About Stelco

Stelco is a low cost, integrated and independent steelmaker with one of the newest and most technologically advanced integrated steelmaking facilities in North America. In addition to being North America’s only integrated producer of pig iron, Stelco produces flat-rolled value-added steels, including premium-quality coated, cold-rolled and hot-rolled steel products. With first-rate gauge, crown, and shape control, as well as reliable uniformity of mechanical properties, our steel products are supplied to customers in the construction, automotive and energy industries across Canada and the United States as well as to a variety of steel service centres, which are regional distributors of steel products. At Stelco, we understand the importance of our business reflecting the communities we serve and are committed to making diversity and inclusion a core part of our workplace culture, in part, through active participation in the BlackNorth Initiative.
