Goldsky Announces MOU with Ocean Partners to Further Study Cobalt Recovery from the Rajapalot Project in Finland

VANCOUVER, BC, July 8, 2026 /CNW/ - **Goldsky Resources Corp** (TSXV: GSKR) (FNSE: GSKR SDB) (OTCQX: GSKRF) (FRA: HEG0) ("**Goldsky Resources**" or the "**Company**") is pleased to announce that Goldsky and Ocean Partners ("**Ocean Partners**") have entered into a Memorandum of Understanding ("MOU") to establish a framework cooperation agreement to investigate the technical and economic viability of recovering cobalt from Goldsky's Rajapalot gold-cobalt Project in Finland and to evaluate potential commercial arrangements relating to cobalt concentrate production, marketing and offtake.

"We are pleased to announce this MOU with Ocean Partners for our Rajapalot Project in Finland. The MOU has been designed to investigate the best technical flowsheet for cobalt recovery and a commercial solution for the sale of concentrate into the cobalt market. Our Rajapalot project has a strategic cobalt component that enables us to potentially qualify as a critical metal producer as defined by the EU's Critical Raw Materials Act*. This will be an important advantage for us from the perspective of permitting the Rajapalot Project into production ",* said Russell Bradford CEO.

The Company is evaluating opportunities to recover cobalt from mineralized material associated with the Rajapalot Project in Finland. Ocean Partners has expertise in metals marketing, concentrate blending, offtake arrangements, project development and financing solutions and wishes to assess the potential for participation in the development of a cobalt recovery process and associated commercial arrangements. Costs relating to the phase 1 development including sample generation, transport, laboratory work and supervision will be allocated between the two parties.

The Parties shall cooperate in good faith to investigate:

1. The metallurgical recovery of cobalt from Rajapalot mineralized material;
2. The technical and economic viability of a cobalt recovery circuit and processing facility;
3. Potential cobalt concentrate marketing and offtake opportunities;
4. Concentrate blending opportunities and associated commercial arrangements; and
5. Potential participation by Ocean Partners in future project development.

This MOU is intended to facilitate cooperation and information sharing during the evaluation process and does not constitute a binding commitment to proceed with any transaction, construction project, financing arrangement or offtake agreement, nor does it create any binding obligations.

Forward-looking Information:

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes statements that relate to future events or future performance and are often, but not always, identified by words such as *"anticipate", "expect", "intend", "plan", "estimate", "believe", "potential", "may", "will", "should", "could", or similar expressions. All statements, other than statements of historical fact, included herein, including, without limitation, statements regarding Agnico Eagle's expected provision of transition services; statements regarding the anticipated benefits of the Transaction, the potential of Barsele, the terms of the NSR and the re-purchase rights thereof, the Company's exploration plan at Barsele, including the expectations for the Company's upcoming drill campaign, the Company's growth prospects and strategic objectives, the renewal of the Barsele exploration and exploitation permits, and any other statements regarding future plans, expectations, estimates, assumptions or projections, constitute forward-looking information. Although Goldsky Resources believes that the expectations reflected in such forward-looking statements and/or information are reasonable, undue reliance should not be placed on forward-looking statements since the Company can give no assurance that such expectations will prove to be correct. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements, including the risks, uncertainties and other factors identified in the Company's periodic filings with Canadian securities regulators, and assumptions made with regard to: availability of financing; assumptions regarding commodity prices, exploration success, costs, and general business and economic conditions. Forward-looking statements are subject to business and economic risks and uncertainties and other factors that could cause actual results of operations to differ materially from those contained in the forward-looking statements. Important factors that could cause actual results to differ materially from the Company's expectations include risks that the Transaction may not provide the anticipated benefits; risks associated with the business of Goldsky Resources; risks related to exploration and potential development of Barsele; business and economic conditions in the mining industry generally; fluctuations in commodity prices and currency exchange rates; uncertainties relating to interpretation of drill results and the geology, continuity and grade of mineral deposits; the need for cooperation of government agencies and indigenous groups in the exploration and development of Barsele and the issuance of required permits; the need to obtain additional financing to develop Barsele and uncertainty as to the availability and terms of future financing; the possibility of delay in exploration or development programs and uncertainty of meeting anticipated program milestones; uncertainty as to timely availability of permits and other governmental approvals; and other risk factors as identified in Goldsky Resources' filings with Canadian securities regulators on SEDAR+ (available at www.sedarplus.ca). Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information. Those assumptions and factors are based on information currently available to Goldsky Resources. The forward-looking information contained in this news release is made as of the date hereof and Goldsky Resources does not undertake any obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws or Nasdaq First North Growth Market Rulebook for Issuers of Shares. The foregoing statements expressly qualify any forward-looking information contained herein.*
