AJN RESOURCES INC.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended January 31, 2025 and 2024

(Unaudited - Expressed in Canadian dollars, unless otherwise noted)

1. NATURE OF OPERATIONS AND GOING CONCERN

AJN Resources Inc. (the "Company") was incorporated under the Business Corporations Act of British Columbia on September 1, 2016. On June 12, 2018, the Company listed its shares on the Canadian Securities Exchange ("CSE") under the symbol "AJN", and on the Frankfurt Stock Exchange under the symbol "5AT". The address of the Company's registered office and principal place of business is Suite 1400 - 1199 West Hastings Street, Vancouver, British Columbia, V6E 3T5, Canada.

The Company's primary business is the acquisition and exploration of mineral properties. The Company's mineral properties comprise the Salt Wells Lithium Property (the "Salt Wells Property") located in Nevada, USA, and potential exploration permits (the "Kabunda South Project" and the "Manono Northeast Project") located in the Manono Territory, Tanganyika Province of the Democratic Republic of the Congo ("DRC"). The Company's exploration and evaluation assets (Note 7) do not presently host any known mineral deposits nor, given the high degree of risk involved, can there be any assurance that its exploration activities will result in mineral deposits being located or, ultimately, a profitable mining operation in the future.

On February 8, 2022, the Company, through its wholly owned subsidiary AJN Resources Congo SASU ("AJN Congo"), entered into a memorandum of understanding (the "MoU") with the DRC to acquire a number of exploration permits in the Kilo Moto Gold Belt in North-East DRC. In connection with the MoU, the DRC has established a wholly owned subsidiary Congo Ressources SAU ("Congo Ressources") to acquire a 100% interest in certain claims in the area. AJN Congo will have the option to acquire Congo Ressources in exchange for common shares of the Company representing 60% of the fully diluted issued and outstanding common shares of the Company. As at January 31, 2025, the Company awaits the transfer of permits to Congo Ressources as per the MoU.

These condensed interim consolidated financial statements for the three and six months ended January 31, 2025 and 2024 (the "financial statements") have been prepared on a going concern basis, which assumes the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. During the three and six months ended January 31, 2025, the Company incurred a net loss of \$292,656 and \$808,187, respectively (2024 - \$1,602,045 and \$2,173,441, respectively). As at January 31, 2025, the Company has working capital deficiency of \$1,261,358 (July 31, 2024 - \$1,594,940), and accumulated deficit of \$12,200,303 (July 31, 2024 - \$11,392,116). The Company has no source of operating cash flows, and there is no assurance that sufficient funding (including adequate financing) will be available to conduct required exploration and development of its mineral property projects. These factors indicate a material uncertainty that casts significant doubt on the Company's ability to continue as a going concern.

Should the Company be unable to continue as a going concern, asset and liability realization values may be substantially different from their carrying values. These financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PREPARATION

a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS Accounting Standards") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements including International Accounting Standard 34 *Interim Financial Reporting*. These financial statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited financial statements for the years ended July 31, 2024 and 2023 (the "Annual Financial Statements").

These financial statements were approved and authorized for issuance by the Company's Board of Directors on March 31, 2025.

b) Basis of presentation

These consolidated financial statements have been prepared on a historical cost basis, except for financial instruments measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

AJN RESOURCES INC.

Notes to the Condensed Interim Consolidated Financial Statements

For the three and six months ended January 31, 2025 and 2024

(Unaudited - Expressed in Canadian dollars, unless otherwise noted)

2. BASIS OF PREPARATION (continued)

c) Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company. The functional currency is the currency of the primary economic environment in which an entity operates. The functional currency of AJN Congo is the United States dollar. References to "USD" or "US\$" are to United States dollars, to "EUR" are to Euro, and to "AUD" are to Australian dollars.

d) Basis of consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, AJN Congo, which is located in Kinshasa, DRC. Intercompany transactions and balances are eliminated upon consolidation. Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in the consolidated financial statements from the date control commences until the date control ceases.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies applied in the preparation of these financial statements are consistent with those applied and disclosed in the notes to the Annual Financial Statements, except for the following pronouncements which became effective for periods beginning on or after August 1, 2024.

Disclosure of accounting policies - amendments to IAS 1 and IFRS Practice Statement 2

The amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendments have had no impact on the Company's disclosures of accounting policies as well as on the measurement, recognition or presentation of any items in the Company's financial statements.

Classification of liabilities as current or non-current - amendments to IAS 1

The amendments to IAS 1 specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, an entity is required to disclose when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months. The amendments have not had an impact on the classification of the Company's liabilities.

Definition of accounting estimates - amendments to IAS 8

The amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors clarify the distinction between changes in accounting estimates, changes in accounting policies and the correction of errors. They clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments had no impact on the Company's financial statements.

