1. NATURE OF OPERATIONS AND GOING CONCERN

PreveCeutical Medical Inc. (the "Company") was incorporated on December 15, 2014, under the laws of British Columbia. The Company's principal business activity is the development of innovative options for preventive and curative therapies utilizing organic and nature identical products.

The Company is located at 885 Cambie Street, Suite 2500, Vancouver, British Columbia, V6B 0R6, Canada and its registered office is at 595 Howe Street, 10th Floor, Vancouver, British Columbia V6C 2T5, Canada.

The Company incorporated a subsidiary, PreveCeutical (Australia) Pty Ltd. ("PreveCeutical (Australia)") in Australia on March 12, 2018. The Company's research programs are managed by PreveCeutical (Australia).

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will continue in operations for the foreseeable future and be able to realize assets and satisfy liabilities in the normal course of business. If the going concern assumption were not appropriate for these condensed consolidated interim financial statements, then adjustments would be necessary for the carrying value of assets and liabilities, the reported expenses and the statement of financial position classifications used. Such adjustments could be material.

Several conditions exist that may cast significant doubt about the ability of the Company to continue as a going concern. The Company does not have significant revenue to date and has incurred operating losses since inception. As at June 30, 2021, the Company had a deficit that is being funded by debt and issuance of equity. Management anticipates that the Company will meet its obligations and maintain its operations to support its payments to creditors and realize profits from future business activities. The Company is dependent on its ability to raise further capital through equity financing and funding from certain officers and shareholders to meet its commitments and fund its ongoing operations.

Since January 2020, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and physical distancing, have caused material disruption to business globally, resulting in an economic slowdown. Global equity markets have experienced significant volatility. The duration and enduring impact of the COVID-19 outbreak is unknown currently, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods. In 2020, the Company had moved its personnel to remote working environments, and one of the unprecedented challenges arising from the COVID-19 pandemic is the impact this has had on the investment market and the Company's ability to raise capital.

As at September 30, 2021 and December 31, 2020, the Company reported the following:

	Nine Months Ended September 30, 2021	Year Ended December 31, 2020
Net loss for the period	\$ 1,257,391	\$ 3,801,118
Working capital deficiency	\$ 2,216,233	\$ 1,766,997
Deficit	\$ 28,055,089	\$ 26,918,698

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* using accounting policies consistent with IFRS, as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements. These condensed consolidated interim financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2020.

These condensed consolidated interim financial statements were approved by the Board of Directors and authorized for issue on November 26, 2021.

2. BASIS OF PREPARATION (Continued)

Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are stated at their fair values. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's functional currency. The functional currency of PreveCeutical (Australia) is Australian dollars.

Principles of Consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiary, PreveCeutical (Australia). Subsidiaries are consolidated from the date of acquisition being the date that the Company obtains control. A subsidiary is an entity in which the Company has control, where control requires exposure or rights to variable returns and the ability to affect those returns through power over the investees. All intercompany transactions and balances have been eliminated on consolidation.

3. SIGNIFICANT ACCOUNTING POLICIES

In preparing these condensed consolidated interim financial statements, the significant accounting policies and the significant judgments made by management in applying the Company's significant accounting policies and key sources of estimation uncertainty were the same as those that applied to the Company's audited consolidated financial statements for the year ended December 31, 2020.

Critical Accounting Estimates and Judgments

The preparation of these condensed consolidated interim financial statements requires management to make estimates and judgments and to form assumptions that affect the reported amounts and other disclosures in these condensed consolidated interim financial statements. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of these assumptions form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

The estimates and underlying assumptions are reviewed on an ongoing basis. Changes to accounting estimates are recognized in the period in which the estimate is revised and all future periods that are affected by the change in estimate.

Critical Accounting Estimates

Critical accounting estimates are estimates and assumptions made by management that may result in material adjustments to the carrying amounts of assets and liabilities within the next financial year. Critical accounting estimates include, but are not limited to, the following:

- **Intangible assets – useful life**

Following initial recognition, the Company carries the value of intangible assets at cost less accumulated amortization and any accumulated impairment losses. Amortization is recorded on a straight-line basis based upon management's estimate of the useful life and residual value. The estimates are reviewed at least annually and are updated if expectations change as a result of the technical obsolescence or legal and other limits to use.

A change in the useful life or residual value will impact the reported carrying value of the intangible assets resulting in a change in related amortization expense.

