GULFSTREAM ACQUISITION 1 CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED SEPTEMBER 30, 2015 AND 2014
(Expressed in Canadian dollars)

1. NATURE OF BUSINESS

Gulfstream Acquisition 1 Corp. (the "Company") was incorporated on June 8, 2012 under the Ontario Business Corporations Act. The Company is a Capital Pool Company ("CPC") as defined in the TSX Venture Exchange (the "Exchange") Policy 2.4 and accordingly, its planned principal activity is to use its capital to investigate and acquire a business or group of assets (the "Qualifying Transaction"). The address of the Company's principal place of business and registered office is Suite 701 - 130 Adelaide Street, Toronto, Ontario, Canada M5H 2K4.

2. BASIS OF PREPARATION AND CONTINUING OPERATIONS

Statement of Compliance

These financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

Approval of the Financial Statements

The financial statements of the Company for the three and nine months ended September 30, 2015 were reviewed by the Audit Committee and approved and authorized for issuance by the Board of Directors on December 1, 2015.

Basis of Measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value as explained in the accounting policies set out in Note 3.

The functional and presentation currency of the Company is the Canadian dollar.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note

3. Going Concern

As at September 30, 2015, the Company had no business operations and its only significant asset was cash. The Company reported a net loss of \$24,324 for the nine months ended September 30, 2015 and has accumulated losses of \$157,651 since inception.

The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition of, or participation in, a business subject to receipt of shareholder approval, if required, and acceptance by regulatory authorities. Where an acquisition or participation is warranted (the "Qualifying Transaction"), additional funding may be required. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to identify, evaluate and negotiate an acquisition, participate in or invest in an interest in a Qualifying Transaction, and obtain additional financing. These factors create a material uncertainty that raises significant doubt upon the Company's ability to continue as a going concern. There is no assurance that the Company will identify a business or asset that warrants acquisition or participation within twenty-four months from the date the Company's shares are listed for trading, at which time the Exchange may suspend or de-list the Company's shares from trading.

GULFSTREAM ACQUISITION 1 CORP.
NOTES TO FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED SEPTEMBER 30, 2015 AND 2014
(Expressed in Canadian dollars)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern.

a) Significant Accounting Estimates and Judgements

The preparation of these financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions which affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses for the periods reported. Significant areas requiring the use of management estimates include the determination of share-based compensation and the recognition of deferred income tax assets. Actual results could differ from these estimates.

Critical accounting judgements are accounting policies that have been identified as being complex or involving subjective or assessments with a significant risk of material adjustment in the next year. Significant areas requiring critical accounting judgements include the Company's ability to carry on as a going concern.

b) Income Taxes

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available against which the deferred tax asset can be utilized. At the end of each reporting year the Company reassesses unrecognized deferred tax assets. The Company recognizes a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

c) Loss Per Share

Basic loss per share is computed by dividing net earnings available to common shareholders by the weighted average number of common shares outstanding during the period. The Company applies the treasury stock method in calculating diluted loss per share. Diluted loss per share excludes all dilutive potential common shares if their effect is anti-dilutive.

d) Share Issue Costs

Professional, consulting, regulatory and other costs directly attributable to financing transactions are recorded as deferred financing costs until the financing transactions are completed, if the completion of the transaction is considered likely; otherwise they are expensed as incurred. Share issue costs are charged to share capital when the related shares are issued. Deferred financing costs related to financing transactions that are not completed are charged to operations.

NOTES TO FINANCIAL STATEMENTS
FOR THE NINE AND THREE MONTHS ENDED SEPTEMBER 30, 2015 AND 2014
(Expressed in Canadian dollars)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Share-based Compensation

The stock option plan allows Company employees and consultants to acquire shares of the Company. The fair value of equity settled stock options awarded to employees defined under IFRS 2 Share-based payments (i.e. employees for legal and tax purpose, directors and certain consultants), determined as of the date of grant, and awarded to non-employees defined under IFRS 2, as of the date of delivery of service, is recognized as share-based compensation expense, included in general and administrative expenses in the statement of comprehensive loss, over the vesting period of the stock options based on the estimated number of options expected to vest, with a corresponding increase to equity.

