Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

1 Nature of Operations and Going Concern

Candelaria Mining Corp. (the “Company”) is a British Columbia public company listed on the TSX Venture Exchange (“TSXV”) under the trading symbol “CAND”. The Company also trades under the symbol “CDELF” on OTCQX. The Company was incorporated under the Business Corporations Act of British Columbia on January 23, 2012. The Company’s registered and records office is located at Suite 1200, 750 West Pender Street, Vancouver, BC, Canada, V6C 2T8. The address of the Company’s head office is 1201 - 1166 Alberni Street, Vancouver, BC V6E 3Z3.

On May 11, 2016, the Company signed an agreement to acquire the Caballo Blanco Gold Project (“Caballo Blanco”) in Veracruz from Molimentales Del Noroeste, S.A. de C.V., a subsidiary of Alio Gold Inc. (“Alio”), formerly Timmins Gold Corp. (Note 5(b)).

On December 5, 2018, the Company announced that it had agreed to issue 7,075,472 of the Company’s common shares to the shareholder of Minera Apolo S.A. de C.V. (“Apolo”) to acquire the remaining 40% of the shares of Apolo. The transaction was closed on July 31, 2020 upon exchange approval.

Going Concern

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future which is at least, but not limited to, twelve months from the end of the reporting year.

The Company has not yet generated income or cashflow from operations. As at January 31, 2024, the Company had cash and cash equivalents of \$79 (April 30, 2023 - \$1,089), a working capital deficit of \$1,876 (April 30, 2023 - \$847) and an accumulated deficit of \$64,234 (April 30, 2023 - \$62,840 deficit). For the nine months ended January 31, 2024, the Company incurred a net loss of \$1,394 (January 31, 2023 – loss of \$3,471) and negative cashflows from operations of \$1,012 (January 31, 2023 - \$2,597 outflow). The Company will require additional financing, through various means including but not limited to equity financings, to continue with its exploration and development programs and to meet its future obligations and administrative expenses. There is no assurance that the Company will be successful in raising the additional required funds.

The above noted conditions indicate the existence of material uncertainties that cast significant doubt about the Company’s ability to continue as a going concern. These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, to the reported expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2 Basis of Presentation

Statement of compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the IASB have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended April 30, 2023. The financial statements have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The financial statements are presented in Canadian dollars.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

The Company's interim results are not necessarily indicative of its results for a full year.

These unaudited condensed consolidated interim financial statements were approved by the Board of Directors on April 1, 2024.

Use of estimates and judgements

The preparation of the Company's unaudited interim condensed consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Such estimates primarily relate to share-based transaction valuations, fair values of financial instruments and the recoverability of deferred income tax assets and exploration and evaluation assets. Actual results could differ from those estimates. Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in Note 1 relating to going concern.

Acquisition of mineral property interests

The Company treats the acquisition of a mineral property interest as either a business combination or asset purchase. The determination of treatment is based upon an assessment of factors at the time of acquisition.

A business combination is a transaction in which control over one or more businesses is obtained. A business is defined as an integrated set of activities and assets that is capable of creating outputs which provide a positive economic return to stakeholders. If the integrated set of activities and assets is in the exploration or development stage and therefore does not have outputs, the Company considers other factors to determine if the assets are a business. These include, but are not limited to, whether the set of activities and assets:

- (a) has planned principal activities;
- (b) has identified mineral reserves and processes needed to generate the inputs required for output production;
- (c) is pursuing a plan to produce outputs; and
- (d) will be able to sell the produced outputs.

Not all of the above factors need to be present for a particular integrated set of activities and assets in the development stage to qualify as a business. Business acquisitions are accounted for using the acquisition method, in which the acquired assets and liabilities are recorded at fair value at the date of acquisition. Direct costs associated with a business combination are expensed as incurred.

Acquisitions in which a business is not acquired are treated as an asset purchase. Under an asset purchase, the fair value of the consideration provided is allocated to the individual fair value of assets and liabilities assumed on the basis of their relative fair values at the time of acquisition. The costs of acquisition for an asset acquisition are deferred and capitalized in the period they are incurred. In the event the acquisition is not completed, these costs would be immediately expensed.

The Apolo and Caballo Blanco acquisitions were treated as an asset purchase since, at time of acquisition, they did not meet the definition of a business under IFRS 3 *Business Combinations*.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

Exploration and evaluation expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment to determine whether it is likely that future economic benefits are likely, from either future exploitation or sale, or whether activities have not reached a stage that permits a reasonable assessment of the existence of reserves. The determination of a compliant resource is itself an estimation process that involves varying degrees of uncertainty depending on how the resources are classified (i.e., measured, indicated or inferred).