- **Property, equipment and furniture – useful lives**

The Company estimates the useful lives and selects methods used to allocate amortization amounts of property, equipment, and furniture on a systematic basis. Technical obsolescence of tangible assets could significantly impact estimated residual useful lives and, in turn, carrying values being over or understated.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Critical Accounting Estimates and Judgments (Continued)

Critical Accounting Estimates (Continued)

- **Income tax**

The measurement of income taxes payable and deferred income tax assets and liabilities requires management to make estimates in the interpretation and application of the relevant tax laws. The actual amount of income taxes only becomes final upon filing and acceptance of the tax return by the relevant tax authorities, which occurs subsequent to the issuance of the condensed consolidated interim financial statements.

- **Share-based compensation**

The fair value of stock options granted, and compensatory warrants are measured using the Black-Scholes option pricing model. Measurement inputs include share price on the measurement date, the exercise price of the option, expected volatility, expected life of the options, expected dividends and the risk-free rate. The expected life of the options is based on historical experience and general option holder behaviour. Dividends were not taken into consideration as the Company does not expect to pay dividends. Management also makes an estimate of the number of options that will forfeit, and the rate is adjusted to reflect the actual number of options that vest.

- **Convertible debts**

The convertible debts were separated into their liability and equity components on the condensed consolidated interim statements of financial position. The liability component is initially recognized at fair value, calculated at the net present value of the liability based upon non-convertible debt issued by comparable issuers and accounted for at amortized cost using the effective interest rate method. The effective interest rate used is the estimated rate for non-convertible debt with similar terms at the time of issue.

- **Accounts receivable**

The accounts receivable balance is recorded at the estimated recoverable amount, which involves the estimate of uncollectible accounts.

Critical Accounting Judgments

Critical accounting judgments are accounting policies that have been identified as being complex or involving subjective judgments or assessments. Critical accounting judgments include, but are not limited to, the following:

- **Intangible assets**

The application of the Company's accounting policy for intangible asset expenditures requires judgment in determining whether it is likely that the future economic benefits will flow to the Company, which is based on assumptions about future events or circumstances. Estimates and assumptions may change if new information becomes available. If, after expenditures are capitalized, information becomes available suggesting that the recovery of expenditures is unlikely, the amount capitalized is written off to profit or loss in the period the new information becomes available.

The Company assesses at each reporting date if the intangible assets have indicators of impairment. In determining whether the intangible assets are impaired, the Company assesses certain criteria, including observable decreases in value, significant changes with an adverse effect on the entity, a change in market interest rates, evidence of technological obsolescence and future plans.

- **Research and development expenditures**

Costs to develop products that will be sold are capitalized to the extent that the criteria for recognition as intangible assets in IAS 38 *Intangible Assets* are met. Those criteria require that the product is technically and economically feasible, which management assessed based on the attributes of the development project, perceived user needs, industry trends and expected future economic conditions. Management considers these factors in aggregate and applies significant judgment to determine whether the product is feasible. The Company has not capitalized any product development costs as at September 30, 2021.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Critical Accounting Estimates and Judgments (Continued)

Critical Accounting Judgements (Continued)

- **Going concern assumption**

The assessment of whether the going concern assumption is appropriate requires management to consider all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. The Company is aware that material uncertainties related to events or conditions may cast significant doubt upon the Company's ability to continue as a going concern.

- **The determination of the Company and its subsidiary's functional currency**

The functional currency of the Company and its subsidiary is the currency of the primary economic environment, and the Company reconsiders the functional currency if there is a change in events and conditions which determined the primary economic environment.

- **Modification versus extinguishment of financial liability**

Judgement is required in applying IFRS 9 *Financial Instruments* to determine whether the amended terms of the loan agreements are a substantial modification of an existing financial liability and whether it should be accounted for as an extinguishment of the original financial liability.

9. SHORT-TERM DEBT

On May 29, 2019, the Company entered into a short-term loan agreement with its Chief Executive Officer for \$300,000 with a maturity date of November 29, 2019. The loan is unsecured, at an interest rate of 5% per annum, compounded semi-annually and payable on the maturity date. Under the terms of the agreement, the Company granted 5,000,000 transferable bonus common purchase warrants entitling the holder to purchase one common share in the capital of the Company at an exercise price of \$0.06 per share for a period of one year from the grant date. The warrants were not exercised and expired on May 28, 2020.

The Company has drawn \$300,000 on this loan and has accrued interest of \$12,224 during the nine months ended September 30, 2021. Accrued interest at September 30, 2021 was \$36,858 (\$24,634 at December 31, 2020 was \$24,634). The fair value of liability was allocated entirely to the liability component. On February 21, 2020, the maturity date was amended from November 29, 2019, to May 29, 2020, and on March 5, 2021, the term of the debt was amended to due on demand.

