Liberty Defense Receives Contract for Multiple HEXWAVE's from Manchester-Boston Regional Airport

The Manchester, NH, airport will deploy the HEXWAVE walkthrough security detection portal to seamlessly screen for the Aviation Worker Screening Initiative.

WILMINGTON, Mass. and MANCHESTER, NH, May 28, 2024 /CNW/ - Liberty Defense Holdings Ltd. ("**Liberty**" or the "**Company**") (TSXV: SCAN) (OTCQB: LDDFF) (FRANKFURT: LD2A), a leading technology provider of AI-based next generation detection solutions for concealed weapons and threats, is pleased to announce that its HEXWAVE system was selected by Manchester-Boston Regional Airport **("MHT"** or the "**Airport")** to deploy the HEXWAVE to meet the TSA's National Amendment for Aviation Worker Security Screening.

Strategically situated in the heart of New England, Manchester-Boston Regional Airport is located less than fifty miles north of Boston, Massachusetts, and less than an hour's drive from the region's most popular ski areas, scenic seacoast beaches and peaceful lakefront resorts. MHT is the premier aviation gateway for the region and was recently named #1 Best Domestic Airport in the country by Travel + Leisure's World's Best Awards 2023.

With the recent release of the TSA mandate to implement screening for aviation workers, airports will need technologies that provide a broad range of threat detection that can meet the current screening requirements and those mandated for the future.

"As industry leaders, we are excited to acquire the HEXWAVE system to use in our broader airport security program," said MHT Airport Director Ted Kitchens, A.A.E. "The portability of the HEXWAVE solution will provide enhanced security in non-traditional areas of the airport. We are excited to work with Liberty Defense, as we are continually looking to innovate and improve the overall safety of our airport."

Unlike weapon detection technology, HEXWAVE uses millimeter wave, advanced 3D imaging and AI to detect all types of concealed metallic and non-metallic threats and other prohibited items – without the passenger having to divest common items. The system allows for rapid, automated screening using a high-throughput, contactless, walkthrough portal to detect liquid, powder and plastic explosives, 3D printed ghost guns and other threats of concern today that enhanced metal detectors on the market cannot detect.

"We are thrilled that MHT has selected Liberty Defense and the HEXWAVE as the screening solution for the Aviation Worker Program," said Bill Frain, CEO of Liberty Defense. "The flexibility and portability of the HEXWAVE allows the Airport to quickly deploy and move the HEXWAVE to help meet security screening requirements to areas inside the Airport. We are thrilled to work with them on their continued aviation industry innovation."

About Liberty Defense

Liberty Defense (TSXV: SCAN, OTCQB: LDDFF, FRANKFURT: LD2A) provides multi-technology security solutions for concealed weapons detection in high-volume foot traffic areas and locations requiring enhanced security such as airports, stadiums, schools and more. Liberty's HEXWAVE product, for which the company has secured an exclusive license from Massachusetts Institute of Technology (MIT), as well as a technology transfer agreement for patents related to active 3D radar imaging technology, provides discrete, modular and scalable protection to provide layered, stand-off detection capability of metallic and non-metallic weapons. Liberty has also recently licensed the millimeter wave-based, High-Definition Advanced Imaging Technology (HD-AIT) body scanner and shoe scanner technologies as part of its technology portfolio. Liberty is committed to protecting communities and preserving peace of mind through superior security detection solutions. Learn more: LibertyDefense.com

FORWARD-LOOKING STATEMENTS

When used in this press release, the words "estimate", "project", "belief", "anticipate", "intend", "expect", "plan", "predict", "may" or "should" and the negative of these words or such variations thereon or comparable terminology are intended to identify forward-looking statements and information. Although Liberty believes, in light of the experience of their respective officers and directors, current conditions and expected future developments and other factors that have been considered appropriate, that the expectations reflected in the forward-looking statements and information in this press release are reasonable, undue reliance should not be placed on them because the parties can give no assurance that such statements will prove to be correct. Such statements and information reflect the current view of Liberty. There are risks and uncertainties that may cause actual results to differ materially from those contemplated in those forward-looking statements and information.

By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. There are a number of important factors that could cause Liberty's actual results to differ materially from those indicated or implied by forward-looking statements and information. Such factors include, among others: currency fluctuations; limited business history of the parties; disruptions or changes in the credit or security markets; results of operation activities and development of projects; project cost overruns or unanticipated costs and expenses; and general development, market and industry conditions. The parties undertake no obligation to comment on analyses, expectations or statements made by third parties in respect of their securities or their respective financial or operating results (as applicable).

Liberty cautions that the foregoing list of material factors is not exhaustive. When relying on Liberty's forward-looking statements and information to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Liberty has assumed that the material factors referred to in the previous paragraph will not cause such forward-looking statements and information to differ materially from actual results or events. However, the list of these factors is not exhaustive and is subject to change and there can be no assurance that such assumptions will reflect the actual outcome of such items or factors. The forward-looking information contained in this press release represents the expectations of Liberty as of the date of this press release and, accordingly, are subject to change after such date. Liberty does not undertake to update this information at any particular time except as required in accordance with applicable laws.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of *this press release.*