Deferred tax related to assets and liabilities arising from a single transaction - amendments to IAS 12

The amendments to IAS 12 Income Taxes narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities. The amendments had no impact on the Company's financial statements.

The Company has not early adopted any other new accounting standard, interpretation or amendment that has been issued but is not yet effective.

(Unaudited - Expressed in Canadian dollars, unless otherwise noted)

4. SIGNIFICANT ACCOUNTING JUDGMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements under IFRS Accounting Standards requires management to make judgements in applying its accounting policies and estimates that affect the reported amounts of assets and liabilities at the period end date and reported amounts of expenses during the reporting period. Such judgements and estimates are, by their nature, uncertain. Actual outcomes could differ from these estimates.

The impact of such judgements and estimates are pervasive throughout these financial statements and may require accounting adjustments based on future occurrences. These judgements and estimates are continuously evaluated and are based on management's experience and knowledge of the relevant facts and circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised and are accounted for prospectively.

In preparing these financial statements, the Company applied the same significant judgements in applying its accounting policies and is exposed to the same sources of estimation uncertainty as disclosed its Annual Financial Statements.

5. CHANGE IN ACCOUNTING POLICY

During the year ended July 31, 2024, the Company changed its policy under IFRS 6 - *Exploration for and Evaluation of Mineral Resources* ("IFRS 6"). The Company originally elected to capitalize both the acquisition costs and exploration and evaluation expenditures incurred on its exploration and evaluation properties. The Company has changed its policy under IFRS 6 to expense exploration and evaluation expenditures incurred on its properties as it felt that this policy provides superior presentation of costs incurred while the Company's mineral property interests are at a pre-feasibility stage of development. The Company applied the change in accounting policy on a retrospective basis and has therefore restated its consolidated statement of financial position as at August 1, 2022 increasing the deficit in \$70,746 to a total of \$5,773,654.

6. PREPAID EXPENSES AND DEPOSITS

A summary of the Company's prepaid expenses and deposits is as follows:

7. EXPLORATION AND EVALUATION ASSETS (continued)

a) Salt Wells Property

In 2017, the Company entered into an option agreement (the "Option Agreement") to acquire a 100% interest in certain claims comprising the Salt Wells Property in Nevada, the USA. The Salt Wells Property is subject to a 4.5% net smelter return, 1.5% of which the Company has the right to buy back within 90 days of the property going into production for US\$500,000, and an additional 1.5% of which the Company has the right to buy back within 180 days of the property going into production for US\$1,250,000. Furthermore, a cash payment of US\$250,000 is payable upon the property attaining commercial production.

As at January 31, 2025, the Company had a reclamation bond of \$19,142 (January 31, 2024 - \$19,142), which is a security deposit held by the Bureau of Land Management of Nevada.

During the year ended July 31, 2024, pursuant to the impairment assessment under IFRS 6, management concluded impairment indicators existed and recorded a write-down of evaluation and exploration assets of \$117,123.

b) Dabel Gold Project

On September 18, 2024, the Company entered into an agreement with Lord Purus Trading Limited (the "Acquisition Agreement") to acquire a 60% interest of the Dabel Gold project located in Nairobi, Kenya ("Dabel Gold Project") in exchange for:

- A cash payment of US\$50,000 by September 18, 2024 (paid);
- An issuance of 5,000,000 of the Company's common shares;
- A cash payment of US\$50,000 once the Company successfully raises \$1,000,000 funding in form of equity or debt;
- A cash payment of US\$250,000 by March 18, 2025;
- A cash payment of US\$500,000 by March 18, 2026;

Pursuant to the Acquisition Agreement, the Company will conduct a due diligence on the Dabel Gold Project. Upon the completion of the due diligence and subject to the Company's decision to proceed ("Commencement Date"), the Company will incorporate a new Kenyan subsidiary ("Newco") of which the Company will hold 60% issued and outstanding shares. In addition, the Company will issue 19.90% of its issued and outstanding share capital to Lord Purus Trading Limited.

In addition, the Company will have an option to acquire an additional 10% interest in the Dabel Gold Project by paying US\$10,000,000 and US\$15,000,000, respectively to Lord Purus Trading Limited within two and three years, respectively from the Commencement Date.

As at January 31, 2025, the Company is carrying out the due diligence on the Dabel Gold Project.

c) Kabunda South Project

MEK PR 15383

On December 30, 2022, the Company entered into a binding term sheet (the "Binding Term Sheet") with Mining Enterprise Katanga S.A.R.L.U. ("MEK") in which it can acquire a 75% interest in exploration permit PR 15383, located in the Manono territory, Tanganyika province of the DRC ("MEK PR 15383") in exchange for:

- A cash payment of US\$30,000 by December 30, 2022 (paid);
- A cash payment of US\$20,000 by April 30, 2023 (paid); and
- A cash payment of US\$80,000 (paid) and the issuance of 6,000,000 of the Company's common shares after the date that the Company has completed all technical, financial and legal due diligence. As at January 31, 2025, the Company is carrying out necessary due diligence prior to issuing the agreed upon number of shares to acquire the interest in MEK PR 15383.

