For Part 1 (of the 2-part) Chinese interview please see: <https://bit.ly/3kFJGm3>

On behalf of the Company.,

Bryson Goodwin, CEO

About EV Battery Technologies

EV Battery Tech is a blockchain and battery technology company with exclusive North and South American distribution rights as well as European and African distribution rights to patented battery management systems (BMS) designed to meet the growing demand for scalable, smart solutions for the electric vehicle (EV) and energy storage solution (ESS) markets.

EV Battery Tech’s technology is based on artificial intelligence (AI) algorithms designed to analyze the short comings of batteries in today’s market. The resulting extraordinary technology allows batteries to have more efficient power management and longer battery life, while offering real-time monitoring and remote maintenance.

The Company’s AI technology will also allow it to use recycled batteries in its ESS manufacturing process, making it one of the greenest battery technology companies in the industry.
