(2) Non-IFRS measures: Adjusted EBITDA does not have a standardized meaning under IFRS, and therefore may not be comparable to similar measures presented by other issuers. We define Adjusted EBITDA attributed to shareholders as net income or loss excluding severance and acquisition costs, interest expense and finance costs, foreign exchange gains and losses, current and deferred income taxes, depreciation and amortization, stock-based compensation, fair value gains and losses on investments, and other expenses. We believe Adjusted EBITDA is a useful measure as it provides important and relevant information to our management about our operating and financial performance. Adjusted EBITDA also enables our management to assess our ability to generate operating cash flow to fund future working capital needs, and to support future growth. Excluding these items does not imply that they are non-recurring or not useful to investors. Investors should be cautioned that Adjusted EBITDA attributable to shareholders should not be construed as an alternative to net income (loss) or cash flows as determined under IFRS.

- (3) Non-IFRS measures: Gross profit and gross profit percentage do not have a standardized meaning under IFRS, and therefore may not be comparable to similar measures presented by other issuers. We define gross profit as revenue, excluding ancillary revenues, less cost of software and services and software licensing fees. Cost of software and services include direct costs of community managers, client accounting staff and accounting software, excluding client administration and other administrative applications. We define gross profit percentage as gross profit calculated as a percentage of revenues, excluding ancillary revenues. Gross profit and gross profit percentage should not be construed as an alternative for revenue or net loss in accordance with IFRS. We believe that gross profit and gross profit percentage are meaningful metrics in assessing our financial performance and operational efficiency.

The following table sets forth our total assets and non-current financial liabilities as December 31, 2024, 2023 and 2022:

This was partially offset by decreased interest expense on the Gateway promissory note, which we continue to make principal and interest payments towards.

Other income

During the quarter and year ended December 31, 2024, other income was \$109,156 and \$122,145 respectively, compared to \$17,655 and \$109,492 for the same period in 2023 respectively. The increase in the quarterly comparison is due to a gain on sale of intangible assets. The decrease for the annual comparison was due to no cash being held for the year ended December 31, 2024 in the 1-year cashable GIC investment with an interest yield of 2.23% annually, resulting in \$nil interest income. The GIC investment matured on April 25, 2023.

Net loss

Net loss from the three months ended December 31, 2024 was \$1,295,144 compared to \$6,968,301 for the same period in 2023. The decrease in net loss was due to increased revenues from the acquisition of DMSI and financial services revenues associated with our banking partnership, and decreased salaries from restructuring efforts. This was partially offset by increased office expenses and professional expenses from the acquisition of DMSI, and increased interest expense discussed above.

Net loss for the year ended December 31, 2024 was \$7,536,010 compared to \$14,167,301 for the same period in 2023. The decrease in net loss was due to increased revenues from the acquisition of DMSI and financial services revenues associated with our banking partnership, and decreased salaries from restructuring efforts. This was partially offset by increased office expenses and professional expenses from the acquisition of DMSI, and increased interest expense discussed above.

The decrease in net loss was primarily due to restructuring efforts, leading to decreased salaries and wages and subcontractor expenses.
- In the fourth quarter of 2023, our revenue increased by \$311,508 to \$5,110,135, driven by the acquisition of Meritus and net addition of buildings to the Tribe Home platform. Our net loss increased by \$4,897,652 to \$6,968,301, driven by the impairment of goodwill.

Funding requirements

We expect to devote financial resources to our current planned operations, the repayment of the Gateway promissory note, the DMS promissory note, the operating and M&A facilities, and business development. We are currently assessing a number of acquisition opportunities. As at the date of this MD&A, we have an M&A facility of \$10 million with a Canadian Schedule A bank. We may need to raise additional financing through the public or private equity and debt markets.

ACCOUNTING POLICIES

MD&A of our financial condition and results of operations is based on our audited consolidated financial statements which have been prepared in accordance with IFRS and International Financial Reporting Interpretations Committee ("IFRIC") interpretations issued and effective as of April 14, 2025.

Our significant accounting policies are included in the notes to the audited consolidated financial statements for the year ended December 31, 2024.

Beginning on January 1, 2024, the Company revised the useful life of its customer relationships from 10 years to 8 years for a subset of customer contracts in the Tribe CGU. The Company performed an evaluation of the length of the useful life and determined 8 years was a more appropriate measurement. This change increased the amortization of intangible assets for the year ended December 31, 2024, and will have the same effect for the periods thereafter.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

Our financial assets and liabilities are classified as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Financial assets:		
<i>Fair value through profit and loss</i>		
Cash	\$ 1,819,520	\$ 1,324,101
Investments	91,922	74,011
<i>Amortized cost</i>		
Accounts receivable, net of allowance for doubtful accounts	2,731,134	1,528,151

Operating and M&A facilities	10,945,279	3,039,469
Note payable	3,938,718	2,167,397

We use our cash and receivables to support our current planned operations and to settle our accounts payable, short-term debt and demand loan, all of which were incurred in the normal course of business. Our note payable was issued in connection with the Gateway Acquisition and was used to finance the transaction. Our investments consist of shares of a publicly traded company on the Toronto Stock Exchange. We plan to liquidate these shares in the future.

Our financial instruments expose us to certain financial risks, including credit risk, interest rate risk, foreign currency risk and liquidity risk.

Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. We have a significant number of customers which minimizes concentration of credit risk. We are exposed to credit risk from customers. In order to reduce our credit risk, we deal only with financially sound counterparties and, accordingly, do not anticipate loss for non-performance. An allowance for doubtful accounts is established based upon factors surrounding the credit risk of specific accounts, historical trends and other information. Our cash is also exposed to credit risk. Cash is held with a major financial institution, consequently, the credit risk is assessed as low.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our interest rates on our short-term debt, note payable and demand loan are fixed. Management monitors our interest rates compared to market rates on a regular basis. We do not use derivative instruments to reduce our exposure to interest rate risk. Accordingly, interest rate risk is assessed as low.

Currency risk

Currency risk is the risk that our net income (loss) will vary from fluctuations of foreign exchange rates and the degree of volatility of these rates. We have not entered into any forward currency contracts or other financial derivatives to hedge foreign exchange risk. We are exposed to limited foreign currency transactions and have assessed the currency risk as low.

Liquidity risk

Our objective is to have sufficient liquidity to meet our liabilities when they become due. We monitor our cash balances and cash flows generated from operations to meet our requirements. As at December 31, 2024, the most significant financial liabilities are our accounts payables and accrued liabilities, and notes payable. As at December 31, 2024, we assessed our liquidity risk as high.

RISKS AND UNCERTAINTIES

We are subject to a number of risks and uncertainties that may significantly impact our financial condition and future financial performance. Prospective investors should carefully consider the risks described in our most recent annual information form, available for review under our profile on the SEDAR+ website at <http://www.sedarplus.ca>, before making an investment decision.

CONTINGENCIES

We are from time to time involved in legal proceedings of a nature considered normal to our business. We believe that none of the litigation in which we are currently involved, individually or in the aggregate, are material to our consolidated financial condition or results of operations.

SUBSEQUENT EVENTS
