CORPORATE STRUCTURE

Name, Incorporation and Address

TMX Group Limited (referred to, with its consolidated subsidiaries, as the context requires, as “TMX Group”, “we”, or “us”), originally called Maple Group Acquisition Corporation, was incorporated under the *Business Corporations Act* (Ontario) on April 28, 2011 to acquire all of the issued and outstanding common shares of TMX Group Inc., then a public company, while preserving a publicly-traded exchange and clearing group focused on the Canadian capital markets. The two-step acquisition of TMX Group Inc. was completed on September 14, 2012.

The original investors in TMX Group included four of Canada’s largest public pension funds, four Canadian bank-owned investment dealers or their affiliates, Canada’s largest financial cooperative group, a leading Canadian-based global financial services group and a Québec-based development capital investment fund.

On August 1, 2012, we completed the acquisition of The Canadian Depository for Securities Limited (“CDS”) and its subsidiaries and the acquisition of Alpha Trading Systems Inc. (“Alpha GP”) and its subsidiaries, and Alpha Trading Systems Limited Partnership (“Alpha LP”) (collectively, “Alpha”).

On August 10, 2012, we amended our articles of incorporation to change our legal name to “TMX Group Limited / Groupe TMX Limitée”.

On December 13, 2017, TMX Group Inc. was amalgamated into TMX Group Limited under the *Business Corporations Act* (Ontario) as part of a broader initiative to simplify our corporate structure by reducing the number of legal entities within our enterprise.

Our head and registered office is located at 300 - 100 Adelaide Street West, Toronto, Ontario, M5H 1S3. We also have offices in Montréal, Calgary, Vancouver, New York, London, U.K., Beijing and Singapore. Our website is www.tmx.com. We are not incorporating information contained on our website in this annual information form (“AIF”).

Intercorporate Relationships

Information about the intercorporate relationships among TMX Group and its principal subsidiaries is provided in Appendix A of this AIF.

GENERAL DEVELOPMENT OF THE BUSINESS

TMX Group is an integrated, multi-asset class exchange group. TMX Group’s key subsidiaries operate cash and derivatives markets for multiple asset classes including equities and fixed income, and provide clearing facilities, data driven solutions and other services to domestic and global financial and energy markets.

In 2015, we engaged in a comprehensive review of our portfolio of assets and an in-depth strategic review of the organization to establish our strategy going forward. This included a full scale analysis of our markets and our organization to understand how best to advance beyond a group of companies to be a more fully-integrated organization. From that, we built out our investment strategy. We focused

on the greatest areas of need for our clients and the markets in which they operate. Putting clients first and working to create increasing value in the services we provide are our priorities. We identified businesses that are core to our strategy going forward, and we decided to de-emphasize certain non-core businesses by divesting or entering into partnership, joint venture or outsourcing arrangements.

We also announced a re-alignment of the organization in order to achieve our new vision of being a technology driven solutions provider that puts clients first. The strategic review process guided us to make some important choices that will enhance our ability to grow revenues, obtain significant operational and cost efficiencies, ignite innovation across all aspects of the business and compete more effectively in Canada, across North America and globally.

Our business is now principally organized into the following areas: Capital Markets, which includes our capital formation and equities and fixed income trading and clearing operations; Derivatives Markets, which includes our derivatives trading and clearing operations; and Global Solutions, Insights and Analytics (formerly Market Insights) which includes TMX Datalinx (information services), TMX Insights (analytics), Co-location and Managed Services, as well as London-based Trayport Holdings Limited, its subsidiaries and its U.S.-based affiliate, Trayport Inc. (collectively, “Trayport”).

On April 30, 2017, TMX Group completed the sale of TMX Atrium. Further information on this transaction is contained under the ***“Global Solutions, Insights and Analytics (formerly Market Insights)”*** section on page 7 of our Management’s Discussion and Analysis for the year ended December 31, 2017 (“2017 Annual MD&A”), which is incorporated by reference into this AIF.

On October 27, 2017, we entered into a stock purchase agreement, as amended on December 13, 2017, to acquire Trayport from Intercontinental Exchange, Inc. (“ICE”) for £552 million / C\$952 million in total consideration, including £331 million / C\$573 million in cash consideration. In conjunction with that transaction, on October 27, 2017, TMX Group entered into a stock purchase agreement, as amended on December 13, 2017, to sell Natural Gas Exchange Inc. (“NGX”) and Shorcan Energy Brokers Inc. (“Shorcan Energy Brokers”) to ICE for £221 million / C\$379 million. Proceeds from the sale of these assets were used as partial consideration for the acquisition of Trayport. Both transactions closed on December 14, 2017. Further information on these transactions is contained under the ***“Acquisition of Trayport and Sale of Natural Gas Exchange and Shorcan Energy Brokers”*** section on pages 3 to 5 of our 2017 Annual MD&A and Notes 3 and 4 of our Audited Annual Consolidated Financial Statements for the year ended December 31, 2017 (“2017 Annual Financial Statements”), which are incorporated by reference into this AIF.

