News Release

AVANTI GOLD CORP. UNLOCKS 2,100 METERS OF UNTESTED CORE WITH POTENTIAL TO UPGRADE 3.1 MOZ MINERAL RESOURCE AT MISISI

September 11, 2025 **-- AVANTI GOLD CORP. (CSE: AGC) (Frankfurt:X37)** (the “**Company**”) is pleased to provide an update on the advancement of its flagship **Misisi Gold Project** in the Democratic Republic of Congo (DRC).

Final Permits to export drill samples

The Company is currently finalizing permits and logistics to transport diamond drill samples for delivery to an independent lab for assay. These samples are from **2,100 metres (m) of diamond drilling completed by a previous operator** that were never assayed and therefore are not included in the current **3.1 million ounce Inferred Mineral Resource estimate** for the Misisi Project.

The **2,100 m of drilling** specifically targeted both the **northwest extension** and the **high-grade southern zones** of the Akyanga deposit. The Company believes that the assays from these untested core samples have the potential to:

- **Upgrade a portion of the existing Inferred Mineral Resource to the Indicated category**, improving confidence in the resource model.
- **Confirm continuity of high-grade mineralization** along strike and down dip in the southern portion of Akyanga.
- Provide valuable data to refine **future pit shell and mine planning scenarios**.

By completing the preparation, transport, and assaying of these samples, Avanti is effectively unlocking a significant amount of historical drilling work that has already been funded, providing a **low-cost, high-impact opportunity** to potentially enhance the size and quality of the Misisi resource base. **Assay results will be announced in stages as they become available.**

Misisi Gold Project Overview

The Misisi Project is located in the South-Kivu province of the DRC. It hosts the **Akyanga deposit**, which contains an Inferred Mineral Resource of **41 million tonnes at an average grade of 2.37 grams per tonne (g/t) gold, totaling 3.1 million ounces of gold**. Mineralization extends over a strike length of 2.1 km and remains open along strike and at depth.

The Misisi Project covers three contiguous 30-year mining leases spanning 133 square km along the 55 km-long **Kibara Gold Belt**. Over US$**30 million** has been invested in exploration to date, including 20,000 m of drilling, 500 m of trenching, and comprehensive geochemical and geophysical surveys. Several parallel structures and multiple drill-ready exploration targets have been identified.

Corporate Updates

Restricted Share Unit Grant

The Company announces that it has granted a total of **12,442,000 Restricted Share Units (“RSUs”)** to directors, officers, and consultants of the Company in accordance with its Omnibus Equity Incentive Plan. The RSU’s are subject to certain vesting provisions. Once vested, each RSU entitles the holder to acquire one common share of the Company, or the equivalent cash value thereof, at the Company’s discretion. The purpose of this grant is to align the interests of Avanti’s Board, management and advisors with those of its shareholders as the Company advances its flagship Misisi Gold Project.

Agreement with Machai Capital Inc.

The Company also announces that it has entered into a digital marketing services agreement with **Machai Capital Inc. (“Machai”)**, effective September 11, 2025, with respect to services pertaining to a digital marketing campaign. Under the agreement, the Company has agreed to pay **$25,000 plus GST** to Machai as compensation for such services for a term of 12 months, with an option to increase the payment by another **$25,000 plus GST** if agreed by both parties for an expanded marketing program. The marketing campaign will be launched in September 2025.

The campaign will include branding and content created by Machai, along with data optimization services, search engine marketing strategies, and digital, social media, email, and brand marketing initiatives.

About Avanti Gold Corp.

Avanti Gold Corp. is a Canadian-based exploration company focused on advancing high-grade gold projects in Africa. The Company benefits from a senior management team and Board of Directors with extensive experience in mining, exploration, and resource development. Avanti is strategically focused on unlocking value through its flagship Misisi Gold Project in the DRC.

Qualified Person
