1. NATURE OF OPERATIONS

Nexco Resources Inc. ("the Company") was incorporated on December 14, 2012 under the laws of British Columbia. The address of the Company's corporate office and its principal place of business is suite 750-1095 W Pender Street, Vancouver, British Columbia, Canada. The Company's principal business activities include the acquisition and exploration of mineral property assets. As at May 31, 2021, the Company had not yet determined whether the Company's mineral property asset contains ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

Effective August 19, 2020, the Company consolidated all its issued and outstanding share capital on a basis of one post-consolidated share for two pre-consolidated shares. All share and per share amounts in these financial statements have been retroactively adjusted to reflect this share consolidation.

On November 30, 2020, the Company entered into a Letter of Intent ("LOI") with SymptomSense, LLC ("SymptomSense"). Pursuant to the LOI, the Company proposed to purchase all of the issued and outstanding securities of SymptomSense. Upon completion of the transaction, SymptomSense would become a wholly owned subsidiary of the Company and the Company would carry on the business of SymptomSense.

On May 25, 2021, the Company announced that further to the LOI, it has signed a definitive securities exchange agreement (the "Definitive Agreement") with Soter Technologies, LLC ("Soter" or the "Target"), a private arm's length limited liability company incorporated under the laws of the State of New York, and the owners of the Target (the "Vendors") pursuant to which the Company has agreed to purchase all of the issued and outstanding equity securities of the Target (the "Target Securities") from the Vendors (the "Transaction"). Upon completion of the Transaction, the Target will become a wholly owned subsidiary of the Company and the Company will carry on the business of the Target, which includes the business of its subsidiary, SymptomSense, LLC. The Transaction will constitute a Fundamental Change of the Company in accordance with the policies of the Canadian Securities Exchange (the "CSE"). The Company had previously entered into a letter of intent dated November 30, 2020 to acquire only SymptomSense, but the parties have now agreed to acquire Soter, as the parent company to SymptomSense.

Transaction

The Definitive Agreement provides that the Company will acquire all of the outstanding Target Securities from the Vendors in exchange for the issuance of common shares of the Company (each, a "Consideration Share") to the Vendors at a deemed price of \$0.25 per Consideration Share as follows: (i) the issuance of 18,266,200 Consideration Shares on the Closing; and (ii) the issuance of up to 38,815,675 Consideration Shares as a post-Closing performance earn-out upon the Company achieving certain business objective and revenue milestones following the closing (the "Closing") of the Transaction. On Closing, the Company will also issue an aggregate of 1,000,000 performance share units to senior executive personnel of the Target that will vest and become exercisable into common shares of the Company (each, a "Share") upon the Company achieving US\$20,000,000 in last twelve months revenue following the Closing.

NEXCO RESOURCES INC.**Notes to the Unaudited Condensed Interim Financial Statements****For the nine month period ended May 31, 2021**

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS (continued)

On Closing, the Company has also agreed to: (i) issue an aggregate of 7,233,800 restricted share units ("RSUs") to employees and consultants of the Target and Nexco which will vest and become exercisable into Shares immediately upon the Closing; and (ii) issue an aggregate of 4,184,325 performance share units ("PSUs") to employees and consultants of the Target which will vest and become exercisable into Shares upon the Company achieving certain business objective and revenue milestones following the Closing. The Company has agreed to pay a finder's fee of 1,000,000 common shares in connection with the Transaction. In addition to any escrow conditions imposed by the CSE, all of the Consideration Shares, RSUs and PSUs will be subject to a pooling agreement between the Company and the recipients of such securities providing for the release of such securities as follows: 1/8th on the date that is nine months from issuance (the "First Release Date") and an additional 1/8th every three months after the First Release Date.

Bridge Loan

In connection with the execution of the Definitive Agreement, the Company has agreed to advance a secured bridge loan in the amount of up to US\$3,600,000 to the Target (the "Bridge Loan"), which is secured against all present and after acquired property of the Target, and which includes the following terms: an interest rate of 5.0% per annum, commencing on March 31, 2021; (ii) a maturity date (the "Maturity Date") of November 17, 2021; (iii) principal and accrued interest payable on the Maturity Date, with no obligation to make payment of either principal or interest prior to the Maturity Date; and (iv) covenants limiting the Target's ability to use proceeds from the Bridge Loan for purposes other than maintenance of working capital. During the nine months ended May 31, 2021, the Company advanced US\$1,200,000 of the Bridge Loan prior to the date of the Definitive Agreement and US\$1,100,000 upon execution of the Definitive Agreement. Subsequent to May 31, 2021, the Company advanced an additional USD \$350,000 of the bridge loan to the Target. On Closing, the Bridge Loan will be deemed to be an inter-company loan.

Concurrent Financing

As announced on December 31, 2020 and January 20, 2021, the Company completed a non-brokered private placement of units of the Company for aggregate gross proceeds of \$3,449,949.90 at a price of \$0.15 per unit in connection with the Transaction (the "Bridge Loan Financing"). The net proceeds from the Bridge Loan Financing will be primarily used to advance the Bridge Loan to the Target. The Company also intends to close a concurrent equity financing in one or more tranches in connection with the Closing for minimum aggregate gross proceeds of \$6,500,000 (the "Concurrent Financing"). The Company may pay corporate advisory fees by the issuance of up to 12,000,000 securities of the Company in connection with the Concurrent Financing and a post-Closing financing in the event the Concurrent Financing and post-Closing financing result in gross proceeds to the Company in excess of \$6,500,000 and \$5,000,000, respectively. Upon the Closing, the board of directors of the Company will be comprised of five directors, of which two will be nominees of the Company, two will be nominees of the Target, and one will be a nominee mutually agreed upon by the Company and the Target. In connection with the Closing, the Company is expected to change its name to "Soter Technologies Inc."