A description of TMX Group’s operating segments and information on our mission, initiatives, vision, corporate strategy, regulatory changes impacting our businesses and market conditions is located in the ***“Mission, Vision and Corporate Strategy”***, ***“Initiatives and Accomplishments”***, ***“Regulatory Changes”***, ***“Market Conditions”*** and ***“Our Business”*** sections on pages 2 to 3, 3 to 10 and 11 to 23 of our 2017 Annual MD&A, and Note 6 of our 2017 Annual Financial Statements, which are incorporated by reference into this AIF.

Regulatory Matters

Different organizations regulate or monitor participants in the Canadian capital markets including issuers, brokerage firms, exchanges, alternative trading systems (“ATs”), clearing houses and inter-dealer brokers. Securities and other regulators regulate the activities of our marketplaces and clearing houses. Self-regulatory authorities, such as the Investment Industry Regulatory Organization of Canada (“IIROC”), regulate the activities of brokerage firms and their capital requirements, as well as their business and trading conduct. Toronto Stock Exchange and TSX Venture Exchange also establish standards for their listed issuers to maintain quality marketplaces and investor confidence.

Recognition and Regulation of Exchanges, Clearing Houses, Transfer Agency and Corporate Trust Business

TSX Inc. (which operates Toronto Stock Exchange), TSX Venture Exchange Inc. (which operates TSX Venture Exchange) and TMX Group are all regulated as exchanges in Canada. TMX Group is also regulated as a clearing house in Québec, and TMX Group is subject to certain terms and conditions of its affiliates’ regulatory framework as set out below. TSX Inc. is also regulated as an information processor by the Autorité des marchés financiers (Québec) (the “AMF”) and operates as an information processor in accordance with a determination made by the Canadian Securities Administrators (“CSA”) Chairs. TSX Inc. has a representative office in China for Toronto Stock Exchange and TSX Venture Exchange, which is subject to regulation by the China Securities Regulatory Commission. Alpha LP and Alpha Exchange Inc. (“TSX Alpha Exchange”) are regulated as exchanges in Canada; however, they do not carry on any listing activity.

Montréal Exchange Inc. (“MX” or “Montréal Exchange”) is regulated as an exchange and a self-regulatory organization (an “SRO”) in Canada. MX is registered as a foreign board of trade (FBOT) in the United States with the U.S. Commodity Futures Trading Commission (“CFTC”). In the U.K., the Financial Conduct Authority granted comfort to MX to allow remote access to its futures and options products to the U.K. “authorized persons”. In France, the Autorité des marchés financiers (France) recognized MX as

a recognized foreign market. MX can also undertake certain activities in Israel subject to the conditions listed in a no-action letter issued by the Israel Securities Authority.

Canadian Derivatives Clearing Corporation (“CDCC”) is regulated as a clearing house or clearing agency in Canada. CDCC must abide by the terms of recognition orders issued by the AMF, the British Columbia Securities Commission (“BCSC”) and the Ontario Securities Commission (the “OSC”) and a regulatory oversight agreement with the Bank of Canada (“BOC”). CDCC is also subject to regulatory requirements of the U.S. Securities and Exchange Commission (the “SEC”) and various U.S. state securities regulators. CDCC is also recognized by the European Securities and Markets Authority as a foreign clearing house under the European Market Infrastructure Regulation.

CDS and CDS Clearing and Depository Services Inc. (“CDS Clearing”) are also regulated as clearing houses or clearing agencies in Canada and must abide by the terms of recognition orders issued by the AMF, the BCSC and the OSC, are exempt from recognition by order of the Alberta Securities Commission (“ASC”), and are subject to a regulatory oversight agreement with the BOC.

CDSX, the multilateral clearing and settlement system operated by CDS Clearing, and Canadian Derivatives Clearing Service, operated by CDCC, have each been designated by the BOC as being of systemic importance under the *Payment Clearing and Settlement Act* (Canada). Under such designation, the BOC has broad powers relating to the regulation and oversight of CDS Clearing and CDCC. For example, any significant changes to governance, structure, or CDS Clearing’s or CDCC’s relationship to marketplace participants is subject to the prior review and approval by the BOC.

Pursuant to National Instrument 24-102 – *Clearing Agency Requirements*, CDS, CDS Clearing and CDCC must observe the principles for financial market infrastructures (“PFMIs”) issued jointly by the Committee on Payments and Market Infrastructures (“CPMI”) and the Technical Committee of the International Organization of Securities Commissions (“IOSCO”).

