In addition, this Prospectus qualifies for distribution the Agent’s Warrants, and the grant of the Directors’ and Officers’ Options, as hereinafter defined. See “*Plan of Distribution*” and “*Options to Purchase Securities*”.
- (5) Unless an amendment to the final prospectus is filed and the “principal regulator” under NP 11-202, as hereafter defined, (the “**Securities Regulatory Authority**”) has issued a receipt for the amendment, the latest date that the distribution is to remain open is 90 days after the date of issuance of a receipt for the final prospectus by the Securities Regulatory Authority.

This Offering is made on a “commercially reasonable efforts” basis by the Agent and is subject to a subscription of 3,000,000 Common Shares for total gross proceeds to the Corporation of \$300,000. The offering price of the Common Shares was determined by negotiation between the Corporation and the Agent. All funds received from subscriptions for Common Shares will be held by the Agent pursuant to the terms of an agency agreement between the Corporation and the Agent (the “**Agency Agreement**”). If the subscription is not completed within 90 days of the issuance of a

receipt for the final prospectus or such other time as may be consented to by the regulatory authorities and the Agent and persons or companies who subscribed within that period, all subscription monies will be returned to subscribers without interest or deduction, unless the subscribers have otherwise instructed the Agent.

Pursuant to the Agency Agreement, the Agent and its designated sub-agents, if any, will be granted non-transferable warrants (the “**Agent’s Warrants**”) which will entitle the holder to purchase up to such number of Common Shares equal to ten percent (10%) of the total number of Common Shares issued pursuant to the Offering, at a price of \$0.10 per Common Share and which may be exercised for a period of 24 months from the Listing Date, as hereinafter defined. The Agent’s Warrants and the Common Shares issuable on exercise of the Agent’s Warrants are qualified for distribution under this Prospectus. See “*Plan of Distribution*” and “*Options to Purchase Securities*”.

This prospectus also qualifies for distribution options to be granted to directors and officers of the Corporation (the “**Directors’ and Officers’ Options**”) at the Closing. The Directors’ and Officers’ Options will entitle the holders to purchase an aggregate of 10% of the number of Common Shares that will be outstanding immediately after Closing (600,000 Common Shares) at a price of \$0.10 per Common Share and such options may be exercised for a period of five (5) years from the date of grant. See “*Plan of Distribution*” and “*Options to Purchase Securities*”.

Other than the initial distribution of the Common Shares pursuant to this Prospectus, the grant of the Agent’s Warrants and the grant of Directors’ and Officers’ Options, trading in all securities of the Corporation is prohibited during the period between the date that the receipt for the preliminary prospectus was issued by the securities commission that is designated the principal regulator pursuant to Multilateral Instrument 11-102 – *Passport System* (“**MI 11-102**”) and National Policy 11-202 – *Process for Prospectus Reviews in Multiple Jurisdictions* (“**NP 11-202**”) and the time the Common Shares are listed for trading on the Exchange except, subject to prior acceptance of the Exchange, where appropriate registration and prospectus exemptions are available under securities legislation or where the applicable securities regulatory authority(ies) grants a discretionary order.

The Exchange conditionally approved the Corporation’s listing application in respect of the Common Shares on February 28, 2019. Listing is subject to the Corporation fulfilling all of the requirements of the Exchange, including the distribution of such Common Shares to a minimum number of public shareholders.

Investment in the Common Shares offered by this Prospectus is highly speculative due to the nature of the Corporation’s business and its present stage of development. This Offering is suitable only to those investors who are prepared to risk the loss of their entire investment. See “Risk Factors”.

There is currently no market through which the Common Shares offered by this Prospectus may be sold and purchasers may not be able to resell the Common Shares purchased under this Prospectus. This may affect the pricing of the Common Shares in the secondary market, the transparency and availability of trading prices, the liquidity of the Common Shares, and the extent of issuer regulation. Upon completion of this Offering, purchasers will suffer an immediate dilution (based on the gross proceeds from this Offering and from sales of securities prior to filing this Prospectus) of approximately \$0.025 per Common Share or 25%. The Corporation was only recently formed and has no active business and does not currently own any assets other than cash. Investment in the Common Shares offered by this prospectus is highly speculative given the proposed nature of the Corporation’s business and its present stage of development. The business objective of the Corporation is to identify and evaluate businesses or assets with a view to completing a Qualifying Transaction; however, there can be no assurance that the Corporation will successfully complete a Qualifying Transaction. **Although the Corporation has commenced the process of identifying potential acquisitions, to date, the Corporation has not identified any potential acquisitions and may determine that current markets, terms of acquisition, or pricing conditions make such potential acquisitions uneconomic.** The Corporation has not entered into an Agreement in Principle, as hereafter defined. The Corporation may find that even if the terms of a potential acquisition are economic, the Corporation may not be able to finance such acquisition and additional funds may be required to meet such obligations. Since the Corporation has not placed any geographic restrictions on the location of a Qualifying Transaction, such Qualifying Transaction may involve the acquisition of a business located outside of Canada and, as such, investors should be aware that it may be difficult or may not be possible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and that it may not be possible to enforce against such persons or the Corporation, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada. Where the investment or acquisition is financed by the issuance of shares from the

Corporation's treasury, control of the Corporation may change and shareholders may suffer further dilution of their investment. The Corporation will be in competition with other entities with greater resources. The Corporation has neither a history of earnings nor has it paid any dividends and it is unlikely to generate earnings or pay dividends in the immediate or foreseeable future. The Exchange may suspend from trading or delist the Common Shares where the Corporation has failed to complete a Qualifying Transaction within 24 months of the Listing Date. The Commissions may issue a cease trade order if the Corporation is delisted from the Exchange. In addition, delisting of the Common Shares may result in the cancellation of all or some of the Common Shares of the Corporation owned by Insiders, as hereinafter defined, issued prior to this Offering. Investors must rely solely on the expertise of the Corporation's Promoter, as hereinafter defined, directors and officers for any possible return on their investment. The Corporation's Promoter, directors, officers and Control Persons, as hereinafter defined, and their Associates, as hereinafter defined, and Affiliates, as hereinafter defined, as a group, beneficially own or control, directly or indirectly, 3,000,000 Common Shares, which represents approximately 100% of the issued and outstanding Common Shares before giving effect to this Offering and approximately 50% of the issued and outstanding Common Shares after giving effect to this Offering. The directors and officers of the Corporation will only devote part of their time to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. See "*Capitalization*", "*Dilution*", "*Business of the Corporation*", "*Directors, Officers and Promoters*", "*Use of Proceeds*", "*Conflicts of Interest*", and "*Risk Factors*".

