.4 in order to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities (the "Qualifying Transaction"). Until the completion of a Qualifying Transaction, the Company will not carry on any business other than the identification and evaluation of assets or business in connection with a potential Qualifying Transaction.

The Company's head office address is #300 - 1055 West Hastings Street, Vancouver, BC, V6E 2E9, Canada.

The financial statements of the Company are presented in Canadian dollars, which is the functional and reporting currency of the Company.

The Company's continuing operations are dependent upon its ability to identify, evaluate and negotiate an agreement to acquire an interest in a material asset or business within 24 months of listing on the TSX-V.

These financial statements were approved by the Board of Directors on July 31, 2012.

2. Significant accounting policies

Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

Basis of measurement

The financial statements have been prepared under the historical cost convention.

Cash and cash equivalents

The Company considers cash and cash equivalents to include amounts held in banks and highly liquid investments with remaining maturities at point of purchase of 90 days or less. The Company places its cash and cash equivalents with major financial institutions in Canada.

Deferred financing costs

Costs directly identifiable with the raising of capital will be charged against the related capital stock. Costs related to shares not yet issued are recorded as deferred financing costs. These costs will be deferred until the issuance of the shares to which the costs relate, at which time the costs will be charged against the related capital stock or charged to operations if the shares are not issued.

KCO Capital Inc.**Notes to the Financial Statements**

(Expressed in Canadian Dollars)

May 31, 2012

2. Significant accounting policies *(continued)***Share-based payments**

The Company grants stock options to certain directors and employees of the Company. Each tranche in an award is considered a separate award with its own vesting period and grant date fair value. Fair value of each tranche is measured at the date of grant using the Black-Scholes option pricing model. Compensation expense is recognized over the tranche's vesting period by increasing share-based payment reserve based on the number of awards expected to vest. The number of awards expected to vest is reviewed at least annually, with any impact being recognized immediately.

Share capital

The Company records proceeds from share issuances net of issue costs and any tax effects. The Company records proceeds from the exercise of stock options and warrants as share capital. Share capital issued for non-monetary consideration is recorded at an amount based on fair market value. The proceeds from the issue of units is allocated between common shares and common share purchase warrants on a pro-rata basis on a relative fair value basis, wherein, the fair value of the common shares is based on the market close on the date the units are issued, and the fair value of the common share purchase warrants is determined using the Black-Scholes pricing model.

Income taxes

Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is recorded by providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the date of the statement of financial position.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

Loss per share

The Company presents basic loss per share for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the year. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

May 31, 2012

2. Significant accounting policies *(continued)*

Use of judgements and estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reported years. Actual results could differ from those estimates.

Significant areas where management judgment is applied in these financial statements include determination of accrued liabilities, share-based compensation, and the going concern assumption. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future years could be significant.

Financial instruments

Financial assets

Financial assets are classified into one of four categories:

- Fair value through profit or loss ("FVTPL");
- Held-to-Maturity ("HTM");
- Loans and receivables; and
- Available for sale ("AFS").

Financial assets at fair value through profit or loss ("FVTPL")

A financial asset is classified at fair value through profit or loss if it is classified as held for trading or is designated as such upon initial recognition. Financial assets are designated as at FVTPL if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's risk management strategy. Attributable transaction costs are recognized in profit or loss when incurred. FVTPL are measured at fair value, and changes are recognized in profit or loss.

Held to maturity ("HTM")

These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Company's management has the positive intention and ability to hold to maturity. These assets are measured at amortized costs using the effective interest method. If there is objective evidence that the asset is impaired, determined by reference to external credit ratings and other relevant indicators, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognized in profit or loss.

2. Significant accounting policies *(continued)*

Financial instruments *(continued)*

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted on an active market. Such assets are initially recognized at fair value plus any direct attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Available for sale ("AFS")

Non-derivative financial assets not included in the above categories are classified as available-for-sale. They are carried at fair value with changes in fair value recognized directly in equity. Where a decline in the fair value of an available-for-sale financial asset constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognized in profit or loss.