CDS Clearing and CDCC were declared, through a notice issued jointly by the BOC, OSC, AMF, ASC, BCSC and Manitoba Securities Commission, to be qualifying central counterparties under the standard on the capital treatment of certain bank exposures to central counterparties developed by the Basel Committee on Banking Supervision. This decision was made on the basis that each clearing agency is based and prudentially supervised in a jurisdiction where its regulator has established, and publicly indicated, that it applies to the central counterparty on an ongoing basis, rules and regulations that are consistent with the international standards governing central counterparties set out in the PFMIs.

Shorcan Brokers Limited (“Shorcan”) is a fixed income inter-dealer broker which provides facilities for matching orders for Canadian federal, provincial, corporate and mortgage bonds and treasury bills and derivatives for anonymous or name-give-up buyers and sellers in the secondary market. Shorcan is a registrant under the category of “exempt market dealer” and has been approved by IIROC to act as an Inter-Dealer Bond Broker. Shorcan is also registered as an introducing broker with the National Futures Association, which enforces CFTC reporting requirements for its members under the *U.S. Commodity Exchange Act* (“CEA”).

In Canada, TSX Trust Company (“TSX Trust”) is a federal trust company regulated by the Office of the Superintendent of Financial Institutions (“OSFI”) and is licensed to operate as a trust corporation in all provinces and territories in Canada. In the United States, TSX Trust is registered with and has reporting obligations to the SEC as a transfer agent pursuant to the *Securities Exchange Act of 1934*.

An exchange or clearing house operating in Canada must be recognized in certain jurisdictions under applicable legislation. In some circumstances, an exchange or clearing house may obtain an exemption from this requirement. The Ontario, Québec, Alberta and British Columbia securities regulatory authorities have issued recognition or exemption orders and oversee TMX Group and the operations of Toronto Stock Exchange, TSX Venture Exchange, Alpha LP and TSX Alpha Exchange, MX, CDCC, CDS and CDS Clearing. The OSC is the lead regulator for TSX Inc., Alpha LP and TSX Alpha Exchange. TMX Group operates under recognition orders granted by the AMF and the OSC. The ASC and BCSC are the joint lead regulators for TSX Venture Exchange Inc. The AMF is the lead regulator for MX. CDCC, CDS and CDS Clearing operate under recognition orders from the OSC, the AMF and the BCSC.

The lead regulator of an exchange, or recognizing regulator in the case of a clearing house or clearing agency, focuses, among other things, on the listing or eligibility standards and trading or clearing activities (embodied in the rules of the exchange or the clearing house or clearing agency), including its market quality rules, and, in the case of Toronto Stock Exchange, TSX Venture Exchange and TSX Alpha Exchange, universal market integrity rules approved by all the recognizing regulators. Generally, the lead regulator of an exchange must approve any new standards or rules or changes to existing rules. In some instances, new rules or changes to existing rules must be published for a public comment period as part of the rule approval process.

With respect to MX and CDCC, under the *Derivatives Act* (Québec), new rules pertaining to market activities or new products or rule changes must be submitted to the AMF in accordance with the self-certification process. Significant rule changes must also be published for a public comment period before self-certification in Québec. There is a similar public comment period required under the OSC recognition order for CDCC.

The lead regulator or recognizing regulator, as applicable, also has the general power to make any decision in respect of the exchange, clearing house or clearing agency that it deems necessary in the public interest, and can review any direction, decision, order or ruling of an exchange or clearing agency at the request of the regulator's executive director, or equivalent position, or any person directly affected by the direction, decision, order or ruling.

Terms and Conditions of TMX Group's and its Subsidiaries' Recognition Orders

On July 31, 2012, the final recognition orders of each of the OSC, AMF, BCSC and ASC with respect to the Maple Transaction³ came into effect. In addition, the AMF recognition order for CDCC came into effect on that date. Upon the completion of the Alpha and CDS (including its subsidiaries) acquisitions on August 1, 2012, the recognition order of the OSC regarding the Alpha transaction and the recognition orders of each of the OSC, AMF and BCSC regarding the CDS transaction came into effect. On April 17, 2014, the recognition order of the OSC with respect to CDCC came into effect. On April 24, 2015, the OSC varied and restated the recognition orders for TMX Group, TSX Inc., Alpha LP and TSX Alpha Exchange. The various recognition orders (collectively, the "Recognition Orders", and individually, a

³ In May 2011, we made a non-binding written proposal to acquire TMX Group Inc. On June 13, 2011, we made a formal offer, as subsequently varied and extended (the "Maple Offer"), to purchase a minimum of 70% to a maximum of 80% of the outstanding common shares of TMX Group Inc. for \$50.00 in cash per TMX Group Inc. share. The Maple Offer was part of an integrated acquisition transaction to acquire 100% of TMX Group Inc.'s outstanding common shares (the "Maple Transaction") involving the first step Maple Offer followed by a second step share exchange transaction pursuant to a court-approved and shareholder-approved plan of arrangement (the "Subsequent Arrangement") under which the remaining TMX Group Inc. shares (other than those held by TMX Group) were exchanged for common shares of TMX Group on a one-for-one basis. On September 14, 2012, we completed the second step Subsequent Arrangement and TMX Group Inc. became a wholly-owned subsidiary of TMX Group.

