PART 2 SUMMARY DESCRIPTION OF BUSINESS

What is our business?

Prairie Provident is a Calgary-based company engaged in the exploration, development and production of its low decline, long life oil reserves in Alberta. The Company is currently producing oil and gas in western Canada with significant growth opportunities from a deep inventory of low-risk horizontal drilling locations and waterflood potential. All of our reserves, producing properties and principal exploration prospects are located in the province of Alberta.

Further information regarding our business can be found in Prairie Provident's continuous disclosure documents, which are available under the Company's issuer profile on SEDAR at www.sedar.com.

Recent Developments

On March 29, 2023, Prairie Provident announced that it has entered into a Debt Restructuring Agreement (the "**Debt Restructuring Agreement**") with PCEP Canadian Holdco, LLC (the "**Noteholder**"), which holds all of the Company's outstanding subordinated notes (the "**Subordinated Notes**") and share purchase warrants, and certain affiliates of the Noteholder, and agreements with certain other parties, for various recapitalization transactions (collectively, the "**Recapitalization**") to, among other things, raise additional equity and debt capital, significantly reduce the Company's total debt through a repayment of all outstanding Subordinated Notes with equity, waive certain defaults under existing credit agreements, and extend the maturity date of its senior secured credit facility (the "**First**

Lien Loan"). In connection with the Recapitalization, Prairie Provident has applied to the TSX for an exemption from shareholder approval requirements under TSX rules, pursuant to the 'financial hardship' provisions of the TSX Company Manual, as prompt action is required to relieve the Company's current financial difficulties and enable it to normalize operations and resume the development of its assets.

The Company subsequently announced completion of certain of the Recapitalization transactions on March 31, 2023, and amendments to the equity financing terms and the agreed price per share at which Common Shares are issuable pursuant to the Subordinated Notes Conversion (defined below) on April 11, 2023.

The Recapitalization includes the following principal transactions, all of which are subject to certain conditions as provided in the Debt Restructuring Agreement and other applicable transaction agreements:

- an immediate new investment of US\$3.64 million (approximately C\$5 million at current exchange rates) by certain affiliates of the Noteholder through an issue of second lien notes due December 31, 2024 (the "**Second Lien Notes**"), which was completed on March 30, 2023 and provides the Company with the liquidity needed to meet immediate and pressing working capital requirements (the "**Second Lien Financing**");
- amendments and waivers (the "**First Lien Loan Amendments**") to the First Lien Loan, under which total advances of US\$19.1 million and C\$41.1 million are currently drawn and outstanding, to extend the maturity date from December 31, 2023 to July 1, 2024, defer any borrowing base redetermination until 2024, provide additional covenant flexibility, and waive certain financial covenant and other defaults, which amendments became effective on completion of the Second Lien Financing and the concurrent effectiveness of the Subordinated Note Amendments described below;
- amendments and waivers (the "**Subordinated Note Amendments**") to the Subordinated Notes to provide additional covenant flexibility, extend the maturity date of the Subordinated Notes currently due June 30, 2024 to December 31, 2024, and waive certain financial covenant and other defaults, which amendments became effective on completion of the Second Lien Financing and the concurrent effectiveness of the First Lien Loan Amendments;
- repayment of all outstanding indebtedness under the Subordinated Notes, in the aggregate amount of US\$52.8 million, through an issue of Common Shares, conditional upon Prairie Provident completion of an offering of new equity for gross proceeds of at least C\$4,000,000 (the "**New Equity Condition**"), at an agreed repayment price equal to C\$0.14 per share (the "**Subordinated Notes Conversion**");
- concurrently with the Subordinated Notes Conversion, exercise by the Noteholder, on a cashless basis, of the 34,292,360 warrants of the Company previously issued in December 2020 in connection with the Subordinated Note financing completed at that time, which warrants have an exercise price of C\$0.0192 per share (the "**Warrant Exercise**"); and
- a brokered 'best efforts' equity financing by the Company for minimum aggregate gross proceeds of C\$4,000,000 (the "**Equity Financing**"), successful completion of which will satisfy the New Equity Condition, to be conducted on a prospectus-exempt basis. Prairie Provident proposes to complete the Equity Financing through: (i) this Offering of Units by the Company, for aggregate gross proceeds of C\$2,800,000, in reliance upon the 'listed issuer financing exemption' (LIFE) under Part 5A of National Instrument 45-106 – *Prospectus Exemptions* ("**NI 45-106**") and (ii) a concurrent private placement of Units, at the same price per Unit and otherwise on the same terms, for additional aggregate gross proceeds of not less than C\$1,200,000, in reliance upon the 'accredited investor' exemption under NI 45-106 and other available exemptions from the prospectus requirements of applicable Canadian securities laws (the "**Concurrent Private Placement**").