During the nine months ended September 30, 2021, advances, which are unsecured, payable on demand, and bearing no interest, in the amount of \$43,750 were made to the Company by way of short-term loan as follows (total outstanding at September 30, 2021, was \$54,250 and at December 31, 2020 was \$10,500):

- The Company's Chief Executive Officer lent the Company \$20,000 on February 19, 2021, \$5,000 on March 26, 2021, \$3,000 on April 12, 2021, \$750 on April 30, 2021, \$10,000 on August 17, 2021, and \$5,000 on September 24, 2021. The total amount advanced at September 30, 2021 was \$48,250 (\$4,500 at December 31, 2020).

11. LONG-TERM DEBT

On April 14, 2020, the Company received a loan of \$40,000 under the Canada Emergency Business Account (CEBA) program. On December 15, 2020, the Company received an additional \$20,000 under the program. This is an interest-free loan up to December 31, 2022, \$20,000 of which is eligible for complete forgiveness if \$40,000 is fully repaid on or before December 31, 2022. If the loan cannot be repaid by December 31, 2022, it will be converted into a 3-year term loan charging an interest rate of 5%. The loan is for the Company's operations.

No repayments were made, and no interest was accrued during the three and nine months ended September 30, 2021.

12. LONG-TERM CONVERTIBLE DEBT

The Company has entered into two revolving line of credit facility agreements with its Chief Executive Officer and its former President (collectively the "Lenders"), whom are shareholders of the Company. Both are unsecured, bear simple interest of 5% per annum and are convertible into common shares in the capital of the Company.

Long-term Convertible Debt 1

The first credit facility agreement was entered into on December 9, 2016, in the principal amount of \$1,000,000. The agreement was amended on March 31, 2017, wherein the principal amount was increased by \$1,000,000 to a total of \$2,000,000. Under the terms of the agreement and waiver (the "Waiver") dated September 30, 2017, the amount of any outstanding principal and accrued interest thereon under the credit facility is convertible, after October 28, 2017, into common shares of the Company at the price of \$0.10 per share. On April 20, 2018, the conversion price was amended from \$0.10 to \$0.06 per share.

On May 11, 2020, and May 15, 2020, the Company entered into two assignment and assumption agreements whereby certain arm's length assignees (the "Assignees") acquired all of the right, title, interests and obligations in and under this convertible credit facility agreement for a principal amount of \$1,728,811 and the accrued interest of \$271,189. Included in the assignment and assumptions agreement, the conversion price was amended from \$0.06 to \$0.023 per share and \$1,206,521 was recorded as a loss on modification to profit or loss with a corresponding adjustment to shareholders' deficiency. During the year ended December 31, 2020, the assigned debt and accrued interest (aggregate balance of \$2,000,000) was converted to for a total of 86,956,522 shares. As a result of the conversion, the equity portion of convertible debt of \$2,178,836 was reclassified to share capital and accretion of \$214,240 was recognized in profit or loss.

On March 12, 2021, the Company entered into an assignment and assumption agreement whereby certain arm's length assignee (the "Assignee") acquired all of the right, title, interests and obligations in and under this convertible credit facility agreement for a principal amount of \$475,637 and the accrued interest of \$45,097. Included in the assignment and assumptions agreement, the conversion price was amended from \$0.06 to \$0.032 per share and \$189,850 was recorded as a loss on modification to profit or loss with a corresponding adjustment to shareholders' deficiency. During the three months ended March 31, 2021, the assigned debt and accrued interest (aggregate balance of \$520,734) was converted for a total of 16,272,951 shares. As a result of the conversion, the equity portion of convertible debt of \$520,734 was reclassified to share capital and accretion of \$56,401 was recognized in profit or loss.

During the nine months ended September 30, 2021, the Company drew a total of \$90,000 under this facility and accrued interest of \$3,250. As at September 30, 2021, the Company has drawn \$Nil (December 31, 2020 - \$384,638) under the facility agreement and has no accrued interest payable (December 31, 2020 - \$41,488).

Long-term Convertible Debt 2

The second facility was entered into on May 9, 2017, for a maximum of \$1,000,000. Under the terms of the agreement and the waiver, the amount of any outstanding principal and accrued interest thereon under the credit facility is convertible after October 28, 2017, into units, each consisting of one common share of the Company and one common share purchase warrant at a price of \$0.10 per unit. Each common share purchase warrant entitles the holder to purchase one common share of the Company at the price of \$0.20 for a period of 24 months after the issuance of the units, subject to acceleration. On April 20, 2018, the conversion price was amended from \$0.10 per unit to \$0.06 per unit.

As at September 30, 2021, and December 31, 2020, the Company has drawn \$975,500 under the facility agreement and has accrued interest of \$194,472 (December 31, 2020 - \$157,991).