“Recognition Order”) provide the terms under which the OSC, AMF, BCSC and ASC, respectively, permit TMX Group to operate a combined exchange and clearing group. These Recognition Orders impose, among other things, governance, conflict of interest management, financial viability, resource and other operational requirements and reporting obligations, some of which are outlined below. The Recognition Orders also require that TMX Group and certain of its regulated subsidiaries conduct their business and operations in a manner that is consistent with the public interest. In addition, TMX Group is required to do everything within its control to cause each of TSX Inc., Alpha LP and TSX Alpha Exchange to carry out its activities as an exchange in compliance with applicable securities laws. TMX Group and TSX Inc. have each provided undertakings to the ASC and BCSC (the “ASC and BCSC Undertakings”) in which they represent that, among other things, they will ensure that TSX Venture Exchange Inc. complies with the terms of its Recognition Orders.

Under the AMF Recognition Order and pursuant to the ASC and BCSC Undertakings, the boards of directors of TMX Group, TSX Inc., TSX Venture Exchange Inc. and Montréal Exchange Inc. must be identical. In order to ensure consistency of governance, TMX Group also maintains mirror boards for Alpha GP and Alpha Exchange Inc.

Under the terms and conditions of the OSC, AMF, ASC and BCSC Recognition Orders, as applicable, the boards of directors of TMX Group, TSX Inc., TSX Venture Exchange Inc., Montréal Exchange Inc., Alpha Trading Systems Inc. and Alpha Exchange Inc. are subject to the following compositional requirements:

As at December 31, 2017, the Nomination Agreements with each of Alberta Investment Management Corporation, Scotia Capital Inc. and CIBC World Markets Inc. terminated.

Fees

- With respect to CDS and CDS Clearing fees, under the applicable Recognition Orders, all such fees will be subject to the approval of the applicable regulators. In addition, the ability to seek approval for fee increases on core or principal CDS or CDS Clearing services (as such terms are defined in the OSC and AMF Recognition Orders, respectively) in the future is constrained as we may only seek such approval where there has been a significant change in circumstances as at August 1, 2012, the effective date of their Recognition Orders. Accordingly, even where CDS's costs may be rising or revenues may be decreasing in the future (as a result of trading volumes falling in the future), we would only be permitted to seek a fee increase on core or principal CDS or CDS Clearing services if it could establish to the applicable regulators that there has been a significant change from circumstances as at August 1, 2012.
- For the fiscal year commencing on November 1, 2012, and subsequent fiscal years starting on January 1, 2013, we will share any annual revenue increases on clearing and other core or principal CDS and CDS Clearing services (as defined in the OSC and AMF Recognition Orders, respectively), as compared to revenues in fiscal year 2012 (the 12-month period ended October 31, 2012), on a 50/50 basis with participants, except in the case of the New York Link/DTC Direct Link Liquidity Premium ("Liquidity Premium"). For the fiscal year commencing on January 1, 2015 and subsequent fiscal years, we will also share with participants, on a 50/50 basis, any increases in annual revenue applicable to the Liquidity Premium compared with the annual revenue of the Liquidity Premium in the fiscal year ended December 31, 2015.
- In addition, we will rebate an additional amount to participants in respect of exchange clearing services for trades conducted on an exchange or ATS as follows for each 12-month period ending October 31: \$3.75 million in 2015; \$4.0 million in 2016; and \$4.0 million annually thereafter.

Regulation of Brokerage Firms — Operations and Business Conduct Generally

All brokerage firms trading through Toronto Stock Exchange, TSX Venture Exchange, TSX Alpha Exchange or MX must be members of a recognized SRO which regulates its members. These organizations regulate the broker-client relationships, business conduct and capital adequacy of their members. This regulation seeks to maintain the credibility of marketplaces, protect investors' interests and instill investor confidence by addressing general issues of trading ethics and investor protection in the markets. Participating organizations and member firms trading on Toronto Stock Exchange and TSX Venture Exchange, members trading on TSX Alpha Exchange and Canadian-approved participants trading on MX are regulated by IIROC. Foreign-approved participants trading through MX must be

regulated by a recognized SRO or regulator or exempted from registration in their jurisdiction. The exchanges, however, also have criteria for access to their markets.

Regulation of Market Participants — Market Trading Conduct

In Canada, an exchange can regulate its markets and its participants and enforce its requirements either directly or through a regulation services provider. IIROC is the SRO that provides regulation services to Toronto Stock Exchange, TSX Venture Exchange and TSX Alpha Exchange, monitoring and enforcing compliance with universal market integrity rules.