Estimates and assumptions may change if new information becomes available. If, after expenditures are capitalized, information becomes available suggesting that the recovery of such expenditures is unlikely, the amount capitalized is written off in profit or loss in the period when the new information becomes available.

Deferred taxes

The Company recognizes a deferred tax asset to the extent recovery is probable. Assessing the recoverability of deferred tax assets requires management to make significant estimates of future taxable profit. To the extent that future cash flows and taxable profit differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the reporting date could be impacted. In addition, future changes in tax laws could limit the ability of the Company to obtain tax deductions in future periods.

Share-based payments

The Company grants share-based awards as an element of compensation that includes stock options and restricted share units.

Share-based payments for stock options are determined using the Black-Scholes option pricing model based on estimated fair values at the date of grant and is expensed to profit or loss over each award's vesting period. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option. Changes in these input assumptions can significantly affect the fair value estimate.

Share-based payments for restricted share units are determined using the market price at the date of grant and is expensed to profit or loss over each award's vesting period.

Derivative assets and liabilities

Management is required to determine assumptions used in financial fair value models to estimate derivatives liabilities raised from share purchase warrants, and gold forward contracts where contractually applicable. The assumptions may be adjusted at each reporting period and the actual value of the derivative liability may differ from the amount currently provided.

Functional Currency

The Company is involved in the exploration and development of gold with continued operations that are heavily reliant on international economics such as the price and demand of gold and other commodities. The parent company's resources, and competitive forces are measured in Canadian dollars and have determined the functional currency of all its entities to be Canadian dollars. For all of the foreign subsidiaries, which are located in Mexico, the functional currency is denominated in Mexican Pesos.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

Basis of consolidation

These consolidated financial statements include the accounts of the Company and its subsidiaries. All amounts are expressed in Canadian dollars, unless otherwise stated. Intercompany transactions and balances between the Company and its subsidiaries are eliminated. The principal subsidiaries of the Company and their geographic location as at January 31, 2024 were as follows:

	Jurisdiction	Ownership %
Candelaria Mining Corp.	Canada	N/A – parent company
Grupo Minero Candelaria SAPI de CV	Mexico	100%
Maquila de Minerales SA de CV	Mexico	100%
Minera Apolo SA de CV	Mexico	100%
Minera Catanava SA de CV	Mexico	100%
Minera Caballo Blanco SA de CV	Mexico	100%

New Accounting Policies, Standards and Interpretations

IAS 12, Income Tax

On May 1, 2023, the Company adopted the amendment to IAS 12, Income Taxes in relation to Deferred Tax related to Assets and Liabilities Arising from a Single Transaction. The amendments clarify the initial recognition exemption does not apply to transactions in which equal amounts of taxable and deductible temporary differences such as leases and reclamation and closure cost provisions. The adoption of this amendment did not have an impact on the Company's consolidated financial statements.

IAS 1, Presentation of Financial Statements

On May 1, 2023, the Company adopted the amendment to IAS 1, Presentation of Financial Statements and the IFRS Practice Statement 2 Making Material Judgements to provide guidance on the application of materiality judgements to accounting policy disclosures. The amendments to IAS 1 replace the requirement to disclose 'significant' accounting policies with a requirement to disclose 'material' accounting policies. The adoption of these standards have not had a material impact on our financial results.

New Accounting Policies, Standards and Interpretations Not Yet Adopted

IAS 1, Presentation of Financial Statements

On October 2022, the IASB published Non-current Liabilities with Covenants (Amendments to IAS 1) to clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments specify that covenants to be complied with after the reporting date do not affect the classification of debt as current or non-current at the reporting date. Covenant details must instead be disclosed in the notes to the financial statements. The amendments are effective for annual reporting periods beginning on or after January 1, 2024, with early adoption permitted. The Company is assessing the impact of the amendments and does not expect it to have a significant effect on the Company's financial statements.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

3 Other Receivables and Prepaid Expenses

	January 31, 2024	April 30, 2023
Other receivable	\$ 333	\$ 365
IVA receivables*	2,166	2,062
Prepaid expenses	211	325
	\$ 2,710	\$ 2,752
Non current portion	2,166	2,062
Current portion	\$ 544	\$ 690

*IVA receivables are value added tax receivables in Mexico that generally apply to all imports, supplies of goods, and the provision of services by a taxable person unless specifically exempted by a particular law. The tax is imposed by the federal government of Mexico and ordinarily applies on each level of the commercialization chain.