f) Financial Instruments

All financial assets are initially recorded at fair value and classified into one of four categories: held to maturity, available for sale, loans and receivable or at fair value through profit or loss ("FVTPL"). All financial liabilities are initially recorded at fair value and classified as either FVTPL or other financial liabilities. Financial instruments comprise of cash and accounts payable. At initial recognition management has classified financial assets and liabilities as follows:

Financial assets - The Company has classified its cash at FVTPL. A financial instrument is classified at FVTPL if it is held for trading or is designated as such upon initial recognition. Financial instruments are designated at FVTPL if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Company's documented risk management or investment strategy. Financial instruments at FVTPL are measured at fair value and changes therein are recognized in income.

Financial liabilities - The Company has classified its accounts payable as other financial liabilities. Accounts payable are recognized at the amount required to be paid less, when material, a discount to reduce the payable to fair value. The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

g) Changes in Accounting Policies

The Company adopted the following accounting policies effective January 1, 2014:

IFRS 13 Fair Value Measurement – IFRS 13 is a comprehensive standard for fair value measurement and disclosure requirements for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. It also establishes disclosures about fair value measurement. The Company applied IFRS 13 at November 1, 2013, and did not have an impact on the financial statements.

IAS 1 Presentation of Financial Statements – IAS 1 has been amended to require entities to separate items presented in other comprehensive income ("OCI") into two groups, based on whether or not items may be recycled to net income in the future. Entities that choose to present OCI items before tax will be required to show the amount of tax related to the two groups separately including prior year comparatives. The adoption of this IFRS did not impact the Company's financial statements.

The adoption of the accounting policies had no impact on the financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

h) New Accounting Standards Issued But Not Yet Effective.

Certain new standards, interpretations and amendments to existing standards have been issued by the IASB that are mandatory for future accounting periods. Some updates that are not applicable or are not consequential to the Company may have been excluded from the list below. The Company intends to adopt these standards when they become effective.

The following standard will be effective for annual periods beginning on or after January 1, 2016:

IAS 1 Presentation of Financial Statements – In December 2014, the IASB issued an amendment to address perceived impediments to preparers exercising their judgment in presenting their financial reports. The changes clarify that materiality considerations apply to all parts of the financial statements and the aggregation and disaggregation of line items within the financial statements.

IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets – In May 2014, the IASB issued amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets. The amendments clarify that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. The amendments also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This presumption, however, can be rebutted in certain limited circumstances.

The following standard will be effective for annual periods not earlier than January 1, 2018:

IFRS 9 Financial Instruments – In November 2009, as part of the IASB project to replace IAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013 the standard was revised to add the new general hedge accounting requirements. The standard was finalized in July 2014 and was revised to add a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income (FVOTCI) category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics test.

The extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.

4. SHARE CAPITAL

a) Authorized: Unlimited number of common shares without par value.

b) Issued and outstanding:

On February 26, 2013, the Company issued 500,000 common shares at \$0.05 per share for total proceeds of \$25,000.

On June 14, 2013 the Company issued 2,500,000 common shares at \$0.10 per share for total proceeds of \$250,000.

During the year ended December 31, 2013, the Company incurred cash share issuance costs of \$47,000 related to the offering of which \$10,000 was paid in fiscal 2012.

On June 15, 2015 the Company issued 105,159 common shares at \$0.10 shares for total proceeds of \$10,515.90 pursuant to an exercise of warrants by Canaccord Genuity Corp.

c) Escrow shares

The Company has 4,200,000 shares held in escrow at September 30, 2015. 10% of the escrowed shares will be released from escrow upon issuance of notice of final acceptance of a Qualifying Transaction by the TSX-V and as the remainder in six equal tranches of 15% every six months thereafter for a period of 36 months. These escrow shares may not be transferred, assigned or otherwise dealt without the consent of the regulatory authorities.

d) Stock options

The Company adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in their discretion, and in accordance with the requirements of the TSX Venture Exchange (the "Exchange"), grant to directors, officers, and technical consultants to the Company, non-transferable options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed 10% of the issued and outstanding common shares of the Company. Options will be exercisable for a period of up to 5 years from the date of grant, and must comply with the rules of the Exchange.