The regulatory functions of MX are conducted by MX's Regulatory Division. As a recognized exchange and SRO, MX, through its Regulatory Division, is responsible for regulating its markets and its participants on a day-to-day basis. The Regulatory Division achieves this by enforcing rules and policies governing MX's markets and the conduct of approved participants.

MX's Regulatory Division is independent from its other operations and is under the sole internal oversight of MX's Special Committee – Regulatory Division, which is independent from MX and its management. The objective of creating the Regulatory Division was to ensure neutrality and impartiality when the Regulatory Division applies the rules that govern MX's markets and the relationships between MX and its market participants. More information on the Special Committee and the Regulatory Division can be found in the ***"Our Business – Derivatives and Energy Markets – MX, CDCC and BOX – Derivatives – Regulatory Division"*** section on pages 19 to 20 of our 2017 Annual MD&A, which is incorporated by reference into this AIF.

Issuers of Securities

In Canada, there is one securities regulatory body in each province or territory. These provincial and territorial securities regulatory authorities regulate the offering of securities by issuers and their reporting and continuous disclosure requirements and, in certain cases, the conduct of various market participants including exchanges and intermediaries.

The ASC and BCSC have required TSX Venture Exchange to review and approve certain prospectuses filed by issuers listed on TSX Venture Exchange.

Each of our equity exchanges establishes standards for listed issuers and enforces compliance with those standards through the exchange's powers to halt trading in a security or to suspend or delist the listing of a security.

Listing of our Shares on Toronto Stock Exchange

Toronto Stock Exchange and staff of the OSC approved the listing and posting for trading of our common shares on Toronto Stock Exchange under the symbol "X" effective September 19, 2012. The OSC, pursuant to its Recognition Order, has approved procedures which require Toronto Stock Exchange to promptly report to the OSC any conflicts or potential conflicts of interest that arise or may arise with respect to our continued listing or the initial listing or continued listing of a competitor of TMX Group or its affiliates. Under these procedures, we established a conflicts committee, with at least two members who are independent of TSX Inc., and, for so long as any Nomination Agreement is in effect, Unrelated to an Original Maple Shareholder, and all conflict determinations and resolutions must be approved by staff of the OSC.

In addition, under Ontario securities legislation, the OSC has overriding powers to make decisions about Toronto Stock Exchange if it is in the public interest. Toronto Stock Exchange's reporting requirements and the OSC's monitoring function for the listing of our common shares are set out in TSX Inc.'s Listings-Related Conflicts Policy.

Regulatory Developments

More information on regulatory developments can be found in the "***Regulatory Changes***" section on page 10 of our 2017 Annual MD&A, which is incorporated by reference into this AIF.

Social Policies

Our charitable contributions support our communities through a targeted program which ties into our brand and enhances our reputation as a corporate citizen. We focus on initiatives which address social welfare, health and health-related research, as well as education, arts and culture and financial literacy which are closely aligned with the capital markets industry. TMX Group also has a corporate matching program which supports organizations important to individual employees by matching a portion of their personal gifts.

Our major corporate contributions in 2017 included support for the United Way and Centraide, and the Red Cross (in support of the communities where we work who experienced natural disasters over the year), in addition to a number of other charitable organizations in communities across Canada. We also continued our support for the MaRS Centre for Impact Investing and Frontier College.

Through our corporate matching program, we were able to support many charities of importance to our employees by matching their personal donations up to \$200 per employee if the organization fell within our guidelines (social welfare, health and health-related research, education, arts and culture and financial literacy).

In Vancouver, the sixth annual Toronto Stock Exchange and TSX Venture Exchange Charity Golf Tournament raised funds for the Cerebral Palsy Association of British Columbia and Room to Read. Shorcan's 19th Annual Shorcan Charity Day raised over \$650,000 in January 2017. This money supported Covenant House, ALS Society of Canada and CIBC Children's Foundation, as well as a number of other not-for-profit entities.

Under the Montréal Exchange Recognition Order, fines, costs associated with disciplinary matters and penalties collected by the Regulatory Division can only be used for specifically approved purposes. Montréal Exchange, through its Regulatory Division, has made contributions to the Management School of Université du Québec à Montréal (ESG UQAM) for its mock trading room. Funds have also been used to launch an options simulation program targeting undergraduate students and a bursaries program for graduate and postgraduate students focused on research related to derivatives and financial risk management.

In 2013, we launched the TMX Capital Markets Learning Centre, a free online information portal designed to help Canadians gain a better understanding of financial markets. Incorporated in the portal is the TMX Trading Simulator, which provides a simulated market experience for trading both equities and options.

Risk Factors

A discussion of risk factors related to TMX Group and its businesses appears under the heading “***Enterprise Risk Management – Risks and Uncertainties***” on pages 60 to 83 of our 2017 Annual MD&A, which is incorporated by reference into this AIF.