The Agent conditionally offers these Common Shares, on a "commercially reasonable efforts" agency basis, if, as and when subscriptions are accepted by the Corporation, subject to prior sale, in accordance with the terms and conditions of the Agency Agreement referred to under "*Plan of Distribution*" and subject to the approval of certain legal matters by Borden Ladner Gervais LLP, on behalf of the Corporation and by Pushor Mitchell LLP, on behalf of the Agent.

Pursuant to the CPC Policy, no purchaser of the Common Shares is permitted to directly or indirectly purchase more than 2% or 60,000 (\$6,000) of the total Common Shares offered under this Prospectus. In addition, the maximum number of Common Shares that may directly or indirectly be purchased by that purchaser, together with any Associates or Affiliates of that purchaser, is 4% or 120,000 (\$12,000) of the total number of Common Shares offered under this Prospectus.

Subscriptions will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. It is expected that the Common Shares sold under the Offering will be issued on an uncertificated basis. A purchaser of Common Shares will receive only a customer confirmation from the registered dealer from or through which the Common Shares were purchased as to the number of Common Shares subscribed for. See "*Depository Services*".

The Corporation has not commenced commercial operations and has no assets other than a minimal amount of cash. See “*Business of the Corporation*”.
- Offering:** A total of 3,000,000 Common Shares are being offered under this Prospectus at a price of \$0.10 per Common Share. In addition, the Corporation will issue to the Agent and its designated sub-agents, if any, the Agent’s Warrants to purchase up to that number of Common Shares equal to 10% of the aggregate Common Shares sold pursuant to the Offering, being 300,000 Common Shares, at an exercise price of \$0.10 per Common Share which will be exercisable for a period of 24 months from the Listing Date. The grant of the Agent’s Warrants is qualified under this Prospectus. The Corporation also intends to grant Directors’ and Officers’ Options to purchase up to an aggregate of 600,000 Common Shares to directors and officers under the Corporation’s Stock Option Plan. The grant of all of Directors’ and Officers’ Options is also qualified under this Prospectus. See “*Plan of Distribution*” and “*Options to Purchase Securities*”.
- Use of Proceeds:** The net proceeds to the Corporation, including total cash proceeds raised prior to this Offering and total proceeds of the Offering, net of all expenses of the Offering, including the Agent’s Commission, will be \$337,250, which calculation includes the gross cash proceeds raised prior to this Offering. The Corporation may not have sufficient funds to secure such businesses or assets once identified and evaluated and additional funds may be required. Until Completion of the Qualifying Transaction and except as otherwise provided in the CPC Policy, a maximum of the lesser of 30% of the gross proceeds realized or \$210,000 may be used for purposes other than evaluating businesses or assets. See “*Use of Proceeds*”, “*Business of the Corporation*” and “*Risk Factors*”.

Risk Factors:

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation's business and its present stage of development. The Corporation was only recently incorporated and has no active business or assets other than cash. It does not have a history of earnings, nor has it paid any dividends and will not generate earnings or pay dividends until at least after the Completion of the Qualifying Transaction. **The Offering is only suitable to investors who are prepared to rely entirely on the directors and management of the Corporation and can afford to risk the loss of their entire investment.** The directors and officers of the Corporation will only devote part of their time and attention to the affairs of the Corporation and there are potential conflicts of interest to which some of the directors and officers of the Corporation will be subject in connection with the operations of the Corporation. Assuming completion of the Offering, an investor will suffer an immediate dilution on investment of approximately 25% or \$0.025 per Common Share. There can be no assurance that an active and liquid market for the Corporation's Common Shares will develop and an investor may find it difficult to resell the Common Shares. Until Completion of the Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of assets or businesses with a view to completing a Qualifying Transaction. The Corporation has only limited funds with which to identify and evaluate possible Qualifying Transactions and there can be no assurance that the Corporation will be able to identify or complete a suitable Qualifying Transaction.

The Qualifying Transaction may involve the acquisition of a business or assets located outside of Canada. It may therefore be difficult or impossible to effect service or notice to commence legal proceedings upon any directors, officers and experts outside of Canada and it may not be possible to enforce against such persons or companies judgments obtained in Canadian courts predicated upon the civil liability provisions applicable to securities laws in Canada. See "*Business of the Corporation*", "*Directors, Officers and Promoters*", "*Capitalization*", "*Dilution*", "*Risk Factors*" and "*Conflicts of Interest*".

THE CORPORATION

The Corporation was incorporated on March 6, 2018 pursuant to the provisions of the *Canada Business Corporations Act*. On March 5, 2019, the Articles of Incorporation were amended and restated to remove the private company restrictions set forth therein.

The head office and registered office of the Corporation is located at 1900, 520 3rd Avenue S.W., Calgary, Alberta, T2P 0R3.

BUSINESS OF THE CORPORATION

Preliminary Expenses

To date the Corporation has raised \$150,000 through the sale of 3,000,000 Common Shares (see “*Prior Sales*” and “*Capitalization*”). As of the date hereof, the Corporation has paid \$6,250 (plus applicable taxes) to the Agent representing half of the Corporate Finance Fee and a \$7,500 retainer paid to the Agent toward its legal fees, expenses and disbursements. In addition, the Corporation has paid a deposit of \$2,625 (plus applicable taxes) to the Exchange towards the initial listing fee. Certain of the Offering proceeds will be utilized to satisfy the obligations of the Corporation related to the Offering, including any additional expenses of its auditor, legal expenses and the Agent’s legal counsel. See “*Use of Proceeds*”.

Proposed Operations until Completion of a Qualifying Transaction

The Corporation proposes to identify and evaluate businesses and assets with a view to completing a Qualifying Transaction. Any proposed Qualifying Transaction must be accepted by the Exchange and in the case of a Non Arm’s Length Qualifying Transaction is also subject to Majority of the Minority Approval in accordance with the CPC Policy. The Corporation has not conducted commercial operations. The Corporation has not yet identified the particular industry sector in which it intends to pursue a Qualifying Transaction.

