ARMORY MINING PLANS EXPLORATION PROGRAM AT THE AMMO ANTIMONY-GOLD PROJECT

Vancouver, B.C. – November 20, 2025 – Armory Mining Corp. (CSE: ARMY) (OTC: RMRYF) (FRA: 2JS) (the "**Company**" or "**Armory**") a resource exploration company focused on the discovery and development of minerals critical to the energy, security and defense sectors, is pleased to announce it has begun planning for a phase one exploration program at the Ammo antimony-gold project (“Ammo”), located in Nova Scotia, Canada.

Ammo is 3,092-hectare exploration package that surrounds and is contiguous to the historical West Gore antimony-gold mine. West Gore produced both antimony and gold in the years leading up to World War I. The ground has since changed hands multiple times, and is currently held by Military Metals Corp.

Phase one will consist of prospecting and reconnaissance to identify favorable geology, followed by detailed surface sampling and geophysics to assist in determining priority drill targets. The Company plans to budget up to $500,000 CDN for the initial phase of exploration. Planning is underway and the Company will provide more information in the coming weeks.