Further details regarding the Recapitalization and constituent transactions are provided in the Company's news releases dated March 29, 2023, March 31, 2023 and April 11, 2023, copies of which have been filed on SEDAR and are available electronically under Prairie Provident's issuer profile on the SEDAR website at www.sedar.com.

The Recapitalization is necessary for the Company to relieve its current condition of financial hardship, resulting from an unsustainable total debt level and liquidity deficit. It will achieve a significant deleveraging of Prairie Provident, reducing total debt by approximately 49% from approximately C\$139 million¹ to C\$71 million² after giving effect to the Second Lien Financing and Subordinated Notes Conversion. Immediate capital through the Second Lien Financing (approximately C\$5 million at current exchange rates), promptly followed by incremental near-term capital through this Offering and the Concurrent Private Placement (minimum C\$4.0 million in gross proceeds), will be used to retire overdue payables and regularize the Company's working capital position, which in turn provides Prairie Provident with the funds needed to meet its business objectives and liquidity requirements for the next 12 months.

Completion of the Recapitalization, and in particular this Offering and the Subordinated Notes Conversion, is conditional on receipt by Prairie Provident of all requisite TSX approvals, including acceptance of the Company's reliance on the 'financial hardship' exemption noted above.

Material facts

There are no material facts about the securities being distributed that have not been disclosed in this offering document or in any other document filed by the Company in the 12 months preceding the date of this offering document.

What are the business objectives that we expect to accomplish using the available funds?

The Offering is an integral part of the Recapitalization, the combined effect of which will significantly reduce the Company's total debt burden and improve its financial position as more particularly described above. Completion of the Offering and Concurrent Private Placement for minimum gross proceeds of at least C\$4,000,000 is a condition precedent to the Subordinated Notes Conversion. The Offering and Concurrent Private Placement will be completed in tandem and concurrently with the Subordinated Notes Conversion and related Warrant Exercise.

Prairie Provident intends to use the net proceeds from the Offering and Concurrent Private Placement (after transaction costs), together with other available funds, including proceeds from the Second Lien Financing completed on March 30, 2023, to retire outstanding payables, thereby reducing its current working capital deficit and returning its working capital position to a normalized level that is not only consistent with prior periods but materially stronger than in any period over the past eight quarters, and is sufficient to sustain business operations.

Going forward, completion of the Recapitalization is expected to provide Prairie Provident with a sustainable capital structure and the capital resources necessary to optimize its current producing assets as well as develop its currently undeveloped land base. Significant improvements to the Company's overall leverage and non-cash interest burden is expected to allow Prairie Provident to direct more of its operating cash flow towards additional low-risk well reactivations, optimization and development drilling, and improve its ability to execute on future refinancing, acquisition and divestiture, and other transaction opportunities. If the Recapitalization is completed, Prairie Provident believes that it will be able to flatten out its production declines with a limited capital budget in 2023, while returning to growth in 2024.

¹ Comprised of C\$41.1 in CAD advances under the First Lien Loan, US\$19.1 million in USD advances under the First Lien Loan, and US\$52.8 million in Subordinated Notes (including deferred interest amounts paid in kind), with USD amounts converted to CAD at an exchange rate of USD 1.00 to CAD 1.3626.