Until Completion of a Qualifying Transaction, the Corporation will not carry on any business other than the identification and evaluation of businesses or assets with a view to completing a potential Qualifying Transaction. With the consent of the Exchange, this may include the raising of additional funds in order to finance an acquisition. Except as described under “*Permitted Use of Funds*”, “*Restrictions on Use of Proceeds*” and “*Private Placement for Cash*”, the funds raised pursuant to this Offering and any subsequent financing will be utilized only for the identification and evaluation of potential Qualifying Transactions and not for any deposit, loan or direct investment in a potential acquisition.

The Corporation has not yet entered into an Agreement in Principle.

Method of Financing

The Corporation may use cash, bank financing, the issuance of treasury shares, public debt or equity financing or a combination of these for the purpose of financing its proposed Qualifying Transaction. **A Qualifying Transaction financed by the issue of treasury shares could result in a change in the control of the Corporation and may cause the shareholders’ interest in the Corporation to be further diluted.** See “*Risk Factors*”.

Criteria for a Qualifying Transaction

The Corporation will consider acquisitions of assets or businesses operated or located both inside and outside of Canada, as permitted by the CPC Policy. All potential acquisitions will be screened initially by management of the Corporation to determine their economic viability. Approval of acquisitions will be made by the board of directors. The board of directors will examine proposed acquisitions having regard to sound business fundamentals and to the expertise and experience of the directors. The board of directors of the Corporation must approve any proposed Qualifying Transaction. In exercising their powers and discharging their duties in relation to a proposed Qualifying

Transaction, the directors will act honestly and in good faith with a view to the best interests of the Corporation and will exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction

Upon the Corporation reaching an Agreement in Principle, the Corporation must issue a comprehensive news release, at which time the Exchange generally will halt trading in the Corporation's Common Shares until the filing requirements of the Exchange have been satisfied as set forth under "*Trading Halts, Suspensions and Delisting*". Within 75 days after issuance of such news release, the Corporation shall be required to submit for review to the Exchange either an information circular that complies with applicable corporate and securities laws or a filing statement that complies with Exchange requirements. An information circular must be submitted where there is a Non Arm's Length Qualifying Transaction. A filing statement must be submitted where the Qualifying Transaction is not a Non Arm's Length Qualifying Transaction. The information circular or filing statement, as applicable, must contain prospectus level disclosure of the Target Company and the Corporation, assuming Completion of the Qualifying Transaction, and be prepared in accordance with the CPC Policy and Form 3B1 or Form 3B2, as the case may be, of the Exchange. Upon acceptance by the Exchange, the Corporation must then either:

1. file the filing statement on SEDAR at least seven business days prior to closing of the Qualifying Transaction, and issue a news release which discloses the scheduled closing date for the Qualifying Transaction as well as the fact that the filing statement is available on SEDAR; or
2. mail the information circular and related proxy material to its shareholders in order to obtain the Majority of the Minority Approval of the Qualifying Transaction or other requisite approval, at a meeting of shareholders.

Unless waived by the Exchange, the Corporation will also be required to retain a Sponsor, who must be a Member of the Exchange, and who will be required to submit to the Exchange a Sponsor Report prepared in accordance with the Policies of the Exchange. The Corporation will no longer be considered to be a CPC upon the Exchange having issued the Final Exchange Bulletin. The Exchange will generally not issue the Final Exchange Bulletin until the Exchange has received:

- (a) in the case of a Non Arm's Length Qualifying Transaction, confirmation of Majority of Minority Approval of the Qualifying Transaction;
- (b) confirmation of closing of the Qualifying Transaction; and
- (c) all post-meeting or final documentation, as applicable, otherwise required to be filed with the Exchange pursuant to the CPC Policy.

Upon issuance of the Final Exchange Bulletin, the CPC Policy will generally cease to apply, with the exception of the escrow provisions of the CPC Policy and the restrictions in the CPC Policy precluding the Corporation from completing a reverse takeover for a period of one year from the Completion of the Qualifying Transaction.

Initial Listing Requirements

The Resulting Issuer must satisfy the Exchange's Initial Listing Requirements for the particular industry sector in either Tier 1 or Tier 2 as prescribed under the applicable policies of the Exchange.

Trading Halts, Suspensions and Delisting

The Exchange will generally halt trading in the Common Shares from the date of the public announcement of an Agreement in Principle until all filing requirements of the Exchange have been satisfied, which includes the submission of a Sponsorship Acknowledgment Form where the Qualifying Transaction is subject to sponsorship. In addition, personal information forms, or, if applicable, declarations for all individuals who may be directors, senior officers, Promoters, or Insiders of the Resulting Issuer must be filed with the Exchange and any preliminary

background searches that the Exchange considers necessary or advisable must also be completed before the trading halt will be lifted by the Exchange.

Even if all filing requirements have been satisfied and preliminary background checks completed, the Exchange may continue or reinstate a halt in trading of the Common Shares for public policy reasons including:

- (a) the unacceptable nature of the business of the Resulting Issuer; or
- (b) the number of conditions precedent to, or the nature and number of deficiencies required to be resolved prior to, completion of the Qualifying Transaction, are so significant or numerous as to make it appear to the Exchange that the halt should be reinstated or continued.

A trading halt may also be imposed by the Exchange where the Corporation fails to file the supporting documents relating to the Qualifying Transaction within a period of 75 days after public announcement of the Agreement in Principle or if the Corporation fails to file post-meeting or final documents, as applicable, within the time required. A trading halt may also be imposed if a Sponsor terminates its sponsorship.

