(Prepared by Management – Unaudited)

December 31, 2015

1. NATURE OF OPERATIONS AND GOING CONCERN:

Benton Resources Inc. (“Benton” or the “Company”) was incorporated on November 8, 2011 as 0924698 B.C. Ltd. (renamed Benton Resources Inc. on July 25, 2012) under the laws of British Columbia and is a development stage public company whose shares began trading on the TSX Venture Exchange on August 1, 2012. Its principal business activities are the acquisition, exploration and development of mineral properties. On July 27, 2012, the Company received certain assets by way of a court-approved plan of arrangement (the “Arrangement”) from Benton Capital Corp. (formerly Benton Resources Corp.).

Benton’s head office is located at 3250 Highway 130, Rosslyn, Ontario, P7K 0B1.

The accompanying financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the settlement of liabilities in the normal course of business. The appropriateness of the going concern assumption is dependent upon the Company’s ability to generate future profitable operations and/or generate continued financial support in the form of equity financings. These financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classification that would be necessary if the going concern assumption were not appropriate and such adjustments could be material.

The accounting policies followed in these condensed interim financial statements are the same as those applied in the audited annual financial statements of the Company for the year ended June 30, 2015 (“Fiscal 2015”).

The policies applied in these interim condensed financial statements are based on IFRS issued and outstanding as of February 16, 2016, the date the Audit Committee approved the statements. Any subsequent changes to IFRS after this date could result in changes to the financial statements for the period ended December 31, 2015.

The condensed interim financial statements do not contain all disclosures required under IFRS and should be read in conjunction with the audited annual financial statements and the notes thereto for Benton Resources Inc. for the year ended June 30, 2015.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income taxes. Differences may be material.

Element 79 may acquire an initial fifty-one percent (51%) interest in the Abernethy Property by:

- (i) issuing 400,000 Element 79 Shares, a deemed value of a minimum of \$0.17 per Element 79 Share, to Benton upon closing of the Transaction (the “Closing”); and
- (ii) incurring a minimum of \$500,000 in exploration expenditures on the Abernethy Property within twelve (12) months of Closing.

In addition, the Option Agreement shall stipulate that Element 79 will have the right to acquire an additional:

- (i) nineteen percent (19%) interest in the Abernethy Property by (A) issuing an additional 600,000 Element 79 Shares to Benton at the market price of the Element 79 shares on the Exchange at the time the right is exercised and (B) incurring a minimum of \$500,000 in additional exploration expenditures on the Abernethy Property within eighteen (18) months of Closing; and
- (ii) thirty percent (30%) interest in the Abernethy Property by paying Benton \$750,000, which payment may be made in cash or, subject to applicable regulatory approvals, in Element 79 Shares, at the sole discretion of Element 79 (together the Element 79 shares that may be issued as consideration to Benton are in addition to the initial 400,000 Element 79 shares, collectively referred to as the “Additional Shares”), within 180 days following the date upon which Element 79 acquires an aggregate seventy percent (70%) interest in the Abernethy Property, failing which Element 79 and Benton will remain 70%/30% joint venture partners in respect of the Abernethy Property.

Should Element 79 acquire a one hundred percent (100%) interest in the Abernethy Property, Benton shall be granted a three percent (3%) net smelter return royalty (NSR), half of which may be repurchased by Element 79 by paying Benton \$1,000,000.

Trading in the common shares of Element 79 is halted at present. It is unlikely that the common shares of Element 79 will resume trading until the Transaction is completed and approved by the Exchange.

(c) **Cape Ray**

The Cape Ray project is comprised of the following groups of claims:

Windowglass Hill and 51 Zone Deposits

During Fiscal 2013, the Company signed a binding letter of intent with Cornerstone Capital Resources Inc. (“Cornerstone”) to acquire up to a 75% interest in Cornerstone’s Windowglass Hill and 51 Zone deposits (collectively the “Property”), located approximately 25km northeast of the town of Port aux Basques in southwestern Newfoundland. The Property consists of a single 183-claim mineral license which covers an area of 4,575 ha. To earn the initial 70%, the Company must make cash payments totaling \$125,000 (\$20,000 paid on signing) and 155,000 common shares of the Company (25,000 shares paid on signing) as well as work commitments totaling \$2 million, all over a period of four years. The Company can earn the additional 5% (taking its interest to 75%) by incurring an additional \$1 million in exploration expenditures at its sole election but such election must be made within a period that is 18 months from the date that the Company’s interest vests at 70%.