Unsecured Convertible Debenture Financing

On June 21, 2021 the Company announced a non-brokered private placement of unsecured convertible debentures (each, a "Debenture") of the Company for total gross proceeds of up to \$2,000,000 (the "Offering"). The Debentures will bear interest at 10% per annum, from the date of issuance (the "Closing"), payable upon the earlier of the Maturity Date (as defined below) or the date of any conversion thereof. The Debentures will mature on the date that is one year from the date of issuance (the "Maturity Date").

1. NATURE OF OPERATIONS (continued)

At the Maturity Date, the outstanding Debentures will automatically convert into units of the Company (each, a "Unit") at the following conversion price: (a) if the Company's previously announced acquisition (the "Transaction") of Soter Technologies, LLC ("Soter Technologies") has not yet closed, \$0.225 per Unit (the "Conversion Price"), with each Unit consisting of one common share in the capital of the Company (each, a "Share") and one-half of one non-transferable share purchase warrant (each whole warrant, a "Warrant"), with each Warrant exercisable into one Share (each, a "Warrant Share") at a price of \$0.75 per Warrant Share for a period of two years from the date of the Closing (the "Closing Date"); and (b) if the Transaction has closed, the greater of: (i) the Conversion Price and (ii) a price (the "Alternative Conversion Price") equal to 75% of the price per security at which equity securities are issued by the Company in the concurrent financing carried out in connection with the Transaction (the "Concurrent Financing Price"). In the event that the conversion occurs at the Alternative Conversion Price, each Warrant will be exercisable into a Warrant Share at a price equal to three times the Concurrent Financing Price. In the event that, prior to the Maturity Date, the Transaction has closed, at the option of a Debenture holder, an outstanding Debenture may be converted into Units at a conversion price equal to the greater of: (i) the Conversion Price; and (ii) the Alternative Conversion Price. In the event that the conversion occurs at the Alternative Conversion Price, each Warrant will be exercisable into a Warrant Share at a price equal to three times the Concurrent Financing Price. The Company intends to close the Offering on or before July 9, 2021. Finder's fees may be paid in connection with the Offering in accordance with applicable laws. The Debentures and the securities issuable upon conversion of the Debentures will be subject to a statutory hold period expiring on the date that is four months and one day after the Closing Date.

On July 20, 2021, the Company announced it has closed the first tranche of its non-brokered private placement of unsecured convertible debentures (each, a "Debenture") of the Company for total gross proceeds of \$350,000 (the "Financing"), as previously announced on June 21, 2021. All securities issued in connection with the first tranche will be subject to a hold period expiring November 21, 2021. The proceeds of the Financing are for a bridge loan to Soter Technologies and general working capital. Completion of subsequent tranches of the Financing are subject to the receipt of all required regulatory approvals. In connection with the closing of the first tranche, the Company paid finder's fees in the amount of \$28,000 and issued 112,000 broker warrants exercisable at \$0.25 for two years, subject to a hold period expiring on November 21, 2021.

The Company had a deficit of \$1,326,285 as at May 31, 2021, which has been funded by the issuance of equity. The Company's ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

The outbreak of the Coronavirus Disease 2019, or COVID-19, has spread across the globe and is impacting worldwide economic activity. This global pandemic poses the risk that the Company or its clients, employees, contractors, suppliers, and other partners may be unable to conduct regular business activities for an indefinite period of time. At this point, the impact on the Company has been minimal. The Company continues to monitor the situation and is taking all necessary precautions in order to follow rules and best practices as set out by the federal and provincial governments.

2. BASIS OF PRESENTATION

These unaudited condensed interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS"), and in accordance with International Accounting Standards ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended August 31, 2020, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies followed in these unaudited condensed interim financial statements are consistent with those applied in the Company's audited financial statements for the year ended August 31, 2020. The financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these unaudited interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Significant accounting estimates

- i. the assessment of indications of impairment of the mineral property and related determination of the net realizable value and write-down of the mineral property where applicable; and
- ii. the inputs used in accounting for share-based payments.

Significant accounting judgments

- i. the measurement of deferred income tax assets and liabilities;
- ii. the determination of categories of financial assets and financial liabilities; and
- iii. the evaluation of the Company's ability to continue as a going concern.

4. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these unaudited condensed interim financial statements are the same as those applied to the audited financial statements as at and for the year ended August 31, 2020.

7. RELATED PARTY BALANCES AND TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

During the nine months ended May 31, 2021, \$65,000 was paid to the chief executive officer and \$5,000 was paid to a director of the Company, or paid to companies under their control. As at May 31, 2021, there was \$Nil owing to any related parties.

8. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the sourcing and exploration of its resource property. The Company does not have any externally imposed capital requirements to which it is subject.

The Company considers the aggregate of its share capital, contributed surplus and deficit as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or dispose of assets or adjust the amount of cash.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISKS

International Financial Reporting Standards 7, *Financial Instruments: Disclosures*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash and are classified as Level 1. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

Assets measured at fair value on a recurring basis were presented on the Company's statements of financial position as at May 31, 2021 are as follows:

Fair Value Measurements Using

Financial risk management objectives and policies

The Company's financial instruments include cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below.

Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

The Company does not have any significant foreign currency denominated monetary liabilities. The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk, the Company places these instruments with a high quality financial institution.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.
