Symbol: TSX-V: SLT**Specialty Liquid Transportation Corp. Provides Bi-Weekly Default Status Report**

VANCOUVER, B.C. - Specialty Liquid Transportation Corp. (the “**Company**”) is providing this bi-weekly default status report in accordance with National Policy 12-203 - *Management Cease Trade Orders*. On April 18, 2019, the Company announced that, for reasons set out in its news release of April 18, 2019, the filing of its annual audited financial statements for the year ended December 31, 2018, the accompanying management’s discussion and analysis and the related CEO and CFO certifications (collectively, the “**Annual Filings**”) would not be filed by the prescribed deadline of April 30, 2019.

On May 1, 2019, the British Columbia Securities Commission, as principal regulator, granted a temporary management cease trade order (the “**MCTO**”). As previously announced, the Company requires additional time to file its annual financial statements and MD&A for the financial year ended December 31, 2018 due to this being the first annual financial statements of the consolidated company following an RTO and additional time is required to complete the review and procedures. As a result, the Company concluded that it would not be able in a position to complete the year-end audit within the time periods required by National Instrument 51-102. The Company currently anticipates that it will be in a position to file the Annual Filings on or before August 1, 2019.

Pursuant to National Policy 12-203, the Company must file bi-weekly default status reports in the form of further news releases during the period of the MCTO. The Company reports that since its news release of April 18, 2019, there have been no material changes regarding the information contained in that news release. The Company confirms there have been no failures by the Company in fulfilling its stated intentions with respect to satisfying the provisions of the alternative information guidelines under National Policy 12-203, and there has not been, nor is there anticipated to be, any specified default subsequent to the default announced in the Company’s news release of April 18, 2019. The Company also confirms that there is no other material information concerning the affairs of the Company that has not been generally disclosed as of the date of this news release.

About Specialty Liquid Transportation Corp.

SLT manufactures high quality and safe bulk packing solutions for transport of non-hazardous liquid in the flexitank logistics industry. Its patented Big Red Flexitank and patent pending Liquiride™ Flexitank enables customers to significantly reduce shipping costs, increase efficiency and minimize environmental impact.
