About Pulse

Pulse is a Canadian company incorporated under the *Business Corporations Act* (Alberta) that is primarily focused on a 100% working interest in the EOR Project located in West Central Alberta, Canada. The project includes two established Nisku pinnacle reef reservoirs that have been producing sweet light crude oil for over 40 years.

The Company has instituted a proven recovery methodology (NGL solvent injection) to further enhance the ultimate oil recovery from these two proven pools. With under 10 million barrels of oil recovered to date, and representing approximately 30% recovery factor from the pools, Pulse is moving forward to execute the EOR Project and unlock significant value for shareholders. Pulse's total reclamation liabilities are just \$3.1 million which, when compared to many peers in the industry in Western Canada, are very low.
