

Earth Alive EA1™ Trial to Commence in Chile

Third Milestone Towards Becoming Multi-Site Dust Suppressant Solution

MONTREAL, June 30, 2020 -- Earth Alive Clean Technologies Inc. (TSXV: EAC) ("Earth Alive" or the "Company"), a Canadian soil health company that develops and manufactures advanced microbial technology products today announced a sale agreement ("Agreement") for its proprietary EA1™ dust suppressant with a major mining operation in Chile. This trial, the third by this mining group in separate geographical locations, is part of the approval process to becoming an important multi-site dust suppressant solution provider for the group.

Under the terms of the sale, Earth Alive will conduct a six-week, on-site trial to validate the efficacy of the Company's proprietary EA1™ dust suppressant at a large open-pit copper mine in Chile.

"We are pleased to begin our third trial valued at approximately C\$75,000 with this important international mining conglomerate," said Earth Alive CEO, Michael Warren. "This validation process will allow Earth Alive to continue to build positive momentum with this important mining group operating around the world," added Mr. Warren.

About Earth Alive Clean Technologies

Earth Alive is a soil health company and an industry leader in microbial technologies. Earth Alive's innovative products contribute to regenerative agriculture, natural dust suppression with minimal water use and industrial cleaning that is ecological and human friendly.
