Bam Bam Begins Long Range Environmental Planning for Majuba Hill

VANCOUVER, BC — February 14, 2022 — Bam Bam Resources Corp. (CSE: BBR / OTC: NPEZF / FSE: 4NPB) ("Bam Bam" or the "Company") is pleased to announce it has begun the search for firms to provide long-range environmental planning for the Majuba Hill project in Pershing County Nevada. Drilling that is planned for 2022 can be completed within the existing U.S. Bureau of Land Management ("BLM") notice level authorization and on the private ground. Because of the dramatic increase in target size and the number of targets the Company is starting longer range planning to accommodate drilling in 2023 and beyond.

The Company has reached out to several major environmental firms and expects to be able to choose a firm quickly.

David Greenway, President and CEO, commented: "Our development in 2021 at the Majuba Hill District has identified multiple new zones and caused the size of the program and project to expand dramatically. This furthers in our assessment that the copper/gold deposit holds a widely disseminated porphyry style deposit with an oxide cap. I am looking forward to engaging an environmental firm that can provide

assistance and strategic advice as we proceed with exploration and development at Majuba."

Qualified Person

The scientific and technical information contained in this news release has been reviewed by E.L. "Buster" Hunsaker III, CPG 8137, a non-independent consulting geologist who is a "Qualified Person" as such term is defined under *National Instrument 43-101 - Standards of Disclosure for Mineral Projects* ("NI 43- 101").

About Bam Bam Resources Corp.

Bam Bam Resources Corp. (CSE: BBR / OTC: NPEZF / FSE: 4NPB) is engaged in the identification, review and acquisition of latter stage copper and copper/silver/gold assets. This is in direct response to the growing worldwide demand and lack of supply for precious metals fueled by the Green New Deal in the US and most other developed nations with similar programs aimed at addressing climate change. Such programs are heavily reliant on silver, gold and especially copper to produce Electric Vehicles and other renewable power sources, as well as building infrastructure to provide clean and affordable electricity.

The flagship project is the Majuba Hill copper, silver and gold District located 156 miles outside Reno, Nevada, USA. Management has been mandated to focus on safe, mining friendly jurisdictions where government regulations are supportive of mining operations.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.

On Behalf of the Board of Bam Bam Resources Corp.

"David Greenway"

Forward-Looking Statements

This news release contains certain statements that may be deemed "forward-looking" statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although Bam Bam Resources Corp. believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of Bam Bam Resources Corp. management on the date the statements are made. Except as required by law, Bam Bam Resources Corp. undertakes no obligation to update these forward-looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