During Fiscal 2014, the Company amended its agreement with Cornerstone. Pursuant to the terms of the amended agreement, the Company has acquired a 100% interest in the Cape Ray Gold project by paying, in addition to the on signing payments made above, \$200,000 and issuing 350,000 common shares of the Company. Under the amended agreement, Cornerstone received an additional 0.25% NSR thereby increasing the total NSR on the project to 2%, of which the Company has the right to purchase back 1% for \$1 million.

During Fiscal 2015, the Company received a grant from the Government of Newfoundland and Labrador in the amount of \$100,000 (2014 - \$56,392) for exploration work completed at the Cape Ray property. The grant was recorded as a reduction of deferred exploration and evaluation assets during the year ended June 30, 2015. During Fiscal 2015, the Company executed a Letter of Intent with Nordmin Engineering Ltd. on certain of the deposits at Cape Ray as further described below.

04/41/Isle Aux Mort/Big Pond Deposits

During Fiscal 2014, the Company entered into an option agreement with Tenacity Gold Mining Company Ltd. (“Tenacity”) to purchase a 100% interest in four mining claims which encompasses the 04 , 41 , Isle Aux Mort and the Big Pond gold deposits located in southwest Newfoundland. The Company paid \$400,000 and issued 1.5 million common shares valued at \$105,000 to Tenacity in connection with the agreement. During Fiscal 2015 the Company exercised its option to acquire a 100% interest by issuing a further 1.5 million common shares valued at \$75,000 (accordingly a total of 3 million shares were issued by the Company for the property). The acquired claims are subject to a sliding scale net smelter returns royalty (NSR) on the production of metals: a 3% NSR on production when the price of gold is below \$2,000 per ounce; a 4% NSR when the price of gold is from \$2,000 to less than \$3,000 per ounce subject to the right of the Company to buy back 1% for \$500,000; and a 5% NSR when the price of gold is \$3,000 or above subject to the right of the Company to buy back 1% for \$500,000.

Cape Ray East

The 100% owned Cape Ray East Property was acquired by staking and is comprised of 510 contiguous claims. The property is located approximately 30 km northeast of Port aux Basques, southwestern Newfoundland, at the southernmost point and continues in a northeast and easterly direction for approximately 40 km.

Nordmin Engineering Option/Joint Venture

During Fiscal 2015, the Company entered into a definitive agreement (the “Agreement”) with Nordmin Engineering Ltd. (“Nordmin”) to advance towards production four of the six gold deposits at the Company’s Cape Ray project located in southwest Newfoundland, should the economic viability of the project be determined. The 04, 41, 51 and Windowglass Hill deposits (the “Project”) are included in the Agreement while the Isle Aux Morts and Big Pond deposits will be retained 100% by Benton. Pursuant to the Agreement, Benton and Nordmin will form a joint venture

pursuant to which Nordmin will have the right to earn up to a 50% interest in the Project through a series of expenditures and services to be provided.

Upon signing the Agreement, Benton will form a wholly-owned subsidiary, (“SubCo B” for illustrative purposes) (pending completion) and transfer 100% of Benton’s property rights in the Project to SubCo B. Nordmin may then earn up to 50% of the Project held by SubCo B by completing a series of work commitments and project milestones which advance the Project towards production as follows:

- Benton will lead the exploration effort for the Project which will be funded by Nordmin up to the completion of the Feasibility Study. This includes any infill drilling to allow the deposits to be brought up to National Instrument 43-101 status (“NI 43-101”). The necessity for further exploration will be determined and approved by the management committee;
- Nordmin will, to earn a 5% interest, make a \$250,000 cash payment in two tranches to SubCo B which will go towards the current exploration program. The first tranche of \$125,000 was paid upon signing of the Agreement and the second tranche of \$125,000 was received during Fiscal 2015; Nordmin will, by August 31, 2015 to earn a further 15% interest, fund and provide the services required to complete NI 43-101 resource estimates for the 04, 41, 51, and Windowglass Hill deposits, produce a resource model (completed), a preliminary economic assessment (PEA), complete a detailed assessment of the Geology, Mining, Metallurgy, Environmental, Engineering, Construction, Economics and Schedule for the Project (pending and under extension);
- Nordmin will, by August 31, 2016 to earn a further 10% interest, complete the Environmental Assessment and Impact reviews, and secure the necessary permits for a mine, mill and related plant in order for the Project to move forward;
- Nordmin will, by August 31, 2017 to earn a further 10%, complete a feasibility study for the Project (detailing and advancing all of the same issues within the PEA);
- Nordmin will, by August 31, 2018 to earn a further 10% interest, complete detailed design of the mine, mill and related plant and work to arrange a minimum of 50% of the Project financing;
- Nordmin will assume operatorship of the Project upon signing;
- Nordmin will provide the procurement, project and construction management for the Project, including commissioning and start-up. The costs and fees associated with this effort will be part of the Project financing;
- Nordmin must spend a minimum of \$4.5 million of expenditures and equivalent services, with any excess going towards Project development;
- Should Nordmin fail to earn a 50% interest, operatorship will revert back to Benton;
- Should Nordmin not participate in the Project development on a pro-rata basis after the earn-in period, Nordmin will suffer a standard dilution to their pro-rata interest – such clause also applies to Benton; and
- The intent is that the work proposed within the LOI will be completed in a minimum of three (3) years and a maximum of five (5) years, dependent upon market conditions or other outside and uncontrollable situations.

As at December 31, 2015, Nordmin has acquired a 5% interest in the Project and has the right to acquire up to an additional 45% as described above. However, in the event that Nordmin only earns a 5% interest the parties will not form a Joint Venture and Nordmin’s interest will be converted to a 0.5% NSR which can be purchased by Benton for \$200,000. If Nordmin only earns a 20% interest and then gets diluted to less than 10% their interest will be converted to a 0.5% NSR, one-half of which can be purchased by Benton for \$400,000. If Nordmin only earns between 20% and 49% interest and then gets diluted to less than 10% their interest will be converted to a 0.5% NSR, which can be purchased by Benton for \$600,000. If Nordmin earns a 50% interest and then gets diluted to less than 10% their interest will be converted to a 1% NSR, one-half of which can be purchased by Benton for \$1,000,000.

(d) Other Properties

Other Properties consists of several early stage projects that the Company is evaluating for exploration potential. Included in Other Properties are certain projects that are subject to agreements that are more fully described below.

(i) Kingurutik Lake Property

The Kingurutik Lake property was acquired 100% by staking 488 claim units in late October 2006.

The Company entered into a Participation Agreement (the “Teck Agreement”) with Teck Resources Ltd. (“Teck”) whereby the Company and Teck formed the Kingurutik Lake project by amalgamating and jointly exploring certain of their land positions in Labrador. The project is located approximately 60km north of the Voisey’s Bay copper-nickel deposit and consists of the 488 claim units held by the Company, (previously known as the NBK property), and 266 claim units held by Teck.

Under the terms of the Teck Agreement, Teck completed a private placement financing with the Company during a prior fiscal year whereby the Company issued 1,000,000 common shares at \$0.70 per share for total proceeds of \$700,000 which resulted in the Company and Teck each holding a 50% interest in the combined properties. The Company then agreed to fund the initial \$600,000 in exploration work to be carried out by Teck, which Teck then has the option to increase its interest in the property to 60% by incurring an additional \$4 million in expenditures over the initial three years with an additional right to increase its interest to 70% by incurring an additional \$7 million in expenditures (for a total of \$11 million) over a further three years.

During Fiscal 2009, Teck notified the Company that it elected to exercise its option to increase its interest in the project to 60% by incurring the aforementioned expenditures. However, during Fiscal 2010, Teck informed the Company that it did not fulfill its expenditure requirement under the 60% option and would not be participating in future exploration programs. The Company has assumed operatorship and will dilute Teck’s interest accordingly should any further work be performed on the project. During Fiscal 2015, the Company wrote off \$1,297,298 in deferred exploration and evaluation expenditures due to no current or future work programs currently planned on the property.

(ii) Forester Lake

The Forester Lake property was acquired by staking and consists of 21 claims totaling 272 units and is located approximately 100km north of Pickle Lake, Ontario. During Fiscal 2011, the Company entered into an agreement with Parkside Resources Corp. (“Parkside”) which granted Parkside the right to earn a 60% interest (earned) in the property. Under the terms of the agreement, Parkside was to pay the Company \$50,000 in cash (received), issue to the Company 1 million Parkside common shares (received) and expend \$300,000 on the property over a period of three years with a minimum of \$100,000 to be spent in each 12 month period of the three year period (fulfilled). Parkside, at their election, can earn an additional 10% (70% total) by expending an additional \$700,000 on the property over an additional three year period. In addition, the Company provided Parkside with \$200,000 in equity financing in fiscal 2011 (including \$150,000 in flow-through financing) and \$200,000 during the year ended June 30, 2013 in exchange for an additional 4 million common shares of Parkside (taking the Company’s share position to 5 million shares – see note 4 “Long-Term Investments”).

(iii) Onion Lake Property

The Onion Lake property was acquired by staking and consists of 105 claims totaling 1,198 units and is located 30km north of Thunder Bay, Ontario. In fiscal 2010, the Company entered into an agreement with Glory Resources Limited (“Glory”) which granted Glory the right to earn an initial 30% interest in the property (earned) by paying the Company \$95,000 cash (received) and expending \$500,000 on the property over a period of two years following the effective date (expended). Glory had the right to earn an additional 30% (which would have taken its interest to 60%) by expending an additional \$1.8 million on the property over an additional two year period. Glory had the right to earn an additional 10% (which would have taken its interest to 70%) by expending an additional \$1.5 million on the property over an additional 18 month period.

During Fiscal 2014, the Company and Glory amended their agreement whereby Glory returned the project to the Company and as such, Glory forfeited its 30% earned interest in the property and the Company’s interest in the property reverted to 100%. In addition, Glory paid the Company \$80,000 in order to return the claims to the Company in a deficient state. The Company assumed the responsibility of bringing the claims into good standing and subsequently submitted the assessment work accordingly.

The Company will seek a new partner for the project. During Fiscal 2015, the Company wrote off \$119,301 in deferred exploration and evaluation expenditures due to no current or future work programs currently planned on the property.

(iv) Mealy Property

On July 31 and August 7, 2013, the Company acquired through staking a total of 1,017 claim units representing approximately 261 square kilometres within the Mealy Lake intrusion (the “Mealy Project”) in Labrador. On August 9, 2013, the Company executed an option agreement with Platinum Group Metals Ltd. (“PTM”) on the Mealy Project whereby PTM can earn a 71% interest in the Mealy Project by paying to the Company \$51,000 (received) on the

effective date (the “Effective Date”) and incurring an aggregate of \$2.4 million in exploration expenditures on the Mealy Project as follows:

- \$300,000 on or before August 9, 2014 (incurred);
- a further \$300,000 on or August 9, 2015;
- a further \$400,000 on or before August 9, 2016;
- a further \$1.4 million on or before August 9, 2017.

The Company will retain a 1% NSR on the Mealy Project and PTM will be the operator while it holds a majority interest. The Company recorded a gain in the amount of \$30,686 in the 2014 fiscal year related to the option agreement. During Fiscal 2015, the Company received a termination notice from PTM on the option agreement covering the Mealy Project. As a result, the Company wrote off all remaining deferred exploration and evaluation expenditures on the property. The property has reverted back to the Company and remains in good standing.

(v) *Staghorn Option*

During Fiscal 2015, the Company signed a letter of intent (“LOI”) with Metals Creek Resources Corp. (“MEK”) whereby the Company can earn up to a 70% interest in MEK’s 100% owned Staghorn Gold project in Newfoundland.

To earn an initial 60% interest, the Company must make cash payments totaling \$50,000 (\$20,000 paid), issue a total of 500,000 (200,000 issued valued at \$7,000) common shares of the Company and incur work expenditures of \$500,000, all over a three year period from the date of the LOI. The Company will be the operator during the earn-in period. Once a 60% interest is earned by Benton, either a 60/40 joint venture will be formed, or Benton may elect to earn an additional 10% interest to bring its total property interest to 70% by paying \$50,000 cash and issuing an additional 500,000 common shares within 60 days of the 3rd anniversary date of the LOI and incurring an additional \$500,000 in exploration expenditures (incurred) by the 5th anniversary date. Cumulative exploration and evaluation expenditures on Staghorn included in Other properties at December 31, 2015 amounted to \$730,638 (year ended June 30, 2015 - \$141,801).

(e) **Write-downs/Recoveries/Disposals**