The Exchange may suspend from trading or delist the Common Shares of the Corporation where the Exchange has not issued a Final Exchange Bulletin to the Corporation within 24 months of the date of listing. In the event that the Common Shares of the Corporation are delisted by the Exchange, within 90 days from the date of such delisting, the Corporation shall wind up and shall make a pro rata distribution of its remaining assets to its shareholders, unless shareholders, pursuant to a majority vote exclusive of the votes of Non Arm's Length Parties to the Corporation, determine to deal with the issuer or its remaining assets in some other manner. See *"Filings and Shareholder Approval of a Non Arm's Length Qualifying Transaction."*

If the Corporation has not completed a Qualifying Transaction within the time frame prescribed by the CPC Policy, it may apply for listing on NEX rather than be delisted. In order to be eligible to a list on NEX the Corporation must:

- (a) obtain majority shareholder approval for the transfer to NEX exclusive of the votes of Non Arm's Length Parties of the Corporation; and
- (b) either:
 - (i) cancel all Seed Shares purchased by Non Arm's Length Parties to the Corporation at a discount to the IPO price, in accordance with section 11.2(a) of the CPC Policy, as if the Corporation had delisted from the Exchange, or
 - (ii) subject to majority shareholder approval, cancel an amount of the Seed Shares purchased by Non Arm's Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

If the Corporation lists on the NEX, the Corporation must continue to comply with all the requirements and restrictions of the CPC Policy.

Refusal of Qualifying Transaction

The Exchange, in its sole discretion, may not accept a Qualifying Transaction where:

- (a) the Resulting Issuer fails to satisfy the applicable Initial Listing Requirements of the Exchange;
- (b) the aggregate number of securities of the Resulting Issuer owned, directly or indirectly, by:
 - (i) a Member firm of the Exchange;

- (ii) registrants, unregistered corporate finance professionals, employee shareholders and partners of such Member firm; and
 - (iii) associates of any such person;
- collectively, would exceed 20% of the issued and outstanding securities of the Resulting Issuer;
- (c) the Resulting Issuer will be a financial institution, finance company, finance issuer or mutual fund, as defined in the securities legislation;
 - (d) the majority of the directors and senior officers of the Resulting Issuer are not residents of Canada or the United States or are individuals who have not demonstrated positive association as directors or officers with public companies that are subject to a regulatory regime comparable to the companies listed on a Canadian exchange; or
 - (e) notwithstanding the definition of a Qualifying Transaction, there is any other reason for denying acceptance of the Qualifying Transaction.

A maximum aggregate amount of \$25,000 may also be advanced as a non-refundable deposit, unsecured deposit or advance to a Vendor or Target Company, as the case may be, to preserve assets without the prior acceptance of the Exchange.

In addition, the Agent will be paid a Corporate Finance Fee of \$12,500 (plus applicable taxes), of which \$6,250 has already been paid. The Corporation will also pay the Agent's expenses, including legal fees, towards which a retainer of \$7,500 has already been paid.

The Agent's Warrants are qualified under this Prospectus for distribution. Not more than 50% of the aggregate number of Common Shares which can be acquired on the exercise of the entire Agent's Warrants may be sold by the Agent prior to the Completion of the Qualifying Transaction. The remaining 50% may be sold after the Completion of the Qualifying Transaction. The Agent has agreed to use commercially reasonable efforts to secure subscriptions for Common Shares offered hereunder on behalf of the Corporation and may make co-brokerage arrangements with other investment dealers at no additional cost to the Corporation. The obligations of the Agent under the Agency Agreement may be terminated at its discretion on the basis of its assessment of the state of financial markets and may also be terminated on the occurrence of certain events as stated in the Agency Agreement.

The total Offering is for 3,000,000 Common Shares at a price of \$0.10 per share for total gross proceeds of \$300,000. Under the CPC Policy, no purchaser of the Common Shares is permitted to purchase more than 2% or 60,000 of the total number of Common Shares under the Offering. In addition, the maximum number of Common Shares permitted to be purchased by that purchaser together with any Associates or Affiliates of that purchaser is 4% or 120,000 of the total number of Common Shares under the Offering. The funds received from the Offering will be deposited with the Agent, and will not be released until proceeds of \$300,000 have been deposited. The total subscription must be raised within 90 days of the date a receipt for the prospectus is issued, or such other time as may be consented to by the regulatory authorities and the Agent and persons or companies who subscribed within that period, failing which the Agent will remit the funds collected to the original subscribers without interest or deduction, unless subscribers have otherwise instructed the Agent.

The grant of all of the Directors' and Officers' Options is qualified for distribution under this Prospectus and entitles the holders of the Directors' and Officers' Options to purchase an aggregate of 600,000 Common Shares at an exercise price of \$0.10 per Common Share for a period of five (5) years from the date of grant.

Determination of Price

The offering price of the Common Shares hereunder was determined by negotiation between the Corporation and the Agent.

Listing of the Common Shares

The Exchange conditionally approved the Corporation's listing application in respect of the Common Shares on February 28, 2019. Listing is subject to the Corporation fulfilling all the requirements of the Exchange, including the distribution of such Common Shares to a minimum number of public shareholders.

As at the date of this Prospectus, the Corporation does not have any of its securities listed or quoted, has not applied to list or quote any of its securities, and does not intend to apply to list or quote any of its securities, on the Toronto Stock Exchange, Aequitas NEO Exchange Inc., a U.S. marketplace or a marketplace outside of Canada or the United States of America (other than the Alternative Market of the London Stock Exchange or the PLUS markets operated by PLUS Markets Group plc).

Any Common Shares issued to any member of the Aggregate Pro Group prior to the date of this Prospectus are being held in escrow pursuant to CPC Policy.

The Agent has advised the Corporation that to the best of its knowledge and belief, none of its directors, officers, employees or contractors or any Associate or Affiliate of the Agent have subscribed for Common Shares of the Corporation.

Until Completion of the Qualifying Transaction, the aggregate number of Common Shares permitted to be owned directly or indirectly by the Aggregate Pro Group, including participants referred to above, is 20% of the issued and outstanding Common Shares exclusive of Common Shares reserved for issuance at a future date. The Exchange will require that any securities issued to the Pro Group in connection with or in contemplation of the Qualifying Transaction will be required to be subject to a four (4) month Exchange hold period and the securities certificate(s) legended accordingly, as prescribed by Exchange Policy 3.2 *Filing Requirements and Continuous Disclosure*. Such participants are permitted to subscribe for Common Shares pursuant to this Offering, subject to (i) compliance with any applicable client priority rule, and (ii) the restrictions applicable to all purchasers to the Offering described under “*Plan of Distribution – Commercial Reasonable Efforts Offering*”.

