

Zonetail Expands Condo Resident Offers Through Pilot Agreement with One of the Largest Telecommunications Service Providers in Canada

Toronto, Ontario--(Newsfile Corp. - March 9, 2020) - Zonetail (TSXV: ZONE), a mobile technology company, today announced that it has entered a pilot project with one of the largest telecom companies in Canada, to offer its condo residents access to exclusive residential services.

The Zonetail condo mobile platform and app, *Shiftsuite*, offers residents the option to interact with their condo building amenities and services. Zonetail also connects residents with neighbouring businesses and services through the app's *Explore* section.

Through the Zonetail platform, the telecom company will have the ability to communicate directly to condo residents, offering a wide range of residential services, including cable tv bundles, internet and home phone.

"This has been one of the primary projects that Zonetail has been working on for several months, and we could not be happier to announce a step forward with our new telecom client," said Mark Holmes, CEO and President of Zonetail. "This venture allows us to build on the offerings that are available to our residents and enhance their connected experience."

The project will rollout in phases starting in early spring across thousands of condominium units in the Greater Toronto area.