Financial liabilities

Financial liabilities are classified into one of two categories:

- Fair value through profit or loss; and
- Other financial liabilities

Fair value through profit or loss

This category comprises of derivatives, or liabilities acquired or incurred principally for the purpose of selling or repurchasing it in the near term. They are carried in the balance sheet at fair value with the changes in fair value recognized in profit or loss.

Other financial liabilities

This category includes trade and other payables which are recognized at amortized cost.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting year. Financial assets are impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the investments have been impacted.

For all financial assets objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization.

2. Significant accounting policies *(continued)*

Financial instruments *(continued)*

Impairment of financial assets (continued)

For certain categories of financial assets, such as receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. The carrying amount of financial assets is reduced by the impairment loss directly for all financial assets with the exception of receivables, where the carrying amount is reduced through the use of an allowance account. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

If, in a subsequent year, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Currency transactions and translation

The Company finances its operations and incurs its expenditures primarily in Canadian dollars. The functional currency of the Company is the Canadian dollar, which is also the presentation currency of the financial statements.

Foreign currency transactions are recorded in functional currency based on spot exchange rate at the date of transaction.

The Company translates monetary assets and liabilities denominated in foreign currencies at period-end rates. Non-monetary assets and liabilities are translated at historical rates. The resulting gains or losses are reflected in operating results in the period of translation.

Accounting standards issued but not yet effective

The new accounting standards have no impact on these financial statements.

New standard IFRS 9 "Financial Instruments"

This new standard is a partial replacement of IAS 39 "Financial Instruments: Recognition and Measurement". This new standard is effective for annual periods beginning on or after January 1, 2015.

Accounting standards issued but not yet effective *(continued)*

IFRS 10 "Consolidated Financial Statements"

IFRS 10 supersedes IAS 27 Consolidated and Separate Financial Statements and SIC-12 Consolidation- Special Purpose Entities and is effective for annual periods beginning on or after January 1, 2013, with early application permitted.

IFRS 11 "Joint Arrangements"

IFRS 11 Joint Arrangements establishes the core principle that a party to a joint arrangement determines the type of joint arrangement in which it is involved by assessing its rights and obligations and accounts for those rights and obligations in accordance with that type of joint arrangement. IFRS 12 "Disclosure of Involvements with Other Entities"

This standard is effective for annual periods beginning on or after January 1, 2013, with early application permitted.

b) Private placements

On July 29, 2011, in connection with incorporation, the Company issued 1 share of common stock for gross proceeds of \$0.05, to a director of the Company.

While the Company is a CPC the aggregate number of shares which may be subject to issuance pursuant to options granted under this Plan shall not exceed 10% of the issued and outstanding shares of the Company as at the closing of its initial public offering, and after the completion of the Company's Qualifying Transaction the maximum number of shares reserved under the Plan shall be up to 10% of the issued and outstanding shares of the Company at any time any options are granted, to a maximum of 10% of the issued and outstanding common shares of the Company at the time of the grant, with a maximum of 5% of the Company's issued and outstanding shares reserved for any one person on a yearly basis.

The options will be exercisable at \$0.10 per share for a period of five years from the date of the closing of the Company's initial public offering. Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate. On the date of grant, these options were valued at \$57,000 using the Black-Scholes option-pricing model with the following assumptions:

Stock price volatility	116.30%

4. Financial instruments and risk management

Fair value

Fair values of each classification of financial instruments are as follows:

	Loans and receivables	Other financial liabilities
Financial assets		
Cash	\$ 160,226	\$ -
Financial liabilities		
Accounts payable and accrued liabilities	\$ -	\$ 28,037

The Company is not subject to significant interest rate risk as none of its financial instruments are interest-bearing, except cash in the bank which is nominal.

Liquidity risk

The Company sets the amount of capital in proportion to risk. The company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets.
