About [Nanalysis Scientific Corp.](#) (TSXV: NSCI, OTCQX: NSCIF, FRA:1N1)

Nanalysis Scientific Corp. in operates two primary business segments: Scientific Equipment and Security Services. Within its Scientific Equipment business is what the Company terms "MRI and NMR for industry". The Company develops and manufactures portable Nuclear Magnetic Resonance (NMR) spectrometers or analyzers for laboratory and industrial markets. The NMReady-60™ was the first full-feature portable NMR spectrometer in a single compact enclosure requiring no liquid helium or any other cryogenes. The Company has followed up that initial offering with new products and continues to have a strong innovation pipeline. In 2020, the Company announced the launch of its 100MHz device, the most powerful and most advanced compact NMR device ever brought to market.

The Company's devices are used in many industries (oil and gas, chemical, mining, pharma, biotech, flavor and fragrances, agrochemicals, law enforcement, and more) as well as numerous government and university research labs around the world. The Company continues to exploit new global market opportunities independently and with partners. With its partners, the Company provides scientific equipment sales and maintenance services globally.

In 2022 the Company was awarded a five-year, \$160 million contract to provide maintenance services for passenger screening equipment in Canadian airports. This has resulted in expansion of the Company's Security Services business. The Company is providing airport security equipment maintenance services in each province and territory of Canada. In addition, the Company provides commercial security equipment installation and maintenance services to a variety of customers in North America.

Notice regarding Forward Looking Statements and Legal Disclaimer

This news release contains certain "forward-looking statements" within the meaning of such statements under applicable securities law. Forward-looking statements are frequently characterized by words such as "anticipates", "plan", "continue", "expect", "project", "intend", "believe", "anticipate", "estimate", "may", "will", "potential", "proposed", "positioned" and other similar words, or statements that certain events or conditions "may" or "will" occur.