On January 26, 2018, the Company entered into an agreement with the Lenders for \$500,000 in the form of an unsecured convertible promissory note bearing simple interest at 5% per annum. This promissory note was added to the second facility. Thereby, the terms of the facility entered into on May 9, 2017, apply to the January 26, 2018, agreement.

12. LONG-TERM CONVERTIBLE DEBT (Continued)

On April 20, 2018, the conversion price was amended from \$0.10 per unit to \$0.06 per unit.

As at September 30, 2021, and December 31, 2020, the Company has drawn the full \$500,000 and has accrued interest of \$92,055 (December 31, 2020 - \$73,356) on this promissory note.

On September 1, 2020, the Lenders signed a waiver to waive the right to demand the funds for all of the above loans until after April 1, 2024. During the nine months ended September 30, 2021, the Company recorded a \$139,724 gain on modification of the debt in reserve.

The Company bifurcated the notes into their components using a discounted cash flow model with an estimated fair value interest rate of 15.5% to estimate the fair value of the liability component with the remaining balance representing the equity component.

14. STOCK OPTIONS

Stock Option Plan

Stock options to purchase common shares have been granted to directors, employees, contractors and consultants at exercise prices determined by reference to the market value on the date of the grant. The number of shares available for options to be granted under the Company's rolling stock option plan is 10% of the number of shares outstanding (the "Plan"). Options granted under the Plan vest immediately or over a period of time at the discretion of the Board of Directors.

Under the Plan, the number of shares reserved for issuance to any one optionee will not exceed 5% of the then issued and outstanding shares. The options are non-assignable and non-transferable and will be exercisable up to 10 years from the date of grant. The minimum exercise price of an option granted under the Plan must not be less than the discounted market price, as such term is defined in the policies of the Canadian Securities Exchange ("CSE") and other applicable regulatory authorities.

The changes in stock options outstanding are as follows:

When the Company issues stock options, it records a share-based compensation in the year or period in which the options are granted and/or vested. The expense is estimated using the following assumptions:

- The risk-free interest rate is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the expected life of the stock options.
- The Company used historical data to estimate option exercise, forfeiture and employee termination within the valuation model.
- The Company has not paid and does not anticipate paying dividends on its common shares. Companies are required to utilize an estimated forfeiture rate when calculating the expense for the reporting period.
- Based on the best estimate, management applied the estimated forfeiture rate of 0% in determining the share-based compensation recorded in the accompanying condensed consolidated interim statements of operations and comprehensive loss.

The Company used the Black-Scholes option pricing model to determine the fair value of 2,500,000 options vested during the nine months ended September 30, 2021, with a weighted average fair value of \$0.0151. 5,125,000 options vested during the nine months ended September 30, 2020, with a weighted average fair value of \$0.04.

The following weighted average assumptions were used:

	September 30, 2021	September 30, 2020
Risk-free interest rate	0.33%	0.24%
Expected dividend yield	0.00%	0.00%
Expected stock price volatility	156.90%	161.62%

18. MANAGEMENT OF CAPITAL (Continued)

To facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. To maximize ongoing efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury invested in demand certificates of deposit with major financial institutions.

As at September 30, 2021, the shareholders' deficiency was \$3,693,655 (December 31, 2020 - \$3,603,954). The Company did not change its approach to capital management during the nine months ended September 30, 2021. The Company is not subject to externally imposed capital requirements.

19. FINANCIAL INSTRUMENTS

The Company's financial instruments classified as level 1 in the fair value hierarchy are cash, accounts payable and accrued liabilities, callable debt, and long-term debt. Their carrying values approximate the fair values due to their short-term nature. The convertible debt is classified as level 3.

The Company's financial instruments are exposed to certain risks, including credit risk, interest rate risk, liquidity risk and other market risks.

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held through large Canadian and Australian financial institutions. The Company considers its credit risk on cash to be not significant and accounts receivable to be minimal.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company's convertible debts (Notes 10 and 12) currently provide for interest at 5% per annum. There was no interest on the short-term advances made by the Company's officers and employees. The interest rate on the short-term loan of \$300,000 was at 5% per annum compounded semi-annually. There is no interest charged on the long-term debt till December 31, 2022. If the loan cannot be repaid by December 31, 2022, it will be converted into a 3-year term loan charging an interest rate of 5%. Interest on the Facility with ANZ is based on the BBSY plus a margin of 2.40%. Interest on this facility will fluctuate with the changes in the BBSY.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations, and anticipated investing and financing activities. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements.

