

NEWS RELEASE

Alvopetro Announces May Sales Volumes

Calgary, Alberta, June 4, 2026 – Alvopetro Energy Ltd. (TSX-V:ALV; OTCQX: ALVOF) announces May sales volumes of 3,076 boepd (based on field estimates). In Brazil, May sales averaged 2,895 boepd, including natural gas sales of 16.3 MMcfpd, associated natural gas liquids sales from condensate of 174 bopd and oil sales of 10 bopd. In Canada, oil sales averaged 181 bopd.

	May 2026	April 2026	Q1 2026
Natural gas, NGLs and crude oil sales:			
Brazil:			
Natural gas (Mcfpd), by field:			
Caburé	12,060	12,210	11,691
Murucututu	4,206	4,522	4,798
Total natural gas (Mcfpd)	16,266	16,732	16,489
NGLs (bopd)	174	155	175
Oil (bopd) ⁽¹⁾	10	9	12
Total (boepd) – Brazil	2,895	2,953	2,935
Canada:			
Oil (bopd) – Canada	181	180	193
Total Company – boepd⁽²⁾	3,076	3,133	3,128

(1) Oil sales volumes in Brazil relate to the Bom Lugar and Mãe da lua fields. Alvopetro has entered into an assignment agreement to dispose of the fields, the closing of which is subject to standard regulatory approvals, including approval of the ANP.

(2) Alvopetro reported volumes are based on sales volumes which, due to the timing of sales deliveries, may differ from production volumes.

Operations Update

We are currently drilling our 183-D1 well at a depth of 3,085 meters out of a planned 3,270 metres total depth. The 183-D1 well is a follow up to our successful 183-D4 well in the Caruaçu Formation on our 100% interest Murucututu Field. We have also started civil construction of our 183-G drilling pad that will support our ongoing future development drilling plans.

Annual General Meeting

Alvopetro's annual general and special meeting (the "Meeting") will be held on Tuesday, June 9, 2026 at the offices of Torys LLP (Suite 4600, 525 8th SW, Calgary, Alberta) beginning at 9:30 a.m. Mountain time. The management information circular and all related materials are available on our website and www.sedarplus.ca.

All interested parties are invited to attend the Meeting. We will also be broadcasting the meeting via live webcast for the interest of all shareholders. Please be advised that shareholders will not be able to vote any shares through this webcast format. Details for joining the event are as follows:

DATE: June 9, 2026

TIME: 9:30 AM Mountain/11:30 AM Eastern

***Alvopetro Energy Ltd.** is deploying a balanced capital allocation model where we seek to reinvest roughly half our cash flows into organic growth opportunities and return the other half to stakeholders. Alvopetro's organic growth strategy is to focus on the best combinations of geologic prospectivity and fiscal regime. Alvopetro is balancing capital investment opportunities in Canada and Brazil where we are building off the strength of our Caburé and Murucututu natural gas fields and the related strategic midstream infrastructure.*

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

Abbreviations:

boepd	=	barrels of oil equivalent ("boe") per day
bopd	=	barrels of oil and/or natural gas liquids (condensate) per day
BRL	=	Brazilian real
e ³ m ³ /d	=	thousand cubic metre per day
m ³ /d	=	cubic metre per day
Mcf	=	thousand cubic feet
Mcfpd	=	thousand cubic feet per day
MMcf	=	million cubic feet
MMcfpd	=	million cubic feet per day
NGLs	=	natural gas liquids (condensate)

BOE Disclosure

The term barrels of oil equivalent ("boe") may be misleading, particularly if used in isolation. A boe conversion ratio of six thousand cubic feet per barrel (6 Mcf/bbl) of natural gas to barrels of oil equivalence is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. All boe conversions in this news release are derived from converting gas to oil in the ratio mix of six thousand cubic feet of gas to one barrel of oil.

Forward-Looking Statements and Cautionary Language

This news release contains forward-looking information within the meaning of applicable securities laws. The use of any of the words "will", "expect", "intend", "plan", "may", "believe", "estimate", "forecast", "anticipate", "should" and other similar words or expressions are intended to identify forward-looking information. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the expectations discussed in the forward-looking statements. These forward-looking statements reflect current assumptions and expectations regarding future events. Accordingly, when relying on forward-looking statements to make decisions, Alvopetro cautions readers not to place undue reliance on these statements, as forward-looking statements involve significant risks and uncertainties. More particularly and without limitation, this news release contains forward-looking statements concerning plans relating to the Company's operational activities and proposed exploration and development activities and the timing of such

activities. Forward-looking statements are necessarily based upon assumptions and judgments with respect to the future including, but not limited to the success of future drilling, completion, testing, recompletion and development activities and the timing of such activities, the performance of producing wells and reservoirs, well development and operating performance, expectations and assumptions concerning the timing of regulatory licenses and approvals, equipment availability, environmental regulation, including regulations relating to hydraulic fracturing and stimulation, the ability to monetize hydrocarbons discovered, the outlook for commodity markets and ability to access capital markets, foreign exchange rates, the outcome of any disputes, the outcome of future redeterminations, general economic and business conditions, forecasted demand for oil and natural gas, the impact of global pandemics, weather and access to drilling locations, the availability and cost of labour and services, and the regulatory and legal environment and other risks associated with oil and gas operations. The reader is cautioned that assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be incorrect. Actual results achieved during the forecast period will vary from the information provided herein as a result of numerous known and unknown risks and uncertainties and other factors. Current and forecasted natural gas nominations are subject to change on a daily basis and such changes may be material. In addition, the declaration, timing, amount and payment of future dividends remain at the discretion of the Board of Directors. Although we believe that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because we can give no assurance that they will prove to be correct. Since forward-looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, risks associated with the oil and gas industry in general (e.g., operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to production, costs and expenses, reliance on industry partners, availability of equipment and personnel, uncertainty surrounding timing for drilling and completion activities resulting from weather and other factors, changes in applicable regulatory regimes and health, safety and environmental risks), commodity price and foreign exchange rate fluctuations, market uncertainty associated with trade or tariff disputes, and general economic conditions. The reader is cautioned that assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be incorrect. Although Alvopetro believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information because Alvopetro can give no assurance that it will prove to be correct. Readers are cautioned that the foregoing list of factors is not exhaustive. Additional information on factors that could affect the operations or financial results of Alvopetro are included in our AIF which may be accessed on Alvopetro's SEDAR+ profile at www.sedarplus.ca. The forward-looking information contained in this news release is made as of the date hereof and Alvopetro undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.