If the Agent declines, in writing, the Corporation may proceed with such offering through another agent or underwriter, provided the arrangements with such agent or underwriter are entered into within 30 days thereafter (it being acknowledged and agreed by the Agent that if the Corporation issues any securities to which the foregoing would apply, but does not retain or utilize a registered dealer as agent therefore, the foregoing shall not apply to such issuance, unless any of the subscribers to the issuance of such securities is a subscriber or beneficial purchaser of Units pursuant to the Offering).

(1) These Common Shares are being held in escrow. See “Escrowed Securities”.

ESCROWED SECURITIES

All of the 3,000,000 Common Shares issued prior to this Offering at a price below \$0.10 per Common Share, all Common Shares that may be acquired from treasury by Non Arm’s Length Parties of the Corporation either under the Offering or otherwise prior to Completion of the Qualifying Transaction and all Common Shares acquired by members of the Aggregate Pro Group prior to the Offering will be deposited with TSX Trust Company under the Escrow Agreement.

All Common Shares acquired on exercise of stock options prior to the Completion of a Qualifying Transaction must also be deposited in escrow and will be subject to escrow until the Final Exchange Bulletin is issued.

In addition, all Common Shares of the Corporation acquired in the secondary market prior to the Completion of a Qualifying Transaction by any person or company who becomes a Control Person are required to be deposited in escrow. Subject to certain exemptions permitted by the Exchange, all securities of the Corporation held by Principals of the Resulting Issuer will also be escrowed.

Notwithstanding the foregoing, Common Shares acquired by Principals of the Corporation or Principals of the Resulting Issuer pursuant to a private placement will not be subject to escrow provided that various conditions, as set forth in the CPC Policy, are met. See “Escrowed Securities – Escrowed Securities on Private Placement”.

The following table sets out, as at the date hereof, the number of Common Shares of the Corporation, which will be held in escrow.

Name and Municipality of Residence of Shareholder	Common Shares	Number of Common Shares Escrowed	Percentage of Common Shares Prior to Giving Effect to the Offering	Percentage of Common Shares After Giving Effect to the Offering⁽¹⁾
Daniele Forigo Calgary, AB	500,000	500,000	16.67%	8.33%

1637102 Alberta Ltd. ⁽⁴⁾ Calgary, AB	1,000,000	1,000,000	33.33%	16.67%

Notes:

- (1) Assuming no Common Shares are purchased by these persons under the Offering.
- (2) Nebojsa Dobrijevic is a trustee of and exercises control over The Dobrijevic Family Trust.
- (3) Gopikannan Pillai is a trustee of and exercises control over the PJ Family Trust.
- (4) Noel C. O’Brien is the principal shareholder of and exercises control over 1637102 Alberta Ltd.

Where the Common Shares of the Corporation which are required to be held in escrow are held by a non-individual (a “**holding company**”), each holding company pursuant to the Escrow Agreement, has agreed, or will agree, not to carry out any transactions during the currency of the Escrow Agreement which would result in a change of control of the holding company, without the consent of the Exchange. Any holding company must sign an undertaking to the Exchange that, to the extent reasonably possible, it will not permit or authorize any issuance of securities or transfer of securities could reasonably result in a change of control of the holding company. In addition, the Exchange may require an undertaking from any control person of the holding company not to transfer the shares of that company.

Under the Escrow Agreement, 10% of the escrowed Common Shares will be released from escrow on the issuance of the Final Exchange Bulletin (the “**Initial Release**”) and an additional 15% will be released on the dates 6 months, 12 months, 18 months, 24 months, 30 months and 36 months following the Initial Release.

If the Resulting Issuer meets the Exchange’s Tier 1 Initial Listing Requirements either at the time the Final Exchange Bulletin is issued or subsequently, the release of the escrowed Common Shares will be accelerated. An accelerated escrow release will not commence until the Resulting Issuer has made application to the Exchange for listing as a Tier 1 Issuer and the Exchange has issued a bulletin that announces the acceptance for listing of the Resulting Issuer on Tier 1 of the Exchange.

The Exchange’s prior consent must be obtained before a transfer within escrow of escrowed Common Shares. Generally, the Exchange will only permit a transfer within escrow to be made to incoming Principals in connection with a proposed Qualifying Transaction.

If a Final Exchange Bulletin is not issued, the escrowed Common Shares will not be released. Under the Escrow Agreement, each Non Arm’s Length Party to the Corporation who holds escrowed Common Shares acquired at a price below the Offering price under this Prospectus has irrevocably authorized and directed to the Transfer Agent to immediately:

- (a) cancel all of those escrowed Common Shares upon the issuance by the Exchange of a bulletin delisting the Common Shares of the Corporation; or
- (b) if the Corporation lists on NEX, either:
 - (i) cancel all Seed Shares purchased by Non Arm’s Length Parties to the Corporation at a discount from the IPO price, in accordance with section 11.2(a) of the CPC Policy; or
 - (ii) subject to majority shareholder approval, cancel an amount of Seed Shares purchased by Non Arm’s Length Parties to the Corporation so that the average cost of the remaining Seed Shares is at least equal to the IPO price.

Escrowed Securities on Qualifying Transaction

Generally, if at least 75% of the securities issued pursuant to the Qualifying Transaction are “Value Securities”, then all the securities issued to Principals of the Resulting Issuer pursuant to the Qualifying Transaction will be deposited into escrow pursuant to a value security agreement (the “**Value Security Escrow Agreement**”). “Value Securities” are securities issued pursuant to a transaction, for which the deemed value of the securities at least equals the value ascribed to the asset, using a valuation method acceptable to the Exchange, or securities that are otherwise determined by the Exchange to be Value Securities and required to be placed in escrow under a Value Security Escrow Agreement. However, if at least 75% of the securities issued pursuant to the Qualifying Transaction are not Value Securities, all securities issued pursuant to the Qualifying Transaction will be deposited into a surplus security escrow agreement (a “**Surplus Security Escrow Agreement**”).

The principal distinction between a Value Security Escrow Agreement and a Surplus Security Escrow Agreement is the time period for release of securities from escrow. In the case of a Resulting Issuer that will be a Tier 2 Issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 15% of the escrowed securities, being releasable every 6 months thereafter until the date which is 36 months after the Final

Exchange Bulletin. In the case of a Resulting Issuer that will be a Tier 2 issuer subject to a Surplus Security Escrow Agreement, when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three year escrow release mechanism with: 5% of the escrowed securities releasable at the time of the Final Exchange bulletin; 5% on the date which is 6 months after the Final Exchange Bulletin; 10% on each of the dates which are 12 and 18 months after the Final Exchange Bulletin; 15% on each of the dates which are 24 and 30 months after the Final Exchange Bulletin; and 40% on the date which is 36 months after the Final Exchange Bulletin.

