**Archive:** A replay will be available one hour after the end of the update call on the Company's YouTube channel at: <https://www.youtube.com/channel/UCD3LXgwwKbygV8TAMYbxVxw/videos>

"This investors update follows a series of announcements regarding the progress of our go-to market plans for our various products," said David Luxton, KWESST's Executive Chairman. "One clear priority for KWESST remains the commercialization of its non-lethal Low Energy Cartridge (LEC) system with an accelerated plan in response to market interest and high growth across all segments of the non-lethal market. The official commercial launch of the LEC system will take place at the SHOT Show in Las Vegas in January 2022."

## **About KWESST**

KWESST develops and commercializes breakthrough next-generation tactical systems that meet the requirements of security forces and personal defense for overmatch capability against adversaries. The company's current portfolio of unique proprietary offerings include its unique non-lethal Low Energy Cartridge (LEC) system with application across all segments of the non-lethal market, including law enforcement and personal defence. KWESST is also involved in the digitization of tactical forces for shared situational awareness and targeting with its signature TASCSTM (Tactical Awareness and Situational Control System) for real-time awareness and targeting information from any source (including drones) streamed directly to users' smart devices and weapons. Other KWESST products include counter-measures against threats such as drones, lasers and electronic detection. These include the autonomous GreyGhost™ soldier-portable micro drone missile system that defends against small hostile drones including swarms using high-speed kinetic impact; a Ground Laser Defence system to

counter the emerging threat of weaponized lasers against personnel and the Phantom™ electronic battlefield decoy system to mask the electromagnetic signature of friendly forces with decoy signatures at false locations to deceive and confuse adversaries. These systems can operate stand-alone or integrate seamlessly with OEM products and battlefield management systems. The Company is headquartered in Ottawa, Canada, with representative offices in Washington, DC, London, UK and Abu Dhabi, UAE. KWESST trades on the TSX Venture Exchange under the symbol KWE and on the U.S. OTCQB under the symbol KWEMF.
