

Liberty Biopharma Announces Re-Certification of ISO13485 and ISO9001

September 26, 2016 – Richmond, British Columbia: Liberty Biopharma Inc. (“Liberty” or “Company”) is pleased to announce that the quality management systems for the manufacturing of its licensed bioprocessing and cell isolation system have been re-certified under ISO 13485 and 9001 (the “ISO Certification”).

ISO Certification demonstrates to customers that the Company’s bioprocessing system to isolate stem cells and regenerative cells from adipose liposuction fat has been certified to applicable standards with rigorous quality assurance and is a quality product for global markets and leading researchers.

ISO 13485:2003 harmonizes medical device regulatory requirements for quality management systems. It demonstrates a company’s ability to provide medical devices and related services that consistently meet customer and regulatory requirements.

ISO 9001:2008 is a quality management system that consistently meets customer and applicable statutory and regulatory requirements. It aims to enhance customer satisfaction through the effective application of the system, including processes for continual improvement of the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

About Liberty Biopharma Inc.

Liberty is a wholly-owned subsidiary of Avapecia Life Sciences Corp. (CSE: VVS) (“Avapecia”) responsible for the worldwide marketing of the Avagenesis Corp. (TSXV: VVA) (“Avagenesis”) and Avapecia standardized adipose stem cell therapy isolation and enrichment platform. Any cash flow streams from activities will be accounted for and allocated to whichever of Avagenesis or Avapecia holds the intellectual property for the specific medical indication, condition and market from which the cash flow is derived.

Neither the TSX Venture Exchange or the Canadian Securities Exchange nor their respective regulation services providers (as that term is defined in their respective policies) accepts responsibility for the adequacy or accuracy of this press release.

Cautionary Statements

Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "likely", "estimated" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on current belief or assumptions as to the outcome and timing of such future events. Actual future results and developments may differ materially from those contemplated by these statements depending on, among other things, the risk that the Company may not successfully transition to a clinical stage company and successfully execute its development and commercialization activities. Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information. Those assumptions and factors are based on information currently available to the Company. Readers are cautioned that the above list of risk factors is not exhaustive. The forward-looking information contained in this press release is made as of the date hereof and the Company is not obligated to update or revise any forward-looking information, whether as a

result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.
