

Blue Thunder Announces Resumption of Trading of Common Shares

Toronto, Ontario--(Newsfile Corp. - November 27, 2023) - Blue Thunder Mining Inc. (TSXV: BLUE) ("**Blue Thunder**" or the "**Company**") announces that its common shares will resume trading on the TSX Venture Exchange effective at the opening on Wednesday, November 29, 2023.

Dorian L. (Dusty) Nicol, CEO of Blue Thunder has been appointed as acting Corporate Secretary of Blue Thunder in addition to his position as CEO effective immediately.

About Blue Thunder

Blue Thunder is an exploration company that owns 100% of a large land position near Chibougamau, Québec. The Muus Gold project covers approximately 23,500 hectares of prospective ground in the eastern part of the Abitibi Greenstone Belt. The Muus Project is prospective for gold mineralization and is adjacent to and on strike with lamgold's 5-million-ounce Nelligan gold project. Field work completed during 2022 established that the northern portion of the Muus Project is also prospective for copper-gold volcanogenic massive sulphide mineralization.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein including, without limitation, statements regarding the anticipated content, commencement, anticipated exploration program results, the ability to complete future financings, the ability to complete the required permitting, the ability to complete the exploration program and drilling, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or are those, which, by their nature, refer to future events. The Company cautions investors that any forward-looking statements by the Company are not guarantees of future results or performance, and that actual results may differ materially from those in forward-looking statements as a result of various factors, including, but not limited to, the state of the financial markets for the Company's equity securities, the state of the commodity markets generally, variations in the nature, the analytical results from surface trenching and sampling program, including diamond drilling programs, the results of IP surveying, the results of soil and till sampling program, the quality and quantity of any mineral deposits that may be located, variations in the market price of any mineral products the Company may produce or plan to produce, the inability of the Company to obtain any necessary permits, consents or authorizations required, including TSX Venture Exchange acceptance, for its planned activities, the inability of the Company to produce minerals from its properties successfully or profitably, to continue its projected growth, to

raise the necessary capital or to be fully able to implement its business strategies, the potential impact of COVID-19 (coronavirus) on the Company's exploration program and on the Company's general business, operations and financial condition, and other risks and uncertainties. All of the Company's Canadian public disclosure filings may be accessed via www.sedar.com and readers are urged to review these materials, including the technical reports filed with respect to the Company's mineral properties. This news release contains information with respect to adjacent or similar mineral properties in the Chibougamau District in respect of which the Company has no interest or rights to explore or mine. Readers are cautioned that the Company has no interest in or right to acquire any interest in any such properties, and that mineral deposits, and the results of any mining thereof, on adjacent or similar properties, are not indicative of mineral deposits on the Company's properties or any potential exploitation thereof.
