RIWI Corp. Announces New Technology Offering for the Fastest Global Surveys

Toronto, ON – RIWI Corp. (CSE: RIW) (the “Company” or “RIWI”) is pleased to announce today that the Company has launched a new service — the RIWI Global Omnibus — giving clients immediate access into the perceptions of diverse citizens and consumers in 60 or more countries worldwide.

“Reliable, fast and proven, the RIWI Global Omnibus (‘Omnibus’) is a survey technology system and analytical dashboard that can collect opinions from at least 60,000 random, highly diverse respondents on custom questions within four weeks,” said Mr. Seeman, RIWI’s Chairman and CEO.

Participation in any RIWI Omnibus offers responses to client questions in the form of RIWI’s new global interactive data dashboard to instantly analyze variables across countries and to interpret topics of interest to the customer. Survey data will be available within 30 days after any launch date year-round. “There is no limit to the frequency of RIWI Omnibus launch periods,” said Mr. Seeman.

“Global businesses, NGOs and multilaterals are already using RIWI’s unique capabilities to provide a rapid, cost-effective, international perspective on the needs of consumers, citizens, and brands — and to obtain unparalleled insights into the impact of current trends and issues such as destabilization and conflict anywhere in the world, or political and economic policy uncertainty,” added Mr. Seeman.

“For researchers and brand managers, the RIWI Global Omnibus reveals the true preferences of today’s consumers in all geographies, including in conflict zones, and in emerging or complex markets such as all across China, the Middle East or Sub-Saharan Africa,” said Mr. Seeman.

About RIWI

RIWI is a global survey technology and risk measurement company using its proprietary, patented methods to capture a broad stream of opinion data in any region of the world. For more information, please visit: <https://riwi.com/>. Profiled in *Nature* and other scholarly journals, RIWI technology is used by governments and global organizations such as The World Bank, the United Nations, leading think-tanks, global NGOs, and many multinational corporations.

CAUTION REGARDING FORWARD LOOKING INFORMATION:

All statements contained in this news release, except for statements of historical fact, that address activities, events or developments the Company expects or anticipates will or may occur in the future is considered "forward looking information" within the meaning of applicable securities laws. These statements are frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward looking statements in this news release (express or implied) include, but are not limited to, anticipated business and financial growth of the Company, and expectations regarding the use and validity of the Company's products for future applications. There can be no assurance that such forward looking statements will prove to be accurate, as actual results and future events could vary or differ materially from those anticipated in such statements. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update forward-looking information if circumstances or management's estimates or opinions should change except as required by law. More detailed information about potential factors that could affect projected results is included in the documents filed from time to time with the Canadian securities regulatory authorities by the Company.
