Avidian Announces Closing of First Tranche of Non-Brokered Private Placement

NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR RELEASE, PUBLICATION, DISTRIBUTION OR DISSEMINATION DIRECTLY, OR INDIRECTLY, IN WHOLE OR IN PART, IN OR INTO THE UNITED STATES

TORONTO, Ontario, June 14, 2021 – Avidian Gold Corp. ("**Avidian**" or the "**Company**") (TSX-V: AVG & OTCQB: AVGDF) is pleased to announce the closing of the first tranche of the Company's private placement first announced on April 26, 2021 (the "**Offering**"). Within the first tranche, the Company raised aggregate gross proceeds of $5,218,411 through the sale of 26,897,774 hard dollar units (the "**HD Units**") at a price of $0.15 per HD Unit and 6,576,364 common shares of the Company issued on a "flow-through" basis pursuant to the Income Tax Act (Canada) (the "**FT Shares**") at a price of $0.18 per FT Share. The Company expects to close the second tranche of the Offering on or about June 17, 2021. The Company reserves the right to up-size the Offering by 25%.

Each HD Unit issued pursuant to the first tranche consists of one common share of the Company (a "**Common Share**") and a half warrant (a "**Warrant**"). Each whole Warrant will entitle the holder to acquire a common share of the Company at $0.20 for thirty-six (36) months following closing of the first tranche.

In connection with the first tranche, the Company paid to eligible finders an aggregate of $158,857.44 in cash and 990,354 broker warrants (the "**Broker Warrants**"). Each Broker Warrant is exercisable to acquire one Common Share at a price of $0.20 for a period of thirty-six (36) months following closing of the first tranche.

Certain insiders of the Company have subscribed for an aggregate of 2,719,635 HD Units for aggregate gross proceeds of $407,945.25. The participation by these insiders within the Offering will support advancement of the Company's mining projects and general working capital purposes. The issuance of the HD Units to the insiders are considered related party transactions within the meaning of TSXV Policy 5.9 and Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"). The Company has relied on the exemptions from the formal valuation and minority approval requirements under sections 5.5(a) and 5.7(a) of MI 61-101, on the basis that the participation by the insiders does not exceed 25% of the market capitalization of the Company.

Net proceeds from the sale of FT Shares under the Offering will be used for Canadian exploration expenses on the Company's Canadian mineral properties. The net proceeds from the sale of the HD Units will be used towards the development of the Company's mineral properties and for general and administrative expenses. The Offering is conditional upon receipt of required regulatory approvals, including the approval of the TSX Venture Exchange. The securities issued and issuable pursuant to the Offering, as well as any compensation options issued to finders, will be subject to a four months and a day statutory hold period in accordance with applicable Canadian securities laws.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933 (the "1933 Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons (as defined in the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration is available.

About Avidian Gold Corp.

Forward-looking information

This News Release includes certain "forward-looking statements" which are not comprised of historical facts including statements regarding the use of proceeds. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to: the ability to anticipate and counteract the effects of COVID-19 pandemic on the business of the Company, including without limitation the effects of COVID-19 on the capital markets, commodity prices supply chain disruptions, restrictions on labour and workplace attendance and local and international travel, failure to receive requisite approvals in respect of the foregoing, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
