NEWS RELEASE

NOA Lithium Announces Warrant Exercises For $712,400

January 7, 2026, Buenos Aires, Argentina – NOA Lithium Brines Inc. (TSX-V: NOAL / FSE: N7N) ("**NOA**" or the "**Company**") is pleased to announce that, senior management of the Company, that hold common share purchase warrants of the Company exercisable at a price of $0.20 per common share (the "**Warrants**") have exercised 3,562,000 Warrants to provide the Company with $712,400. Funds from this warrant exercise will be used to continue the progress and development of the Company's assets and for general corporate working capital (the "**Warrant Exercise**").

This Warrant Exercise by the senior management of the Company is indicative of their continued commitment and endorsement of the Company.

NOA's Chief Executive Officer and Director, Gabriel Rubacha, states: *"We believe Rio Grande is one of the few remaining brine projects with potential for development. The recently completed Preliminary Economic Assessment demonstrated Rio Grande's potential and the next phase of Pre-Feasibility will add more value to the project and the Company. Management of the Company is fully committed to NOA and this warrant exercise is a clear demonstration that we believe in the potential of our projects and the Company".*

About NOA Lithium Brines Inc.

NOA is a lithium exploration and development company formed to acquire assets with significant resource potential. All NOA's projects are located in the heart of the prolific Lithium Triangle, in the mining-friendly province of Salta, Argentina, near a multitude of projects and operations owned by some of the largest players in the lithium industry. NOA has rapidly consolidated one of the largest lithium brine claim portfolios in this region that is not owned by a producing company, with key positions on three prospective salars, being Rio Grande, Arizaro, and Salinas Grandes, and totalling over 140,000 hectares.

On Behalf of the Board of Directors,

Gabriel Rubacha

Chief Executive Officer and Director

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and other statements that are not historical facts. Forward-looking statements are often identified by terms such as “will”, “may”, “should”, “anticipate”, “expects” and similar expressions. All statements other than statements of historical fact, included in this news release are forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company’s expectations include the results of further brine process testing and exploration and other risks detailed from time to time in the filings made by the Company with securities regulators. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company. The reader is cautioned not to place undue reliance on any forward-looking information. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The forward-looking statements contained in this news release are made as of the date of this news release and the Company will update or revise publicly any of the included forward-looking statements as expressly required by applicable law.