² Comprised of C\$41.1 in CAD advances under the First Lien Loan, US\$19.1 million in USD advances under the First Lien Loan, and US\$3.64 million in Second Lien Notes, with USD amounts converted to CAD at an exchange rate of USD 1.00 to CAD 1.3626.

For 2023, Company currently plans a modest capital program oriented towards maintaining production and improving capital efficiency and fully funded from operating cash flow, with approximately \$4.0 million to \$4.5 million budgeted for well reactivations, injector conversions and other optimization activities, approximately \$1.5 million to \$2.5 million budgeted for capital maintenance projects targeted at reducing operating costs, approximately \$1.5 million to \$3.5 million budgeted for drilling two new wells, and approximately \$6.0 million to \$7.0 million budgeted for decommissioning activities.

PART 3 USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

The following table discloses information regarding the Company's available funds after completion of the Offering. The Second Lien Financing was completed on March 30, 2023, and its proceeds are reflected in the working capital figures set out below. There is no difference between the minimum and maximum amount of Units offered under the Offering.

		Assuming minimum offering only (C\$)	Assuming 100% of offering (C\$)
A	Amount to be raised by this Offering	\$2,800,000	\$2,800,000
B	Selling commissions and fees	\$474,000	\$474,000
C	Estimated offering costs (e.g., legal, accounting, audit)	\$150,000	\$150,000
D	Net proceeds of offering: D = A - (B + C)	\$2,176,000	\$2,176,000
E	Working capital as at March 31, 2023 (deficiency) ⁽¹⁾	(\$14,724,384)	(\$14,724,384)
F	Additional sources of funding ⁽²⁾	\$1,104,000	\$1,104,000
G	Total available funds: G = D + E + F	(\$11,444,384)	(\$11,444,384)

Notes:

(1) Working capital as at March 31, 2023 is an unaudited estimate based on preliminary information and subject to customary financial statement procedures by the Company and its auditors. This figure may differ from the figure presented when the Company releases its results for the interim period ended March 31, 2023.

(2) Refers to the Concurrent Private Placement for gross proceeds of not less than \$1,200,000, or \$1,104,000 assuming payment of an 8% commission to the Agent. The Concurrent Private Placement is expected to be completed concurrently with closing of the Offering.

The Offering and Concurrent Private Placement will be completed in tandem and concurrently with the Subordinated Notes Conversion and related Warrant Exercise, and will therefore mark completion of the Recapitalization. Completion will return the Company's working capital position to a normalized level sufficient to sustain business operations.

How will we use the available funds?

The available funds from the Offering and Concurrent Private Placement, together with proceeds of the Second Lien Financing completed on March 30, 2023, will be used to retire outstanding payables, thereby reducing the Company's current working capital deficit and returning its working capital position to a normalized level that is not only consistent with prior periods but materially stronger than in any period over the past eight quarters, and is sufficient to sustain business operations.

The following table provides a breakdown of how the Company intends to use the available funds described in the table above. There is no difference between the minimum and maximum amount of Units offered under the Offering.

Description of intended use of available funds, listed in order of priority	Assuming minimum offering only	Assuming 100% of offering
Starting working capital position (at March 31, 2023)	(\$14,724,384)	(\$14,724,384)
Retirement of trade payables	\$3,904,000	\$3,904,000
Total (equal to G in the available funds table above)	(\$11,444,384)	(\$11,444,384)

No portion of the payables intended to be retired with proceeds of the Offering, the Concurrent Private Placement or the Second Lien Financing are owed to insiders. All such payables were incurred in connection with the Company's business operations.

How have we used the other funds we have raised in the past 12 months?

The gross proceeds from the Second Lien Financing completed on March 30, 2023 (approximately C\$5 million) have been allocated to working capital, and are reflected in the March 31, 2023 working capital balance above.