In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Value Security Escrow Agreement provides for an 18 month escrow release mechanism with 25% of the escrowed securities being releasable at the time of the Final Exchange Bulletin, and 25% of the escrowed securities being releasable every 6 months thereafter. In the case of a Resulting Issuer that will be a Tier 1 issuer when the Final Exchange Bulletin is issued, the Surplus Security Escrow Agreement provides for a three year escrow release mechanism with 10% of the escrowed securities being releasable upon the issuance of the Final Exchange Bulletin, 20% on the date which is 6 months after the Final Exchange Bulletin, 30% on the date which is 12 months after the Final Exchange Bulletin and 40% on the date which is 18 months after the Final Exchange Bulletin.

Escrowed Securities on Private Placement

Securities issued pursuant to a private placement to Principals of the Corporation and the proposed Resulting Issuer will generally be exempt from escrow requirements where:

- (a) the private placement is announced at least five trading days after the news release announcing the Agreement in Principle and the pricing for the financing is at not less than the discounted market price, as determined in accordance with the Policies of the Exchange; or
- (b) the private placement is announced concurrently with the Agreement in Principle and
 - (i) at least 75% of the proceeds from the private placement are not from Principals of the Corporation or the proposed Resulting Issuer,
 - (ii) if subscribers, other than Principals of the Corporation or the proposed Resulting Issuer, will obtain securities subject to hold periods, then in addition to any resale restrictions under applicable securities legislation, any securities issued to such Principals will be subject to a four month hold period, and
 - (iii) none of the proceeds of the private placement are allocated to pay compensation or to settle indebtedness owing to Principals of the Resulting Issuer.

DILUTION

Purchasers of Common Shares under this Prospectus will suffer an immediate dilution of approximately 25% or \$0.025 per Common Share on the basis of there being 6,000,000 Common Shares of the Corporation issued and outstanding following completion of this Offering. Dilution has been computed on the basis of total gross proceeds raised by this Prospectus and from sales of securities prior to filing this Prospectus, without deduction of commissions or related expenses incurred by the Corporation.

RISK FACTORS

Investment in the Common Shares must be regarded as highly speculative due to the proposed nature of the Corporation’s business and its present stage of development. The following are risk factors associated with the Corporation:

- (a) the Corporation was only recently incorporated, has not commenced commercial operations and has no assets other than cash. It has no history of earnings, and shall not generate earnings or pay dividends until at least after Completion of the Qualifying Transaction;
- (b) investment in the Common Shares offered by this Prospectus is highly speculative given the proposed nature of the Corporation’s business and present stage of development;
- (c) the directors and officers of the Corporation will only devote a portion of their time to the business and affairs of the Corporation and some of them are or will be engaged in other projects or businesses such that conflicts of interest may arise from time to time;
- (d) assuming completion of the Offering, an investor will suffer an immediate dilution to its investment of 25% or \$0.025 per Common Share;
- (e) there can be no assurance that an active and liquid market for the Corporation’s Common Shares will develop and an investor may find it difficult to resell its Common Shares;
- (f) until Completion of a Qualifying Transaction, the Corporation is not permitted to carry on any business other than the identification and evaluation of potential Qualifying Transactions;
- (g) the Corporation has only limited funds with which to identify and evaluate potential Qualifying Transactions and there can be no assurance that the Corporation will be able to identify a suitable Qualifying Transaction;
- (h) even if a proposed Qualifying Transaction is identified, there can be no assurance that the Corporation will be able to successfully complete the transaction;

- (i) Completion of a Qualifying Transaction is subject to a number of conditions including acceptance by the Exchange and, in the case of a Non Arm's Length Qualifying Transaction, Majority of the Minority Approval;
- (j) unless the shareholder has the right to dissent and be paid fair value in accordance with applicable corporate or other law, a shareholder who votes against a proposed Non Arm's Length Qualifying Transaction for which Majority of the Minority Approval by shareholders has been given, will have no rights of dissent and no entitlement to payment by the Corporation of fair value for the Common Shares;
- (k) upon public announcement of a proposed Qualifying Transaction, trading in the Common Shares of the Corporation will be halted and will remain halted for an indefinite period of time, typically until a Sponsor has been retained and certain preliminary reviews have been conducted. The Common Shares of the Corporation will be reinstated to trading before the Exchange has reviewed the transaction and before the Sponsor has completed its full review. Reinstatement to trading provides no assurance with respect to the merits of the transaction or the likelihood of the Corporation completing the proposed Qualifying Transaction;
- (l) trading in the Common Shares of the Corporation may be halted at other times for other reasons, including for failure by the Corporation to submit documents to the Exchange in the time periods required;
- (m) the Exchange will generally suspend trading in the Corporation's Common Shares or delist the Corporation in the event that the Exchange has not issued a Final Exchange Bulletin within 24 months from the date of listing;
- (n) neither the Exchange nor any securities regulatory authority passes upon the merits of the proposed Qualifying Transaction;
- (o) in the event that management of the Corporation resides outside of Canada or the Corporation identifies a foreign business as a proposed Qualifying Transaction, investors may find it difficult or impossible to effect service or notice to commence legal proceedings upon any management resident outside of Canada or upon the foreign business and may find it difficult or impossible to enforce against such persons, judgments obtained in Canadian courts;
- (p) the Qualifying Transaction may be financed in whole or in part by the issuance of additional securities by the Corporation and this may result in further dilution to the investor, which dilution may be significant and which may also result in a change of control of the Corporation; and
- (q) subject to prior acceptance by the Exchange, the Corporation may be permitted to loan or advance up to an aggregate of \$250,000 of its proceeds to a target business without requiring shareholder approval and there can be no assurance that the Corporation will be able to recover that loan.

As a result of these factors, this Offering is only suitable to investors who are willing to rely solely on management of the Corporation and who can afford to lose their entire investment. Those investors who are not prepared to do so should not invest in the Common Shares.