4 Financial Instruments

Fair values of financial instruments

The fair values of financial instruments are summarized as follows:

	January 31, 2024		April 30, 2023	
	Carrying value \$	Fair value \$	Carrying value \$	Fair value \$
Financial assets				
<i>Amortized cost</i>				
Cash and cash equivalents	79	79	1,089	1,089
Other receivables	333	333	365	365
Financial liabilities				
<i>Amortized cost</i>				
Accounts payable & accrued liabilities	1,493	1,493	1,611	1,611
Debenture	2,311	2,311	2,018	2,018
Caballo Blanco acquisition payable	1,618	1,618	1,578	1,578

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents. The Company's cash and cash equivalents are held through large Canadian financial institutions.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure as described in Note 10. The accounts payable is due within the current operating period.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows from a financial instrument will fluctuate because of changes to market interest rates. The Company is exposed from time to time to interest rate risk as a result of holding fixed income cash equivalents and investments, of varying maturities. A 1% change in market interest rates would result in no significant change in value of cash and cash equivalents or fixed income securities. The risk that the Company will realize a loss as a result of a decline in the fair value of these assets is limited as they are generally held to maturity.

Foreign Exchange Risk

The Company operates in Canada and Mexico. As a result, the Company is exposed to foreign exchange risk arising from transactions denominated in foreign currencies.

The operating results and the financial position of the Company are reported in Canadian dollars. Fluctuations of the operating currencies in relation to the Canadian dollar will have an impact upon the reported results of the Company and may also affect the value of the Company's assets and liabilities.

The Company's financial assets and liabilities as at January 31, 2024 are denominated in United States Dollars, Canadian Dollars, and Mexican Pesos, and are set out in the following table:

	Canadian Dollars	US Dollars	Mexican Pesos	Total
Financial assets				
Cash and cash equivalents	\$ 1	\$ 7	\$ 71	\$ 79
Other receivables	12	-	321	333
	13	7	392	412
Financial liabilities				
Accounts payables and accrued liabilities	(180)	(998)	(315)	(1,493)
Debenture	-	(2,311)	-	(2,311)
Caballo Blanco Acquisition Payable	-	(1,618)	-	(1,618)
Net financial (liabilities) assets	\$ (167)	\$ (4,920)	\$ 77	\$ (5,010)

The Company's financial assets and liabilities as at April 30, 2023 are denominated in United States Dollars, Canadian Dollars, and Mexican Pesos, and are set out in the following table:

	Canadian Dollars	US Dollars	Mexican Pesos	Total
Financial assets				
Cash and cash equivalents	\$ 1,028	\$ 3	\$ 58	\$ 1,089
Other receivables	50	-	316	366
	1,078	3	374	1,455
Financial liabilities				
Accounts payables and accrued liabilities	(223)	(1,112)	(276)	(1,611)
Debenture	-	(2,018)	-	(2,018)
Caballo Blanco Acquisition Payable	-	(1,579)	-	(1,579)
Net financial (liabilities) assets	\$ 855	\$ (4,706)	\$ 98	\$ (3,753)

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

The Company's reported results will be affected by fluctuations in the US dollar to Canadian Dollar and Mexican Pesos to Canadian Dollar exchange rate. As of January 31, 2024, a 10% appreciation of the Canadian Dollar relative to the US Dollars would have decreased net financial liabilities by approximately \$492 (April 30, 2023 - \$471). A 10% depreciation of the US Dollar relative to the Canadian Dollar would have had the equal but opposite effect. A 10% appreciation of the Canadian Dollar relative to the Mexican Pesos would have decreased net financial assets by approximately \$8 (April 30, 2023 - \$10) and a 10% depreciation of the Mexican Peso would have had an equal but opposite effect. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risk.

The table below summarizes the maturity profile of the Company's non-derivative financial liabilities.

January 31, 2024	Current – within 1 year	Non-current – 1 to 5 years
Accounts payables and accrued liabilities	\$ 1,493	\$ -
Debenture	-	2,311
Caballo Blanco Acquisition Payable	1,006	612
	\$ 2,499	\$ 2,923

April 30, 2023	Current – within 1 year	Non-current – 1 to 5 years
Accounts payables and accrued liabilities	\$ 1,611	\$ -
Debenture	-	2,018
Caballo Blanco Acquisition Payable	1,015	563
	\$ 2,626	\$ 2,581

5 Exploration and Evaluation Assets

		Pinos Project	Caballo Blanco Project	Total
April 30, 2022		\$ 9,254	\$ -	\$ 9,254
Cumulative translation adjustment – foreign exchange		2,035	-	2,035
April 30, 2023		\$ 11,289	\$ -	\$ 11,289
Cumulative translation adjustment – foreign exchange		529	-	529
January 31, 2024		\$ 11,818	\$ -	\$ 11,818

a) Pinos Project

On February 27, 2015, the Company, entered into an agreement (the "Agreement") with the shareholders of Apolo to acquire 60% of Apolo's issued and outstanding common shares. On December 5, 2018, the Company announced that it has agreed to issue 7,075,472 of the Company's common shares to the shareholder of Apolo to acquire the remaining 40% of the shares of Minera Apolo.

