SUMMARY DESCRIPTION OF BUSINESS

What is our business?

The Company’s business activity is the acquisition, exploration and evaluation of mineral properties. Aldebaran was incorporated in 2018 by Regulus Resources Inc. (“**Regulus**”) under the *Business Corporations Act* (Alberta) to participate in an arrangement with Regulus whereby Regulus agreed to spin out its Argentina mining properties to Aldebaran. The Company holds an 80% interest in the Altar copper-gold porphyry project in San Juan Province, Argentina (the “**Altar Project**”), as well as a 100% interest in the Rio Grande project and several other earlier stage projects, all located in Argentina. The Altar Project is a very large, moderate-grade resource that currently has 22.01 billion pounds of copper, 5.08 million ounces of gold and 93.76 million ounces of silver on a measured and indicated basis, plus 9.83 billion pounds of copper, 1.71 million ounces of gold, and 49.04 million ounces of silver on an inferred basis as per the 2024 Altar Resource Estimate (as defined herein).¹ The Company is led by John E. Black, Dr. Kevin B. Heather and Mark Wayne, who also serve as management of Regulus. The team has a proven track record with Antares Minerals Inc, which they sold to First Quantum Minerals (TSX:FM, UK FQM) in 2010 for approximately \$650 million after drilling out the Haquira Cu-Mo-Au deposit in Peru.

Recent developments

- In November 2024, the Company announced that it had entered into an option to joint venture agreement (the “**Nuton Option Agreement**”) with Nuton Holdings Ltd. (“**Nuton**”), a Rio Tinto venture, whereby Nuton can acquire a 20% indirect interest in the Altar Project by making staged payments (the “**Staged Payments**”) totaling US\$250 million as follows: US\$10 million upon signing (“**Signing Payment**”); US\$20 million upon delivery of an updated mineral resource estimate (“**MRE Payment**”); US\$30 million upon delivery of a Preliminary Economic Assessment; and US\$190

¹ The Altar Project is the subject of an updated NI 43-101 Mineral Resource Estimate, dated effective November 25, 2024 (the “**2024 Altar Resource Estimate**”), prepared by Independent Mining Consultants, Inc. A supporting NI 43-101 Technical Report, dated December 31, 2024, was filed on SEDAR+ at www.sedarplus.ca on January 9, 2025 titled “*Technical Report, Estimated Mineral Resources, Altar Project, San Juan Province, Argentina*”. These stock options will vest over a two year period.
- In April 2025, the Company announced that documentation had been completed to acquire an additional 20% interest in the Altar Project from Sibanye-Stillwater. Aldebaran now owns an 80% interest in the Altar Project, while Sibanye-Stillwater owns a 20% interest. The Altar Project will be operated as a joint venture as of June 30, 2024, being the date that Aldebaran had expended the additional US\$25 million to acquire the additional 20% interest. The Company also provided an update on the 2025 field season at the Altar Project and announced that the Company had elected to delay the release of the Preliminary Economic Assessment on the Altar Project to Q3 2025 to allow additional time to develop both the Nuton and non-Nuton cases (see Company news release dated April 15, 2025).

Aldebaran will continue to focus on the Altar Project (see Company news release dated September 5, 2025).
- In September 2025, the Company also announced that the public reporting of a Preliminary Economic Assessment for the Altar Project (the "**PEA**") had been delayed until Q4 2025 to allow time for Nuton to complete its review of the Nuton case, in accordance with the terms of the signed Nuton Option Agreement (see Company news release dated September 5, 2025).
- In October 2025, the Company announced that Centauri had issued 11,380,000 common shares at C\$0.50 per share to private investors for a total capital raise of C\$5,690,000. The Company also announced that Aldebaran and Centauri have executed a definitive share transfer agreement (the "**Share Transfer Agreement**"), pursuant to which Centauri would acquire all of the shares of Aldebaran Argentina S.A. and Minera El Toro S.A., the Argentina subsidiaries owned by Aldebaran that hold a portfolio of Argentina projects other than the Altar Project. In exchange, Aldebaran would receive 40,000,000 common shares (78.1%) of Centauri and the balance will be owned by the private investors. The Share Transfer Agreement is subject to certain conditions and closing is expected to occur in Q1 2026.

- In October 2025, the Company announced results of the PEA, prepared in accordance with NI 43-101 standards, for the Altar Project. The base case scenario utilizes a 60,000 tonnes per day concentrator, processing mineralized material from both open pit and underground sources. The results of the PEA are reported on a 100% basis, while Aldebaran owns an 80% interest in the project, with the remaining 20% held by Sibanye-Stillwater Ltd.

Additionally, the Company announced that Nuton had provided notice of termination of the Nuton Option Agreement. Nuton's decision came as they are shifting priorities to focus on later-stage projects that could potentially deliver nearer-term production. Despite the termination, Nuton and Aldebaran could still enter a licensing agreement to deploy the Nuton® Technology, proprietary bio-leaching technology, at the Altar Project (see Company news release dated November 24, 2025).
- On January 26, 2026, the Company announced an offering in reliance on the Listed Issuer Financing Exemption for aggregate gross proceeds of \$20,000,500 and a concurrent non-brokered private placement of up to 16,769,231 common shares of the Company in connection with the potential exercise of contractual participation rights held by the Rights Holders.