It is not contemplated that any dividends will be paid in the immediate or foreseeable future.

ELIGIBILITY FOR INVESTMENT

In the opinion of Borden Ladner Gervais LLP, counsel to the Corporation, based on the current provisions of the *Income Tax Act* (Canada) (the “**Tax Act**”), the regulations thereunder in force as of the date hereof and all specific proposals to amend the Tax Act and the regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof, provided that the Common Shares are listed on a “designated stock exchange” for the purposes of the Tax Act (which currently includes the Exchange) or the Corporation is otherwise a “public corporation” for the purposes of the Tax Act, in each case at the time of Closing, the Common Shares issued pursuant to the Offering will be “qualified investments” for a trust governed by a registered retirement savings plan (“**RRSP**”), registered retirement income fund (“**RRIF**”), deferred profit sharing plan (“**DPSP**”), registered education savings plan (“**RESP**”), registered disability savings plan (“**RDSP**”) or a tax-free savings account (“**TFSA**”) (collectively, the “**Registered Plans**”).

The Common Shares are not currently listed on a “designated stock exchange” and the Corporation is not currently a “public corporation” for the purposes of the Tax Act. The Corporation has applied to list the Common Shares on the Exchange as of the day before the Closing, followed by an immediate halt in trading of the Common Shares in order to allow the Corporation to satisfy the conditions of the Exchange and to have the Common Shares listed and posted for trading prior to the issuance of the Common Shares on Closing. The Corporation must rely on the Exchange to list the Common Shares on the Exchange and have them posted for trading prior to the issuance of the Common Shares on Closing, and to otherwise proceed in such manner as may be required to result in the Common Shares being listed on the Exchange at the time of their issuance on Closing. If the Common Shares are not listed on the Exchange at the time of their issuance on Closing and the Corporation is not a “public corporation” for the purposes of the Tax Act on Closing, the Common Shares will not be qualified investments for the Registered Plans at that time.

Notwithstanding that a Common Share may be a qualified investment for a RRSP, RRIF, RESP, RDSP or TFSA, the holder of a TFSA or RDSP, the subscriber of an RESP or the annuitant under an RRSP or RRIF will be subject to a penalty tax in respect of Common Shares held in such TFSA, RDSP, RESP, RRSP or RRIF if such Common Shares are a “prohibited investment” for the TFSA, RDSP, RESP, RRSP or RRIF. Generally, the Common Shares will be considered to be a “prohibited investment” if the holder of a TFSA or RDSP, the subscriber of an RESP or the annuitant of an RRSP or RRIF, as the case may be: (i) does not deal at arm’s length with the Corporation for the purposes of the Tax Act; or (ii) has a “significant interest” (as defined in subsection 207.01(4) of the Tax Act) in the Corporation. A “significant interest” generally includes, but is not limited to, the ownership of 10% or more of any class of issued shares of a corporation. In addition, the Common Shares generally will not be a “prohibited investment” if the Common Shares are “excluded property” (as defined in subsection 207.01(1) of the Tax Act). **Prospective purchasers who intend to hold Common Shares in their RRSP, RRIF, RESP, RDSP or TFSA should consult their own tax advisors having regard to their own particular circumstances.**

PURCHASERS’ STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in the Provinces of Alberta, British Columbia, Saskatchewan, and Manitoba provide purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two (2) business days after receipt or deemed receipt of a prospectus and any amendment. The securities legislation further provides a purchaser with remedies for rescission, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for the particulars of these rights or consult with a legal adviser.

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Notes to the Financial Statements

For the period from March 6, 2018 (date of incorporation) to December 14, 2018

1. Incorporation and operations

Shine Box Capital Corp. (the "Company") was incorporated on March 6, 2018 by Certificate of Incorporation issued pursuant to the provisions of the Business Corporations Act (Alberta). The Company is classified as a Capital Pool Company as defined in Policy 2.4 of the TSX Venture Exchange (the "Exchange"). The principal business of the Company is to identify and evaluate assets or businesses with a view to potentially acquire them or an interest therein by completing a purchase transaction, by exercising of an option or by any concomitant transaction. The purpose of such an acquisition is to satisfy the related conditions of a qualifying transaction under the Exchange rules.

The head office and registered office of the Company is located at 1900, 520 – 3rd Avenue SW, Calgary Alberta, T2P 0R3.

Where an acquisition or participation is warranted, additional funding may be required. The ability of the Company to fund its potential future operations and commitments is dependent upon the ability of the Company to obtain additional financing.

There is no assurance that the Company will identify a business or asset that warrants acquisition or participation within the time limitations permissible under the policies of the Exchange, at which time the Exchange may suspend or de-list the Company's shares from trading.

2. Basis of preparation

Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC") in effect for the fiscal period beginning March 6, 2018.

These financial statements were authorized for issue in accordance with a resolution of the directors on March 5, 2019.

Basis of measurement

These financial statements are stated in Canadian dollars which is the Company's functional currency and were prepared on a going concern basis, under the historical cost convention.

Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. Areas where estimates are significant to the financial statements are disclosed in Note 4.

3. Significant accounting policies

Cash

Cash consists of the proceeds generated from share subscription receipts, which is being held in trust by legal counsel for the Company.

Deferred financing costs

Financing costs related to the Company's proposed financing are recorded as deferred financing costs. These costs will be deferred until the financing is completed, at which time the costs will be charged against the proceeds received. If the financing does not close, the costs will be charged to operations.

Shine Box Capital Corp.

Notes to the Financial Statements

For the period from March 6, 2018 (date of incorporation) to December 14, 2018

3. Significant accounting policies (continued)

Share-based payments

The Company applies a fair value based method of accounting to all share-based payments. Employee and director stock options are measured at their fair value of each tranche on the grant date and recognized over its respective vesting period. Non-employee stock options are measured based on the service provided to the reporting date and at their then-current fair values. The cost of stock options is presented as share-based payment expense when applicable with a corresponding credit to contributed surplus. On the exercise of stock options share capital is credited for consideration received and for fair value amounts previously credited to contributed surplus. The Company uses the Black-Scholes option pricing model to estimate the fair value of share-based payments.

Taxes

Tax expense comprises current and deferred tax. Tax is recognized in the statement of loss and comprehensive loss except to the extent it relates to items recognized in other comprehensive income or directly in equity.