As at September 30, 2021, the Company had a working capital deficiency of \$2,216,233 compared to a working capital deficiency of \$1,766,997 at December 31, 2020. This included cash of \$140,874 (\$156,440 at December 31, 2020) and current liabilities of \$2,432,757 (December 31, 2020 - \$2,030,004). The Company will require additional financing in the future to meet its obligations. The Company's accounts payable and accrued liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

The amounts listed below are the undiscounted contractual maturities for financial liabilities held by the Company as at September 30, 2021:

	1 year	2 to 3 years	Total
Short-term debt (Note 9)	\$ 391,108	-	\$ 391,108
Convertible debt – short-term (Note 10)	818,311	-	818,311
Long term debt (Note 11)	-	60,000	60,000
Convertible debt – long-term (Note 12)	-	1,169,972	1,169,972

19. FINANCIAL INSTRUMENTS (Continued)

Liquidity Risk (Continued)

The amounts listed below are the undiscounted contractual maturities for financial liabilities held by the Company as at December 31, 2020:

	1 year	2 to 3 years	Total
Short-term debt (Note 9)	\$ 335,134	\$ -	\$ 335,134
Convertible debt – short-term (Note 10)	792,320	-	792,320
Long term debt (Note 11)	-	60,000	60,000
Convertible debt – long-term (Note 12)	-	427,484	427,484
Convertible debt – long-term (Note 12)	-	1,133,491	1,133,491
Convertible debt – long-term (Note 12)	-	573,356	573,356
	\$ 1,127,454	\$ 2,194,331	\$ 3,321,785

Other Market Risk

Other market risks that the Company is exposed to include currency risk. Currency risk is the risk of loss due to the fluctuation of foreign exchange rates and the effects of these fluctuations on foreign currency denominated monetary assets and liabilities.

The Company is exposed to currency risk with its foreign subsidiary which is funded from time to time in the subsidiary's currency. The Company is also exposed to currency risk with its other foreign business transactions.

The Company does not invest in derivatives to mitigate these risks.

As at September 30, 2021 and December 31, 2020, the Company's net exposure to foreign currency risk on its financial instruments is as follows:

	September 30, 2021		December 31, 2020	
	US Dollars	Australian Dollars	US Dollars	Australian Dollars
Cash/bank indebtedness	\$ -	\$ 145,469	\$ 570	\$ 155,384
Accounts receivable	-	4,154	-	10,864
Accounts payable and accrued liabilities	(140,656)	(60,452)	(88,838)	(414,454)
	\$ (140,656)	\$ 89,171	\$ (88,268)	\$ (248,206)

Based on the above, assuming all other variables remain constant, a 10% (2020 - 10%) weakening or strengthening of the Canadian dollar against the US dollar and Australian would result in an increase/decrease of approximately \$2,739 (December 31, 2020 - \$4,310) in net income (loss).

20. RESEARCH AND DEVELOPMENT

Research and Development ("R&D") tax credits were received from the Government of Australia for the Australian R&D. For the nine months ended September 30, 2021, the Company received R&D tax credits of \$303,181 (AUD315,338) for the 2020 R&D expenses. \$1,123,340 (AUD1,226,889) was received during the nine months ended September 30, 2020, relating to the year 2019 R&D expenses. These R&D tax credits received was applied against research and development expense in the statement of operations and comprehensive loss.

21. OPTION PAYMENTS

On July 8, 2019, the Company and Asterion entered into an option to purchase agreement (the "Option Agreement"), whereby the Company has granted to Asterion the right and option (the "Option") to purchase up to 51% of the Company's right, title and interest in and to certain intellectual property rights relating to the Company's sol-gel nasal delivery system for the nose-to-brain delivery of therapeutic formulations, including cannabis and cannabinoids.

20. OPTION PAYMENTS

Per the Option Agreement, Asterion will make a series of payments totaling \$2,652,000. Asterion will acquire the Option upon making all the payments.

Prior to the earlier of ten days after the date of the exercise of the Option in full by Asterion and December 22, 2019, the Company has the right to buy-back all of the earned interest earned by Asterion to the date of the buy back for an amount equal to 150% of the aggregate amount of all cash payments made by Asterion. The Company has to provide a written notice to Asterion of the buy-back intention.

For the nine months ended September 30, 2021, the Company did not receive any payment under the Option Agreement. For nine months ended September 30, 2020, the Company received \$150,180 under the Option Agreement. This amount was recorded as an option payment under other income.

21. SEGMENTED INFORMATION

The Company did not have any sales revenue during the nine months ended September 30, 2021, and for the nine months ended September 30, 2020.

As at September 30, 2021 and December 31, 2020, the Company's long-term assets were located in Canada and Australia as follows:
