The preceding information is derived from the technical report filed by Mistango titled "Omega Property – McVittie Township, Ontario, Canada" dated effective May 10, 2013 and filed on SEDAR by Mistango on July 10, 2013. The report indicates that it is prepared in accordance with NI 43-101. Although Orefinders considers it to be reliable, Orefinders is treating it as an historical estimate, not a current mineral resource, as Orefinders has not yet had a qualified person do the work necessary to confirm that it may be classified as a current mineral resource.
