

CHAR TECHNOLOGIES LTD. RECEIVES INITIAL CONTRACT PRODUCTION SHIPMENT

Toronto, Ontario – June 6, 2017

Not for distribution in the United States or through United States wire services.

CHAR Technologies Ltd. (the “**Corporation**”) (YES – TSXV) is pleased to announce that it has received an initial shipment of SulfaCHAR produced under contract. The shipment consists of 18 metric tonnes of SulfaCHAR, produced by a contractor, under the process conditions prescribed by the Corporation. The SulfaCHAR was tested by a third-party laboratory to ensure product quality and efficacy. The initial scope is for the contractor to produce up to 20 tonnes per month of SulfaCHAR. The contract production will supply customers until the Corporation’s SulfaCHAR production unit is operating later this year, and will then supplement the plant production to support further growth.

“Bringing a contract producer onboard will allow CHAR to both diversify and increase production,” said CEO Andrew White. “This production diversity and flexibility will ultimately allow CHAR to bring more SulfaCHAR to market faster.”

About CHAR

The Corporation is in the business of producing a proprietary activated charcoal like material (“**SulfaCHAR**”), which can be used to remove hydrogen sulfide from various gas streams (focusing on methane-rich and odorous air). The SulfaCHAR, once used for the gas cleaning application, has further use as a sulfur-enriched biochar for agricultural purposes (saleable soil amendment product).

Forward-Looking Statements

Certain statements contained in this press release contain “forward-looking information” (“**forward-looking statements**”) within the meaning of Canadian securities laws. These forward-looking statements represent the Corporation’s expectations or beliefs concerning future events, and it is possible that the events described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of the Corporation’s control, which could cause actual results to differ materially from the results discussed in the forward-looking statements.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, the Corporation does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for the Corporation to predict all such factors. When considering these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in the Corporation’s MD&A dated May 29th, 2017 and available under the Corporation’s profile on www.sedar.com. Such risks could cause actual events or the Corporation’s actual results to differ materially from those contained in any forward-looking statement.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