Current tax

Current tax expense is based on the results for the year as adjusted for items that are not taxable or not deductible. Current tax is calculated using tax rates and laws that were enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. Provisions are established where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred taxes are the taxes expected to be payable or recoverable on differences between the carrying amounts of assets in the statement of financial position and their corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences between the carrying amounts of assets and their corresponding tax bases. Deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets in a transaction that affects neither the taxable profit nor the accounting profit.

Non-derivative financial instruments

Non-derivative financial instruments are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Non-derivative financial instruments are recognized initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs.

Subsequent to initial recognition, non-derivative financial instruments are measured as described below:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. Loans and receivables are initially recognized at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method.

Financial assets at fair value through profit or loss

An instrument is measured at fair value through profit or loss if it is held-for-trading or is designated as such upon initial recognition. Financial instruments are designated at fair value through profit or loss if the Company manages such investments and makes purchase and sale decisions based on their fair value in accordance the Company's documented risk management or investment strategy. Upon initial recognition, attributable transaction costs are recognized in profit or loss when incurred. Financial instruments at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Cash is included in this category.

Shine Box Capital Corp.

Notes to the Financial Statements

For the period from March 6, 2018 (date of incorporation) to December 14, 2018

3. Significant accounting policies (continued)

Other financial liabilities

Other financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis. Accounts payable and accruals are included in this category.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Impairment of financial assets

Financial assets are assessed at each reporting date in order to determine whether objective evidence exists that the assets are impaired as a result of one or more events which have had a negative effect on the estimated future cash flows of the asset.

If there is objective evidence that a financial asset has become impaired, the amount of the impairment loss is calculated as the difference between its carrying amount and the present value of the estimated future cash flows from the asset discounted at its original effective interest rate. Impairment losses are recorded in income. If the amount of the impairment loss decreases in a subsequent period and the decrease can be objectively related to an event occurring after the impairment was recognized, the impairment loss is reversed up to the original carrying value of the asset. Any reversal is recognized in income.

Changes in significant accounting policies

IFRS 9 Financial Instruments:

IFRS 9 addresses classification and measurement of financial assets and replaces the multiple category and measurement models for debt instruments in IAS 39 – Financial Instruments – Recognition and Measurement (IAS 39) with a new measurement model having only two categories: amortized cost and fair value through profit or loss. IFRS 9 also replaces the models for measuring equity instruments and related dividends which will now limit recognition to fair value through profit or loss or at fair value through other comprehensive income.

Requirements for financial liabilities were also added in October 2010 but they largely carried forward existing requirements in IAS 39, except that fair value changes due to credit risk for liabilities designated at fair value through profit and loss would generally be recorded in other comprehensive income.

The standard is required to be applied for years beginning on, or after, January 1, 2018. The Company has adopted this standard and concluded that there is no impact on the financial statements.

Shine Box Capital Corp.

Notes to the Financial Statements

For the period from March 6, 2018 (date of incorporation) to December 14, 2018

3. Significant accounting policies (continued)

Recently issued accounting standards not yet applied

In January 2016, the IASB issued IFRS 16 Leases, which requires lessees to recognize all leases on the statement of Financial Position. IFRS 16 is effective for annual periods beginning on or after January 1, 2019 with earlier application permitted for companies that also applies IFRS 15 Revenue from Contracts with Customers.

The Company is currently evaluating the impact of the above standard on its financial statements.

4. Significant accounting estimates and assumptions

The preparation of the financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes can differ from these estimates.

Estimates

The key sources of estimation uncertainty that have a significant risk of causing material adjustment to the amounts recognized in the financial statements are:

Fair value of financial instruments

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

Taxes

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

Judgements

The key areas of judgment that have a significant risk of causing material adjustment to the amounts recognized in the financial statements are:

Taxes

The Company recognizes deferred tax assets to the extent that it is probable that future taxable profits will be available to utilize the Company's deductible temporary differences which are based on management's judgement on the degree of future taxable profits. To the extent that future taxable profits differ significantly from the estimates impacts the amount of the deferred tax assets management judges is probable.

Financial instruments

The Company is required to classify its various financial instruments into certain categories for the financial instruments' initial and subsequent measurement. This classification is based on management's judgement as to the purpose of the financial instrument and to which category is most applicable.

Stock options

The Company records share-based payments based on management's judgement of the expected exercise date of options which is impacted by the timing of completion of the qualifying transaction.

Shine Box Capital Corp.

Notes to the Financial Statements

For the period from March 6, 2018 (date of incorporation) to December 14, 2018

5. Cash

The proceeds raised from the issuance of share capital may only be used to identify and evaluate assets or businesses for future investment, with the exception that not more than the lesser of 30% of the gross proceeds and \$210,000 may be used to cover prescribed costs of issuing the common shares or administrative and general expenses of the Company. These restrictions may apply until completion of a Qualifying Transaction by the Company as defined under the policies of the Exchange.

6. Deferred financing costs

9. Capital disclosures

The Company's capital consists of share capital. The Company's objective for managing capital is to maintain sufficient capital to identify, evaluate and complete an acquisition or other transaction as disclosed in Note 1.

The Company sets the amount of capital in relation to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets.

The Company's objectives when managing capital are:

- to maintain a flexible capital structure, which optimizes the cost of capital at acceptable risk; and,
- to maintain investor, creditor and market confidence in order to sustain the future development of the business.

The Company is not subject to any externally or internally imposed capital requirements at year end.

10. Financial instruments

The Company, as part of its operations, carries financial instruments consisting of cash and accounts payable and accruals. It is management's opinion that the Company is not exposed to significant credit, interest, or currency risks arising from these financial instruments except as otherwise disclosed.

Fair value

Fair value represents the price at which a financial instrument could be exchanged in an orderly market, in an arm's length transaction between knowledgeable and willing parties who are under no compulsion to act. The Company classifies the fair value of the financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument.

Level 1: Fair value measurements are those derived from quoted prices (unadjusted) in the active market for identical assets or liabilities.

Level 2: Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices).

Level 3: Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data.

The fair value of cash is determined on level 1 inputs. The carrying amount of cash and account payable and accruals approximates its fair value due to the short-term maturities of these items.

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. The Company believes it has no significant credit risk.

Shine Box Capital Corp.
