

MedReleaf receives license amendment from Health Canada to commence sales at its Bradford Facility

Construction and capacity expansion firmly on track

MARKHAM, ON, November 6, 2017 – MedReleaf Corp. (TSX:LEAF) (“MedReleaf” or the “Company”), Canada’s first and only ISO 9001 and ICH-GMP certified producer of medical cannabis, has been granted an amended licence from Health Canada to permit sales of medical cannabis under the Access to Cannabis for Medical Purposes Regulations (“ACMPR”) at its second facility in Bradford, ON (“Bradford Facility”). This increases the Company’s total current licensed production and sales capacity by 80% to approximately 12,600 kg per year.

“Just 6 months after receiving our cultivation licence at Bradford, we are among the fastest producers to receive a sales licence and have completed multiple harvests at best-in-class cultivation yields of 300 grams per square foot,” said Neil Closner, CEO of MedReleaf. “As our industry grows, our proven ability to execute large scale projects while maintaining the highest quality standards further solidifies MedReleaf as a trusted leader amongst licensed producers.”

This latest amended license from Health Canada follows several other recent milestones at the Bradford Facility. On October 11, 2017, MedReleaf received its amended licence for the use of its Mother Room and Clone Room which will support the growing capacity at the Bradford facility. On October 20, 2017, the Company received an amended licence for the use of two additional cultivation rooms, effectively doubling annual production capacity to an estimated 5,600 kg at the Bradford Facility. Once construction of the Bradford Facility is fully completed in the summer of 2018, total licensed production and sales capacity from MedReleaf’s two facilities in Markham and Bradford will be 35,000 kg per year.

Forward Looking Statements

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation which are based upon MedReleaf's current internal expectations, estimates, projections, assumptions and beliefs and views of future events. Forward-looking information can be identified by the use of forward-looking terminology such as "expect", "likely", "may", "will", "should", "intend", "anticipate", "potential", "proposed", "estimate" and other similar words, including negative and grammatical variations thereof, or statements that certain events or conditions "may", "would" or "will" happen, or by discussions of strategy. Forward-looking information include estimates, plans, expectations, opinions, forecasts, projections, targets, guidance or other statements that are not statements of fact.

Any forward-looking information speaks only as of the date on which it is made, and, except as required by law, MedReleaf does not undertake any obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for MedReleaf to predict all such factors. When considering these forward-looking statements, readers should keep in mind the risk factors and other cautionary statements in MedReleaf's Annual Information Form dated June 27, 2017 and filed with the applicable Canadian securities regulatory authorities on SEDAR at www.sedar.com. The risk factors and other factors noted in MedReleaf's Annual Information Form could cause actual events or results to differ materially from those described in any forward-looking information.