7. EXPLORATION AND EVALUATION ASSETS (continued)MEK PR 15623

On October 15, 2023, the Company entered into a binding term sheet (the "Binding Term Sheet 4") which was later amended on August 29, 2024, with MEK to acquire a 75% indirect interest in an exploration permit, PR 15623, located in the Manono Territory, Haut-Katanga province of the DRC ("MEK PR 15623"). On August 29, 2024, the Company and MEK amended the Binding Term Sheet 4. A summary of the consideration for the acquisition is as follows:

- A cash payment of US\$30,000 by October 15, 2023 (paid);
- A cash payment of US\$20,000 by February 15, 2024 (paid); and
- An issuance of 2,000,000 of the Company's common shares on or before September 15, 2024 (issued; Note 10(b)); and
- An issuance of 5,000,000 of the Company's common shares on or before the date that is two months after the date that the Company completed all technical, financial and legal due diligence. As at January 31, 2025, the Company is carrying out necessary due diligence prior to issuing the agreed upon number of shares to acquire the interest in MEK PR 15623.

d) Manono Northeast ProjectPalm PR 15282

On June 2, 2023, the Company entered into a binding term sheet (the "Binding Term Sheet 2") with Palm Constellation S.A.R.L. in the DRC ("Palm"), to acquire a 70% indirect interest in an exploration permit PR 15282, located in the Manono territory, Tanganyika province of the DRC ("Palm PR 15282") in exchange for:

- A cash payment of US\$50,000 by June 12, 2023 (paid);
- A cash payment of US\$100,000 by July 29, 2023 (paid);
- A cash payment of US\$250,000 and the issuance of the number of shares that are equal to 10.5% of the Company's issued and outstanding common shares for the first 51% indirect interest ("First Option") after the date that the Company has completed all technical, financial and legal due diligence. As at January 31, 2025, the Company is carrying out necessary due diligence prior to exercising the First Option;
- A cash payment of US\$250,000 and the issuance of an additional 4,000,000 of the Company's common shares for a further 9% indirect interest after the exercise of the First Option and no later than six months thereafter ("Second Option"); and
- A cash payment of US\$5,000,000 for the remaining 10% indirect interest to increase the Company's holding to 70% indirect interest after the exercise of the Second Option and no later than six months thereafter, which is the maximum amount pursuant to the Binding Term Sheet 2.

9. CONVERTIBLE DEBENTURE

On April 17, 2020, the Company issued a convertible debenture for total proceeds of \$1,256,115, possessing a maturity date of April 17, 2023. The debenture bears interest at 2.5% per annum, payable annually, and is convertible into common shares at a conversion price of \$0.40 per share. Conversion is at the holder's discretion at any time during the term. Additionally, after two years from the issuance date, the Company has the right to convert the debentures into common shares if the closing price of its common shares on the CSE is equal to or greater than \$2.00 for 15 consecutive trading days. The debenture matured on April 17, 2023, without any conversion, and is now due on demand. As at January 31, 2025, the Company is in the process of negotiating with the holder to settle the convertible debenture.

During the three and six months ended January 31, 2025, the Company incurred interest expense of \$7,916 and \$15,831, respectively (2024 - \$7,915 and \$15,831, respectively). As at January 31, 2025, principal on the convertible debenture balance was \$1,256,115 (July 31, 2024 - \$1,256,115) and accrued interest payable was \$5,334 (July 31, 2024 - \$15,658).

10. SHARE CAPITAL**a) Authorized share capital**

The Company is authorized to issue an unlimited number of common shares without par value.

b) Share capital transactions

During the six months ended January 31, 2025, the Company had the following share capital transactions:

- On August 14, 2024, the Company completed a non-brokered private placement of 5,000,000 units at \$0.10 per unit for gross proceeds of \$500,000, of which \$310,000 had been received during the year ended July 31, 2024. Each unit comprises one common share and one warrant. Each warrant entitles the holder to purchase one common share of the Company at an exercise price of \$0.15 until August 15, 2028 (Note 10(d)). The gross proceeds were allocated using the relative fair value method and as a result, \$284,708 was allocated to share capital and \$215,292 was allocated to reserves.