DESCRIPTION OF SHARE CAPITAL OF TMX GROUP

Our authorized capital consists of an unlimited number of common shares and an unlimited number of preference shares, issuable in series. Currently, only common shares of TMX Group Limited are issued and outstanding. No preference shares have been issued. Further information regarding our share capital is disclosed in Note 26 of the 2017 Annual Financial Statements, which is incorporated by reference into this AIF.

Common Shares

Each of our common shares is entitled to one vote at all meetings of our shareholders, except for meetings where only holders of another class or series of our shares are entitled to vote separately as a class or series. Each common share is also entitled to receive dividends if, as and when declared by the board of directors of TMX Group (the “TMX Group Board”). If the TMX Group Board declares and pays dividends, it must do so in equal amounts per share on all common shares (and subject to certain priority rights of the preference shares, if any). Common shareholders are entitled to participate in any distribution of our net assets if we liquidate, dissolve or wind-up (but subject to certain priority rights of preference shareholders, if any). The common shares do not have any pre-emptive, redemption, purchase or conversion rights except for the compulsory provisions described below related to enforcing the restrictions on ownership of our voting shares.

Preference Shares

The TMX Group Board may issue preference shares at any time and in one or more series. If the TMX Group Board issues preference shares, it will, before they are issued, fix the number, consideration per share, designation of, and rights and restrictions for the preference shares of each series (subject to the special rights and restrictions attached to all preference shares). Each series of preference shares will rank equally with all other series of preference shares for the payment of dividends and return of capital if we liquidate, dissolve or wind-up. The preference shares have a priority right to receive dividends and any return of capital before the common shares and any other junior shares. We cannot amend the preference shares’ special rights and restrictions as a class without obtaining any approval required by law, and the approval of at least two-thirds of the votes cast at a meeting of preference shareholders called and held for that purpose. To date, TMX Group Limited has not issued any preference shares.

Restrictions on Ownership of Our Voting Shares

Section 21.11 of the *Securities Act* (Ontario), as amended by regulation and an order of the OSC under section 21.11(4) of the *Securities Act* (Ontario) states that no person or company (or combination of persons or companies acting jointly or in concert) may beneficially own or exercise control or direction over more than 10% of any class or series of our voting shares without the prior approval of the OSC (together with the share ownership restrictions imposed under the AMF Recognition Orders outlined below, collectively referred to as the “Share Ownership Restrictions”).

Under the AMF Recognition Orders, no person or company or combination of persons or companies acting jointly or in concert can beneficially own or exercise control or direction over more than 10% of any class or series of our voting shares, without the prior approval of the AMF.

The OSC and the AMF can change the Share Ownership Restrictions (including the ownership percentage threshold) in the future.

Share Ownership Restrictions in Our Articles

Our articles of amalgamation include restrictions on voting share ownership (the “TMX Group Share Restrictions”) which are substantively identical to the Share Ownership Restrictions. Our common shares are currently our only outstanding voting shares. The articles provide that these restrictions will automatically change or be removed if the Share Ownership Restrictions are changed or removed.

Our articles contain provisions to enforce the TMX Group Share Restrictions, including our ability to suspend voting rights, forfeit dividends or any other distribution, prohibit share transfers, require a sale of shares or redeem and suspend other shareholder rights. The TMX Group Board may at any time require holders of, or subscribers for, voting shares and certain other persons to make declarations and provide related information with respect to ownership, direction, or control of voting shares and certain other matters relevant to this restriction. The TMX Group Board may also require holders or subscribers to produce documents, provide responses to written questions, and attend in person to answer questions concerning any declaration. We are prohibited from accepting any subscription or issuing or registering a transfer of voting shares if it would result in a violation of the TMX Group Share Restrictions.

Minimum Equity Ownership Interest in TMX Group

Each of CIBC World Markets Inc., National Bank Group Inc., Scotia Capital Inc. and TD Securities Inc., either directly or through an affiliate, agreed to maintain a specified minimum ownership interest in TMX Group for a period of five years from September 14, 2012. For the year ended September 14, 2013, each of these investors were required to own at least 6.25%, and for each of the four following years, each of these investors were required to own at least 5.625%, of our common shares outstanding as at September 14, 2012. The minimum equity ownership interest commitment expired in September 2017.

The Original Maple Shareholders with Nomination Rights each has the right to nominate one individual to the TMX Group Board until the earlier of September 14, 2018, or such time as the Original Maple Shareholder with Nomination Rights ceases to beneficially own at least 5% of TMX Group’s common shares; calculated with reference to our outstanding common shares as of September 14, 2012. As at December 31, 2017, the Nomination Agreements with each of Alberta Investment Management Corporation, Scotia Capital Inc. and CIBC World Markets Inc. terminated.

Until September 14, 2018, if an Original Maple Shareholder with Nomination Rights, including one whose Nomination Agreement has terminated, wishes to sell 0.75% or more of TMX Group’s outstanding common shares, it must be done in accordance with prescribed procedures as agreed to by the Original Maple Shareholders with Nomination Rights.