On July 31, 2020, the Company acquired the remaining 40% of Apolo. The Company issued 7,075,472 shares with a fair value of \$3,750. The Company incurred a transaction cost of \$16. As there was no change in control within Apolo, a reversal of NCI of \$1,763 was recorded. The net impact of \$2,003 was recorded in retained deficit.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

The Company granted a 1.5% net smelter royalty (“NSR”) on the Apolo Property to the shareholders of Apolo. The Company will have a right of first refusal on the NSR.

On November 25, 2020, the Company sold a 0.5% net smelter return royalty (“NSR”) on production from the Pinos Project to Empress Royalty Corp. (“Empress”) for \$974 (US\$750). The Company can buy back 0.25% of this NSR, from Empress, for US\$937.

Empress also purchased an additional 0.5% NSR from a previous royalty holder on the Pinos Project, for a total of a 1.0% NSR on the Pinos Project.

The Pinos Project, in total, is subjected to NSR royalties of 2.0%.

b) Mineral interest in Caballo Blanco

On May 11, 2016, the Company signed an agreement to acquire the Caballo Blanco Gold Project (“Caballo Blanco”) in Veracruz, Mexico from Molimentales Del Noroeste, S.A. de C.V., a subsidiary of Argonaut Gold Inc. Pursuant to the terms of the agreement, the Company will pay Molimentales a total of US\$12.5 million in cash and assume US\$5 million in liabilities in exchange for the project and all related rights and assets.

Pursuant to the terms of the agreement, the Company will acquire the Caballo Blanco project in exchange for cash payments to be paid over a period of twelve months. The Company has fulfilled all of terms and payments except for US\$750 (\$1,040). This amount will be paid out to Alio when one of the concessions, which is currently under legal dispute, reaches legal settlement.

The Company agreed to assume a US\$5.0 million payment obligation owing to Goldgroup Mining Inc (“Goldgroup”). On August 18, 2016, the Company settled a US\$5 million contingent payment to Goldgroup in exchange for US\$3.1 million in payments. Pursuant to the settlement, the Company has paid US\$2.5 million. This was paid directly from Credipresto; as a result, the Company issued a corresponding US\$2.5 million convertible debenture. The remaining balance is US\$600 (\$832), to be paid upon SEMARNAT approval.

Caballo Blanco is subjected to two separate underlying royalty commitments as defined below:

- i) Almaden Minerals Limited retains a 1.5% NSR
- ii) A 3rd party (arm’s length) retains an NSR as follows:
 - 1.25% NSR up to 1,000 tonnes per day
 - 1.00% NSR from 1,001 to 1,500 tonnes per day
 - 0.75% NSR from 1,501 to 10,000 tonnes per day
 - 0.5% NSR from 10,001 or more tonnes per day

As at January 31, 2024, the Company expects the liability to be settled in 3 years. The face value of US\$600 is discounted over 3 years with the discount rate of 13%.

	January 31, 2024
Opening balance at beginning of the fiscal year	\$ 563
Accretion expense	55
Foreign exchange impact	2
Caballo Blanco Acquisition – non current portion	\$ 612
Caballo Blanco Acquisition – current portion	\$ 1,006
Caballo Blanco Acquisition – total	\$ 1,618

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

Total Caballo Blanco acquisition payable as at January 31, 2024 was \$1,618 (April 30, 2023 - \$1,578).

6 Debenture

On June 24, 2020, the Company closed a US\$9,000 medium term loan facility (“Debenture”) with Accendo Banco, S.A. (“Accendo”). Funds advanced under the Debenture will be used for financing construction of the Company’s Pinos project and working capital purposes. The Debenture will be secured against the assets of the Company and its subsidiaries, will bear interest at 13% per annum, and have a term of 60 months from the initial draw date. The Company withdrew US\$1,500 (\$2,040) upon execution of the Debenture, with the balance to be made available on completion of final loan documentation.

In connection with the Debenture, Accendo received a cash fee from the Company of 2% of the drawn amount of the Debenture, as well as 18 million non-transferable share purchase warrants (the “Bonus Warrants”). Each Bonus Warrant will entitle Accendo to purchase one common share of the Company at a price (the “Exercise Price”) of \$0.11 per share for a period of 60 months. The warrants and other transaction costs were determined to be prepayment for financing services in relation to the funds available under the Debenture. The transaction costs have been recorded as a deferred asset on the balance sheet and will be recognized against the liability and amortized into finance cost as amounts are drawn.

On September 28, 2021, the Company learned that the Mexican National Banking and Securities Commission notified Accendo of the revocation of its authorization to organize and operate as a multiple banking institution due to Accendo falling below the regulatory minimum levels of liquidity coverage ratio of the institution. The Company was not expecting to draw additional funds under the loan facility in the short term. Due to these events, the Company anticipates that its ability to draw any future funds may be impaired. As a result, the remainder of the transaction costs recorded as a deferred asset on the balance sheet have been recognized in the statement of loss and comprehensive loss for the year ended April 30, 2022.

The following table is the carrying value of the Debenture:

Debenture – Carrying Value	
Debenture – April 30, 2022	\$ 1,367
Finance cost – interest accrued	255
Finance cost – accretion of Debenture	209
Foreign exchange impact	187
Debenture – April 30, 2023	\$ 2,018
Finance cost – interest accrued	196
Finance cost – accretion of Debenture	156
Foreign exchange impact	(59)
Debenture – January 31, 2024	\$ 2,311

8 Share Based Compensation

The Company has a share purchase option plan which provides for equity participation in the Company by its directors, officers, employees, consultants and consultant companies through the acquisition of common shares pursuant to the grant of options to purchase shares. The option plan is administered by the Board of Directors. Options may be granted on such terms as the Board may determine within the limitations of the option plan and subject to the rules and policies of applicable regulatory authorities. The maximum aggregate number of shares reserved for issuance for options granted under the option plan is approximately 14.85 million common shares. The exercise price for options granted may not be less than the market price of the shares on the day immediately preceding the date of the grant of the option.

Candelaria Mining Corp.

NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three and nine months ended January 31, 2024 and 2023

(Amounts expressed in thousands of Canadian dollars, except where indicated)

On April 27, 2022, the Company granted incentive stock options pursuant to its stock option plan, to employees, directors and officers of the Company, to purchase up to an aggregate of 4,120,000 common shares of the Company at a price of \$0.14 per share expiring five years from the date of grant. All options vest in three equal installments over 18 months. The fair value of these options at the date of grant was estimated at \$519 using the Black-Scholes option pricing model with the following assumptions: a five-year expected average life; 144% volatility; risk-free interest rate of 2.62%; forfeiture rate of 0%, and a dividend yield of 0%.

Stock options outstanding	January 31, 2024		April 30, 2023	
	Number of shares (000's)	Weighted average exercise price	Number of shares (000's)	Weighted average exercise price
Outstanding – beginning of year	8,035	\$ 0.25	8,985	\$ 0.29
Options expired	75	1.00	(950)	0.60
Outstanding – end of period	7,960	\$ 0.25	8,035	\$ 0.25

(Amounts expressed in thousands of Canadian dollars, except where indicated)

9 Related Party Transactions

The Company's related parties include its subsidiaries, associates over which it exercises significant influence, and key management personnel. Transactions with related parties for goods and services are made on normal commercial terms and are considered to be at arm's length.

The Company incurred the following expenses with related parties during the period ended January 31, 2024, as follows:

	Three months ended January 31,		Nine months ended January 31,	
	2024	2023	2024	2023
Professional fees	\$ 23	\$ 142	\$ 92	\$ 525
Director's fees	-	-	-	12
Stock based compensation	-	69	21	345

Professional fees were paid and accrued to firms of which one of the partners has been the Chief Financial Officer, Chief Executive Officer or President of the Company during 2024 and 2023.

As at January 31, 2024, the Company had amounts payable of \$nil (April 30, 2023 - \$907) to these parties. These amounts are unsecured and non-interest bearing, due on demand and included in accounts payable and accrued liabilities.

10 Capital Management

The capital of the Company consists of items included in shareholder's equity. The Company's objectives for capital management are to safeguard its ability to support the Company's normal operating requirement on an ongoing basis, continue the development and exploration of its mineral properties and support any expansionary plans.

The capital of the Company consists of items included in shareholders' equity, net of cash and cash equivalents as follows:

	January 31, 2024	April 30, 2023
Total equity for owners	\$ 10,870	\$ 11,585
Less: cash and cash equivalents	(79)	(1,089)
	\$ 10,791	\$ 10,496

The Company manages its capital structure and makes adjustments in light of changes in its economic environment and the risk characteristics of the Company's assets. To effectively manage the entity's capital requirements, the Company has in place a planning, budgeting and forecasting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. As at January 31, 2024, the Company expects its capital