- During the year ended July 31, 2024, the Company collected \$310,000 in subscription proceeds for the private placement completed on August 14, 2024. These subscription proceeds were included as units to be issued on the consolidated statements of financial position as at July 31, 2024.

c) Stock options

The Company established an omnibus equity incentive compensation plan (the "Omnibus Plan"), whereby it may grant stock options, restricted share units, deferred share units and performance units to eligible employees, officers, directors and consultants with an exercise price, expiry date and vesting conditions determined by the Company's Board of Directors. The Omnibus Plan replaces the Company's stock option plan which only provided for the grant of stock options. The Omnibus Plan is a combination of the following:

- A rolling stock option plan permitting the grant of stock options to a number of outstanding stock options that does not exceed 15% of the issued and outstanding shares of the Company at the grant date of stock options; and
- A fixed plan for any other equity-based compensation arrangement under which the number of shares of the Company issued under the Omnibus Plan may not exceed 6,300,000 shares.

During the six months ended January 31, 2025, the Company had the following stock options transactions:

- On August 21, 2024, 400,000 options of the Company expired unexercised.
- On August 28, 2024, the Company issued an aggregate of 500,000 incentive stock options to two of its directors in accordance with the Omnibus Plan. The stock options are exercisable at \$0.15 per common share of the Company until August 28, 2026 and vested immediately.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at January 31, 2025, the carrying values of cash, deposits, accounts payable and accrued liabilities, accrued interest payable, and convertible debenture approximate their respective fair values due to their short-term nature. These financial instruments are measured at amortized cost.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments are summarized below.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty fails to meet an obligation under contract. Credit risk exposure arises with respect to the Company's cash and deposits. The risk exposure is limited because the Company places its cash in banks of high credit worthiness within Canada and legal counsel in the DRC, and its deposits are held with an established mining institution in Nevada, USA.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. As the Company's operations do not generate cash, financial liabilities are discharged using funding through the issuance of common shares or debt as required. The Company is exposed to liquidity risk through its accounts payable and accrued liabilities, accrued interest payable, convertible debenture, loans payable, and subscription liabilities. Management mitigates this risk by monitoring its cash position and issuing common shares or debt as required.

As at January 31, 2025, the Company's cash balance of \$80,552 (July 31, 2024 - \$320,255) is not sufficient to meet its current obligations related to its accounts payable and accrued liabilities balance of \$136,823 (July 31, 2024 - \$553,474), accrued interest payable balance of \$5,334 (July 31, 2024 - \$15,658), and convertible debenture balance of \$1,256,115 (July 31, 2024 - \$1,256,115). The Company's liquidity risk is high, and it will need to raise cash in the form of debt or equity in order to meet its current obligations and remain a going concern.

c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk as its convertible debenture is payable at a fixed interest rate and no other liabilities are subjected to variable interest rates.

AJN RESOURCES INC.**Notes to the Condensed Interim Consolidated Financial Statements****For the three and six months ended January 31, 2025 and 2024**

(Unaudited - Expressed in Canadian dollars, unless otherwise noted)

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)**d) Foreign exchange risk**

Foreign exchange risk is the risk that the fair value of the Company's assets and liabilities will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign exchange risk to the extent that monetary assets and liabilities held by the Company are not denominated in its functional currency. The Company does not manage currency risk through hedging or other currency management tools.

A summary of the Company's financial instruments held in foreign currencies as at January 31, 2025, expressed in Canadian dollars, is as follows:

	USD
	\$
Cash	935

A 5% change in the foreign currencies against the Canadian dollar as at January 31, 2025 would result in an immaterial impact to foreign exchange gain or loss.

e) Geopolitical risk

Geopolitical risk is the risk that the fair value of financial instruments will fluctuate if there is a sudden and rapid destabilization of global financial conditions in response to future events, as government authorities may have limited resources to respond to the current or future crisis. Future crises may be precipitated by any number of factors outside the Company's control, including another pandemic, natural disasters, geopolitical instability, supply chain constraints or sovereign defaults. Any sudden or rapid destabilization of global economic conditions could negatively impact the Company's ability to obtain equity or debt financing or make other suitable arrangements to operate and/or finance its projects. In the event of increased levels of volatility or a rapid destabilization of global economic conditions, the Company's results of operations and financial condition could be adversely affected.

14. CAPITAL MANAGEMENT

The Company's capital structure consists of all components of shareholders' equity and its convertible debenture. The Company's objective when managing capital is to maintain adequate levels of funding to support the current operations including corporate and administrative functions to support operations. The Company obtains funding primarily through issuing common shares and debt. Future financing is dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. There were no changes to the Company's approach to capital management during the period. The Company is not subject to externally imposed capital requirements.

15. SUBSEQUENT EVENTS

On March 21, 2025, the Company closed the first tranche of a non-brokered private placement and issued 5,249,998 units at \$0.12 per unit for gross proceeds of \$630,000. Each unit was comprised of one common share and one warrant for a total of 5,249,998 warrants. Each warrant entitles the holder to purchase one common share of the Company at an exercise price of \$0.15 until March 22, 2029.