Restrictions on Ownership of Subsidiaries

TSX Inc.

Under Section 21.11 of the *Securities Act* (Ontario), as amended by regulation, no person or company (or combination of persons or companies acting jointly or in concert) may beneficially own or exercise control or direction over more than 10% of any class or series of TSX Inc.'s voting shares without the prior approval of the OSC. Any change to the ownership of TSX Inc. requires the prior approval of the OSC.

TMX Group has also agreed, in the ASC and BCSC Undertakings, to notify the ASC and BCSC if it has applied or intends to apply to the OSC for an amendment to the Recognition Order of the OSC permitting TMX Group to own, directly or indirectly, less than all of the issued and outstanding voting shares of TSX Inc.

TSX Venture Exchange Inc.

The ASC and BCSC Recognition Orders for TSX Venture Exchange Inc. impose conditions related to changes in ownership. TMX Group and TSX Inc. also agreed in the ASC and BCSC Undertakings not to complete or authorize a transaction that would result in TSX Venture Exchange Inc. ceasing to be wholly-owned by TSX Inc. or indirectly wholly-owned by TMX Group without: (i) providing the ASC and BCSC at least three months' prior notice of their intention; and (ii) complying with any terms and conditions that the ASC or BCSC may impose.

Alpha GP, Alpha LP and TSX Alpha Exchange

TMX Group must continue to own, directly or indirectly, all of the issued and outstanding voting shares of Alpha GP, and must continue to hold directly or indirectly, the interests in income and capital of Alpha LP. Alpha LP must continue to own, directly or indirectly, all the issued and outstanding voting shares of TSX Alpha Exchange. Without the prior approval of the OSC, and subject to such terms and conditions as considered appropriate by the OSC, other than TMX Group, no person or company, and no combination of persons or companies acting jointly or in concert shall hold an interest of more than 10%, or such other percentage as may be prescribed by the OSC in the income or capital of Alpha LP or may beneficially own or exercise control or direction over more than 10%, or such other percentage as may be prescribed by the OSC, of any class or series of voting shares of Alpha GP. The OSC's approval, as the case may be, may be subject to such terms and conditions as the OSC considers appropriate.

Montréal Exchange Inc. and Canadian Derivatives Clearing Corporation

Ratings

TMX Group received the following credit ratings from DBRS Limited (“DBRS”), which as at the date of this AIF remain unchanged:

	DBRS	
	Rating	Trend
Issuer Credit Rating	A (high)	Stable
Senior Unsecured Debt	A (high)	Stable
Commercial Paper	R-1 (low)	Stable

DBRS’ ratings are based on quantitative and qualitative considerations which are relevant for TMX Group. These ratings are intended to give an indication of the risk that TMX Group will not fulfill its obligations in a timely manner. Credit ratings are not recommendations to purchase, hold or sell securities and do not address the market price or suitability of a specific security for a particular investor. Credit ratings may not reflect the potential impact of all risks on the value of securities. In addition, real or anticipated changes in the rating assigned to a security will generally affect the market value of that security. There can be no assurance that a rating will remain in effect for any given period of time or that a rating will not be revised or withdrawn entirely by a rating agency in the future.

DBRS will regularly evaluate our issuer rating and the ratings of our Senior Unsecured Debt¹⁰ and Commercial Paper¹¹ outstanding. A downgrade from our existing rating could adversely affect our cost of borrowing and/or our ability to access sources of liquidity and capital and reduce financing options available to us.

As is customary, TMX Group pays fees to DBRS to obtain and maintain its credit ratings. TMX Group expects to pay similar fees in the future. No additional payments were made to DBRS in respect of any other services provided to TMX Group during the past two years.

A description of the rating categories has been obtained from DBRS’ website and is provided in Appendix B to this AIF.

Commercial Paper Program

- TMX Group established the Commercial Paper Program in May 2014 under which it was authorized to issue up to \$400.0 million in Commercial Paper. The Commercial Paper has been assigned a rating of R-1 (low) with a Stable trend by DBRS. TMX Group entered into a Credit agreement dated as of May 30, 2014, with a syndicate of Canadian and global financial institutions (the “Credit Agreement”) to provide a backstop to the Commercial Paper Program and for general corporate purposes. On May 2, 2016, TMX Group entered into an amended and restated credit agreement (the “Amended and Restated Credit Agreement”) with a syndicate of lenders which, among other things, extended the maturity date to May 2, 2019 and replaced the Credit Agreement. The amounts authorized under both the Amended and Restated Credit Agreement and the Commercial Paper Program were increased up to \$500.0 million or the U.S. dollar equivalent. On December 14, 2017, in connection with the acquisition of Trayport and sale of NGX and Shorcan Energy Brokers, we amended the Amended and Restated Credit Agreement to extend the maturity date to May 2, 2020. In addition, certain terms of the Amended and Restated Credit Agreement were also amended, including a less restrictive total leverage ratio. Further information on the Commercial Paper Program and the amendments to the Amended and Restated Credit Agreement are contained under the “**Commercial Paper, Debentures, Credit and Liquidity Facilities**” sections on pages 41 to 44 of our 2017 Annual MD&A, which is incorporated by reference into this AIF.