On September 19, 2012, the Company granted 685,000 stock options with an exercise price of \$0.10 per unit expiring 5 years from the date of listing on Exchange. On March 12, 2013, the Board of Directors approved an amendment to stock options granted to certain directors of the Company on September 19, 2012. In accordance with the terms of the amendment, the number of issued and outstanding options held by the optionees were reduced from 685,000 to 675,000. As a result of the amendment, the Company cancelled 10,000 options of which none had vested. All other terms of the outstanding stock options remain the same.

On June 14, 2013, the options vested. Due to the amendment on March 12, 2013, the Company revalued the options as at the amendment date and determined that the fair value was \$20,689 of which \$11,845 was recognized during the period ended December 31, 2012. The Company recorded the remaining balance of \$8,845 to share based compensation during the year ended December 31, 2013.

Any common shares acquired pursuant to the exercise of options prior to completion of a Qualifying Transaction must be deposited into escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

e) Warrants

Canaccord Genuity Corp. acted as agent (the "Agent") for the offering described in Note 4(b). On June 14, 2013, the Company granted the Agent and its sub-agent an aggregate of 250,000 non-transferable warrants (each, an "Agent's Warrant"), each of which entitles the Agent or its sub-agent, as applicable, to purchase one share at a price of \$0.10 per Share for a period of 24 months from the date of the listing of the shares on the TSX Venture Exchange (the "Exchange"). The total fair value of the Agent's Warrants issued of \$68,768 was calculated using the Black-Scholes option pricing model. Upon issuance of the warrants on June 14, 2013 the Company recorded share issuance costs of \$68,768.

On June 13, 2015, the Company received a notice from the Agent to exercise 105,159 of the warrants to purchase common shares for total proceeds of \$10,515.90, and subsequently on June 15, 2015 issued 105,159 common shares to the Agent pursuant to their exercise. On June 15, 2015, the remaining 148,841 warrants issued and outstanding expired unexercised.

5. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the identification, evaluation and acquisition of a Qualified Transaction. The Company does not have any externally imposed capital requirements to which it is subject.

As at September 30, 2015, the Company had capital resources consisting mainly of cash. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue common shares or dispose of assets or adjust the amount of cash.

Tax benefits not recognized	(24,324)	(41,506)	(32,530)
Net deferred income tax assets	-	-	-

As at September 30, 2015, the Company had approximately \$148,000 in non-capital loss carry forward available to reduce taxable income for future years. The non-capital losses expire accordingly:

2032	\$ 15,000
2033	70,000
2034	46,000
2035	24,000
	<u>\$155,000</u>

7. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and accounts payable. The carrying value of these financial instruments approximates their fair values due to their immediate or short-term maturity. The following table summarizes the carrying values of the Company's financial instruments:

September 30, 2015

FVTPL (i)	\$ 310,767
Other financial liabilities (ii)	<u>19,212</u>

8. FINANCIAL INSTRUMENTS (continued)

The Company classifies its fair value measurements in accordance with an established hierarchy that prioritizes the inputs in valuation techniques used to measure fair value as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and

Level 3 - Inputs that are not based on observable market data

The following table sets for the Company's financial assets measured at fair value by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
	\$	\$	\$	\$
Cash	310,767	-	-	310,767

i) Credit risk

Credit risk is the risk of financial loss to the Company if counter-party to a financial instrument fails to meet its contractual obligations. The Company manages credit risk by investing its cash with a large Canadian chartered bank. The maximum exposure to credit risk at the reporting date is the carrying value of the Company's cash.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to interest rate risk with respect to its cash flow. The Company does not have any interest bearing financial instruments.

iii) Currency risk

The Company does not have significant foreign exchange risk as all of its transactions are in Canadian dollars.

iv) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through the management of its capital structure and financial leverage as outlined above.

The Company monitors its ability to meet its short-term expenditures for the identification, evaluation and acquisition of a Qualified Transaction by raising additional funds through share issuance when required.

The Company does not have investments in any asset backed deposits. The Company does not have any contractual financial liabilities as at September 30, 2015