Transactions

On October 27, 2017, we entered into a stock purchase agreement, as amended on December 13, 2017, to acquire Trayport from ICE for £552 million / C\$952 million in total consideration, including £331 million / C\$573 million in cash consideration. In conjunction with that transaction, on October 27, 2017, TMX Group entered into a stock purchase agreement, as amended on December 13, 2017, to sell NGX and Shorcan Energy Brokers to ICE for £221 million / C\$379 million. Proceeds from the sale of these assets were used as partial consideration for the acquisition of Trayport. Both transactions closed on December 14, 2017. Further information on these transactions is contained under the “**Acquisition of Trayport and Sale of Natural Gas Exchange and Shorcan Energy Brokers**” section on pages 3 to 5 of our 2017 Annual MD&A and Notes 3 and 4 of our 2017 Annual Financial Statements, which are incorporated by reference into this AIF.

APPENDIX B

Ratings and Trends

Issuer Credit Rating

DBRS rating analysis begins with an evaluation of the fundamental creditworthiness of the issuer taking into account its business and financial risks. Based on an analysis of the relevant Methodologies, policies and procedures, DBRS assigns an issuer rating that indicates its assessment of the likelihood of default. Ratings that apply to actual securities (secured or unsecured) may be higher, lower or equal to the issuer rating for a given entity. The issuer rating is the reference point used in assigning ratings to an issuer's individual debt securities, with the most senior debt of investment grade companies typically assigned a rating equal to the issuer rating. The issuer rating is also the reference point for commercial paper and preferred share ratings. DBRS typically assigns issuer ratings on a long-term basis using its long-term obligations rating scale; however, DBRS may assign a "short-term issuer rating" using its commercial paper and short term debt rating scale to reflect the issuer's overall creditworthiness over a short-term time horizon.

Long-Term Debt - Senior Unsecured Debt

DBRS' long-term rating scale provides an opinion on the risk of default. That is, the risk that an issuer will fail to satisfy its financial obligations in accordance with the terms under which obligations have been issued. Ratings are based on quantitative and qualitative considerations relevant to the issuer, and the relative ranking of claims. All rating categories other than AAA and D also contain subcategories "(high)" and "(low)". The absence of either a "(high)" or "(low)" designation indicates the rating is in the middle of the category.

The A rating is ranked third of ten rating categories. Long-term debt rated A is of good credit quality. The capacity for the payment of financial obligations is substantial, but of lesser credit quality than AA. Entities may be vulnerable to future events, but qualifying negative factors are considered manageable.

Short-Term Debt - Commercial Paper

DBRS' short-term debt rating scale provides an opinion on the risk that an issuer will not meet its short-term financial obligations in a timely manner. Ratings are based on quantitative and qualitative considerations relevant to the issuer and the relative ranking of claims. The R-1 and R-2 rating categories are further denoted by the subcategories "(high)", "(middle)", and "(low)".

The R-1 rating is ranked first of six rating categories. Short-term debt rated R-1(low) is of good credit quality. The capacity for the payment of short-term financial obligations as they fall due is substantial, but the overall strength is not as favorable as higher ratings. Entities may be vulnerable to future events, but qualifying negative factors are considered manageable.

Rating Trends

Rating trends provide guidance in respect of DBRS's opinion regarding the outlook for a rating. Rating trends have three categories: "Positive," "Stable" or "Negative." The rating trend indicates the direction in which DBRS considers the rating may move if present circumstances continue, or in certain cases as it relates to the Corporate Finance sector, unless challenges are addressed by the issuer. DBRS assigns rating trends based primarily on an evaluation of the issuing entity or guarantor itself, but may also

include consideration of the outlook for the industry or industries in which the issuing entity operates, giving consideration to developments that could positively or negatively impact the sector or the company's debt position within the sector. It is often the rating trend that reflects the initial pressures or benefits of a changing environment rather than an immediate change in the rating. A Positive or Negative trend is not an indication that a rating change is imminent. Rather, a Positive or Negative trend represents an indication that there is a greater likelihood that the rating could change in the future than would be the case if a Stable trend were assigned to the security. Generally, the conditions that lead to the assignment of a Negative or Positive trend are resolved within a 12-month period. However, in some instances, new factors emerge that may cause the Positive or Negative trend to be maintained, even as the original factors become clarified or resolved. DBRS generally notes any changes to the basis for the Positive or Negative trend.
